Special recognition to the Community Investment Plan Review Team, the Budget Advisory Board, staff members in the City Manager's Office, Finance, Information Technology Services, Print Shop, and the many other staff members throughout each department for their invaluable efforts and assistance during the budget development process and in the preparation of this document.

#### Reader's Guide

We've made every effort to make this book as easy as possible to read, but we understand how difficult it can be to find what you're looking for in such a complex document. To make your search easier, there is a Table of Contents and an alphabetical listing of all capital projects on the following pages.

The FY 2018 - FY 2022 Adopted Community Investment Plan (CIP) consists of six (6) major sections: Introduction and Overview, FY 2018 - FY 2022 Community Investment Plan, Capital Project Applications by Funding Source, Adaptation Action Areas, Connecting the Blocks, and Glossary and Acronyms.

Introduction and Overview - This section introduces the Community Investment Plan and provides a general overview of the program. It also provides a CIP calendar, which guides you through each phase of the Community Investment Plan development through adoption. This section also presents the anticipated operating costs of the capital projects to be funded in Fiscal Year 2018.

FY 2018 – FY 2022 Community Investment Plan - This section provides a financial schedule of each capital project included in the FY 2018 – FY 2022 Adopted Community Investment Plan by fund and by fiscal year.

Capital Project Applications - This section includes individual project applications with a detailed description of each capital project included in the Adopted FY 2018 - FY 2022 Community Investment Plan. Projects that are unfunded are also included. This section is organized by funding source (blue tabs). The capital project application field explanations are provided on the next page.

Adaptation Action Areas – This section introduces the Adaptation Action Areas (AAA) and projects. This plan is a designation in the coastal management element of a local government's comprehensive plan which identifies one or more areas that experience coastal flooding due to extreme high tides and storm surge. The enabling legislation, the designation process, and the alignment to the City's

adopted plans are outlined in this section.

Connecting the Blocks – This section includes a detailed list of pedestrian, bicycle and transit infrastructure improvements needed to meet the intent of the Complete Streets Policy adopted by the City Commission. It is a long range plan covering FY 2015 – FY 2035.

**Glossary and Acronyms** - This section contains definitions of commonly used terms and acronyms.

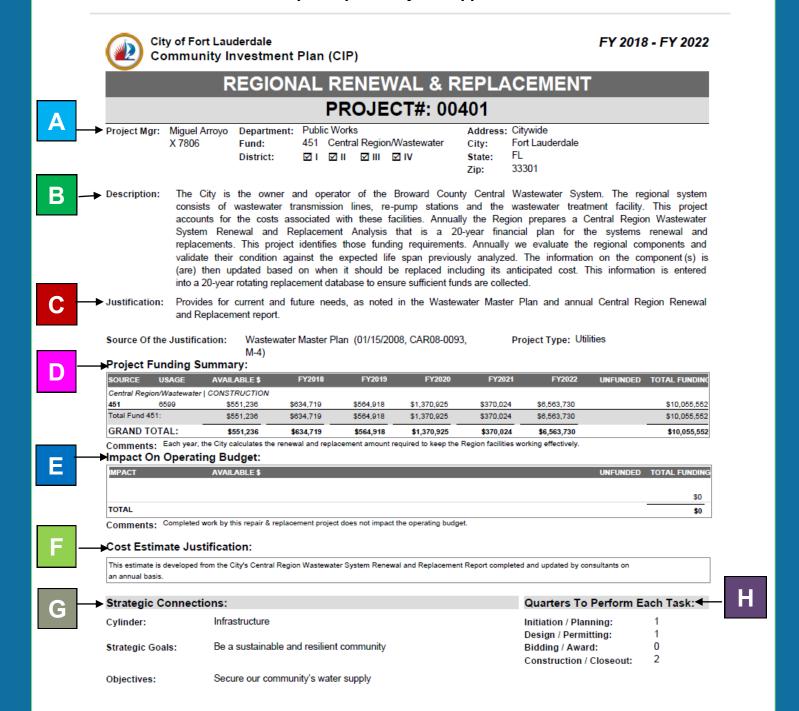

Check us out Online! To access the FY 2018 — FY 2022 Adopted CIP or past CIPs, go to www.fortlauderdale.gov or scan the QR code below.

## **Capital Project Application — Field Explanations**

#### Sample Capital Projects Application

- A. The project manager assigned to this project; department, primary fund, Commission district, and project address/proxy.
- B. Specific description of the project scope.
- C. Justifies the need for the project and why it is being done as well as the City master plan/study the project is associated with.
- D. Proposed or anticipated funding requests for the five year plan in the expected year.
- E. The annual cost and/or savings to the annual operating budget as a result of completing/putting project in service.
- F. Include detail information regarding how project estimates were prepared.
- G. The primary Cylinder of Excellence that supports the purpose for establishing this project.
- H. The quarters estimated to complete each phase of the project.

#### October 1, 2017

Honorable Mayor and Members of the City Commission:

In accordance with the City of Fort Lauderdale Charter, the Code of Ordinances, and the laws of the State of Florida, it is my pleasure to present the City of Fort Lauderdale's Adopted Budget for Fiscal Year (FY) 2018 beginning October 1, 2017. A copy of the adopted budget is available for inspection in the City Clerk's Office. Additionally, a userfriendly electronic copy of the adopted budget can be found on the City's website, www.fortlauderdale.gov/budget.

#### **Budget Overview**

The FY 2018 total adopted operating budget for all funds is \$770,353,226 including balances and transfers. This is approximately \$21.0 million more than the FY 2017 Amended Budget of \$749,269,416 or a 2.8% increase. The increase is primarily due to one-time capital infrastructure projects included in the FY 2018 Adopted Budget which include \$8.8 million for City seawalls, \$3 million to fund a new Emergency Medical Services (Rescue Unit) Station and \$1.2 million for the General Fund's contribution towards the Aquatics Complex renovation.

The FY 2018 Adopted Budget allows the City to fund its commitments including a \$2 million increase in the City's required contribution to the Police and Fire Pension Fund, and a \$1.2 million increase to the General Employees' Retirement System due to State-mandated changes to the mortality tables; a \$2.8 million required payment to Broward County for beach nourishment; \$2.2 million for wage increases; \$2.4 million for employee health insurance costs; \$1.5 million for increased Police overtime; \$1.1 million for the City's match to leverage funding opportunities through grants; \$500,000 towards the renovation of the Parker Playhouse; and, an increased transfer of \$700,000 to the Community Redevelopment Agency (CRA) due to increased taxable values within the CRA area boundaries.

In addition to addressing the funding commitments outlined above, the adopted budget will allow for strategic new positions, infrastructure investment, and enhanced programming aligned with the priorities enumerated in the City's Vision, Strategic Plan, Neighbor Survey, and Commission Annual Action Plan. For example, I am recommending \$1.4 million for a nighttime economy team to support the high quality of life our neighbors enjoy at all hours of the day; \$1.4 million for new, centralized roadway maintenance and repair crew and an increase in funding of approximately \$500,000 or 70% for the City's road resurfacing capital investments to proactively address the maintenance of City streets. In addition, the FY 2018 Adopted Budget includes significant increases to address facility maintenance needs that were deferred during leaner years by increasing the capital commitment for priority projects such as Roof, and Heating, Ventilation and Air-conditioning replacements by 100% to \$2 million annually and adding an additional \$500,000 annually for operational maintenance needs for repairs less than \$50,000.

FY 2018 Adopted Budget October 1, 2017 Page 2 of 23

The Budget Advisory Board shared its sentiments with you at your joint meeting on June 29<sup>th</sup>, "We believe that it is imperative that the City invest in the technological infrastructure that will better support public safety, streamline operations, improve service and response times for our citizens, improve efficiencies through automation, and allow the City to operate at an optimal and cost-effective level." To this end, I'm recommending over \$1 million in new technology improvements in the FY 2018 budget to continue to modernize City services. Public safety enhancements are also prioritized, including funding for 20 new positions, additional overtime, and resources necessary to implement a body worn camera program for the Police Department.

The FY 2018 Adopted General Fund Operating Budget, including balances and transfers, is \$362,924,925. This budget maintains our current low millage rate of 4.1193 for the eleventh consecutive year and produces a structurally balanced budget for the fifth straight year. It also maintains the Fire Assessment Fee at the current annual rate of \$256 per single-family residential dwelling. The General Fund budget represents an increase of 8.3% from the FY 2017 Amended Budget of \$335,069,781. It maximizes available resources to build, enhance, and sustain the future of our great City.

Our Fort Lauderdale community is a source of much pride and dignity. We continue to achieve successes that sustain our City as, "The City You Never Want To Leave!" A heightened sense of optimism and excitement permeates Fort Lauderdale as economic indicators confirm the City's sound fiscal management, progressive economic development initiatives, and long-term investment strategies are paying off. Over the past year, taxable property values increased by 9.25%, with new construction valued at \$341 million, area tourism is estimated at 16 million visitors annually, and we are experiencing a continued low crime rate. In addition, Fort Lauderdale's unemployment rate is 3.3%, which is the lowest in over seven years and significantly lower than the 4.5% rate of the State. Working together, we have built a better, stronger organization and a more vibrant community.

This success does not happen by chance – it is the direct result of innovation, strategic planning, hard work, and continuous process improvement. We have been diligent in our pursuit of excellence, which was evidenced by Standard and Poor's (S&P) assignment of its AA+ rating to the City's most recent 2016 water and sewer system revenue and revenue refunding bonds. At the same time, S&P affirmed its AA+ rating on the system's outstanding revenue-secured bonds. In its evaluation, S&P noted "Very strong liquidity and reserve position..." and "Very strong financial management assessment." High bond ratings enable the City to borrow and repay money at a much lower interest rate which translates into millions of dollars in savings for taxpayers. Our fiscal discipline and vigilance have been instrumental in building a strong financial foundation and positioning Fort Lauderdale for a bright future.

These successes also bring new challenges and higher expectations. As the urban hub of the tricounty area, the City of Fort Lauderdale serves a huge influx of commuting workers, tourists and business travelers. In addition to approximately 179,000 neighbors, the City provides police, fire-rescue, water, sanitation and other municipal services to a daytime population of 360,000, more than double our size. As our neighbors invest money into new commercial and residential buildings in the downtown core and along our beach, we must ensure that our infrastructure and service levels fulfil expectations.

FY 2018 Adopted Budget October 1, 2017 Page 3 of 23

Planning for a promising future began with the engagement of our neighbors to develop a long-term vision of what we want our community to be in 30 years. With this vision in mind, the City Commission adopted our Strategic Plan, "Press Play Fort Lauderdale," to create a blueprint for the actions needed over the next five years to make our Vision a reality. These forward-looking plans have guided the City Commission's Annual Action Plan and have allowed staff to effectively prioritize projects each year. We have carefully crafted and focused our budget development to ensure that the City provides the outstanding services and community investment our neighbors deserve in the most effective and efficient manner possible.

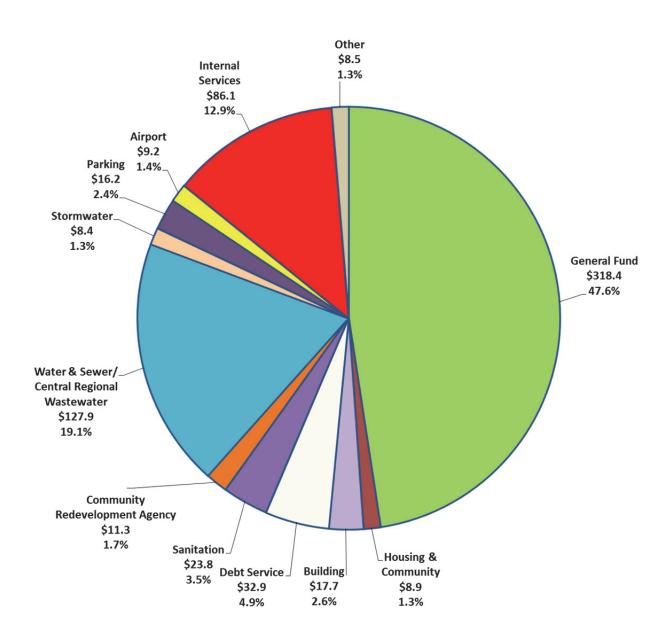

#### **Budget Development Process**

The City's Adopted Budget is the product of a strategic budgeting process involving numerous individuals and groups working together as a team to create a cohesive plan to achieve the City's long-term goals and objectives for the next fiscal year. The Adopted Budget is more than a collection of spreadsheets detailing the City's revenues and expenditures. Neighbor and community leader engagement was integral to identifying opportunities and solutions to community challenges. Engagement with neighbors and community leaders occurred through various efforts including the Annual Neighbor Survey and the Commission's Annual Action Plan priority setting session.

In order to maintain service levels and to propose service enhancements, Community Builders in each department used their best professional judgment and community input to analyze the trends and market forces impacting revenues and expenses to establish funding proposals. The Revenue Estimating Conference Committee met in the spring to review revenue trends to make recommendations regarding General Fund revenue estimates. The dedicated members of our Budget Advisory Board (BAB) meet year-round to provide the City Commission with input regarding the neighbor's perspective for various budget related issues. Each department presented their budget and Community Investment Plan requests to the BAB to allow them to make recommendations to management and the City Commission concerning how funds should be prioritized for the upcoming fiscal year.

The collaboration of these diverse community stakeholders, along with the professional expertise of our Community Builders, ensures the Adopted Budget efficiently addresses the most pressing challenges faced by our community and continues to recognize our core mission, "We Build Community." The City regularly responds in a myriad of ways to ever-changing challenges faced by our community. The organization's effectiveness, flexibility and resiliency are testaments to the City Commission's vision and leadership. It is with a commitment to our neighbors, our businesses, our Community Builders, and the City's future that we will strive to do the very best we can with the resources and tools available to us. This Adopted Budget demonstrates the City's highest priorities to ensure that we live, work, and play in the best city possible, while remaining financially responsible.

# FY 2018 Adopted Operating Budget without Transfers - \$669.3 (All Funds - In Millions)

#### **Annual Neighbor Survey Results**

In December 2012, the City of Fort Lauderdale conducted its first Annual Neighbor Survey to measure service performance; to benchmark service quality ratings; to assess community needs; to make long-range, short-term, or strategic plans; to demonstrate the receptivity of our government; to evaluate potential policies or community characteristics; and to use as a tool for evaluating our performance. We recently completed the fourth Annual Neighbor Survey, in December 2016.

In order to help to identify priorities, the Annual Neighbor Survey contains an analysis that examines the importance that neighbors placed on each City service and the level of satisfaction with each

FY 2018 Adopted Budget October 1, 2017 Page 5 of 23

service. By identifying services of high importance and low satisfaction, we can identify the actions that will have the most impact on overall satisfaction with City services. Based on this, the top three areas of recommended focus for the City from the survey include: 1) the overall flow of traffic; 2) the overall maintenance of streets, sidewalks and infrastructure; and 3) preparing for the future of the City.

The annual Neighbor Survey results are an important step in our Strategic Planning and Budgeting Cycle by informing the foundation for a strategic budget that reflects neighbor priorities. It typically takes an extended period of time to address the concerns and perceptions identified in surveys. Often, the issues are multifaceted and require significant resources and time to complete associated initiatives. Areas identified for improvement in the 2016 survey have been prioritized by the City Commission for focused resources and progress has been made in many of these areas already. To highlight our efforts, the City produces a quarterly progress report to transparently share accomplishments and challenges related to its initiatives and performance indicators in the Strategic Plan.

#### How the Adopted Budget Implements the City's Strategic Plan

The annual operating budget is our opportunity to prioritize City resources. Funding is allocated in alignment with the Vision, Strategic Plan, and Commission Annual Action Plan. While we may not be able to fund all priorities in the upcoming fiscal year, we can make strategic investments in our future. Leveraging community partnerships and seizing grant opportunities will help to stretch our dollars and maximize results. The budget process also integrates the strategic alignment of departments. Each department identifies major initiatives and performance targets; helping decision makers allocate resources for specific service level results. The five-year Community Investment Plan (CIP) includes ongoing projects, new projects, and projects in progress that require additional funding. The CIP also includes a plan for future projects based on expected revenues, bond issuance, and other financing mechanisms. CIP projects are carefully assessed and prioritized by objective criteria and weighting established by the City Commission to ensure the most pressing needs of the community are addressed. Additionally, CIP projects support the Cylinders of Excellence and the 2035 Community Vision.

#### City of Fort Lauderdale Vision Statements

The City Commission adopted the City's Strategic plan in September 2013. This year was our fifth budget process that allowed staff to look to the Strategic Plan for priorities and guidance. The Cylinders of Excellence are integrated into daily operations and are now the focus of the City. In an effort to emphasize the importance of this focus, I am presenting approved operating budget enhancements and community investment plan projects based upon their alignment with the six Cylinders of Excellence of the Strategic Plan.

#### WE ARE CONNECTED.

We move seamlessly and easily through a safe transportation system where the pedestrian is first.

#### WE ARE HERE.

We are an urban center and a vacationland in the heart of South Florida.

WE ARE READY.

We are a resilient and safe coastal community.

#### WE ARE PROSPEROUS.

We are a subtropical City, an urban laboratory for education and business.

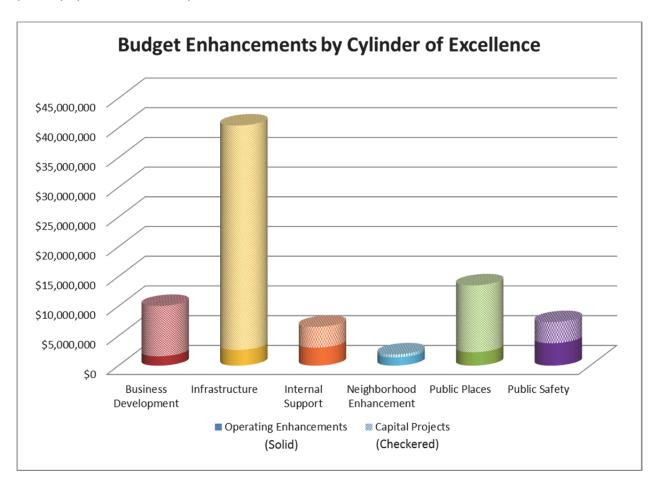

WE ARE COMMUNITY.

We are a neighborhood of neighborhoods.

#### WE ARE UNITED.

We are a strong and vibrant kaleidoscope of multi-generational cultures, ethnicities, and community partners. The FY 2018 adopted operating budget and community investment plan includes over \$79.8 million in funding enhancements and new or reprioritized projects, including 62 new positions that are presented by Cylinder of Excellence. Each project and funding enhancement recommendation was made in an effort to enhance the City's capacity to meet the needs of the Community in each Cylinder. Many projects and enhancements have co-benefits to other cylinders in addition to the primary cylinder where they are listed.

#### **BUSINESS DEVELOPMENT**

Fort Lauderdale is home to a thriving local economy, tourism industry, and boating and marine industry, attracting regional and global markets. It is the coastal epicenter of South Florida connecting Miami-Dade to Palm Beach and west Broward to Port Everglades and Fort Lauderdale-Hollywood International Airport. Strategic alliances with businesses, associations, and schools contribute to local talent supply. Investments in transportation and mobility, infrastructure, public places, education, and public safety have exponential impacts on businesses and economic development.

In support of the Business Development Cylinder of Excellence, the FY 2018 CIP includes \$8.5 million in new funding for capital projects. The operating budget includes \$1.6 million in enhancements. The CIP and operating budget enhancements for this cylinder include:

- Automated vehicle gate operators, access control improvements, and runway improvements for Fort Lauderdale Executive Airport (FXE) \$1 million
- ➤ Business development and incentive program for the Central City Area of the Community Redevelopment Agency \$100,000
- Consulting services for Uptown Urban Village and South Andrews Regional Activity Center areas
   \$50,000
- ➤ Emergency Alert System, Lightning Detection System, and software upgrades for FXE \$375,000
- > FXE taxiway improvements, aviation service facility expansion, and drainage improvements \$5.5 million
- Land Asset Management System \$183,000
- ➤ Beach nourishment \$2.8 million

#### INFRASTRUCTURE

Infrastructure directly impacts our community every day. Quality infrastructure leads to neighborhood enhancement, active and safe public places, and business development. The country as a whole is facing a critical dilemma with aging infrastructure and shrinking government budgets. In many areas of America, the roads, drinking water and wastewater systems are simply out dated. This trend directly applies to Fort Lauderdale as one of the oldest cities in Broward County, and is exacerbated by an additional challenge - sea level rise. **Strategic community investments** are important now and for future generations. The City must also build a **sustainable and resilient infrastructure**. This means smart investments in our community infrastructure for long-term economic and environmental viability and quality of life. This includes maintaining and updating our roads, bridges, water, wastewater systems, and drainage systems that plan for sea level rise projections.

In support of the Infrastructure Cylinder of Excellence, the FY 2018 CIP includes \$37.8 million in new funding for capital projects. The operating budget includes \$2.6 million in enhancements, including 13 new positions. Highlights of the CIP and operating budget enhancements follows below:

- Establishment of a Roadway Maintenance and Repair Program \$1.5 million
  - Five Utility Service Workers
  - One Construction Manager
  - One Maintenance Chief
- ➤ Enhanced Safety and Traffic Calming implementation: pedestrian and bicycle counting devices, design and construction of traffic calming projects, and pilot of dynamic crash prediction software \$620,000
- Expansion of backflow compliance program \$72,000
  - Environmental Inspector
- > Traffic Volume and Flow Improvements \$450,000
  - Engineering Technician
  - o Two Planners
  - Planning Assistant
  - o Project Manager

FY 2018 Adopted Budget October 1, 2017 Page 9 of 23

- Structural and electrical improvements at City Park Garage and Park Administration Building -\$730,000
- ➤ Utility coordination with Florida Department of Transportation \$750,000
- Continued implementation of the Downtown Walkability Plan \$500,000
- Environmental and sustainability management system \$600,000
- Central Region Wastewater System Capital Projects \$9.4 million
- Riverland Road "Complete Streets" improvements \$750,000
- Seawall repairs, replacements, and restorations \$8.8 million
- Commercial Boulevard high-mast lighting system \$150,000
- > SE/SW 6<sup>th</sup> Street corridor safety improvements \$300,000
- Priority Water and Sewer Capital Projects \$11 million
- Stormwater infrastructure improvements \$2 million
- ➤ Road maintenance and resurfacing \$1.2 million
- ➤ Marine facilities maintenance \$600,000
- City Infrastructure \$500,000

### **NEIGHBORHOOD ENHANCEMENT**

Fort Lauderdale is a community of communities with more than 60 unique and charming neighborhoods, a beautiful beach and a vibrant business and entertainment center. It has both historic charm and modern urban amenities. The City of Fort Lauderdale is proud of its active and engaged community of neighbors and businesses, with 62 recognized civic and homeowners associations and 49 commission advisory boards. The City Commission relies heavily on their participation in the public policy process that enhances the quality of life for our communities. The work and services in this area are aligned to help our neighborhoods be healthy, strong and stable. With the goal of being an inclusive community made up of distinct, complementary and diverse neighborhoods, the City Commission is also committed to ensuring that no one neighborhood is left behind. This requires both effective code enforcement and investments in community aesthetics and features.

The FY 2018 CIP includes \$500,000 in new funding for the Neighborhood Enhancement Cylinder and the Business Community Investment program. The operating budget includes \$1.4 million in enhancements, including the addition of nine (9) positions. Highlights of the CIP and operating budget enhancements follows below:

- Expansion of Code Compliance and Vacation Rental Program \$350,000
  - o Three Clerk positions
  - One Service Clerk position
  - Two Administrative Aide positions
- Urban Design and Planning Division revenue intake staffing \$60,000
  - One Service Clerk
- > Six (6) Vehicles for Urban Design and Planning and Code Compliance Division \$200,000
- New Housing & Community Development Program Manager position \$128,000
- > Updates of City's citation ordinance and building and application fees \$60,000
- Construction Review Specialist for inspection of housing units \$70,000
- ➤ Neighborhood & Business Community Investment Program \$500,000

- Enhanced inspection and plans review services \$500,000
- Archeological consulting services \$40,000

Great cites worldwide have great **public places**, from a small passive parks, to grand open gathering forums, to pleasant pathways. Our public places **create** a **sense of place**, **reflective of our tropical**, **urban lifestyle**. This is where our community comes together to enjoy simple activities such as listening to music or shopping at a farmer's market, or to celebrate large-scale events. These places are where both public and private recreational programming can be held for all ages, and directly influence community health and activity levels. The City of Fort Lauderdale strives to be a City with **safe**, **clean**, **and interconnected** Public Places. This cylinder of excellence overlaps with Infrastructure by focusing on easy accessibility to parks and public places, through increasing connectivity through mass transit, greenways and blueways. The City also strives to leverage private developments to ensure thoughtful and positive benefits to the public realm.

The FY 2018 CIP includes \$11.3 million in new funding for parks and other public places. The operating budget includes \$2.3 million in enhancements, including the addition of 13 positions. Below is a summary of the CIP and operating budget enhancements for the Public Places Cylinder of Excellence:

- Creation of a Nighttime Economy program, including the addition of 11 positions, 9 vehicles, and related equipment \$1.4 million
  - One Assistant to the City Manager
  - One Police Lieutenant
  - One Parks Foreman
  - Three Police Officers
  - One Fire Inspector
  - One Senior Code Compliance Officer
  - One Public Safety Aide
  - Two Municipal Maintenance Workers
- Future Technology Coders Camp" program to expand access to computer science, particularly for underserved minorities and young girls \$50,000
- ➤ Construction audits for the Las Olas Boulevard Corridor Improvement Project and the Aquatic Center Renovation Project \$230,000
- Funding for "Light Up Sistrunk", "Panthers in the Park", and maintenance of Huizenga Plaza \$300,000
- Increased funding for Sun Trolley and Riverwalk Water Trolley \$130,000
- Mills Pond Park boat ramp replacement and restrooms \$600,000
- City-wide playground replacements \$600,000
- Aquatics complex renovations \$8.6 million
- Field conversion at Holiday Park \$800,000
- ➤ Public Wi-Fi access at City parks \$70,000
- ➤ Riverwalk park improvements \$200,000
- > Parker Playhouse renovation \$500,000
- Enhanced CRA branding \$150,000

One of the most important and essential roles of government is public safety. We must be a **safer city for all neighbors, including our daily commuters, visitors, and tourists.** The City is committed to **saving life and property** through rapid, effective, and specialized response. Spanning advanced medical programs, such as, fire and accident response, and ocean and fire rescue are a constant presence and service. The City must also be **well-prepared for and responsive to all hazards** to reduce the risk to neighbors and critical assets from hazards storms, flooding and fire. Moving forward, climate change concerns and risks must be integrated into emergency management planning.

The FY 2018 CIP includes \$3.5 million in new funding for public safety related capital projects. The operating budget includes \$3.8 million in enhancements, including the addition of 17 positions in support of the Public Safety Cylinder of Excellence. Highlights of the CIP and operating budget enhancements include:

- Update of specialized equipment for the Fire-Rescue Department \$260,000
- Enhanced employee wellness program for the Fire-Rescue Department \$400,000
- ➤ Enhancements to unit availability and response times for the Fire-Rescue Department, including the addition of 10 positions \$800,000
  - o 10 Firefighter/Paramedic positions
- ➤ Implementation of a body-worn camera program for the Police Department, including the addition of 3 positions \$180,000
  - Two Clerk positions
  - o One Administrative Assistant position
- > Creation of an Animal Care and Replacement program for the Police Department \$160,000
- Maximizing the Use of Sworn Police Officers by adding 4 non-sworn positions \$500,000
  - o One Administrative Assistant position
  - Two Police Aide positions
  - One Senior Technology Support Analyst
- Public Safety Radios and ancillary components for Police and Fire-Rescue \$1,260,000
- ➤ Enhanced training programs for the Police Department \$260,000
- Fire Alerting System Replacement \$500,000
- ➤ New Emergency Medical Station \$3 million
- Police marine patrol vessels \$700,000

#### INTERNAL SUPPORT

The City's mission is to build community. The Cylinders of Excellence are **how we build community**. None of this would be possible without the Internal Support platform to motivate and support our internal workforce community to deliver best-in-class municipal services. **An innovative, neighborcentric, and well-trained workforce** needs fundamental tools, such as phones, internet, facilities, and equipment. It also needs programs in place such as employee safety and wellness, training, strategic

FY 2018 Adopted Budget October 1, 2017 Page 12 of 23

performance management and process improvement; this is how we keep up with progressive communication and service delivery mechanisms desired by our neighbors. In order to be smarter, faster, and cheaper, we must **manage our resources wisely and sustainably** through sound fiscal management, integrating sustainability into daily operations and planning, and procurement of goods for the best value.

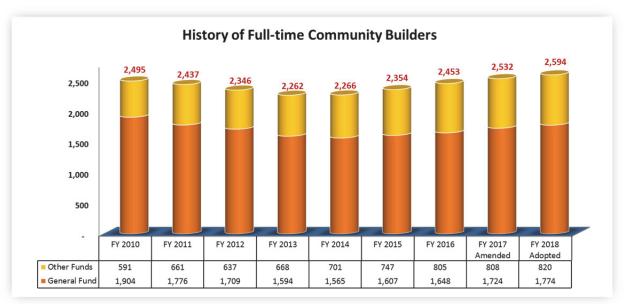

The FY 2018 CIP includes \$3.5 million in new funding for the Internal Support Cylinder of Excellence. The operating budget includes \$3 million in enhancements, including the addition of 10 positions. A summary of the CIP and operating budget enhancements follows below:

- Supervisory Senior Customer Service Representative for Finance Department to increase efficiency in Utility Billing and Collections Division \$60,000
- Security services for the Department of Sustainable Development facility \$160,000
- ➤ Improved Operational Communications Capabilities \$260,000
- New Assistant City Attorney position \$140,000
- Improvement of neighbor and staff safety through additional technology support staff, including addition of two positions \$200,000
  - One Technical Support Coordinator
  - One Communications Technician
- ➤ Enhanced data analytics and accounting management for the Fire-Rescue Department, including the addition of one position \$70,000
  - One Administrative Aide
- ➤ Increased efficiency in production of financial reports and accounting standards including the addition of one position \$100,000
- ➤ Mobile utility solution and additional Security Analyst for Information Technology Services \$300,000
  - One Information Technology Security Analyst
- ➤ Public Information Specialist dedicated to providing the public with updates on road projects, effective routes for travel, and promotion of safe behaviors \$90,000
- ➤ Automotive and Equipment Engineer for Sustainability Division to support improved asset management \$80,000
- Improving Information Technology (IT) support services for projects \$90,000
  - One Technology Strategist
- Renovations and improvements at the City's Central Fuel Station \$270,000
- Development of a new cloud solution intranet for collaboration \$350,000
- ➤ Enhanced Training for Structural Innovation Division staff \$60,000
- Replacement of Police Department IT equipment \$250,000
- War Memorial Auditorium Renovations, Phase II \$800,000
- Priority citywide facility repairs \$2.5 million
- > 7<sup>th</sup> Floor Renovations of City Hall \$400,000

The enhancements and position additions reflect the increased demands being placed on Community Builders and the high quality services desired by our neighbors. Attracting and retaining a talented and diverse workforce of Community Builders is essential to achieving the goals and vision we all have for our City. We must also ensure that our staffing levels are sufficient to achieve the plans that we have set forth. As presented above, I am recommending an increase in staffing to further the work of our Vision and Strategic Plan. These positions include: 13 positions needed to maintain and improve the City's Infrastructure, 9 positions for continued Neighborhood Enhancement, 13 positions for

neighbor programs and maintaining our beautiful **Public Places**, 17 positions to increase our **Public Safety** efforts, and 10 positions in **Internal Support** to ensure efficient delivery of services.

The net effect of the adopted position additions and changes adopted for FY 2018 is an increase to the position complement of 63.4 full-time equivalent positions or a 2.4% increase over last year's amended budget of 2,685.4 full-time equivalent positions. The total General Fund personnel complement for FY 2018 is adopted at 1,774 full-time employees, which does not include part-time and seasonal (temporary) employees. Seasonal positions supplement staffing for temporary periods such as summer camps or special events, but are not considered regular employees. The General Fund Adopted personnel complement of 1,774 remains lower than the FY 2010 level of 1,904 full-time employees, and include the addition of 25 police officers and 30 paramedic/firefighters since FY 2010.

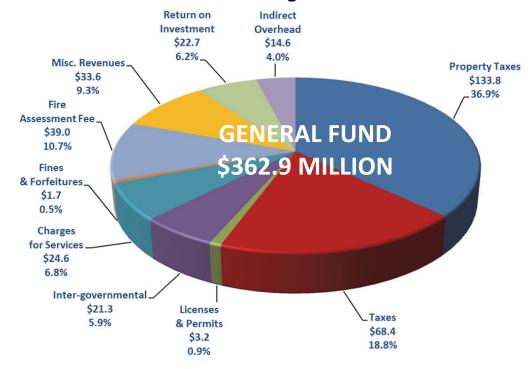

The Adopted Budget for personnel also includes required retirement contributions and debt service for the Pension Obligation Bonds. The General Employees Retirement System (GERS) plan was closed in 2009 and replaced with a defined contribution 401(a) plan for all new general employees. The history of pension contributions is shown in the table below.

	FY 2010 Actual	FY 2011 Actual	FY 2012 Actual	FY 2013 Actual	FY 2014 Actual	FY 2015 Actual	FY 2016 Actual	FY 2017 Amended	FY 2018 Adopted

Note: The City issued Pension Obligation Bonds in 2012

# Where the Money Comes From

# Where the Money Goes

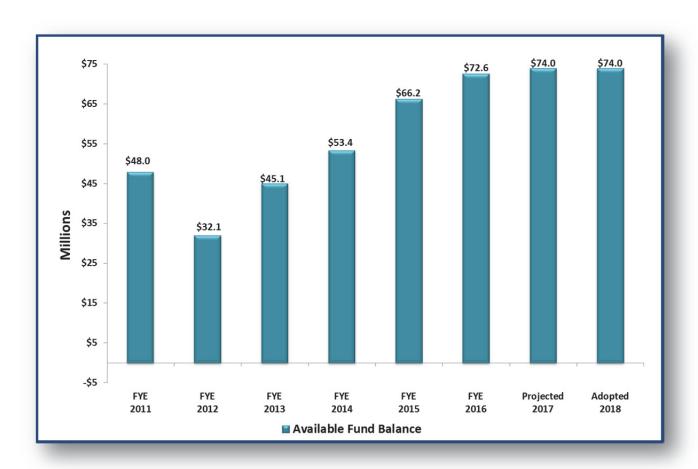

<sup>\*</sup>Other includes Charter Offices, Finance, Human Resources and Information Technology Services Departments.

#### **General Fund - Fund Balance**

The fund balance in the General Fund provides a measure of the financial resources available for future spending or appropriation. These funds should be adequate to support potential unanticipated costs, like natural disasters and emergency repairs to City infrastructure. The City Commission's fund balance policy requires a minimum available fund balance for the General Fund of two months or 16.7% of the General Fund Budget including necessary transfers. Since the policy is a percentage of the budget, as the budget increases, the required level of fund balance also increases. The FY 2018 estimated fund balance exceeds our policy requirement by \$20.0 million with a total available fund balance of \$74.0 million or 22.8% of the General Fund budget as shown in the following chart.

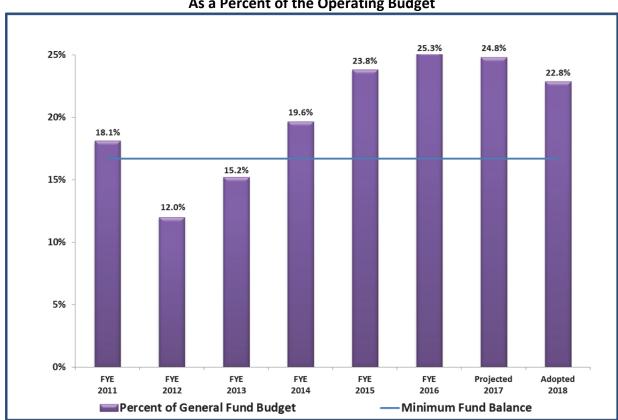

#### **General Fund – Fund Balance in Dollars**

Maintaining a healthy fund balance is an indicator of the fiscal health of the government. We continue to monitor and assess the fund balance to ensure that the level of available funds is commensurate with the level of risk associated with our diverse City and our revenue and expenditure variability.

#### **General Fund – Fund Balance**

As a Percent of the Operating Budget

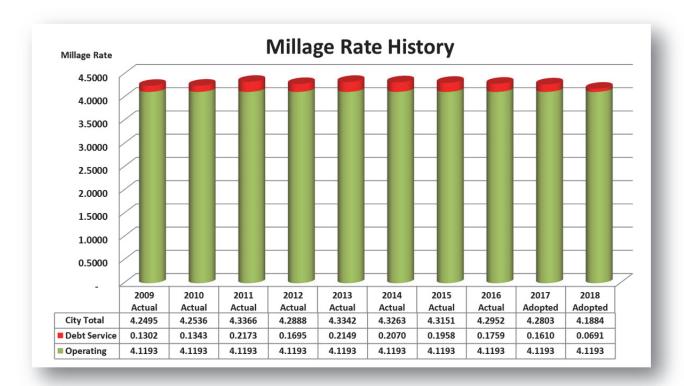

#### **Property Taxes**

The City of Fort Lauderdale's total taxable assessed valuation as of the July 1<sup>st</sup> estimate is \$33.8 billion, an increase of \$2.9 billion, or 9.25%, from the prior year final valuation. The net new construction assessed during the last year totaled \$341 million. This increase in the taxable value is expected to generate approximately \$10.6 million in additional revenue for the City of Fort Lauderdale in FY 2018. Revenue from ad valorem taxes is projected at \$133.8 million, which represents approximately 37% of the total General Fund revenue. The chart below presents the taxable values and net new construction for the last ten years.

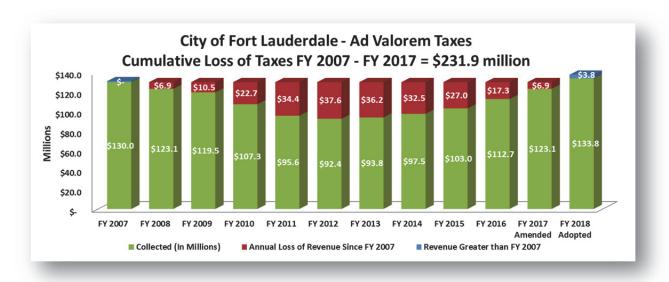

**Taxable Value & Millage Comparison** 

Calendar Tax Year	Net New Construction	Final Gross Taxable Value	Increase/Decrease from Prior Year	Operating Millage Rate
2017-July 1st	\$ 340,929,480	\$ 33,831,910,534	9.25%	4.1193
2016-Final	\$ 455,847,640	\$ 30,966,306,786	9.20%	4.1193
2015-Final	\$ 329,982,320	\$ 28,357,575,422	9.09%	4.1193
2014-Final	\$ 105,754,281	\$ 25,994,723,014	5.88%	4.1193
2013-Final	\$ 57,905,666	\$ 24,551,642,014	3.98%	4.1193
2012-Final	\$ 202,371,590	\$ 23,612,223,398	1.10%	4.1193
2011-Final	\$ 97,950,210	\$ 23,354,708,424	-4.26%	4.1193
2010 Final	\$ 494,110,613	\$ 24,393,809,310	-11.04%	4.1193
2009 Final	\$ 271,277,218	\$ 27,422,141,727	-9.73%	4.1193
2008 Final	\$ 625,354,578	\$ 30,378,384,604	-2.96%	4.1193

The FY 2018 Adopted Budget includes an operating millage rate of 4.1193 per \$1,000 of taxable value. The adopted aggregate millage rate (operating and debt service) is 4.1884, which represents a 2.2% decrease from the prior year rate of 4.2803. The debt service millage adjusts annually based on the property valuation and debt service requirement. In addition, the City made its final payment on the outstanding 2011B Series General Obligation Bond in FY 2017 resulting in a lower debt service payment for our neighbors for FY 2018.

As shown below, holding the City's millage rate steady at 4.1193, even when the City's taxable property values decreased, resulted in a loss of approximately \$232 million from 2007 to 2017. Property tax revenue has finally recovered in FY 2018 to the levels of over ten years ago.

#### **FY 2018 Funding Highlights**

#### **Water & Sewer Fund**

The City supplies water and sewer services on a regional basis for approximately 250,000 residents of central Broward County. Areas serviced by the City's water treatment and distribution system include Fort Lauderdale, Port Everglades, Sea Ranch Lakes, Lauderdale-by-the-Sea, Oakland Park, Wilton Manors, and portions of Davie, Tamarac, and unincorporated Broward County.

The FY 2018 Water & Sewer Fund adopted expenditures are \$119.8 million, which is \$2.1 million more than the FY 2017 Amended Budget. Based on the existing rate ordinance, a 5% rate increase for both water and sewer became effective October 1, 2017. The impact of the approved rate increase on a residential neighbor using 5,000 gallons of water per month amounts to a \$3.02 monthly increase, as illustrated below:

# Water and Sewer Charges Effect of Monthly Increase on Neighbors (Based on Average Usage of 5,000 gallons/month)

5/8 Inch Meter	Old Rate	Adopted Rate	opted Rate \$ Change	
Water Charge	\$22.46	\$23.59	\$1.13	5%
Sewer Charge	\$37.63	\$39.52	\$1.89	5%
Total	\$60.09	\$63.11	\$3.02	5%

#### **Central Regional Wastewater System Fund**

The Central Regional Wastewater System Fund adopted expenditures are \$28.1 million which is \$0.4 million more than the FY 2017 Amended Budget. The large customer wastewater rate will increase from \$1.88 to \$1.92 per 1,000 gallons.

#### **Sanitation Fund**

The Sanitation Fund supports a full complement of modern solid waste services by providing household garbage, recycling, yard waste, and bulk trash collection. The fund also supports household hazardous waste collection events, canal cleaning, lot cleaning and rights-of-way maintenance, public trash receptacles, and street sweeping services. The City's Clean Team is funded through the Sanitation Fund, working to preserve the unique beauty of our City streets and high-traffic areas. The Sanitation Fund adopted expenditures are \$23.8 million, which is \$2.2 million less than the FY 2017 Amended Budget.

FY 2018 adopted Sanitation revenues include an increase in the General Fund transfer to fully transfer all sanitation related franchise fees. Effective October 1, 2017, residential rates are recommended to increase by 3%. The impact of the approved rate increase on a neighbor is illustrated below:

#### **Effect of Increase on Base Monthly Sanitation Rates**

Fiscal	Current			
Year	Year	Adopted Rate	\$ Change	% Change
FY 2018	\$30.69	\$31.61	\$0.92	3%

#### Self-Insured Health Benefits Fund

The City managed self-insured health programs are funded through insurance charges to employees and retirees along with a City contribution on behalf of employees. The Self-Insured Health Benefits Fund adopted expenditures are \$31.2 million, which is \$4.8 million more than the FY 2017 Amended Budget. In 2013, the City opened a health and wellness center to provide insurance participants with convenient access to health care. This initiative decreases the cost of health claims from other providers and is an enhanced benefit for our Community Builders and their dependents.

#### **Central Services (Information Technology Services) Fund**

The Central Services Fund is established to provide citywide technical resources, deliver customer care, and provide computers, telephones, mission critical two-way communications infrastructure and handheld radios, website, intranet, internet, electronic mail, wireless and mobile communications, business software applications, desktop software applications, training, and supports citywide hardware and software security. This fund is supported by charges to user departments based upon services provided. The Central Services Fund adopted expenditures are \$21.5 million, which is \$1.2 million more than the FY 2017 Amended Budget.

#### **Parking System Fund**

The Parking Fund is a self-sustaining fund, using no tax dollars to fund the parking operation. It includes garages; lots; enforcement; and managerial, administrative, and field personnel. All salaries, benefits, and expenses are paid exclusively from user-based revenues collected from meters, the sales of permits, and citations. Excess revenues are accumulated in the fund balance to finance major reconstruction and rehabilitation projects of the City's garages and parking lots. The Parking System Fund adopted expenditures are \$18.2 million, which is \$79,549 less than the FY 2017 Amended Budget.

#### Vehicle Rental (Fleet) Fund

The City's fleet consists of approximately 1,550 vehicles and rolling stock. The Public Works Department oversees four fueling facilities. This fund is supported by charges to user departments and funds based on the services provided. The FY 2018 Adopted Budget, including transfers is \$18.4 million, which is \$997,550 less than the FY 2017 Amended Budget.

#### **City Property & Casualty Insurance Fund**

The Property/Casualty City Insurance Fund adopted expenditures are \$16.4 million, which is \$940,212 less than the FY 2017 Amended Budget. Workers compensation claims are decreasing as the Human Resources Department continues implementing a safety and training program to increase employee safety awareness and reduce preventable accidents. The budget amounts are tied to actuarial reports or the cost of the insurance policy and include workers compensation, general liability, public official liability, employment practices liability, auto liability, and all-risk property insurance. The fund maintains a reserve of 100% of the actuarially calculated liability.

#### **Stormwater Fund**

The revenues collected for the City's Stormwater Management Program are used for operating expenses and capital improvements directly related to the management of stormwater, including improvements designed to improve water quality in the City's waterways. The FY 2018 adopted operating budget and transfers for the Stormwater Fund is \$14.8 million, which is \$989,042 less than the FY 2017 Amended Budget.

The adopted rate increases outlined below are critical to the continued success of the Stormwater Management program:

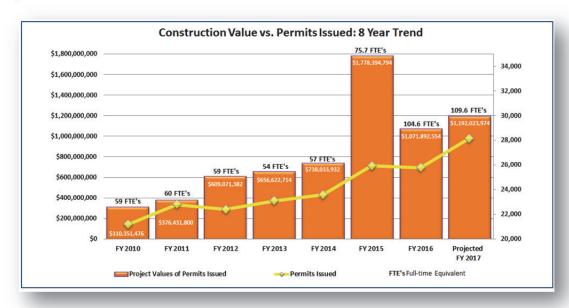

- Residential property with three units or less will be billed \$10.00 per unit per month.
- Commercial and industrial properties, as well as multi-family residential with four units or more, will be billed \$100.80 per acre, per month.
- Properties with low runoff characteristics, such as vacant land, parks, and well fields, will be billed \$31.95 per acre per month.

#### Stormwater Fee Effect of Monthly Increase on Neighbors

Stormwater Charge	Old Rate	Adopted Rate	\$ Change	
Residential <= 3 Units	\$8.00/unit	\$10.00/unit	\$2.00/unit	
Commercial, Industrial, and Residential > 3 Units	\$80.64/acre	\$100.80/acre	\$20.16/acre	
Vacant Land, Parks, and Well Fields	\$25.56/acre	\$31.95/acre	\$6.39/acre	

#### **Building Funds**

The Building Funds have adopted expenditures of \$24.3 million, which is \$5.7 million more than the FY 2017 Amended Budget. The City's Building Division enforces to the Florida Building Code which establishes the standards to which any new construction or improvements to existing buildings must be built. In FY 2016, the City processed approximately 25,700 permits with a value of over \$1 billion. The revenue generated from the permit and inspection fees supports the City's Building Division operating expenditures as well as their technology and certification maintenance needs. The chart below represents the number of permits issued as compared to the construction value over the last eight years.

#### **Housing and Community Development Grants Fund**

In FY 2018, the City anticipates receipt of \$9.4 million in Federal Entitlement Funds. These Housing and Community Development programs benefit our neighbors through quality affordable homes for all, strengthening the housing market to bolster the economy, and improving the overall quality of life for our neighbors. These direct programs are 100% grant funded with no contribution from the City. Community Development Block Grant funds provide flexibility to address quality of life issues in the communities of Fort Lauderdale including housing, public service needs, public facility needs, and economic development. Home Investment Partnership Program funds are used primarily to address housing assistance to eligible homeowners, agencies, renters, and homebuyers. Assistance is provided in the form of down payment assistance or housing rehabilitation loans. Housing Opportunities for Persons with AIDS/HIV provides funding for housing assistance, social services, program planning and development costs for targeted special needs clients who are diagnosed with HIV/AIDS. State Housing Initiatives Partnership Program funds are used primarily for single-family housing rehabilitation grants, down payment assistance, and utility hook-up assistance.

#### **Airport Fund**

The Fort Lauderdale Executive Airport is a major job center, employing over 5,000 people in its aviation and non-aviation properties and provides an estimated \$839 million annual economic impact to the area. The Airport is self-sustaining, with revenue generated by land leases and fuel flowage fees. The Division administers 37 land leases for both aviation-related and Industrial Airpark parcels on the 1,200-acre property. The Airport Fund adopted expenditures are \$14.1 million, which is approximately \$251,375 more than the FY 2017 Amended Budget.

#### Conclusion

Building a budget is a challenging process; we are forced to consider difficult trade-offs between competing priorities and develop innovative solutions to enhance our service delivery within available resources. I am confident that the Adopted Budget achieves a balanced approach to achieving the City's goals and delivers on the quality services that our neighbors expect.

I want to express my appreciation for the diligence of the Mayor and City Commission for their years of proactive leadership and courage in addressing dynamic challenges though engagement with our neighbors, analyzing and understanding the impacts of policy decisions, and identifying priorities through the development of the City's Vision, Strategic Plan, and Commission Annual Action Plan that are the basis for this adopted budget. In addition, I would like to thank our Budget Advisory Board, Revenue Estimating Conference Committee, City Auditor's Office, Community Building Leadership Team, Budget Coordinators, Budget/CIP and Grants team, and all of our Community Builders for their efforts to create a comprehensive, strategic, transparent, and meaningful budget.

The FY 2018 Adopted Budget was formally presented to City Commission at the first public hearing on September 6, 2017 and adopted at final public hearing on September 13, 2017. I look forward to working with you, our neighbors, and our community builders to implement the Fiscal Year 2018 Budget.

Respectfully submitted,

Lee R. Feldman, ICMA-CM

City Manager

"Every achievement was once impossible."

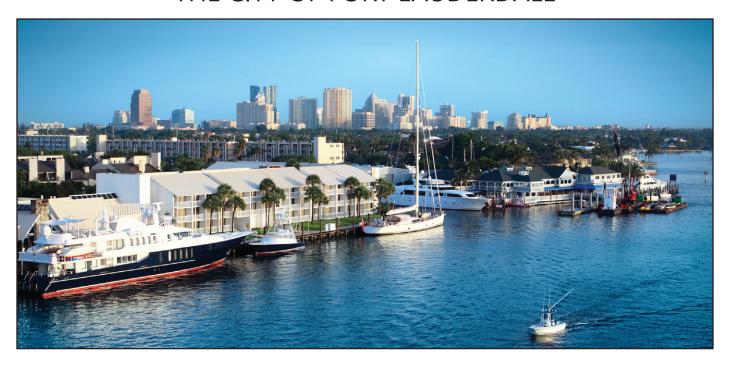

- Ms. Lalique

"Now let's make the impossible our achievement."

- Ms. Crystal

# Venice of America

# THE CITY OF FORT LAUDERDALE

Incorporated on March 27, 1911, the City of Fort Lauderdale is framed on the east coast of Florida by seven miles of golden sand beaches and bordered on the west by the Everglades. Between the two, the Intracoastal Waterway, the New River, and a canal system reminiscent of Venice wind through the interior.

Encompassing nearly 36 square miles with an estimated population of 179,063, Fort Lauderdale is the largest of Broward County's 31 municipalities and one of the ten largest cities in Florida.

An advantageous economic climate has helped Fort Lauderdale establish itself as an international business center and one of the most desirable locations for new, expanding or relocating businesses. Once known strictly as a tourism-based economy, today Fort Lauderdale supports a diverse range of industries, including marine, manufacturing, finance, real estate, high technology, avionics, aerospace, and film and television production.

Fort Lauderdale also offers an outstanding quality of life, highlighted by a semi-tropical climate, rich natural beauty, and an array of cultural, entertainment, and educational amenities.

Blessed with over 3,000 hours of sunshine each year and pleasant year-round ocean breezes, world-famous Fort Lauderdale Beach offers premier opportunities for recreation, relaxation, and enjoyment.

The picturesque Riverwalk serves as the cornerstone of the City's arts, science, cultural, and historic district that features the Broward Center for the Performing Arts, Museum of Discovery and Science, Museum of Art, and Fort Lauderdale History Center.

Las Olas Boulevard has gained international acclaim as Fort Lauderdale's centerpiece of fashion, fine dining, and entertainment.

The City's downtown area is home to many corporate headquarters, government offices, and educational institutions, including Broward College, Florida Atlantic University, and Florida International University.

Through the cooperative efforts of residents, businesses, and local government, Fort Lauderdale has evolved into a City that offers the best of both worlds — an attractive business environment and an outstanding quality of life. Fort Lauderdale is a great place to live, work, and raise a family, and the City looks forward to continuing to build upon its success to meet the challenges of the 21st Century and beyond.

i

### **OUR VISION**

The City of Fort Lauderdale is committed to improving productivity, streamlining expenses, and developing a stronger, more effective organization. The City has embraced a vision that is based on fiscal responsibility, accountability, high ethical standards, and quality delivery of services. It is a vision that rewards excellence, not mediocrity, and above all, places the people of Fort Lauderdale first.

As the City moves forward, it will continue to work in partnership with its most important asset – its citizens – to develop the strategies necessary to ensure a safe and secure community; provide quality programs and services; enhance quality of life; protect the environment; promote smart growth; and maintain fiscal responsibility.

### CITY ADMINISTRATION

The City of Fort Lauderdale has been operating under a Commission-Manager form of government since 1925.

The City Commission is comprised of the Mayor, who is elected at-large, and four Commissioners, who are elected in non-partisan district races. Elections occur every three years and each elected official is eligible to serve three consecutive three-year terms. The next election is February 2018. As the City's legislative body, the City Commission sets policy, passes ordinances, adopts resolutions, and makes appointments to advisory boards and committees.

The City Manager is appointed by and reports directly to the City Commission. As Chief Executive Officer, the City Manager is responsible for directing the City's day-to-day operations and carrying out the policies set forth by the Commission. Lee R. Feldman, Fort Lauderdale's current City Manager, began serving in June 2011.

The City of Fort Lauderdale's reorganized structure is comprised of the offices of the City Commission, City Manager, City Attorney, City Auditor, and City Clerk, along with the following nine departments: Finance, Fire-Rescue, Human Resources, Information Technology Services, Parks and Recreation, Police, Development, Sustainable Public Works, Transportation and Mobility. The City employs a workforce of approximately 2,500 full-time employees. Five bargaining units represent a substantial number of employees, including: Fraternal Order of Police (FOP), FOP Police Captains, International Association of Fire Fighters (IAFF), International Brotherhood of Teamsters Local 769, and the Federation of Public Employees (Professional and Supervisory).

#### **MARINE INDUSTRY**

Marine commerce is the leading industry in Greater Fort Lauderdale and Broward County. It accounts for more than 136,000 jobs and an economic impact of \$11.5 billion.

With more than 300 miles of waterways, state-of-theart marinas, and leading marine manufacturing and repair facilities, Greater Fort Lauderdale is a worldrenowned port of call for the yachting industry.

The City is home to the Fort Lauderdale International Boat Show, the world's largest boat show that generates \$857.3 million in economic impact each year.

#### **TOURISM INDUSTRY**

Tourism is Greater Fort Lauderdale's second largest industry, accounting for more than 180,000 jobs. In 2016, more than 16 million visitors selected Greater Fort Lauderdale as their destination of choice and spent in excess of \$14.2 billion. For every 76 visitors to Broward County, it is estimated that one job is created.

#### **BUSINESS DEVELOPMENT**

National publications are taking note of Fort Lauderdale's economic resurgence and building boom. The Wall Street Journal recently profiled our City in a report highlighting the array of upscale hotels, resorts, and residential developments taking place along our world class beachfront.

Experts lauded Fort Lauderdale for projects like the Conrad, Four Seasons, Paramount, and Auberage, which are strengthening our reputation as an upscale destination and helping our City attract a record number of U.S. tourists, foreign condominium buyers, and visiting families from all over the world.

In addition to the Wall Street Journal report, over 63 industry experts have showcased Fort Lauderdale with high national ranks, including All-America City, Top 10 Best Downtowns, Top 10 Most Exciting Places in Florida, Top 10 Best U.S. Cities for Small Businesses, Top 10 Best Cities for Millennial Job Seekers in Florida and Lowest Travel Taxes among the Top 50 U.S. Travel Destinations

Tremendous progress is being made on several game changing initiatives that promise to redefine downtown Fort Lauderdale's future including the Wave Streetcar that will enhance mobility and stimulate transit-oriented development throughout downtown; the \$2.5 billion All Aboard Florida high speed passenger rail project with a station under construction just west of City Hall; and more than \$70 million in upgrades and enhancements to Fort Lauderdale Beach.

The City is encouraging new development projects that include pedestrian, bicycle and public transportation accommodations.

Quality of life is an integral part of the City's overall vision to create a safer, cleaner and sustainable community.

### TRANSPORTATION

The City of Fort Lauderdale offers an extensive transportation network that includes Port Everglades, Fort Lauderdale/Hollywood International Airport (FLL), Fort Lauderdale Executive Airport (FXE), two

major railways, highways, a mass transit system, water taxis, and city trolleys.

#### **PORT EVERGLADES**

Port Everglades generates \$29 billion worth of business activity and indications show continued growth as the South Florida seaport expands its containerized cargo berths, deepens its navigational channels, and opens an on-port freight rail facility.

Port Everglades generates big economic advantages that flow right into our community, making it an economic powerhouse. Annually, the Port supports 11,700 jobs locally and over 224,000 statewide, and is responsible for producing over \$1 billion in state and local taxes.

The Port has launched an aggressive 20-year, \$1.6 billion expansion. Major capital projects recently completed or currently underway are creating 7,000 jobs and \$135,000 indirect jobs.

### FORT LAUDERDALE/ HOLLYWOOD INTERNATIONAL AIRPORT

Fort Lauderdale/Hollywood International Airport (FLL) is ranked 21st in the United States and serves more than 29.2 million passengers and more U.S. cities than any other airport in South Florida. The Airport offers the lowest domestic fares in South Florida and has more than 325 daily departures to more than 140 destinations in the United States, Latin America, Canada, and the Caribbean.

Passenger traffic at Fort Lauderdale-Hollywood International Airport is estimated to grow between 1 to 3% each year over the next several years.

Each day, FLL averages 640 commercial flights on 26 airlines with an average of 100 private flights. The total economic impact of the airport is estimated at \$13.2 billion.

### FORT LAUDERDALE EXECUTIVE AIRPORT

The Fort Lauderdale Executive Airport (FXE) is centrally located in the heart of the Uptown Business District that provides over 8,900 jobs and contributes more than \$7 million in property tax revenue to the City.

Fort Lauderdale Executive Airport boasts a new hightech control tower that makes monitoring about 600 flights per day even safer. The new control tower, standing at 117 feet tall and costing \$16.4 million, is equipped with the latest radar, communications and weather technology. The 525-square-foot top floor provides controllers with a complete view of the airfield.

The airport serves as the hub to Fort Lauderdale's Foreign Trade Zone 241, which encourages economic development initiatives to promote development of the Industrial Airpark, serves businesses engaged in international commerce in the greater Fort Lauderdale area, and maximizes the City's business retention and attraction of emerging industries.

Located on 1,200 acres of land, the airport is the home of the busiest general aviation US Customs and Border Protection Facility in the nation.

### FORT LAUDERDALE DOWNTOWN HELISTOP

The Downtown Fort Lauderdale John Fuhrer Helistop is designed to accommodate intermediate category general aviation helicopters with a maximum takeoff weight of 11,900 pounds and a 46-foot rotor diameter. Used extensively by corporate and charter operators, the state-of-the-art facility is situated above the

City Park Mall parking garage in the heart of Fort Lauderdale's dynamic downtown.

The Helistop features a landing area and one helicopter parking position on a 14,500 square-foot elevated platform. A fully furnished lobby provides travelers with a comfortable area to converse and conduct business, along with access to plentiful parking and convenient ground transportation. The Helistop is an outstanding example of the City of Fort Lauderdale's progressive approach to downtown revitalization and our commitment to providing citizens with efficient transportation options.

#### SURFACE TRANSPORTATION

The road system in Broward County totals 4,800 miles and includes more than 140 miles of expressways (I-95, I-75, I-595, Florida Turnpike, and Sawgrass Expressway) and approximately 375 miles of divided highways.

The City of Fort Lauderdale is served by three bus lines and two major freight carriers, Florida East Coast Railway and CSX Corporation. The County-operated bus system includes an active fleet of 275 transit vehicles that serve almost 40 million passengers annually.

Tri-Rail, a commuter rail system, provides service along a 72-mile corridor from Miami-Dade County to Palm Beach County. Connecting buses are available at all stations, with designated shuttles at Fort Lauderdale/Hollywood and Miami International Airports, and Palm Tran connections to the Palm Beach International Airport.

The Amtrak Silver Service links Fort Lauderdale to the rest of the nation, including daily trips to New York.

#### WATER TAXI

Fort Lauderdale features a unique Water Taxi system, which transports passengers daily to and from the downtown area via the City's New River and network of inland waterways.

### COMPREHENSIVE HEALTH CARE

A comprehensive network of public and private hospitals serve Fort Lauderdale. Among the area's 24 hospitals are nationally recognized leaders in cardiovascular medicine, childcare, sports medicine, and rehabilitation.

Greater Fort Lauderdale also offers wellness programs, nursing homes, hospices, and mental health facilities, along with over 2,900 physicians and 25,000 nurses.

Broward Health Medical Center is one of the areas leading medical facilities with over 7,000 employees.

## **EDUCATION**

The Broward County Public School District is the largest fully-accredited school district in the country. The school district serves 271,000 students in pre-kindergarten through grade 12. Broward County school leaders are building a state-of-the-art infrastructure that is redefining the scope of education.

Fort Lauderdale offers outstanding opportunities for higher education. Campuses for Florida Atlantic University (FAU), Florida International University (FIU) and Broward College are located in downtown. Both FAU and FIU rank among the nation's top 300 universities according to *U.S. News and World Report*'s Annual Survey of America's Best Colleges.

# **QUALITY OF LIFE**

From the blue wave beaches and the exotic Everglades to the winding waterways and chic ease of Las Olas, Fort Lauderdale is a city comfortable with its reputation for

being a paradise. The average daily temperature is 77 degrees in the winter and 89 degrees in the summer.

Outdoor activities are endless, with golf courses, parks, playgrounds, miles of coral reefs and plenty of sunshine. Boating, scuba diving, snorkeling, fishing, and recreational activities are enjoyed by residents, tourists, and business travelers.

The area boasts professional sports teams in football, baseball, basketball, hockey, and soccer. World-class swimming and diving events are hosted at the International Swimming Hall of Fame/Fort Lauderdale Aquatic Complex.

### **GROWTH AND DEVELOPMENT**

The City of Fort Lauderdale has intertwining master plans to help protect neighborhoods by ensuring that new developments adhere to well-balanced guidelines.

The Downtown Master Plan protects residential neighborhoods by directing large-scale, high-rise and high-density developments to the downtown core. The most intensive, commercially oriented development will be concentrated in the mixed-use urban center.

The City aspires to redesign areas so residents may work, shop, learn, worship, and find recreation activities close to home.

The City is encouraging redevelopment that protects history and builds on the unique characteristics and distinct identities of our neighborhoods.

The City aims to encourage redevelopment that is attractive, compatible with neighborhoods, pedestrian- friendly, and transit-oriented.

### **PROPERTY VALUES**

The City of Fort Lauderdale experienced an increase of 9.14% in property values over last year. During the same period, Broward County's property tax base grew 9.3%. According to the Broward County Property Appraiser, the estimated assessed value of taxable property in the City of Fort Lauderdale as of June 1, 2017 is estimated at \$33.8 billion.

# DOWNTOWN DEVELOPMENT AUTHORITY (DDA)

The DDA, a special taxing district, was formed to provide for the rehabilitation, redevelopment, and revitalization of downtown. The DDA seeks to provide a critical link between the economic development and physical development objectives of Downtown Fort Lauderdale.

The DDA is overseeing a downtown transportation project, which will include a transit plan that will provide various options for people coming to and traveling within the Downtown Fort Lauderdale. One

of the key components of the project is The Wave, a 2.7 mile fixed-rail streetcar system that will link Downtown destinations and points of interest to nearby parking facilities and transit options to connect with adjacent communities. The \$142.6 million project will also include streetscape enhancements, landscaping, wide sidewalks, decorative lighting, and street furniture.

# FORT LAUDERDALE COMMUNITY REDEVELOPMENT AGENCY (CRA)

The CRA's Northwest-Progresso-Flagler Heights redevelopment activity in directs the area providing targeted district by infrastructure improvements, assisting the private sector in property development, and providing business assistance and economic incentives to redevelop blighted commercial properties.

As part of the CRA initiatives, the City completed the Sistrunk Boulevard Enhancement and Beautification Project designed to modernize infrastructure, stimulate public and private investment, and create a family-oriented, vibrant retail destination.

The CRA's Fort Lauderdale Beach area oversees capital improvements, redevelopment projects, and business initiatives in a 121-acre area located in the City's central beach district.

The public improvement portion of the Central Beach Master Plan totals \$72 million.

The plans aim to beautify the beach by improving landscape and streetscapes, enhancing pedestrian access, upgrading parks, creating public gathering spaces, adding parking, and developing retail, recreational, and entertainment amenities.

Fort Lauderdale established the Central City CRA in Fiscal Year 2012. Programming and redevelopment for future years, when the tax increment is sufficient, will provide a basis for economic growth and community revitalization in this up-and-coming area of the City.

#### **ECONOMIC DEVELOPMENT**

Fort Lauderdale's key economic engines are roaring with record growth in tourism, marine commerce, construction, aviation and transportation.

Fort Lauderdale's unemployment rate is 3.8%, which is the lowest level in over seven years and significantly lower than the state rate of 4.5%.

Residential property values are up, spiking 7% over last year, marking the fourth consecutive year of growth. In addition to the gains in property valuation, Fort Lauderdale saw more than \$340 million in new construction added to our tax roll. Fort Lauderdale's millage rate of 4.1193 now ranks as the lowest among the 25 largest cities in Florida.

Clearly, Fort Lauderdale is booming with 54 buildings under construction. Today, there are over 7,000 downtown units in design, review, permitting or construction.

An additional 1,173 residential units in various stages of development on Fort Lauderdale Beach.

We have over 232,000 square feet of retail space and over one million square feet of office in various stages of development in the downtown area.

This impressive level of private investment is sending a clear signal of strength and confidence about Fort Lauderdale's future.

Sponsorship and promotion of new, high-visibility events have been pivotal to attracting tourists, City residents, and locals from surrounding cities and communities to downtown Fort Lauderdale and the beach.

Filming in Fort Lauderdale is at an all-time high. Television, film, and entertainment production projects have poured nearly \$40 million into the local economy each year. Film productions bring hundreds of jobs and stimulate our local economy through direct and indirect spending.

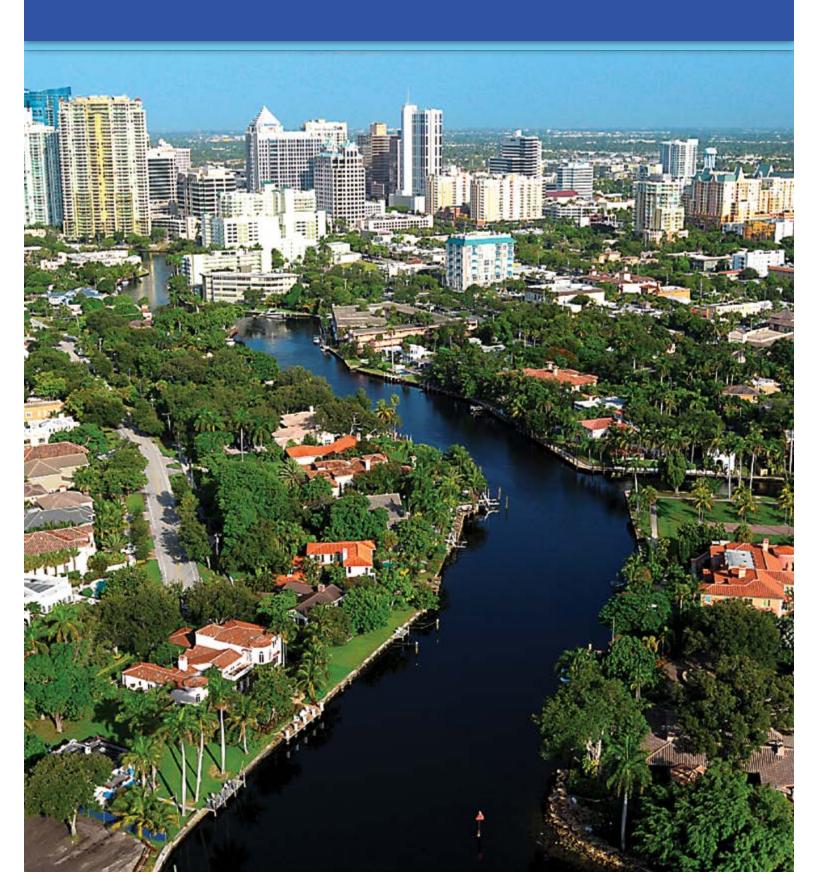

#### **FIRE-RESCUE BOND**

Saving lives and property requires vital Fire-Rescue infrastructure. The City of Fort Lauderdale Fire-Rescue Bond Program is providing up to \$40 million to build, renovate, and upgrade 10 Fire-Rescue stations throughout the City to ensure the safety and protection of our citizens today and in the future.

The new stations enhance Fire-Rescue coverage, reduce response time, and help the department maintain outstanding levels of service. The hurricane-resistant facilities provide expanded space and improved security. Residents will benefit from new medical examination and community rooms.

# INTRODUCTION & OVERVIEW

Infrastructure, transportation, parks, streets, and buildings are the literal foundation of a community. The Community Investment Plan (CIP) has a unique and important responsibility to delineate what the community needs to build now and what it will need to build in years to come. This must be done in a strategic, careful, and impactful way to maximize economic development and improve quality of life in line with the approved City Commission's vision and policy. This CIP incorporates the concept of "sustainable infrastructure" which involves connecting a commitment to sound asset management with an approach that prioritizes community needs within the context of a sustainable future.

The Community Investment Plan is a planning document that sets forth the City's capital improvements to ensure that municipal infrastructure and facilities are appropriate and adequate to serve the needs of the neighbors of Fort Lauderdale. The timeline for the CIP process is outlined below:

January-February	Departments identify projects and determine cost estimates
	<ul> <li>City Manager appoints a Community Investment Plan Project Review Team</li> </ul>
	<ul> <li>Community Investment Plan Project Review Team meets to discuss the</li> </ul>
	process, schedule, and proposed criterion for the CIP process
February-March	Budget and CIP Kickoff
	Staff trained
	<ul> <li>Training materials and instructions distributed</li> </ul>
	<ul> <li>Departments submit projects to be included in the CIP</li> </ul>
	<ul> <li>Budget, CIP and Grants Division, Information Technology and Public Works</li> </ul>
	meet with departments to review CIP project applications
April-June	<ul> <li>The relative weight of each criterion is agreed upon as policy by the City</li> </ul>
	Commission
	Community Investment Plan Project Review Team evaluation, prioritization
	of projects and development of recommendations
	Departments present their requests to the City Manager along with their
	operating budget requests
	<ul> <li>City Departments present their requests to the Budget Advisory Board</li> </ul>
	<ul> <li>Committee recommendations to the City Manager</li> </ul>
	Proposed Community Investment Plan is drafted
July	<ul> <li>City Manager makes recommendations to the City Commission (Proposed</li> </ul>
	Community Investment Plan) along with the proposed budget
September	City Commission approval of the CIP and Budget
October	Implementation of Approved Plan

The projects in the CIP provide the basic necessities, such as the municipal water works as well as amenities which make Fort Lauderdale a desirable community in which to live, work, and play. Ensuring conformity with the City's Comprehensive Plan and coordination of capital improvements with the development of the operating budget to maintain low taxes and fees are key objectives to the process. Projects considered in the CIP can be either capital improvements or capital maintenance projects.

Each proposed capital improvement project must meet the following criteria to be considered as part of the Community Investment Plan:

- Represent a physical improvement
- Have a value of \$50,000 or more
- Have a useful life in excess of 10 years; or if bond funded, have a useful life equal to or greater than
  the life of the bonds
- Be classified as a capital asset when placed into service

Each proposed Capital Maintenance project must meet the following criteria:

- Have a value of \$50,000 or more
- Be a project that replaces/repairs existing infrastructure, equipment or facilities (examples of capital maintenance projects include street resurfacing, roof replacements, and playground equipment replacement)

The City recognizes its on-going responsibility to maintain and improve capital facilities to meet the demands of a dynamic city. The Five-Year CIP is based on City Commission and Administration's recognition of the need to have a comprehensive and financially balanced plan. Pursuant to the City's long range planning objectives, each project is analyzed and prioritized according to the needs of the community, the project ranking, and the City's ability to implement the project using available resources. The adopted CIP must also take into consideration the financial parameters necessary to preserve the City's fiscal integrity and continued sustainability.

The methodology utilized to develop the Community Investment Plan stems from a needs assessment performed by City staff with input from various City Commission appointed advisory boards/committees. The needs assessment also includes the incorporation of various studies that have been performed by consultants with expertise in their respective discipline. Key assessments used to develop the FY 2018 – FY 2022 requests include:

- Walkability Plan
- Bridge Master Plan
- Sidewalk Assessment
- Wastewater Master Plan
- Stormwater Master Plan
- Facilities Condition Assessment
- Pavement Condition Assessment
- Police Headquarters Replacement Study
- Comprehensive Utility Strategic Master Plan

Each plan or assessment generates a list of projects that address physical and/or structural improvements and enhancements in various locations within the City. Project applications are then developed and submitted to the Budget/CIP & Grants Division. Each application involving a physical or structural improvement must include project cost estimate justification. Together, managers and directors develop the adopted CIP project applications with the goal of meeting and managing the City's community investment needs.

### **CIP Prioritization Criteria and Scoring Matrix**

Prioritization criteria and a scoring matrix were developed for the Fiscal Year 2018 - 2022 CIP to rank projects for inclusion in the plan. There are ten criteria that were used by the Community Investment Plan Project Review Team, to evaluate the proposed projects. The relative weight of each criterion was approved by the City Commission at its April 19, 2017 meeting. Following the Commission weighting, each CIP Project Review team member scored projects from 0 to 2 for each of the ten criteria and then a total score was calculated for the project, based on the criteria weight. This methodology promotes an informed decision making process to formulate a final set of recommendations for the adopted Community Investment Plan. The prioritization criteria are outlined below:

#### **Basic Program Attributes**

- **Meets federal, state or legal requirement** Whether there is a federal, state, local mandate, grant, court order, judgment, or other requirement that the project must be completed.
- **Project feasibility** Whether there are obstacles to proceeding with the project (land acquisition, easements, approvals required, etc.).
- **Costs and sources of funds** Whether the project would impact the City's operating costs, debt service level, and/or whether the project would yield revenue.
- **Relevant performance measures** *Is the impact of the project measurable? Will completing the project improve key performance measures or result in efficiencies?*
- **Project consistency with existing approved plans** Whether the project is directly consistent with a Commission approved plan, advances the Strategic Plan, the Commission Annual Action Plan (CAAP), and/or the 2035 Community Vision Plan.

#### Impact on Strategic Goals/Cylinders of Excellence

- Improves traffic, mobility, connectivity, pedestrian safety and cyclist safety Whether the project would result in filling mobility gaps, supporting more effective interconnectivity, and ensuring increased and safe accessibility to activities, events and locations (bikeway path, commuter rail).
- **Environmental benefits** Whether the project would address sea level rise, flooding, energy efficiency, water quality, water efficiency or other sustainability measures.
- Addresses aging infrastructure needs and maintenance of existing facilities Whether the project helps to repair or replace the City's aging infrastructure (e.g. bridges, seawalls, roads) or provides for capital maintenance of existing City facilities (e.g. community centers, swimming pools, or sports complex).
- Promotes or accelerates sustainable economic development Whether the project would directly result in capital investment, increased tax base, increased property values, or improved job opportunities.
- **Improves neighbor safety** Whether the project reduces an immediate or future risk, addresses a public health and/or safety hazard, or addresses an urgent safety need.

The Community Investment Plan Project Review Team met with each department, reviewed, and ranked all projects. Following the ranking, the team summarized the information and made recommendations to the City Manager. The City Manager then had the opportunity to review project applications to make a final determination about which projects would be recommended to the City Commission for funding. The project ranking will also serve to guide the City's applications for regional, State, Federal, or other grant funds throughout the upcoming fiscal year.

The CIP is a multi-year funding plan as follows:

- ✓ **Projects with unspent balances:** These are existing projects that are on-going. This unspent balance is reappropriated and approved as part of the five year total.
- ✓ **Projects funded during the Fiscal Year 2018 Budget cycle:** These projects are recommended in the City Manager's proposed budget and finalized in concert with the City Commission's adopted budget.
- ✓ Projects planned for Fiscal Years 2019 2022 have funding identified: These projects will be updated on an annual basis and considered for funding in the respective year of the request. Funding will not be appropriated or available for these projects until the annual adoption of the CIP via City Commission action.
- ✓ Projects beyond FY 2022 are listed as "unfunded" but still necessary: These are projects that have been identified as a need, but funding is not currently identified. Projects may move out of this category as funding becomes available, or as the need becomes more critical.

Multi-year projects are identified in phases by year, from design through construction. Appropriations are made on an annual basis, but planning is accomplished on a multi-year basis. Projects may be designed before construction dollars are secured in order to have "shovel ready" projects as new funding is identified. The Community Investment Plan is developed annually and presented to the City Commission for adoption of the first year of the plan along with the City's Operating Budget.

The FY 2018 – FY 2022 Community Investment Plan document contains the following major sections:

- **♦** Introduction
- ♦ FY 2018 FY 2022 Five Year Community Investment Plan by Funding Source
- **♦** Community Investment Plan Applications by Funding Source
- Adaptation Action Areas
- **♦** Connecting the Blocks
- ♦ Glossary & Acronyms

Project applications are not presented for existing projects with funding that are not in need of additional funding. However, they are listed in the FY 2018 – FY 2022 Five Year Community Investment Plan schedule. The Five-Year CIP is balanced based on existing and anticipated revenues, bonds and other financing mechanisms.

# **FY 2018 Community Investment Plan**

## **IMPACT ON OPERATING BUDGET**

Many capital improvement projects outlined in the Community Investment Plan have, or will have, corresponding impacts to the operating budget commensurate with the capital investment. Identifying the operating budget impacts is useful for decision-making because it provides a greater understanding of the financial obligations associated with the capital investment. New or expanded facilities may increase the annual costs needed to maintain the facility and desired level of service, which can contribute to the growth of annual operating budgets. Other new facilities, such as swimming pools, may generate offsetting revenues from program fees, which provide additional revenues to help support operating expenses related to the new facility.

Given the potential impact to future operating budgets, it is important to have reliable operating cost estimates for capital projects contained in the City's Community Investment Plan. These operating costs can then be programmed into the operating budget during the budget development process; ensuring funding is available when a project becomes operational. Operating cost estimates are developed during the CIP application development process and factor in variables such as project location, structural impacts, energy costs, staffing costs, maintenance, and/or future replacement. Each application includes a section where operating departments identify potential impacts to the operating budget. While these estimates are preliminary, the estimates still assist in the decision making process to ensure proper consideration is given to the full-cost of the project over the estimated lifespan. As a project moves from development to construction and then operation, these costs are reviewed to ensure future operating budgets include the necessary funding.

Overall, the estimated annual impact of all capital projects funded in the FY 2018 Community Investment Plan is a net cost of \$24,013 due to an increase of operation, maintenance, and electrical expenses for Stormwater Improvements, New Mills Pond Park Restrooms and NW Second Avenue Tank Restoration projects. Details regarding the estimated operating impact, by project, by fund are provided on the following page.

# **FY 2018 Community Investment Plan**

### IMPACT ON OPERATING BUDGET BY PROJECT AND FUND

Project	Annual Operating Impact	Explanation
General Fund – 331 – (\$21,380)		
New Mills Pond Park Restroom	\$8,620	The project will add an annual cost for electricity estimated at approximately 5% increase per year.
Police Marine Patrol Vessels	(\$20,000)	Savings will be realized by the reduction in maintenance required for new vessels.
Field Conversion Holiday Park	(\$10,000)	Savings will be realized with the reduction in fertilizer, pesticides, paint, top dressing, sod replacement & water consumption.
Water and Sewer Master Plan Fund – 454	- \$10,000	
NW Second Avenue Tank Restoration	\$10,000	The project will add an annual maintenance cost of approximately \$3,000 per year for the lighting system and an additional \$7,000 per year of electric power consumption.
Stormwater - Fund 470 - \$35,393		
500 Block SW 9 <sup>th</sup> Terrace Stormwater Improvements	\$13,936	The project will add additional annual operation and maintenance cost estimated at 2% of the construction costs.
Drainage Canal Dredging	\$7,200	The project will add additional operating cost for dredging construction, performing maintenance of dredged surfaces on the canals adjacent to stormwater outfalls or drainage canals.
1137 NE 9 <sup>th</sup> Avenue Stormwater Improvements	\$5,687	The project will add an additional annual operation and maintenance cost estimated at 2% of the construction costs.
2449 Bimini Lane Stormwater Improvements	\$4,295	The project will add an additional annual operation and maintenance cost estimated at 2% of the construction costs.
2505 Riverland Terrace Stormwater Improvements	\$4,275	The project will add an additional annual operation and maintenance cost estimated at 2% of the construction costs.
Total	\$24,013	

The pages that follow provide a detailed listing of the specific projects that are included in Fiscal Year 2018 Adopted Five Year Community Investment Plan by Funding Source.

#### **IMPLEMENTATION**

After the approval of the CIP by the City Commission at the September budget hearings, budgeted funds were placed into specific project accounts to allow projects to commence on October 1, 2017.

# CAPITAL PROJECT APPLICATIONS

FY 2018 - FY 2022 Adopted Community Investment Plan - 23

# **Capital Project Applications by Funding Source**

This section provides project details for each of the projects that are included in the FY 2018 – FY 2022 Community Investment Plan. The projects are organized by funding source. Capital project funds are used to account for financial resources segregated for the acquisition or construction of major capital facilities other than those financed by enterprise operations. Below is a brief description of each funding source used to fund capital projects in the Community Investment Plan. Following the fund descriptions is a graph charting the Proposed FY 2018 by fund.

# **Fund Descriptions**

# **Community Development Block Grant (CDBG) Fund (108)**

Community Development Block Grant Program (CDBG) Funds are funds that the City receives from the U.S. Department of Housing and Urban Development based on its entitlement status. These funds must be used in accordance with program guidelines to provide community development needs.

# **Grants Fund (129)**

Grant Funds are funds that the City receives from a variety of grant sources. These funds must be used in accordance with individual program guidelines.

# **Building Permit & Building Technology Funds (140, 142)**

The Building Permit & Building Technology Funds are derived from permit fees paid by individuals and businesses. These funds are restricted to expenditures associated with the enforcement of the Florida Building Code.

# **General Capital Projects Fund (331)**

General Capital Funds come from a transfer from the City's General Fund Budget. These funds support only the highest priorities for community investment plan projects.

# Gas Tax Fund (332)

This revenue is generated through a tax levied by Broward County government on the sale of fuel within the County and distributed to cities using a population-based formula. The proceeds may be used to fund transportation projects.

# Community Redevelopment Agency (CRA) Funds (346, 347, 348)

Community Redevelopment Agency (CRA) Funds primarily come from the tax increments in areas that have been designated as redevelopment areas during the life of the designation. These funds are restricted to be used only to redevelop these areas that likely would not move forward economically without public investment.

# Park Impact Fees Fund (350)

The Park Impact Fee Fund is generated by fees paid by developers. These funds are used to expand the capacity of the City's park system to serve new development.

# Capital Project Applications by Funding Source continued

# **Sanitation Fund (409)**

The Sanitation Fund is funded through residential waste management fees. This fund provides the City a full complement of modern solid waste services including residential household garbage, recycling, yard waste, and bulk trash collection.

# Central Region/Wastewater Fund (451)

The Central Regional Wastewater System Fund is established to provide treatment services for the City of Fort Lauderdale and other municipalities including Oakland Park, Wilton Manors, Port Everglades, and parts of Tamarac and Davie. This fund is used solely to support and enhance the operation of the Central Regional Wastewater System.

# Water and Sewer Master Plan Fund (454)

The Water and Sewer Master Plan Funds are funded from transfers from the Water and Sewer operating fund. They are used to fund improvements to the City's water and sewer system.

# Parking Services Fund & Parking Revenue Bonds Funds (461, 462)

Parking Services Funds are derived from parking fees and fines. They are generally used to maintain or enhance the City's parking system including the City's parking lots, parking garages and on-street parking. Parking Revenue Bonds are bonds issued to support large parking related capital improvements that are funded by the revenue generated by the improvements.

# Airport Fund (468)

Airport Funds are derived from fees paid by individuals and businesses that use the airport. Funds are generally used to maintain or enhance the City's Airport.

# Stormwater & Stormwater Revenue Bond Funds (470, 471)

Stormwater Funds come from a Stormwater fee that is placed on the City's water and sewer utility bill. These funds must be used for operations and maintenance directly related to management of stormwater, including drainage improvements designed to improve streets and roadways. It is anticipated that in Fiscal Year 2019 revenue bonds will be issued using this source of funding in order for the City to significantly invest in its stormwater system.

# **Central Services Operations Fund (581)**

Central Services Operations Funds are derived from charges to client departments for information technology services. These funds are used to maintain and improve the City's technology systems.

# **Vehicle Rental Operations Fund (583)**

Vehicle Rental Fund is an internal service fund. These funds are generated from internal charges to City departments to support the operation of the City's fleet.

# FDOT & FAA Grant Funds (778, 779)

Federal Aviation Administration (FAA) and Florida Department of Transportation (FDOT) Funds are received from the State of Florida and US government primarily to be used to enhance the City's Airport and city roadways.

# COMMUNITY DEVELOPMENT BLOCK GRANT FUND (108)

FY 2018 - FY 2022 Adopted Community Investment Plan - 27

# **ADA SIDEWALK INSTALLATION & REPLACEMENT**

**PROJECT#: 12244** 

Project Mgr: Barbara Department: Public Works Address: Various Eligible CDBG Neighborhoods

Howell Fund: 108 CDBG - Com. Dev. Block Grant City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33301

Description: This project is for Installation and repair of Americans with Disabilities Act (ADA) ramps and associated sidewalk

connections in Community Development Block Grant (CDBG) eligible neighborhoods.

Justification: City staff has identified numerous existing crosswalks and sidewalk connectors throughout the City that need to be

upgraded or installed to make the City's neighborhoods more walkable. City staff has idenfied approxiately 8,625 sq.

ft. of sidewalk 240 ADA ramps that can be installed in qualified neighborhoods.

Source Of the Justification: Press Forward Fort Lauderdale 2018, A Five-Year Project Type: Roadway Improvements

# **AMERICANS WITH DISABILITIES (ADA) IMPROVEMENTS**

# PROJECT#: FY 20160415

Project Mgr: Barbara Department: Public Works Address: Various Eligible CDBG Neighborhoods

Howell x4505 Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

Description:

This project will begin with conducting a city-wide assessment of current conditions at roadway intersections under the City's jurisdiction to evaluate the City's compliance with the Federal guidelines of the Americans with Disabilities Act (ADA). The assessment will include a master plan (or "transition plan") that will help identify which intersections need to be improved for ADA access, as well as, a set of general design & construction details and a cost estimate for all anticipated work. Once the master plan is complete, implementation of the recommended repairs will commence. This includes replacement of non-compliant ADA ramps, the installation of new ADA ramps, the addition of detectable warnings, and repairs to sidewalks abutting ADA ramps. The majority of work will focus on intersections where micro-surfacing, asphalt paving and repair projects are being conducted as those activities trigger the requirement to immediately improve ADA access concurrently with the paving work.

Justification:

The Americans with Disabilities Act requires that persons with disabilities must have access into facilities, and pedestrian routes in the public right-of-way. Additionally, all roadway paving projects that are conducted adjacent to an ADA access point are required to improve the nearby ADA ramps and crosswalks. This project will bring the City's existing pedestrian facilities into ADA compliance, help ensure compliance with ADA requirements for paving projects, and increase overall pedestrian safety city-wide.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Roadway Improvements

**Project Funding Summary:**

TOTAL			\$0

#### Comments:

#### **Cost Estimate Justification:**

A consultant prepared preliminary assessments. They estimated approximately 6,000 ADA ramps city-wide require installation or replacement. Based on recent line item bids, the cost for similar work ranges from \$700 to \$1,500 per ADA ramp. And where a stormwater instrastructure is involved, ramps costs vary between \$4000 - \$7000 per ADA ramp. It is anticipated that 400 to 600 ADA ramps can be upgraded as part of proposed transition plan to help bring the City into proper ADA compliance.

# BAHIA MAR YACHTING CENTER DREDGING PHASE II

## **PROJECT#: 11670**

Project Mgr:JonathanDepartment:Parks and RecreationAddress:801 Seabreeze Blvd.LuscombFund:346 CRA - BeachCity:Fort Lauderdale

Fund: 346 CRA - Beach City: Fort Lauderd District: ☐ I ☑ III ☐ IV State: FL

**Zip:** 33316

#### **Description:**

This project is for dredging an area west of the Bahia Mar Yachting Center up to the eastern boundary of the Intracoastal Waterway (ICW). This area includes the City owned submerged land area at Bahia Mar. The Florida Inland Navigation District (FIND) has dredged the Intracoastal Waterway from the 17th Street Causeway to approximately 5000 feet north of the Las Olas Blvd. Bridge to 15' – 17' at Mean Low Water.

This project is for the specific purpose of dredging to maintain a consistent depth of 15 feet between the ICW channel and the Bahia Mar Yachting Center. The project area consists of dredging inside the marina's submerged owned land boundary and the eastern right-of-way area outside the boundary and between the ICW. Bahia Mar has secured all of the necessary permits from the regulatory agencies.

Justification: This project will enable the facility to accommodate the increased volume of significantly larger vessels.

There were two grants in place for funding assistance from the Florida Inland Navigation District (FIND) for design and permitting: Phase I and Phase I-A. The Phase I Grant was lost because the time to use the grant expired. The City withdrew from Phase I-A for fear that time would also expire to use the grant. The City applied for and was awarded 2015/2016 Grant assistance replacing I-A in March 2015.

The City intends to partner in the construction phase of the project with Bahia Mar by facilitating Bahia Mar's access to FIND grants and to contribute \$500,000 to the grant's required match while Bahia has committed to fund the remainder of the match and all project costs not covered by the grant.

Source Of the Justification: Not identified in an approved plan Project Type: Marine

#### **Project Funding Summary:**

GRAND	TOTAL:	\$297,004		\$3,000,000					\$3,297,004	

Comments: An estimated \$1,000,000 will be provided by Bahia Mar in FY 2019.

#### Impact On Operating Budget:

	1		
MPACT	AVAILABLE \$	UNFUNDED	TOTAL FUNDING
			\$0
TOTAL			\$0

Comments: No impact to the operating budget.

#### Cost Estimate Justification:

Cost estimates are derived from an estimated cost per cubic yard and quantities of material to be removed from submerged land lease areas and areas outside leased areas. Quantities and cubic yard pricing were derived with the assistance of the City's project consultants. FIND typically will contribute 50% of the project inside the marina's State Submerged Land Lease and 75% for areas outside of the leased bottomlands between the marina and the Intracoastal Waterway channel.

#### Strategic Connections:

# **GEORGE ENGLISH PARK BOAT RAMP RENOVATIONS**

**PROJECT#: 12186** 

Project Mgr: Jonathan Department: Parks and Recreation Address: 1101 Bayview Drive

Luscomb Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33304

Description: This request is for the replacement of the boat ramps at the George English Park. Use of the boat ramps is currently

limited due to concrete tiles that dislodge and give way to create submerged pot holes. The ramps need to be replaced with a design which will withstand present day uses and anticipated increased use by larger and longer trailerable boats which are now able to access the ramps because of the new and higher Sunrise Boulevard Bridge. The City applied for and received a grant from the Florida Boating Improvement Program which provided funding assistance for design and permitting phase of this project. Design and permitting are expected to be complete in

March 2017.

**Justification:** FDOT has completed replacing the Sunrise Boulevard Bridge. The new bridge now has an increased clearance of approximately 3.8 feet and allows larger vessels to access the George English Park boat ramps. The existing ramps

were designed for smaller vessels which were not restricted by the old bridge's low clearance. Larger vessels are already availing themselves to the George English Park ramps because of the increased bridges clearance. This is an alternative to avoid the crowded conditions associated with the Cox's Landing and the 15th Street boat ramp. It is anticipated that parking revenues will increase significantly due to increase access to a larger variety of vessel sizes which will be accommodated. Grant Funding of 50% of the estimated construction costs were sought from the

Florida Inland Navigation District in March 2017.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Marine

# BUILDING PERMIT & BUILDING TECHNOLOGY FUNDS (140, 142)

FY 2018 - FY 2022 Adopted Community Investment Plan - 39

# **LAND & ASSET MANAGEMENT SYSTEM PROJECT**

**PROJECT#: 12235** 

Project Mgr: Valerie Arthur Department: Sustainable Development Address: Citywide

Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

Description:

The current land management software solution, Community Plus is obsolete and no longer offers the functionality needed by the Community and the multiple departments it serves. In addition, the software is running on unsupported hardware and legacy database management system. The adoption of a new and resourceful software system is in alignment with strategic goals focused on business development, neighborhood enhancement and internal support. Community Plus is composed of seven modules or applications utilized as the backbone of operations for Permitting, Planning, Code, Business Tax, Fire Prevention, Alarm Billing and Special Assessments. Replacement of Community Plus must include the replacement of six applications with the exception of Special Assessments which is moving to the new ERP system.

Justification:

This project will result in acquiring and deploying a robust and fully supported system that will utilize the latest technologies, increase the automation of current manual tasks, and expand the usage of electronic records to improve productivity and public service delivery, while reducing bottlenecks and cutting administrative costs. The Community and Community Builders will benefit from enhanced services and processes that can be expected from the latest web, geographic information system.

The cost increase over the original Accela project is based on the implementation costs of the expanded scope and the increase of staff. This cost encompasses the additional Accela licenses, annual maintenance licenses, Crystal Reports licenses, and iPads needed for the expanded scope.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Operations

The purpose of this project is to provide renovations for the Department of Sustainable Development's lobby. Staff will work with a consultant to develop and bring a scope, plan, and schematic design to fruition. The renovations can be categorized into three categories: 1) those that will increase capacity for neighbors and community builders, as well as meeting space, 2) those that will accommodate technology initiatives currently underway, i.e. electronic plan review, and 3) aesthetic improvements; with regard to the area that will be renovated, that will include the main lobby, i.e. neighbor service representative's area, conference room, business assistance center, vending machine area, and restrooms. Renovations are also intended to occur in the UD&P neighbor service area.

Justification:

Making these needed renovations will aid the organization in being a leading government organization, managing our resources wisely and sustainably. Specifically, this initiative will provide for a safer, more efficient, and well-maintained facility and integrate sustainability into daily operations. Those who visit the lobby at DSD can see that it is in need of renovations. All the while, traffic continues to climb with a current average of 250 neighbors per day. Note that, for many neighbors, this is their first or only direct interaction with the City and City staff.

As a point of reference, the average national construction cost per square foot is around \$117. The planning level estimate that was developed in collaboration with the Public Works Department for this project is \$86.71 per square foot.

# SUSTAINABLE DEVELOPMENT SECURITY IMPROVEMENTS

# PROJECT#: FY20180636

Project Mgr:JonathanDepartment:Sustainable DevelopmentAddress:700 NW 19th AveMilesFund:140 Building Permit FundCity:Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33311

#### **Description:**

This project is intended to provide for design and construction of security improvements at the Greg Brewton Sustainable Development Center (DSD) located at 700 NW 19th Avenue, Fort Lauderdale, FL 33311. The first phase of this project will include procuring consulting services for the design of security technology improvements for the DSD property and building. The second phase will be for construction of the proposed improvements. These improvements are to include the following:

- 1) CCTV Surveillance Cameras
- 2) Video Management System (VMS) Solution
- 3) Video Storage Solution
- 4) Electronic Access Control Card Readers
- 5) Panic Buttons
- 6) Public Address (PA)/Paging System
- 7) Gate Security Technology

Note the budget estimate is a planning level estimate and the final budget will be revisited once preliminary designs are developed in order to ensure sufficient funding is in place for construction.

Justification:

This project will support the City's ongoing efforts to comply with the Payment Card Industry Data Security Standard. This project will also aid with addressing some of the recommendations provided in the security audit conducted of the facility by the City of Fort Lauderdale's Police Department.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: CityFacilities

 □ IV
 State:
 FL

 Zip:
 33311

Description: This project is for the transition of the 9-1-1 Call Center and Dispatch from Broward County to the City. Project costs

may include facility build out or renovation and equipment.

Justification: The City joined the Broward County Consolidated Regional E911 Communications System in August of 2014. Due

to ongoing issues with the regional system, the City is seeking to reestablish an independent E 911 PSAP for the City. Before joining the County Consolidated Regional E 911 Communications System, the City's 911 PSAP was located at Police Headquarters at 1300 W Broward Blvd., Fort Lauderdale, Florida and was staffed by Broward

County Sheriff's Office personnel.

Source Of the Justification: Not identified in an approved plan Project Type: Police

# PROJECT#: FY 20160415

Project Mgr: Barbara Department: Public Works Address: Various Eligible CDBG Neighborhoods

Howell x4505 Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

Description:

This project will begin with conducting a city-wide assessment of current conditions at roadway intersections under the City's jurisdiction to evaluate the City's compliance with the Federal guidelines of the Americans with Disabilities Act (ADA). The assessment will include a master plan (or "transition plan") that will help identify which intersections need to be improved for ADA access, as well as, a set of general design & construction details and a cost estimate for all anticipated work. Once the master plan is complete, implementation of the recommended repairs will commence. This includes replacement of non-compliant ADA ramps, the installation of new ADA ramps, the addition of detectable warnings, and repairs to sidewalks abutting ADA ramps. The majority of work will focus on intersections where micro-surfacing, asphalt paving and repair projects are being conducted as those activities trigger the requirement to immediately improve ADA access concurrently with the paving work.

Justification:

The Americans with Disabilities Act requires that persons with disabilities must have access into facilities, and pedestrian routes in the public right-of-way. Additionally, all roadway paving projects that are conducted adjacent to an ADA access point are required to improve the nearby ADA ramps and crosswalks. This project will bring the City's existing pedestrian facilities into ADA compliance, help ensure compliance with ADA requirements for paving projects, and increase overall pedestrian safety city-wide.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Roadway Improvements

#### Comments:

#### **Cost Estimate Justification:**

A consultant prepared preliminary assessments. They estimated approximately 6,000 ADA ramps city-wide require installation or replacement. Based on recent line item bids, the cost for similar work ranges from \$700 to \$1,500 per ADA ramp. And where a stormwater instrastructure is involved, ramps costs vary between \$4000 - \$7000 per ADA ramp. It is anticipated that 400 to 600 ADA ramps can be upgraded as part of proposed transition plan to help bring the City into proper ADA compliance.

# PROJECT#: FY20130184

Project Mgr: Enrique Department: Parks and Recreation Address: 100 N Victoria Park Road

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33301

Description: This project will install a sheet pile with a concrete cap seawall along the deteriorating ridge in the park. Its

estimated length is 100 feet. The project will also include the needed bank stabilization, and the installation of new

stairs leading down to the river.

Justification: The current stairs have been removed and the area closed off. The park's patrons have to walk from the farthest end of park to get down to the river bank. We need a wall to stabilize the area to protect against potential structural

failure of Victoria Park Road. This will provide our neighbors and visitors access to the river bank to put in paddle

boards and kayaks.

This project supports the City's Public Places Strategic Connection Goal to be a community that finds opportunities and leverages partnerships to create unique, inviting and connected gathering places that highlight our beaches,

waterways, urban areas and parks.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

 State:
 FL

 Zip:
 33316

**Description:** The wall is located at the Aquatic Center and has exposure to chlorides. The location is accessible for construction

with minimal restrictions. The top of wall elevation +2.52 requires raising by 1.43 ft per City Seawall Ordinance to

address sea level rise. Wall raising will be required by 2035 (the 16-20 Year Work Program Window).

Justification: The wall exhibits minor horizontal or vertical displacement. Delaminations and/or spalls may be present. There is

exposed reinforcing steel and additional surface evidence of reinforcing steel corrosion, discoloration efflorescence, and cracking. Moderate to major deterioration and cracking. Major deterioration of joints and evidence of loss of

fines.

Source Of the Justification: Sustainability Action Plan Project Type: Seawalls

#### Comments:

#### **Cost Estimate Justification:**

Since construction costs were originally based on 2014 and 2015 local and statewide averages, costs were adjusted for annual inflation. The Draft Seawall Master Plan consultant assumed 2% over a 5 year period. The project manager used an inflation rate of 3% over the appropriate number of years to forecast cost from FY2015 to the fiscal year that construction should begin.

Project Mgr: Thomas Department: Community Redevelopment Agency Address: 501 Seabreeze Blvd

Green Fund: 346 CRA - Beach City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33316

Description:

Unique and world renowned in the aquatics field, the Fort Lauderdale Aquatic Complex is a City-owned and operated 5-acre venue comprised of municipal swimming pools and the International Swimming Hall of Fame (ISHOF) museum. Renovation of the existing facility for public use includes the following improvements: remove existing 50 Meter Competition Pool and provide new expanded fully FINA compliant pool with movable bulkheads; remove existing Dive Pool and provide new expanded FINA compliant pool and dive tower; spectator seating for Diving and Competition pool; remove existing Spa for divers and provide new covered spa; repair existing 50 Meter training pool with new surfacing and gutters; repair and/or expand Instructional pool; new pool deck; remove existing grandstand building and provide new grandstand with spectator

restrooms, concessions, ticket office, and metal bleachers.

Justification:

The current facility is over 46 years old (1965-2012) and in addition to its regular community program offerings, has witnessed 10 world records as host to countless local, state, national and international events in swimming, diving, water polo and synchronized swimming. Swimming is a sport that has made Fort Lauderdale famous, having built the first Olympic-sized swimming pool in the state of Florida in 1928.

 □ IV
 State:
 FL

 Zip:
 33311

Description: This project will provide an addition to the pool building to include new restrooms, a new office and a new training

space.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks

and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts, incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase

playing opportunities throughout the City to meet the demands of a growing population.

Source Of the Justification: 10 - Year Parks and Recreation System Master Plan Project Type: Parks

(PRSMP)

# BASS PARK POOL IN-WATER RAMP TO POOL

## PROJECT#: FY 20150153

Project Mgr:PhilDepartment:Parks and RecreationAddress:2750 NW 19 StreetThornburgFund:331 CIP - General FundCity:Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project supports the installation of a new in-water handicapped ramp that allows access to the Bass Park pool.

Justification: Currently the pool has temporary steps that can be removed as needed. Broward County Health Department gave us a variance to use the temporary steps until a permanent ramp entrance to the pool is built. The pool has the Americans with Disabilities Act (ADA) lift which is required by the Health Department. The temporary steps and the lift currently are within the code, but the variance was only given to the City on a temporary basis.

The ADA regulates that public swimming pools have reasonable accommodations such as a pool ramp or lift for the handicapped and wheelchair-bound individuals. A permanent ramp installation will provide neighbors increased mobility and access to the pools to more easily and freely enjoy the benefits of water exercise and therapy. Easier access to the pool will encourage more participation from our neighbors.

Source Of the Justification: Parks & Rec Long Range Strategic Plan (7/1/08, Project Type: Parks

CAR08-0707, Item 1A)

# **BAYVIEW DRIVE BIKE/PEDESTRIAN PROJECT**

# PROJECT#: FY20140054

Project Mgr: Karen Department: Transportation & Mobility Address: Bayview Drive (from Oakland Pk to Commercia

Mendrala Fund: 331 CIP - General Fund City: Fort Lauderdale

Description: The project is on Bayview Drive from Sunrise Blvd. to Commercial Blvd. and includes implementation of the Coral

Ridge Country Club Estates Mobility Master Plan and Coral Ridge Master Plan. The project includes the installation of sidewalks where they are missing, swale improvements adjacent to the new sidewalks, traffic calming at 7 locations, ADA upgrades, removal of the 2 pedestrian signals and replacement with Rapid Flashing Beacons and

in-ground LED lighting and installation of a new crosswalk.

**Justification:** The project implements the Fast Forward Fort Lauderdale 2035 Vision, Connecting the Blocks Program implementation, Vision Zero, the Coral Ridge Country Club Estates Mobility Master Plan, and Coral Ridge Master

Plan. The improvements focus on achieving a multimodal transportation network for all users of the system consistent with the City Commission adopted Complete Streets Policy and Vision Zero. There have been 229 crashes in the last 5 years involving pedestrians, bicyclists, and/or vehicles along this segment of roadway illustrating a need to make safety improvements. Over 30% of those crashes were rear end collisions showing there

is an issue with vehicle speed with vehicles not being able to stop.

Source Of the Justification: Connecting the Blocks Plan Project Type: Roadway Improvements

**Project Funding Summary:**

# **BAYVIEW DRIVE BRIDGE OVER LONGBOAT INLET**

# PROJECT#: FY20180620

Project Mgr: Raymond Department: Public Works Address: Bayview Drive over Longboat Bridge

Nazaire Fund: 331 CIP - General Fund City: Fort Lauderdale

Description: This 20 ft. long, single span, reinforced concrete slab bridge was constructed in 1962. The 42 ft. wide bridge has a

roadway width of 28.3 ft. and carries two lanes of traffic, as well as two 2.9 ft. wide sidewalks separated from the

roadway by a raised curb, in a residential neighborhood.

Justification: The bridge is in poor condition based on National Bridge Inspection Standards and Florida Department of

Transportation (FDOT) guidelines. The bridge is classified as both functionally obsolete and structurally deficient by FDOT. The bridge has been identified as scour critical by FDOT because the foundations are unknown. The bridge is currently 52 years old. There are no feasible and prudent ways to protect low lying, pre-stressed concrete slab bridges that are chloride-contaminated. It is anticipated that replacement of the bridge will be required. The Bridge Master Plan recommends replacement in WP YR 11-15, but an FDOT sufficiency rating of 37 indicates repairs

should be considered sooner.

Source Of the Justification: 2014 Bridge Master Plan Project Type: Bridge

### **Project Funding Summary:**

# **BAYVIEW DRIVE COMPLETE STREETS PROJECT**

# PROJECT#: FY20180639

Project Mgr: Karen Warfel Department: Transportation & Mobility Address: Bayview Dr (Sunrise Blvd to Commercial Blvd)

Fund: 331 CIP - General Fund City: Fort Lauderdale

District: ☑ I ☐ II ☐ III ☐ IV State: FL Zip:

**Description:** 

The project is on Bayview Drive from Sunrise Blvd to Commercial Blvd and includes the implementation of improvements to the pedestrian and bicycle network including improvements to the swales and traffic calming. The Project is receiving funding from the Broward Metropolitan Planning Organization through the Complete Streets and Other Local Initiatives Program in the amount of \$4.3 million however does require additional funding to complete the improvements identified by the neighbors to make the roadway safer for all modes of transportation. The project will complete the sidewalk network, add bike lanes by narrowing the lanes, improve the swales, and add traffic calming at key intersections. This project implements strategies identified through the Coral Ridge Country Club Estates Mobility Master Plan as well as requests made by Coral Ridge Country Club Neighborhood

Justification:

The project implements the Vision Plan to create a Connected Community in Fort Lauderdale that provides multimodal connections for all users as well as the Coral Ridge Country Club Mobility Master Plan. It will serve as an eastern north-south spine of the multimodal network. This corridor functions as a scenic byway and will serve neighbors as well as tourists. The improvements are focused on achieving traffic calming and providing safe conditions for bicycling and walking in the neighborhood. There have been 231 crashes in the past five years, 58 involved injuries with 6 involving bicyclists and 4 involving pedestrians which were distributed along the roadway. The highest crash type was a rear end crash which were clustered at several key locations that will be targeted for traffic calming.

Source Of the Justification: Connecting the Blocks Plan

**Project Funding Summary:**

# BEACH TRAFFIC MANAGEMENT PLAN EXECUTION

# PROJECT#: FY20180651

Project Mgr: Elizabeth Department: Transportation & Mobility Address: Citywide

Van Zandt Fund: 331 CIP - General Fund City: Fort Lauderdale

District: ☑ I ☑ II ☑ III ☑ IV State: FL Zip:

### **Description:**

This project is needed to implement the Beach Traffic Management Plan, a 2015 Commission Annual Action Priority Plan item. The Beach Traffic Management Plan will provide for a comprehensive evaluation of traffic and mobility conditions on the barrier island, allowing for the identification of issues and solutions. The final strategy aims to change the way people travel to, from, and within the coastal areas of the city in order to support and sustain a thriving tourist and local resource. The scope of the plan under development includes the evaluation of park and ride incentives, truck delivery routing and scheduling, loading/unloading policies and enforcement, shared parking partnerships, smart parking technologies, traffic management technologies for special event and high volume times, new parking facilities, expanded waterway travel options, taxi and Uber/Lyft pickup/drop off locations, maintenance of traffic policies, wayfinding signage, enhanced pedestrian and bicycle facilities.

#### Justification:

This project addresses a top concern of neighbors as demonstrated by results of the annual neighbor surveys. Traffic not only causes delay, but leads to car crashes, severe injuries, and fatalities. Traffic created from people trying to access and leave the beach destination has the potential to negatively impact the tourism industry. This project will also contribute to achieving the goal of a fully connected, pedestrian friendly community.

Overall benefits to the community include enhancing quality of life, facilitating multimodal transportation implementation and utilization, and promoting economic development opportunities.

Source Of the Justification: Connecting the Blocks Plan

# **BREAKERS AVENUE COMPLETE STREETS**

# PROJECT#: FY20180640

Project Mgr:Debbie GrinerDepartment:Transportation & MobilityAddress:Breakers AvenueFund:331 CIP - General FundCity:Fort Lauderdale

District: ☐ I ☑ II ☐ III ☐ IV State: FL

Zip:

### **Description:**

The Breakers Avenue project will implement the streetscape vision established for the North Beach Village Area through the Central Beach Master Planning process. The consensus reached by stakeholders was for the City to prioritize creating Breakers Avenue as a model street that places more prominence on the safe movement of the pedestrian in recognition of the character and destinations on the street. Neighbors prioritized the addition of wider sidewalks, on-street parking, landscaping, street trees, string canopy lighting, and traffic calming on this 7 block stretch from Riomar Street north to the entrance of the Bonnet House Museum and Gardens. They also emphasized the need to address aging infrastructure and incorporate sustainable design elements and innovative stormwater treatments, which will be defined through the design process. The components of the project will be designed to serve multiple functions and provide co-benefits.

### Justification:

The project will address challenges that prevent the area from transforming organically in response to the increased pedestrian activity, including expansive asphalt, existing back-out parking, and a lack of shade and lighting.

The Central Beach Area has been designated an Adaptation Action Area (AAA). Infrastructure upgrades will increase the lifecycle of the streetscape investment and increase its overall resiliency. Breakers Avenue is at the highest elevation in the area and provides an opportunity to maximize stormwater retention that will reduce flooding on streets to the west, which are at significantly lower elevation and experiencing tidal flooding today.

Source Of the Justification: Connecting the Blocks Plan

# BRIDGE REPLACEMENT AT SOUTH OCEAN DRIVE

**PROJECT#: 12087** 

Project Mgr: Raymond Department: Public Works Address: South Ocean Drive & Marion Drive

Nazaire Fund: 331 CIP - General Fund City: Fort Lauderdale

x8954 **District**: □ I □ II □ III ☑ IV **State**: FL **Zip**: 33316

Description:

This project is for the replacement of an existing bridge at South Ocean Drive. The bridge is 80 feet long by 36 feet wide. The City's bridge No. 865775 was built in 1952. The project will be designed with FY 2015 funding and then will accumulate funding for replacement costs. The City is responsible for maintaining 52 bridges throughout the City. Florida Department of Transportation (FDOT) funded the design of the bridge, and the design was complete in 2008.

FDOT has not programmed replacement funds in its five year capital program.

Justification: The bridge is functionally obsolete and structurally deficient as indicated in a report prepared by FDOT.

Source Of the Justification: Bridge Master Plan Project Type: Bridge

# **BRIDGE RESTORATION**

PROJECT#: 12010

Project Mgr: Raymond Department: Public Works Address: Citywide

Nazaire Fund: 331 CIP - General Fund City: Fort Lauderdale

Description: This project is for the restoration of bridges with epoxy coating, including but not limited to: concrete spalls, cracks,

expansion joints, bulkheads, and concrete piles. The work will include replacement of extremely corroded rebars,

and other maintenance as identified in the Bridge Master Plan.

Justification: Most of the bridges have exposed and rusted reinforcement. In time, if these reinforcements are not protected, these

bridges will not be able to carry vehicular loads. Restoration consists of protecting these rebars with epoxy coating in order to slow down the deterioration and limit the damages already inflicted on these bridges. Paint coating shall also be applied if it is required on the bridge surface to protect it from hair-line cracks not repaired by the epoxy

coating.

Source Of the Justification: Bridge Master Plan Project Type: Bridge

# **BROWARD COUNTY SEGMENT II BEACH NOURISHMENT**

**PROJECT#: 12247** 

Public Works Address: Hillsboro Inlet and Port Everglades Project Mgr: Todd Department:

> 331 CIP - General Fund Fund: Fort Lauderdale Hiteshew City:

x7807 District: State: FL 33301 Zip:

Description:

The project involved placement of beach-compatible sand along 4.9 miles of Broward County coastline, between Hillsboro Inlet and Port Everglades (3.54 miles within the City limits). This includes beach nourishment at Pompano Beach and Lauderdale-By-The-Sea; beach restoration at northern Fort Lauderdale (between Flamingo Ave and Terramar St.); and dune construction within the Lauderdale-By-The-Sea and Fort Lauderdale segments. \$203,490 Hurricane Sandy reimbursement is in full, \$8,378,924 (\$2,792,975 A1A Beach Renourishment paid equally over a three year time period) including a \$6,676,404 (\$2,254,801 in Federal Funds reimbursed to the City equally over a three years' time period) commencing October 15, 2017. It is not known when the Federal reimbursement to the City is expected and is not included in the total costs as offsetting revenues.

Justification:

Broward County Segment II is considered critically eroded and the segment within Fort Lauderdale has never been nourished before. A healthy, sustainable beach is directly connected to quality of life and the economy. Broward's beaches attract 7.2 million visitors a year, who spend \$422 million annually in Broward County. They also contribute \$548 million annually to Broward County's economy, create 17,700 full-time equivalent jobs and protect over \$4 billion in shorefront structures and infrastructure. Source of justification is the Press Play Fort Lauderdale 2018, a Five-Year Strategic Plan.

Description: This project will provide athletic court enhancement by installing a new half basketball court.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts,

incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase

playing opportunities throughout the City to meet the demands of a growing population.

# CARTER PARK POOL IN-WATER RAMP TO POOL

# PROJECT#: FY 20150154

Project Mgr: Phil Department: Parks and Recreation Address: 1450 W Sunrise Boulevard

Thornburg Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

**Description:** This project supports the installation of a new in-water handicapped ramp to the Carter Park pool.

Justification: Currently the pool has temporary steps that can be removed as needed. Broward County Health Department gave the City a variance to use the temporary steps until a permanent ramp entrance to the pool is built. The pool has the Americans with Disabilities Act (ADA) lift which is required by the Health Department. However, the size of the pool requires to have two ways to enter/exit the pool for those needing assistance. The temporary steps and the lift

currently are within the code, but the variance was only given to the City on a temporary basis.

ADA requires that public swimming pools like the Carter Park Pool have a second means of access such as a pool ramp for the handicapped and wheelchair-bound individuals. A permanent ramp installation will provide neighbors increased mobility and access to the pools to more easily and freely enjoy the benefits of water exercise and therapy. Easier access to the pool will encourage more participation from our neighbors.

Source Of the Justification: Parks & Rec Long Range Strategic Plan (7/1/08, Project Type: Parks

CAR08-0707, Item 1A)

# CARTER, CROISSANT & LAUD MANORS WATER PLAYGROUNDS

# PROJECT#: FY 20170479

Project Mgr: Carl Williams Department: Parks and Recreation Address: Carter, Croissant and Lauderdale Manors Pools

Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33301

**Description:** This project supports an upgrade to the existing water playground feature at the Carter Park Pool. The upgrade would include an additional platform, a larger dump bucket, an additional slide at the Carter Park Pool water

playground. The project includes plumbing upgrades.

A part of this project request also includes upgrading the existing slides at Croissant and Lauderdale Manors Park

water playgrounds. The current slides are outdated, over 15 years old and need upgrading.

Justification: The Carter Pool water playground, which opened in 2006, is the smallest of all the playground featured City pools, with 1 slide, 2 water cannons, and 2 arm features (tire swing and water cascade). The Carter Park is a busy and popular destination for our neighbors with the Orange Bowl field and centralized location. Upgrades to the water playground at the pool will bring new interest to the pool and people to the park. Ample space is available for the improvements. This is an opportunity to create a more attractive and fun area for water play for our neighbors within the City.

The two slides at Croissant and Lauderdale Manors Pool need to be replaced. Current slides at both locations are no longer made and an entirely new slide will have to be put in place. The hardware (screws and bolts) that secure the structure to the slide are constantly being replaced due corrosion and wear and tear.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

# CITY HALL ELEVATOR MAINTENANCE UPGRADE

# PROJECT#: FY20130199

Project Mgr: Enrique Department: Parks and Recreation Address: 100 N Andrews Avenue

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

**Description:** This project provides for the complete modernization of all four City Hall elevator cars. The project scope includes:

(1) Freight elevator - replace traction elevator, passenger, base unit, 3,500 pounds four stop.

(2) Passenger 1, 2, and 3 elevators - Replace traction elevators, passenger, base unit, 2,500 pounds four stop.

Justification: The project benefits the long-term investment of the building, ensures safe and secure building operation, and meets

the expectations of building tenants and visitors. The City Hall elevators experience significant down time due to the age. They need repair and replacement for worn out motors, controllers, and other electrical and mechanical

components.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: CityFacilities

# CITY-OWNED SEAWALL RESTORATION AND REPLACEMENT

PROJECT#: 12330

Project Mgr: Brandy Department: Public Works Address: Citywide

Leighton Fund: 331 CIP - General Fund City: Fort Lauderdale

**Description:** This project will address the capital repair and/or replacement of the City-owned seawalls as identified in the proposed Seawall Master Plan (Project No. 12212). The repair or replacement efforts will include potential structural

modifications to address the challenges associated with sea level rise, in addition to the standard capital repairs,

rehabilitations, or replacement.

Justification: The City owns approximately 3.7 miles of seawalls. Many of these seawalls show signs of deterioration and potential

failure. Seawall failure could negatively impact navigation and threaten the stability of soil embankment. As a coastal community, the City must prepare for the impacts of climate change. Expected sea level rise is 6 to 10 inches above 1992 mean sea levels by 2030 and 14 to 26 inches above 1992 mean sea levels by 2060. To meet community needs for an improved level of service due to a sea level rise and increased storm events, the City must address the current

height of seawalls which are insufficient to address the higher sea levels expected in the future.

Source Of the Justification: Sustainability Action Plan Project Type: Seawalls

### **Project Funding Summary:**

#### Comments:

### **Cost Estimate Justification:**

Cost to replace a seawall factored at \$1,400/LF. Derived from estimated construction cost for Bayview Drive seawall repair and seawall replaced at NE 26th Ave near the 55th St Bridge. The cost to repair would be \$700/LF, which is 50% of the replacement cost. For seawall only to be capped, a factor of \$95/LF was used from the East Las Olas Boulevard Southwest Repairs Project. The Construction cost estimate based on 40% of sea wall replacement, 40% repair and remaining 20% only require capping.

# CITY-WIDE PLAYGROUND REPLACEMENTS

**PROJECT#: 12248** 

Project Mgr: Enrique Department: Parks and Recreation Address: Citywide Playgrounds

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33311

Description: This project is for the design and installation of new playgrounds, surfacing, and new shade structures, where

needed, at various parks throughout the City.

The allocated funding for the targeted parks:

Year 2018 Parks: Holiday Park (\$300,000), Bayview (\$150,000) and Riverland (\$150,000)

Year 2022 Parks: Warfield (\$150,000), Palm Aire Village (\$150,000), Mills Pond (\$300,000), Lincoln (\$150,000),

Esterre Davis Wright (\$150,000), Hardy (\$300,000) and Beach Playground-Boundless at Sebastian (\$150,000)

Justification: The results from this project will provide the safe and accessible playgrounds for neighbors and visitors. The

playgrounds are inspected monthly for safety, repairs, and to remove unwanted items. A playground's life-cycle is

typically ten years and most of these playgrounds have exceeded their life-cycle.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

# **CODE COMPLIANCE WORK SPACE UPGRADES**

# PROJECT#: FY20180653

Project Mgr:Al Battle, Jr.Department:Sustainable DevelopmentAddress:700 NW 19th AveFund:331 CIP - General FundCity:Fort Lauderdale

Fund: 331 CIP - General Fund City: Fort Lauderdale District: ✓ I ✓ II ✓ III ✓ IV State: FL

**Zip:** 33311

Description: The intent of this project is to upgrade the Code Compliance work spaces (cubicles), including adding/modifying

spaces to adequately accommodate current and future staffing levels.

Justification: The current Code Compliance work spaces are dated and in need of being upgraded. Additionally, the current

spaces do not adequately accommodate current and future staffing levels. With that, the current trend in literature suggests that workspace can significantly impact productivity as workspace influences everything from the quality of work to job satisfaction. To that end, not only would space be added/modified to accommodate staffing, but the City may also realize efficiencies and enhanced effectiveness as it relates to service delivery. Note that parts are no longer available from the manufacture for the current equipment due to the age of the system, which presents challenges when space modifications are required, or if the proprietary electrical system within the cubicles need to

be replaced, updated, etc.

Source Of the Justification: Press Forward Fort Lauderdale 2018, A Five-Year Project Type: CityFacilities

# COONTIE HATCHEE PARK BASKETBALL COURT

# PROJECT#: FY 20170558

Project Mgr: Enrique Department: Parks and Recreation Address: 1116 SW 15th Avenue

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33312

Description: This project will provide athletic court enhancement by installing a new half basketball court.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks

and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts, incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase

playing opportunities throughout the City to meet the demands of a growing population.

Source Of the Justification: 10 - Year Parks and Recreation System Master Plan Project Type: Parks

# **CORDOVA ROAD COMPLETE STREETS PROJECT**

**PROJECT#: 12158** 

Address: Cordova Road (SE 15th St to SE 17th St) Transportation & Mobility Project Mgr: Karen Warfel Department:

> City: Fort Lauderdale 331 CIP - General Fund x3798 Fund:

> > District: State: FL 33316 Zip:

Description: The Cordova Road project will convert the existing four vehicle lane section to a three vehicle lane section with bike lanes. The work will also include landscaped buffered sidewalks, a new pedestrian crossing, pedestrian lighting, and

traffic calming with the design and construction being funded through a Transportation Alternatives Grant.

Cordova Road has a significant amount of vehicle, pedestrian, and bicycle traffic with numerous points of conflicts Justification:

between SE 17th Street and SE 15th Street. The only pedestrian crossing is at the southern end at SE 17th Street, yet there is significant pedestrian traffic due to the 3.6 million tourists utilizing the port annually, and neighbors accessing the retail and services in this area. There are also no bicycle facilities. This neighborhood has a much higher percentage of neighbors that do not have access to a vehicle (17.7% v 7.7%), and access their jobs by walking (12.7% v 2.9%) than the City as a whole, making it more critical to provide safe paths. There were 62 crashes in this two block corridor over the past five years, the majority of which occurred in the area between the South Port Shopping Center and Quarterdecks and involved mostly southbound vehicles and turning movement

conflicts in and out of the shopping plazas and streets.

Connecting the Blocks Plan Source Of the Justification: Project Type: Roadway Improvements

## **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING
CIP - General Fund   PROJECT CONTINGENCIES									
331	6598	\$20,000				\$150,000			\$170,000
Total Fund 3	331:	\$20,000				\$150,000			\$170,000
GRAND TOTAL:		\$20,000				\$150,000			\$170,000

Comments: The request is for contingency for the TAP project. The grant will now fund design in 2019, with construction in 2021. Total grant is \$1.5 million which will be managed by FDOT.

#### Impact On Operating Budget:

MPACT		AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING
Incr./(Dec.) Op	perating Co	sts							
CHAR 30							\$9,000		\$9,000
TOTAL							\$9,000		\$9,000

Comments: The final impact is not able to be quantified until the design is completed. Based on 3 median islands at 120 feet of length the estimated cost of maintenance would be \$9,000. Patterned pavement maintenance should be programmed in 5 year increments.

### **Cost Estimate Justification:**

Cost estimate provided by Public Works Department based on the preliminary conceptual plan as identified for the Transportation Alternatives Grant Application (February 2015 application) to address concerned that have been raised by the neighborhoods which will potentially include a lane elimination, the addition of bike lanes, a new crosswalk, raised patterened pavement intersection at SE 16th Street, pedestrian-scale lighting, and landscaping.

#### **Quarters To Perform Each Task:** Strategic Connections: Infrastructure 2 Cylinder: Initiation / Planning: 6 Design / Permitting: 2 Be a Pedestrian friendly, multi-modal City Strategic Goals: Bidding / Award: 5

Objectives: Integrate transportation land use and planning to create a walkable

and bikeable community

**Construction / Closeout:** 

# **CORDOVA ROAD SEAWALL REPLACEMENT**

**PROJECT#: 12337** 

Project Mgr: Raymond Department: Public Works Address: Cordova Road between SE 8th and 12th Street

Nazaire Fund: 331 CIP - General Fund City: Fort Lauderdale

x8954 **District**: □ I □ II □ III ☑ IV **State**: FL **Zip**: 33316

**Description:** This project will repair/replace a 1,500 linear feet portion of a seawall along Cordova Road between SE 8th Street and SE 9th Street. The wall cap has areas of spalls, coral rock seals has failed creating voids, there are spalls with

exposed rebar and cracks with staining. There is visible distress to the soil behind the wall. The wall is currently over topping. This project will fund the design, permitting, and construction to repair/replace a portion of the existing

seawall.

Justification: The overall condition of the wall is poor. Inspection of the seawall revealed signs of potential failure at several

locations. The seawall cap has tilted slightly towards the waterside and cracks in the seawall cap were noticed during the inspection. In addition, water overtops the seawall, causing flooding on the swale and encroaching on the

roadway.

Source Of the Justification: Sustainability Action Plan Project Type: Seawalls

## **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING

 District:
 □ I
 □ II
 □ III
 ☑ IV
 State:
 FL

 Zip:
 33304

**Description:** 

This project is to complete the ball field improvements at Croissant Park. The improvements include the construction of a concession, restroom, and storage facility. This project will also include renovations to the recreation center's ceiling and roof and the upgrade to energy efficient lighting. Croissant Park currently utilizes several storage containers placed throughout the parking lot in order to store equipment, and supplies for the operations at the park. Additionally, the City rents portable restrooms for use during events, rentals, and other programmed activities. The containers and portable restrooms were proposed as a temporary resolution to activate the park and increase usage. The containers and portable restrooms have been in use far beyond the intended purpose, and the facility requires a long-term solution.

Justification:

Depending on the season Croissant Park can have hundreds of children and their families at the park on a nightly basis however the park does not have the facilities needed to support that level of use. The portable restrooms are not adequate for long term use and the storage sheds take up valuable parking lot space and give the park an industrial look and feel. The cost of renting the restrooms and storage containers will offset any operating impact of the new building. This park is not used to its full potential because of the lack of infrastructure. The facility's aging-play fields are in need of new energy efficient lighting. We are denying groups field space due to not having enough available. The new lighting will increase the available field space, and usability for youth athletic groups.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

Description:

The project is for the installation of a 10' x 100' the Americans with Disabilities Act (ADA) accessible floating dock at Merle Fogg/Idlewyld Park. Project elements will include an ADA compliant concrete walkway necessary to connect the dock to the City's sidewalk, an ADA compliant ramp platform, an ADA compliant ramp and the floating dock itself. Completion of the project will require 2 phases. Phase I design and permitting and Phase II construction. Since the submerged lands are not owned by the City, a new submerged land lease or a modification to the existing mooring field lease will be required.

Justification: The project will function as a dinghy dock/landing for the public wishing to access the beach or the county transit.

The project is for the installation of a 10' x 100' ADA accessible floating dock at Merle Fogg/Idlewyld Park. Project elements will include an ADA compliant concrete walkway necessary to connect the dock to the City's sidewalk, an ADA compliant ramp platform, an ADA compliant ramp and the floating dock itself. # PROJECT#: FY20180658

Transportation & Mobility Address: Citywide Project Mgr: Elizabeth Department:

331 CIP - General Fund Fort Lauderdale Van Zandt Fund: City:

x3796 District: ☑ III ☑ IV State: FL 33311 Zip:

Description:

The FY 2019-FY 2022 funding will be used to continue the implementation of the projects identified in the 2013 Walkability Study, the upcoming Transit Oriented Development Plan, and the Vision Zero Action Plan. This effort has been deemed one of the highest City Commission priorities, and will make the largest impact on walkability.

The anticipated projects will include pedestrian and bicycle infrastructure improvements detailed and prioritized in the Connecting the Blocks Program. The scope of the project's limits and components will be added to the Community Investment Plan (CIP) request for the upcoming funding period. Amenities called for in the study that are not covered in the Connecting the Blocks Program will be included for the defined project limits. This is included, but not limited to wayfinding signage, shade trees and landscaping, pedestrian lighting, low impact stormwater infrastructure, and enhanced pedestrian crossing improvements such as painted intersections.

Justification:

This project implements the Connecting the Blocks Program, FY 2014 the City Commission Annual Action Priority, and the Downtown Walkability Study conducted by Jeff Speck during FY 2013. This study resulted in recommendations for a variety of projects identified to improve walkability in the downtown area. The City Commission appropriated \$500,000 each year in FY 14, 15, 16, and 17 (Phases 1, 2, 3, and 4) to this effort, which resulted in pedestrian crossings, the Americans with Disabilities Act (ADA) ramp upgrades, painted intersections, and other pedestrian improvements.

# EAST LAS OLAS BLVD. SEAWALL REPAIR

# PROJECT#: FY 20170502

Project Mgr: Raymond Department: Public Works Address: Merle Fogg Park

Nazaire Fund: 331 CIP - General Fund City: Fort Lauderdale

x8954 **District**: ☐ **I** ☑ **II** ☐ **III** ☐ **IV State**: FL **Zip**: 33301

Description: This project will raise the seawall concrete cap at two locations along East Las Olas Boulevard between Lido Drive

and Coral Way to address sea level rise. This project will also seal the face of the existing rubble rock seawall with

non-shrink cement mortar. This project will fund the design, permitting, and construction work.

Justification: During extreme high tides, canal water overtops the seawall caps at two locations. The two seawalls that run parallel

to East Las Olas Blvd are approximately 100 linear feet each. In addition, a visual inspection revealed the need to

seal the face of the rubble rock seawall to prevent water intrusion and weakening of the structure.

Source Of the Justification: Sustainability Action Plan Project Type: Seawalls

Description: This project supports the repair and replacement of the interior windows, doors, interior finishes of walls, floors and

ceilings, stair construction and handrails at the Fire Prevention Bureau, Fire Stations 2, 3, 29, 35, 46, 47, 49, and 53, Parks/Fleet Compound, City Hall, Fort Lauderdale Aquatic Complex and Carter Floyd Hull, George English and

Holiday, Bass, Osswald and Warfield Parks.

Justification: These projects were prioritized in the 2014 Facility Condition Assessment and have been identified to have exceeded

their useful life. They are in need of repair/replacement to avoid compromising the integrity of the facility.

Source Of the Justification: Facilities Condition Assessment Project Type: CityFacilities

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33304

Description: The project is to convert one multi-purpose field and two football fields at Holiday Park from real turf to a synthetic

turf. The synthetic turf fields allow for increase use of the athletic fields without downtime for maintenance and recovery. This means that the our neighbors and visitors would be able to use the fields without the City having to acquire or allocate new land for athletic fields. The artificial turf fields have the added benefit of not requiring chemical pesticide and fertilizer application. The artificial turf fields use significantly less water than Bermuda grass fields to

maintain.

**Justification:** The reduced maintenance costs will more than compensate the expense of the initial investment.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

**Project Funding Summary:** 

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING

# FIRE ALERTING SYSTEM - REPLACEMENT

**PROJECT#: 12344** 

Project Mgr: Division Chief Department: Fire-Rescue

Stewart Fund: 331 CIP - General Fund City: Fort Lauderdale

Zip:

Address: City-Wide

**Description:** 

In August of 2014, the City of Fort Lauderdale entered into a Inter Local Agreement with Broward County for a Regional Communications System to provide dispatch services for the Police and Fire Departments.

Broward County currently provides fire department alerting and dispatching services to the Broward Sheriff's Office (BSO) Department of Fire Rescue, and municipal fire departments throughout the county. Currently, 106 fire stations are alerted and dispatched by the County. Dispatch operations are conducted from three public safety answering points (PSAPs), geographically located in the north, central, and south areas of the county, with specific station alerting and dispatching responsibilities assigned to each PSAP.

It is currently recommended that all municipalities fully integrate a single, uniform Fire Alarm System across all Broward County Fire Agencies.

Justification:

The current fire station alerting (FSA) system is the Zetron Model 26/6 system.

Zetron has indicated that the Model 6 station unit has reached end-of-life and is superseded by a newer model. Zetron further advised the County that the Model 26 encoder will reach end-of-life in 2020.

On Tuesday, March 15, 2016, the Board voted unanimously to begin the process to solicit bids from qualified vendors to replace the existing Fire Station Alerting System (FSA). Broward County proposes to replace the Zetron FSA system to support current and future fire department alerting needs. The new FSA system will be interfaced with the new Motorola Premier One computer-aided dispatch system, and will also provide end user departments the option of enhanced fire station functions.

According to the Inter Local Agreement, each municipality is responsible for the Fire Station Alerting (FSA) units at each station.

Source Of the Justification: Not identified in an approved plan

**Project Funding Summary:**

Description: This project will provide an athletic court enhancement by installing a new basketball court.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts, incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and

existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase

playing opportunities throughout the City to meet the demands of a growing population.

# FLEET MAINTENANCE & REPAIR GARAGE FACILITY

## PROJECT#: FY20100188

Public Works Address: To Be Determined Project Mgr: Sandy Department: 331 CIP - General Fund Fort Lauderdale Leonard Fund: City:

> x5781 District: ☑ III ☑ IV State: FL

33301 Zip:

Description: This project is to construct a new centralized fleet maintenance and repair garage facility with repair bays, a fuel

station, car and truck washes, and a space for both traffic flow and parking for vehicles awaiting repair. The disposition requires 5.5 acres of land and a facility area of approximately 26,300 square feet. This project could be in

conjunction with the New Police Headquarters CIP #2008179 or through a purchase/lease of property.

Justification: A new centralized fleet maintenance facility including a fuel station and a car wash is required to replace the old

existing and inadequate facilities hindering productivity of fleet maintenance and congestion, especially with storage

of vehicles to be auctioned. The costs do not include acquisition of property and space for employee parking.

Not identified in an approved plan Source Of the Justification: **Project Type:** CityFacilities

# FLOYD HULL PARK RENOVATIONS

# PROJECT#: FY20080031

Project Mgr: Enrique Department: Parks and Recreation Address: 2800 SW 28 Street

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

Description: This project is to renovate and bring up to code all existing buildings on the site. It will also include upgrades to the

Morton Activity Center, improve the drainage, provide quality fencing, refurbish the grand stands, renovate the

kitchen, playground, restrooms, etc. The park is 9.7 acres.

Justification: The facility was built in the 1960's. It has code issues and is deteriorating. The facility was originally built by the

community, so there are direct ties to the neighborhood. The community would like to see the original shell preserved. This facility is part of the facilities assessment, however the assessment focused on facility deficiencies

and not outdoor park amenities so the items requested in this CIP are not covered.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: CityFacilities

# **GEORGE ENGLISH PARK BOAT RAMP RENOVATIONS**

**PROJECT#: 12186** 

Project Mgr: Jonathan Department: Parks and Recreation Address: 1101 Bayview Drive

Luscomb Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33304

Description: This request is for the replacement of the boat ramps at the George English Park. Use of the boat ramps is currently

limited due to concrete tiles that dislodge and give way to create submerged pot holes. The ramps need to be replaced with a design which will withstand present day uses and anticipated increased use by larger and longer trailerable boats which are now able to access the ramps because of the new and higher Sunrise Boulevard Bridge. The City applied for and received a grant from the Florida Boating Improvement Program which provided funding assistance for design and permitting phase of this project. Design and permitting are expected to be complete in

March 2017.

Justification: FDOT has completed replacing the Sunrise Boulevard Bridge. The new bridge now has an increased clearance of

approximately 3.8 feet and allows larger vessels to access the George English Park boat ramps. The existing ramps were designed for smaller vessels which were not restricted by the old bridge's low clearance. Larger vessels are already availing themselves to the George English Park ramps because of the increased bridges clearance. This is an alternative to avoid the crowded conditions associated with the Cox's Landing and the 15th Street boat ramp. It is anticipated that parking revenues will increase significantly due to increase access to a larger variety of vessel sizes which will be accommodated. Grant Funding of 50% of the estimated construction costs were sought from the

Florida Inland Navigation District in March 2017.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Marine

Description: This project will provide athletic court enhancement by installing a new half basketball court.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks

and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts, incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase

playing opportunities throughout the City to meet the demands of a growing population.

Source Of the Justification: 10 - Year Parks and Recreation System Master Plan Project Type: Parks

(PRSMP

# HIGH MAST LIGHTING SYSTEM COMMERCIAL BLVD.

PROJECT#: 12340

Project Mgr: Enrique Department: Parks and Recreation Address: Commercial Blvd. & Federal Highway

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

Description: This project will replace eight (8) high mast lighting/lowering systems on Commercial Boulevard.

Justification: This work is required due to the age and deterioration of the lowering system. The devices can no longer be lowered

to service the lights, and more importantly, cannot be lowered in preparation for a tropical storm or hurricane. The maintenance of the lights is the responsibility of the City. The maintenance is required by the agreement with the

Florida Department of Transportation.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Roadway Improvements

## PROJECT#: FY 20170566

Project Mgr: Enrique Department: Parks and Recreation Address: 1150 G. Harold Martin Drive

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33304

Description:

This project will provide many upgrades and improvements to one of the City's most heavily used recreational parks. Improvements include upgrading landscaping throughout the park, fencing and access control to help secure fields and various assets stored throughout the park, new signage to reflect new amenities at the park while provide a welcoming feel, lighting and upgrades to the dog park and sand volleyball courts, improvements to the irrigation system throughout the park, new furnishings at the two concession areas, and converting one of the roller hockey rinks to small sided soccer in order to better utilize the space by providing additional practice and game space for both younger and older participants.

Justification:

The current growth downtown, along Federal Highway and Sunrise Boulevard is bringing thousands of new neighbors to the area who are in need of places to recreate. Holiday park provides nearly 100 acres of diverse recreational experiences from active sports to a leisurely stroll. Holiday Park, along with Riverwalk and the beaches provide complete recreation opportunities no matter what our neighbors and visitors are seeking. Holiday Park is heavily used and is need of renovation and upgrades to meet the growing demand as the City becomes more dense. The recently completed, Parks and Recreation System Master Plan has also recommended reinvestments to improve access to recreate bringing facilities to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancements of existing amenities.

# **HUIZENGA PARK ARTIFICIAL TURF**

## PROJECT#: FY20180614

Address: 32 East Las Olas Blvd. Parks and Recreation Project Mgr: Enrique Department:

> 331 CIP - General Fund Fort Lauderdale Sanchez Fund: City:

> > District: State: FL 33301 Zip:

Description:

This project supports the installation of 35,000 square feet of artificial turf at Huizenga Park. To turn-key this area from existing to a turf surface, which would include all demo, sod and soil removal, soil taken off site, then laser grading and compaction of the subgrade, installation of a normal six (6) inches of aggregate stone and suitable drainage piping, nailer board for turf attachment and fiber turf system using a sand-rubber infill system.

Costs include engineering and stormwater planning and that the existing sidewalk edging/curbing could be used to the nailer boards. This field will not be used for athletic purposes.

Justification:

Huizenga Park is one of the most highly used event spaces in the City, oftentimes hosting multiple events on a single weekend. This amount of usage to include traffic from the equipment used to set up and break down the events causes major damage to the turf and results in the substandard appearance of a facility frequented by thousands of people a day. The addition of the ice rink at Huizenga has exacerbated the problem further as the ice rink structure caused so much damage the entire park had to be re-sodded. Since this event will be recurring annually, an artificial turf event space will eliminate the need for annual re-sodding while providing additional use and a more pleasing aesthetic image for the entire year. Artificial turf surfaces, although not entirely maintenance free, will reduce the cost of mowing and maintaining a natural grass field in addition to significantly reducing the use of water.

2035 Vision Plan: Fast Forward Fort Lauderdale Source Of the Justification: Project Type: Parks

# ISLE OF PALMS DRIVE SEAWALL REPLACEMENT

## PROJECT#: FY 20170503

Project Mgr: Raymond Department: Public Works Address: West side of Isle of Palm Drive

Nazaire Fund: 331 CIP - General Fund City: Fort Lauderdale

x8954 **District**: ☐ **I** ☑ **II** ☐ **III** ☐ **IV State**: FL **Zip**: 33301

Description: This project will replace approximately 930 linear feet of seawall along Isle of Palms Drive. This project will fund the

design, permitting, and construction to replace the existing seawall.

Justification: A portion of the seawall appears to be bulging towards the canal. Multiple cracks and fractures are present which

may be due to soil pressure and water at high tides. The area has been known for floods, leading to the entire seawall underwater during heavy showers and storms. Fractures go through the top slab, allowing vegetation and water to pass through and weaken the structure. Parts of the seawall have been broken apart, leaving reinforcing steel rebar exposed. This causes rust and further weakens the structure. Cracks have been found to travel both across the seawall and along the top of the wall. Soil closest to the seawall has subsided, possibly passing through holes in the wall and into the canal. This leaves room for water to settle in place of the soil. The ends of the seawall

are broken and need replacement.

Source Of the Justification: Sustainability Action Plan Project Type: Seawalls

### **Project Funding Summary:**

MPACT	AVAILABLE \$	UNFUNDED T	TOTAL FUNDING
			\$0
TOTAL			\$0

Comments:

## **Cost Estimate Justification:**

Since construction cost were originally based on 2014 and 2015 local and statewide averages, costs were adjusted for annual inflation. The Draft Seawall Master Plan consultant assumed 2% over a 5 year period. The project manager used an inflation rate of 3% over the appropriate number of years to forecast cost from FY2015 to the fiscal year that construction should begin.

# **LAND & ASSET MANAGEMENT SYSTEM PROJECT**

PROJECT#: 12235

Project Mgr: Valerie Arthur Department: Sustainable Development Address: Citywide

Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

Description:

The current land management software solution, Community Plus is obsolete and no longer offers the functionality needed by the Community and the multiple departments it serves. In addition, the software is running on unsupported hardware and legacy database management system. The adoption of a new and resourceful software system is in alignment with strategic goals focused on business development, neighborhood enhancement and internal support. Community Plus is composed of seven modules or applications utilized as the backbone of operations for Permitting, Planning, Code, Business Tax, Fire Prevention, Alarm Billing and Special Assessments. Replacement of Community Plus must include the replacement of six applications with the exception of Special Assessments which is moving to the new ERP system.

Justification:

This project will result in acquiring and deploying a robust and fully supported system that will utilize the latest technologies, increase the automation of current manual tasks, and expand the usage of electronic records to improve productivity and public service delivery, while reducing bottlenecks and cutting administrative costs. The Community and Community Builders will benefit from enhanced services and processes that can be expected from the latest web, geographic information system.

The cost increase over the original Accela project is based on the implementation costs of the expanded scope and the increase of staff. This cost encompasses the additional Accela licenses, annual maintenance licenses, Crystal Reports licenses, and iPads needed for the expanded scope.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Operations

# LAS OLAS BOULEVARD PHASE 2 FULL BUILD OUT

## PROJECT#: FY20180657

Project Mgr: Elizabeth Department: Transportation & Mobility Address: E Las Olas Blvd and within Colee Hammock

Van Zandt Fund: 331 CIP - General Fund City: Fort Lauderdale

**Description:** This project is for the permanent infrastructure changes to Las Olas Boulevard improvements between the Himmarshee canal to SE 15th Avenue in the event that the 6-month lane re-purposing trial/evaluation is successful

and the Commission approves the lane condition permanently. The project scope will include changes to the curbs with expanded sidewalks, new trees, new lighting, utility upgrades, Americans with Disability Act (ADA) upgrades,

and other multi-modal features such as bicycle facilities.

Justification: A mobility study was completed that called out for improvements to Las Olas Boulevard between the Himmarshee

Bridge and SE 15th Avenue to address pedestrian safety issues. A 6-month trial/evaluation is being conducted

through early 2018. The City Commission will vote on whether or not to make the lane re-purposing permanent.

Source Of the Justification: Connecting the Blocks Plan Project Type: Roadway Improvements

# LAS OLAS MARINA ELECTRICAL UPGRADE

## PROJECT#: FY 20150159

Project Mgr: Andrew Cuba Parks and Recreation Department:

Address: Las Olas Marina 331 CIP - General Fund Fort Lauderdale Fund: City:

District: ☑ III ☑ IV State: FL 33316 Zip:

Description: This project is for the electrical upgrades to the service centers at 24 slips on the north side of the Las Olas Marina.

The current cost estimates is approximately \$60,000 per slip for installation of 200 amp/480 volt, and single and 3-phase electrical power. This will allow the Marine Facilities to accommodate the mega-yacht vessels' demands for

dockage at the Las Olas Marina. This project supports the installation of electrical upgrades at the C-Dock only.

Justification: The electrical upgrades are required to keep pace with the mega-yacht vessels' capacity of 200 amp/480 volt, and

single and 3-phase electrical requirements. The upgraded electrical will allow for dockage of the mega-yachts on a

year round basis with an anticipated increase in revenue of approximately \$125,000 per year.

2035 Vision Plan: Fast Forward Fort Lauderdale Source Of the Justification: Project Type: Marine

## **Project Funding Summary:**

# LAS OLAS TUNNEL TOP PARK

**PROJECT#: 12058** 

Project Mgr: Elizabeth Department: Transportation & Mobility Address: Federal Hwy and Las Olas Blvd.

Van Zandt Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: The City proposes to build a pedestrian plaza on the top of the Kinney Tunnel on the north side of the River. The

plaza will extend north from the intersection of Las Olas Boulevard and SE 6th Avenue (US 1) approximately 75'. This is to address major pedestrian safety issues that exist due to sight distance issues created by the tunnel side walls. In addition, it will provide much needed green/open space for the surrounding area and serve to seamlessly

connect the east and west sides of the tunnel along Las Olas Boulevard.

**Justification:** To be funded by Park Impact Fees, City Manager Memo 14-034, dated 3/7/14.

This was originally called out for in the Broward Boulevard Gateway Plan and then Jeff Speck's Downtown Walkability report. It was a Commission Annual Action Priority in FY 14.

The most recent FDOT Statewide Pedestrian Crash Cluster Analysis indicates that the location of the proposed plaza and the surrounding area have significant pedestrian safety issues (FDOT State Safety Office 2014).

Source Of the Justification: Jeff Speck Walkability Plan (5/28/2013) Project Type: Parks

## **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING
CIP - Gene	ral Fund   CON	STRUCTION

# LAUDERDALE MANORS POOL NEW IN-WATER RAMP TO POOL

## PROJECT#: FY 20150156

Project Mgr: Phil Department: Parks and Recreation Address: 1340 Chateau Park Drive

Thornburg Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project supports the installation of a new in-water handicapped ramp to the Lauderdale Manors Park pool.

Justification: Currently the pool has temporary steps that can be removed as needed. Broward County Health Department gave the City a variance to use the temporary steps until we were able to build a permanent ramp entrance to the pool. The pool has the Americans With Disabilities Act (ADA) lift which is required by the Health Department. The temporary steps and the lift currently are within the code, but the variance was only given to the City on a temporary

basis.

ADA regulates that public swimming pools have reasonable accommodations such as a pool ramp or lift for the handicapped and wheelchair-bound individuals. A permanent ramp installation will provide neighbors increased mobility and access to the pools to more easily and freely enjoy the benefits of water exercise and therapy. Easier access to the pool will encourage more participation from our neighbors.

Source Of the Justification: 2035 Vision Plan: Fast Forward Project Type:

# LIDO DRIVE SEAWALL REPLACEMENT

**PROJECT#: 12338** 

Project Mgr: Brandy Department: Public Works Address: 301 Lido Drive

Leighton Fund: 331 CIP - General Fund City: Fort Lauderdale

**Description:** The wall is located on the Las Olas Isles with exposure to chlorides. The canal bottom in front of the wall appears to be stable and slope and protection/stabilization is not required. The location is accessible by land and water. The

minimum top of wall elevation +3.43 requires raising by an average 1.10 ft per City Ordinance to address sea level

rise. This will be accomplished within the 0-5 Year Work Program Window.

Justification: The wall cap and piles have areas of spalls with exposed reinforcing and there are cracks and staining throughout

the cap, panels, and piles. The cost of Repair/Raising exceeds the Replacement Cost, and the wall will be vulnerable to over topping in the year 2036. As a result, due to the condition of the wall the short term recommendation is for replacement of the wall with a concrete panel/pile wall system within the 0-5 Yr Work

Program Window.

Source Of the Justification: Sustainability Action Plan Project Type: Seawalls

 Zip:
 33301

Description: This project is for installation and replacement of regulatory navigational waterway and ocean regulatory signage, as

well as vessel exclusion buoys. This includes damaged boat ramps, replacement of broken dolphin piles, installation of both mooring and ocean exclusion vessel buoys, construction of tow-walls and seawalls. Based on historical trends, staff anticipates replacement and installation of approximately 20 signs, 20 piles and frames, 2 solar beacon

lights, and 25 buoys each year.

Justification: Timely and successful maintenance of efficient marine signage, structures, and buoys are critical to the city-wide

boating safety and waterway accessibility.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Marine

# MILLS POND PARK ARTIFICIAL TURF

## PROJECT#: FY 20150158

Address: 2201 NW 9 Avenue Department: Parks and Recreation Project Mgr: Enrique

331 CIP - General Fund Fort Lauderdale Sanchez Fund: City:

> District: ☑ III □ IV State: FL 33311 Zip:

Description:

This project will provide installation of new artificial turf on the three multi-purpose fields at Mills Pond Park. The city's Bermuda fields are not being sufficiently "rested" to maintain an adequate playing surface. The installation of an artificial turf will enhance the City's ability to meet the demands for the playing areas, and allow for proper maintenance of the Bermuda fields.

With the high demand for field space and high cost of purchasing and developing land for athletic fields, converting natural grass fields to artificial turf fields is an alternative that will increase the supply of fields space at a marginal cost. Converting the existing three natural grass fields at Mills Pond Park to artificial turf will result in six artificial turf fields and create opportunities to host regional tournaments bringing in additional visitors to the City.

Justification:

The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts, incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase playing opportunities throughout the City to meet the demands of a growing population.

Source Of the Justification: 10 - Year Parks and Recreation System Master Plan Project Type: Parks

(PRSMP)

# MILLS POND PARK BOAT RAMP REPLACEMENT

**PROJECT#: 12341** 

Project Mgr: Enrique Department: Parks and Recreation Address: 2201 NW 9 Avenue

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

**Description:** This project is for the replacement of the boat ramp at the Mills Pond Park and includes other associated improvements. The existing boat ramp will be removed and replaced with a new concrete ramp. Several loads of

sand along the north side of the ramp is also needed.

**Justification:** This is a request to replace the ramp for easier access to the water at Mills Pond Park. The existing concrete boat ramp continues to deteriorate. There is a large area of the ramp in the water on the north side that has collapsed,

and the west end of the ramp is also falling away. This has limited the use of the boat ramp and caused unsafe conditions for the neighbors and visitors who use this ramp. The Ski Club facility is available for rent to the public. This project will support the Public Places goals. The objectives are to improve access to our beach and for the enjoyment of our beach, riverwalk, waterways, parks, and open spaces for everyone. It will also support the initiative

to increase the percentage of waterfront parks accessible by boat.

This boat ramp is in very bad shape, and may need to be closed if it is not repaired in a timely manner.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

# **MOLA DRIVE SEAWALL REPAIR**

PROJECT#: 12339

Project Mgr: Brandy Department: Public Works Address: 435 Mola Drive

Leighton Fund: 331 CIP - General Fund City: Fort Lauderdale

Description: The seawall is located on Mola Drive and is approximately 33 linear feet made of coral rock. The wall is not exposed

to strong currents or wave action. The location is accessible for construction with some overhead utility and space

constraints due to driveway proximity.

Justification: The overall condition of the wall is good. There are minor deficiencies. The wall is currently over topping, and as a

result, the short term recommendation is to repair and raise the wall with a concrete cap/pile system within the 0-5

Year Work Program Window.

Source Of the Justification: Stormwater Master Plan Project Type: Seawalls

# **MUSIC RECORDING STUDIO**

## PROJECT#: FY 20160330

Project Mgr: Carl Williams Department: Parks and Recreation Address: 1450 W. Sunrise Blvd.

Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project is to construct a music recording studio at the Carter Park annex building. The annex building would be

retrofitted with studio equipment and acoustics with minimal construction.

One of the rooms that will be used is approximately 700-800 square feet, one vocal booth is approximately 250 square feet, and one control room is approximately 125 square feet. The additional items needed are keyboards, music creation programs, cables, hardware, sound control, head phones, and microphones. Another room will include 2'x4' white acoustical ceiling tiles for sound proofing, light-emitting diode (LED) track lighting, and 2'x4'

fluorescent light fixtures.

**Justification:** This studio is needed to provide additional programming options for young people to get involved with the park programming. This is an alternative to the traditional recreation for youth that will cultivate the minds of future engineers, song writers, and artists. This studio will provide the opportunity to teach the various forms of musical arts such as producing music (beat and sound making), disk jockeying (DJ), and recording various genres of music.

Once designed, the City staff will hire and work with a 501(c)(3) non-profit organization to provide programming for the music recording studio.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33301

Description: This is a project to implement complete streets improvements called for in the Lake Ridge Neighborhood Mobility

Master Plan along NE 15th Ave. from Sunrise Blvd. to NE 13th Street. The project proposes the addition of bicycle

lanes, traffic calming (including traffic circles), and addressing the conflicts at the Publix/Walgreens area.

Justification: The City conducted a Safety Study and Mobility Master Plan with the Lake Ridge Neighborhood to identify key

safety issues and improvements to address them. The neighborhood prioritized the improvements proposed in this project through the master planning process. The project is a high priority in the Connecting the Blocks Program and helps implement Vision Zero and the Fast Forward Fort Lauderdale 2035 Vision Plans. The street serves as a cut through and has a high concentration of crashes in a this three-block area. 79 crashes were reported over the past five years, 72% of which were concentrated in the Publix/Walgreens area. Six pedestrians and 3 bicyclists were hit

between Sunrise Blvd and NE 13th St.

Source Of the Justification: Vision Zero: Fort Lauderdale Project Type: Roadway Improvements

Project Mgr: Raymond Department: Public Works Address: NE 1st Street

Nazaire Fund: 331 CIP - General Fund City: Fort Lauderdale

x8954 **District**: ☐ **I** ☑ **II** ☐ **III** ☐ **IV State**: FL **Zip**: 33301

Description: Full Bridge Replacement. The bridge is a 44 ft. long, two span, steel multi-girder beam bridge constructed in 1940.

The bridge has a roadway width of 24.1 ft. and carries two lanes of traffic in a residential neighborhood.

Justification: Florida Department of Transportation (FDOT) issued a bridge deficiency letter indicating significant structural

deficiencies needing immediate attention. The bridge has been identified as scour critical by FDOT. Because the bridge is more than 70 years old, it is likely that the concrete elements are contaminated with chlorides and has

significant deterioration. Repair cost exceed \$300,000, indicating it is more feasibly to replace than repair.

Source Of the Justification: 2014 Bridge Master Plan Project Type: Bridge

# **NEIGHBORHOOD SIDEWALK PROJECT**

## PROJECT#: FY20180641

Project Mgr: Karen Warfel Department: Transportation & Mobility Address: Various

Fund: 331 CIP - General Fund City: Fort Lauderdale

**Description:** 

Funding for this project will be used to design and construct sidewalks on an annual basis in neighborhoods that request them either through their Neighborhood Mobility Master Plans or through the Lauderserv system. The funding will be based on neighborhood consensus for the locations that they have identified. One of the number one priorities of the Fast Forward Fort Lauderdale Strategic Plan is to create a Connected Community where the pedestrian is first, however there is no current program to fund the requests of our neighbors to install small sidewalk projects. It is anticipated that this would become a recurring program to fund neighborhood requests for infill sidewalk projects.

Justification:

There is an outstanding demand for sidewalk installations. The Transportation & Mobility Department has 13 outstanding requests for sidewalks from 7 neighborhoods received through the QAlert system as well as locations prioritized by neighbors through the Neighborhood Mobility Master Plans that have been completed. The outstanding requests total an estimated \$650,000 of work needed to be completed. The project is a key component to the implementation of the Fast Forward Fort Lauderdale Vision to create a connected community where the pedestrian is first and the Vision Zero initiative to provide safe accommodations for our neighbors to walk and access goods and services. The Annual Neighbor Survey has shown a reduction in the satisfaction of the availability of sidewalks from 60% in 2012 to 46% in 2016.

Source Of the Justification: Connecting the Blocks Plan Project Type: Annual

## **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING	
CIP - General Fund   CONSTRUCTION										
331	6599							\$900,000	\$0	
Total Fund	Total Fund 331: \$900,000									
GRAND '	GRAND TOTAL: \$900									

Comments: The cost estimate was developed by compiling a list of outstanding requests through QAlert and prioritized sidewalks through Neighborhood Mobility Master Plans. The cost is based on an estimate provided by Public Works per linear foot.

#### **Impact On Operating Budget:**

	<u> </u>				
MPACT		AVAILAB	BLE \$	UNFUNDED	TOTAL FUNDING
					\$0
TOTAL					\$0

**Comments:** Maintenance is the responsibility of the property owner per city ordinance.

#### Cost Estimate Justification:

The cost estimate was based on a Public Works estimate of \$45 per linear foot to cover the cost of all expenses related to the installation of sidewalks based on their experiences.

# **NEW MILLS POND "GREEN" IMPROVEMENTS**

**PROJECT#: 11082** 

Project Mgr: Enrique Department: Parks and Recreation Address: 2201 NW 9 Avenue

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

**Description:** 

This project is to construct three new green component initiatives in the Mills Pond Park Softball Complex to replace aging or non-code compliant structures. It will also increase the park's existing showcase of sustainable practices. The initiatives include a new Leadership in Energy and Environmental Design (LEED) certified prefabricated concrete concession/restroom/office building, LEED certified dugouts, and a playground.

The building size is approximately 24'x40' with solar panels, and will run a water heater, automated electronic door openers, water fountains, toilets, and sinks. Each restroom will include five stalls, stainless steel fixtures, as well as ten new LEED certified concrete dugouts with cool-roof paint to replace previous structures with roofs that no longer meet wind code requirements. The new softball complex playground with green components will replace the 15-year old equipment.

Justification:

Current temporary concession/restroom trailers only have two restroom stalls for men and women each, and do not meet demands. The office trailer is rented at \$200/month, and the playground in the softball complex is aging. It is not sufficient to accommodate more than 600 adult league teams and spectators that use the facility annually. The facility generates over \$500,000 in revenue annually from softball and other operations. The concession building is a major part of this revenue. This project has been a Community Investment Plan request for more than six years.

Improvements will meet several Press Play strategic goals, including "integration of energy efficient retro-fits and sustainable design elements in the City facilities" and will amplify the "Green Showcase" of sustainable practices already in place at this facility, including wind turbines, electric car chargers, irrigation flow meters, and rain sensors.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

Description: This project is to provide new restrooms for the northwest synthetic turf soccer fields at Mills Pond Park. Two lighted

synthetic turf fields will be completed in the northwest section of the park in fall of 2017. Project funds were maximized to ensure the most amount of playing area was created however amenities such as restrooms were

removed from the scope.

Justification: The closest restroom is within the softball complex, which is several hundred yards away. With the addition of the

new fields, hundreds of participants will be using the fields each day which will require restroom facilities at a more convenient location. This area is expected to be the most heavily used portion of the park since the fields will not

have to close for maintenance, rest, fertilization or any of the other restrictions which hamper a natural grass field.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

# NEW RIVERLAND MULTIPURPOSE FIELD LIGHTING

## PROJECT#: FY20080068

Project Mgr: Enrique Department: Parks and Recreation Address: 950 SW 27 Avenue

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

District:  $\square$  I  $\square$  III  $\square$  IV State: FL Zip: 33312

**Description:** This project is for the installation of new energy efficient lighting on the Riverland Park multipurpose ball field. The field has 150 x 150 yards of lights around the perimeter. The park cannot be used at night due to the lack of lighting.

The lighting has been requested by the neighborhood, and the youth athletic organizations. Installing the lighting

would increase the neighborhood's use of Riverland Park multipurpose ball fields.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks

and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts, incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase

playing opportunities throughout the City to meet the demands of a growing population.

Source Of the Justification: 10 - Year Parks and Recreation System Master Plan Project Type: Parks

(PRSMP)

# **NW 15TH AVENUE COMPLETE STREETS PROJECT**

# PROJECT#: FY 20160400

Project Mgr: Christine Department: Transportation & Mobility Address: NW 15th Ave (Sunrise Blvd to Mills Pond Park)

Fanchi Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

**Description:** 

The proposed project is along approximately a one mile stretch of NW 15th Avenue. It connects Carter Park on Sunrise Blvd. and Mills Pond Park on NW 19th St. and serves as a vehicle cut through as well. The scope includes improving bicycle and pedestrian accommodations to increase the safe mobility of neighbors along the corridor for work and school including adding crosswalks where there are currently none in the one mile stretch. Traffic calming improvements will also be implemented to reduce speeds and discourage cut through traffic along this major collector road that transects the Lauderdale Manors neighborhood. This project focuses on improving safety conditions to support the activity along this corridor. The Lauderdale Manors neighborhood has requested that this street be looked at to make it safer for their residents.

Justification:

The project implements the Vision Plan, the Connecting the Blocks Program, and the Vision Zero Fort Lauderdale Plan. The project is highly ranked in the Connecting the Blocks Program due to the current crash statistics for this type of street. NW 15th Avenue is a collector street within a residential neighborhood with 8,900 Average Annual Daily Traffic which is an increase over last year partially due to its connection between Sunrise Blvd and NW 19th St. There are sidewalks along NW 15th Avenue, however there are not any crosswalks along the approximate 1 mile stretch. Over the past five years, 225 crashes have occurred, including 14 pedestrians, 3 bicyclists and 2 fatalities. The neighborhoods surrounding this project have a high percentage (12.8%) of neighbors that use transit to get to work making access to Sunrise Blvd. and NW 19th St. by all modes critical to improving the safe mobility of users.

Source Of the Justification: Vision Zero: Fort Lauderdale Project Type: Roadway Improvements

# OCEAN RESCUE LIFEGUARD TOWER REPLACEMENT PLAN

# PROJECT#: FY 20160452

Project Mgr: Breck Ballou, Department: Fire-Rescue Address: 200 South Fort Lauderdale Beach Boulevard

Ocean Fund: 331 CIP - General Fund City: Fort Lauderdale

Zip:

Description: The Fort Lauderdale Fire-Rescue Department is requesting to fund a replacement plan for existing Lifeguard towers.

The Fort Lauderdale Ocean Rescue Division covers three miles of public beach with twenty lifeguard towers spaced

approximately 265 yards apart.

Justification: Of the 20 towers, 13 are the modern Apex lifeguard towers that are manufactured in California. These towers were

designed specifically for lifeguards and meet all of the criteria of a modern lifeguard tower. The assumed life

expectancy of a lifeguard tower is generally 10-15 years.

Four of the lifeguard towers (first generation) were built in the mid 1980's, and were of poor design to begin with. The windows are at a 90 degree angle which causes a reflection making it very difficult for the lifeguard to survey the people in the ocean. Along with the reflection, the corner posts are very thick and cause an unnecessary obstructed view of the ocean.

Three of the towers (second generation) were built in the early 1990's. These are improved design with tilted windows to lessen the reflection, and a narrower corner post to decrease the obstructed view of the ocean. These towers are also showing severe signs of wear and tear due to the harsh environment.

Source Of the Justification: Not identified in an approved plan Project Type: Fire

Description: This funding is the City's monetary contribution to the Broward County Performing Arts Center Authority (PACA)

towards the renovation of Parker Playhouse. The City owns the land and the building and leases it to the Parker Theatre, Incorporated. PACA operates the facility on behalf of the foundation. The City's contribution is estimated to

be one third of the total project cost to be paid over nine years.

City's Monetary Contribution Breakdown: FY 2018 - FY 2020 \$500K ea. year FY 2021 - FY 2023 \$600K ea. year FY 2024 - FY 2026 \$700K ea. year

Justification: Parker Playhouse was one of Fort Lauderdale's first theatre venues in operation since 1967 featuring some of the

finest entertainment, concerts, comedy, theater and family programming. This 1,167 seat theater plays an important role in the community by fueling economic development, while also bringing the community together with performances, activities and educational programming. These renovations are extremely needed to update this aging

facility.

Source Of the Justification: Not identified in an approved plan Project Type: CityFacilities

# POLICE DEPT FREIGHT ELEVATOR REPLACEMENTS

# PROJECT#: FY20100181

Project Mgr: Enrique Department: Police Address: 1300 W Broward Boulevard

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33312

Description: This project is for the complete remodeling of the Police headquarters' freight elevator to bring it up to code and to

improve its general safety. The remodeling was recommended by Eastern Elevator upon the completion of a comprehensive evaluation. The freight elevator serves three floors above ground and a basement below ground. The freight elevator is 50 years old. It is the most heavily use of the elevators and is experiencing numerous mechanical problems. This freight elevator is the primary elevator used to carry all ammunition to the gun range located on the

3rd floor of the Department.

Justification: Broward County Inspectors with jurisdiction over elevator safety have cited the Police Department for violation which

must be addressed immediately to bring this freight elevator into compliance to meet basic standards and ADA

(Americans with Disabilities Act) requirements.

This elevator is critical for the transport of logistical supplies throughout the police building. There have been several incidences of people stranded in this freight elevator between floors. In addition, the freight elevator in its current condition is very difficult to repair because of the scarcity of replacement parts.

The preliminary estimate, provided by our assigned project engineer, is based on an estimate the staff received from Eastern Elevator. It also includes other improvements to the mechanical room.

Source Of the Justification: Press Forward Fort Lauderdale 2018, A Five-Year Project Type: Police

# **POLICE GUN RANGE - LEASE WITH BUILT-OUT**

# PROJECT#: FY20110033

Project Mgr: Captain David Department: Police Address: 1300 W. Broward Boulevard

Wheeler Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33312

**Description:** 

The Gun Range Facility is located on the third floor of Police Headquarters. It no longer meets the operational needs of training and qualifying as required by the Department. To bring the range back to standards, a complete replacement of the pistol bullet trap and an upgrade of the targeting system would be required. Unfortunately, the weight of a new bullet trap would not be supported by the current structure. The range would also require other equipment upgrades beyond these major structural improvements.

In order to facilitate the development of an operational gun range that meet standards, warehouse space must be acquired through a lease agreement. The additional lease expense will be \$8.00 to \$12.00 per square foot for industrial warehouse space. The cost must include an upgraded ventilation system for an indoor facility.

Justification:

The Police Department Gun Range was constructed 21 years ago. Firearms' training is mandatory and essential as dictated by Federal case law and liability. If regular Firearms Training and Qualifications are not conducted, the City could incur excessive liability costs if a deadly force confrontation takes place. In 2009 alone, there were six officer-involved shootings. There is no other facility, either private or public that can meet our basic training needs. Funding for the replacement of the pistol bullet trap and upgrades to the targeting system and other equipment is proposed for Fiscal Year 2017.

Source Of the Justification: Press Forward Fort Lauderdale 2018, A Five-Year Project Type: Police

# POLICE HEADQUARTERS REPLACEMENT

# PROJECT#: FY20080179

Project Mgr: Enrique Department: Parks and Recreation Address: 1300 W Broward Boulevard

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

District:  $\square$  I  $\square$  III  $\square$  IIV State: FL Zip: 333312

Description: This project is intended to replace the existing 60-year old and an approximately 88,000 square feet Police

headquarters with a new public safety facility that is 168,400 square feet for the building and 372,500 square feet for

the parking garage.

Justification: The Police headquarters was built and occupied as a two-story structure in January 1959 and serviced 187 total employees. In 1965, the third floor was added and served 252 Sworn and 69 civilian employees. The last renovation

was completed in 1982 with no significant expansion, just an update to the existing Building and the Jail was

opened.

A Facilities Needs Assessment Reports has been completed and all concurs that the Police Department has outgrown its current antiquated facility. Currently, one-third of investigations is housed at rental properties. Five

additional units are housed at off-site locations.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: CityFacilities

Description: This project is to remodel the Cafeteria space on the second floor of the Police Headquarters to create more

in-house space and repurpose the current cafeteria into two offices, and a kitchenette with a smaller employee break

area that can also be used for informal meetings.

Justification: It will be at least several years before a new building is ready to be occupied. The Police Department continues to

grow and requires additional space for Administrative offices. With the advent of new technology, the Department is evolving into a more efficient operation, and needs the support activities and additional space to adequately harness

its potential.

# **POLICE K-9 OFFICE**

# PROJECT#: FY 20160349

Project Mgr: Captain David Department: Police Address: 3501 Hawkins Road

Wheeler Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

**Description:** The Department is looking to replace a prefabricated structure that served as the old horse barn for the Mounted Unit and now houses the K-9 Training Center/Office. The structure is 32 years old and has suffered from extended periods

of improper maintenance. The metal roof and structural supports have significant rust. In several areas, the interior is exposed to the elements. In order to abandon this dangerous facility, the K-9 Unit requires a new structure to house

its operation.

**Justification:** The structure is situated on the City of Fort Lauderdale Well Fields located at 3501 Hawkins Road. Without a new structure, the K-9 Unit will be forced to abandon the current site and seek other off-site locations. The removal of this

facility from the Well Fields would reduce the level of security at the City's potable water supply. A new prefabricated building of approximately 1200 square feet could be erected on the top of the current parking pad. The existing

building could be demolished with its concrete pad serving as the new parking for the facility.

Source Of the Justification: Press Forward Fort Lauderdale 2018, A Five-Year Project Type: Police

Strategic Plan

# **Project Funding Summary:**

# **POLICE MARINE PATROL VESSELS**

**PROJECT#: 12342** 

Project Mgr: Dave Wheeler Department: Police Address: Citywide

Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33311

**Description:** The Police Department requests the purchase of new Marine Patrol vessels to replace its current fleet and to change its overall composition to better facilitate its mission. These vessels are utilized for both law enforcement and rescue

operations including lifesaving. As such, the Marine Patrol is vital to the protection of the City's waterways. The fleet

consists of eight Intrepid vessels with Yamaha twin motors purchased in 2013.

Justification: Newer and more reliable boats are needed to ensure that the unit continues to provide an ongoing level of service.

The Unit would like to reduce the number of traditional solid hull boats from eight to two. The Department would like to replace the balance of its vessels with a six rigid hull inflatable boats. The current fleet is thirteen years old which is three years beyond the recommended life of an emergency response unit. It is essential that our vessels have the versatility to maneuver thorough rough waters. The inflatable replacements are lightweight, high-performance and high-capacity boats constructed with a solid, shaped hull and flexible tubes at the gunwale which allows maximum stability. The design is strong and seaworthy. The inflatable collar allows the vessel to maintain buoyancy even when a large quantity of water is brought aboard due to bad sea conditions. All vessels will be equipped with the Police

Information Technology package.

# POLICE MOUNTED UNIT EXPANSION OF THE HORSE BARN

# PROJECT#: FY 20160340

Project Mgr: Captain David Department: Police Address: 850 NE 9 Street

Wheeler Fund: 331 CIP - General Fund City: Fort Lauderdale

District: □ I ☑ II □ III □ IV State: FL

**Zip:** 33312

Description:

The Police Department is requesting that a new structure or an addition be considered for the expansion of the Horse Barn to accommodate an increase in the size of the Mounted Patrol Unit. Currently, six officers, one sergeant and two barn aides make up the unit. The Department would like to expand the unit to eight full-time officers and twelve auxiliary cross-trained officers. The Horse Barn can be extended to the east or a separate structure constructed adjacent to the current barn. The Department is looking to add ten additional stalls to the existing configuration.

Justification:

The expansion of the Mounted Unit provides a uniquely maneuverable and highly visible presence which is highly effective in crowd control. From the elevated position, the officer can identify problems and issues that personnel with ground-level perspectives cannot. The mounted units are capable of pushing through crowds and disrupting disorderly behavior without the use of combatant force which often incites those within the areas of the disturbance. Mounted Officers are very effective in pedestrian congested areas, they are natural public relations ambassadors within the community and quite popular with residents and visitor alike fulfilling the mission of "Building Community."

# **POOL CHEMICAL CONTROLLERS - VARIOUS SITES**

# PROJECT#: FY 20170480

Project Mgr: Carl Williams Department: Parks and Recreation Address: Various locations

Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

**Description:** This project supports the replacement of seven existing BECSys 7 chemical controllers for the following locations: (2) Riverland Park, (2) Carter Park, (2) Croissant Park and (1) Lauderdale Manors. Chemical controllers run the chemicals, monitor temperature and filtration. The project also includes direct control of water level and water

consumption.

The project also includes a powerful open architecture communication package that provides 24/7 automated log keeping, remote control, remote monitoring via computer, smart phone or tablet and alert notifications of all out of range conditions. Declare has no monthly access feed

out-of-range conditions. Package has no monthly access fees.

Justification: The current controllers are antiquated and have become expensive to repair due to parts obsolescence. Available

parts for repairs are refurbished as the units in use at this time are outdated and no longer supported within the aquatics industry. The BECSys 7 units are the most current model available for pool controllers. This unit integrates 3 systems together (chemical, variable drives and filtration) which allows for significant energy savings. When the pools are not operational the systems can be programmed to lower the variable drives for cost savings in energy and

chemicals.

Sites with Wi-Fi capability can connect to the units. This feature allows staff to monitor the pools chemistry and make adjustments if needed. The unit can also send alerts if there is an issue detected which allows staff to make corrections using a phone or a computer.

**Description:** 

To build a Public Safety training facility that will enable the City to meet the training needs of all Fort Lauderdale Public Safety entities. This facility will include, but is not limited to the following: Office/Classroom space, a Drill Field, Live Burn/Tactical/Confined Space props, gas field, Fire-Rescue training tower, Driver training course, and a sufficient parking space. This building will be a one story station with 2-3 bays modeled after the same design and layout of the newly constructed Fire Station 46. All common areas will be configured to accommodate 3 classrooms capable of holding up to 35 persons per room. These classrooms will be able to reconfigure and be utilized as common bunk rooms, should the need arise to utilize the building as an operational station or evacuation point for beach units during a storm. This building will be approximate 10,000 square feet in size.

Justification:

The Fire-Rescue Department currently relies upon outside entities to provide training facilities required for Public Safety employees. This required training is currently performed outside of the City limits causing the City to spend additional funds to meet State, National, and Fire Suppression Rating Schedule, and Accredited Agency requirements. Construction of a Public Safety training complex will allow Police, Fire-Rescue, Public Works Departments, and other City entities to train within the City limits. Furthermore, the facility will meet the National Fire Protection Rating (NFPA) 1402 (Fire Training Facility Standards) which will enable the Fire-Rescue Department to teach various public safety courses enabling staff to better serve the residents of the City of Fort Lauderdale. These courses will be offered to neighboring agencies at a cost that will allow the proposed facility to generate revenue that may be used to supplement public safety and sustain the facility operation.

Source Of the Justification: Not identified in an approved plan Project Type: Fire

**Project Funding Summary:** 

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING
CIP - Gene	ral Fund   COI	NSTRUCTION							
331	6599							\$10,721,250	\$0
Total Fund	331:							\$10,721,250	\$0
GRAND 1	TOTAL:						_	\$10,721,250	\$0

**Comments:** The construction costs of \$4.3 M is based upon a \$400 per sq ft cost for construction as estimated by our Public Works officials. The \$1.0 M equipment expense is the approximate cost for the training tower. The balance is for contingencies and land use.

## Impact On Operating Budget:

past on open								
MPACT	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING

# RENOVATIONS JIMMY EVERT TENNIS CENTER

# PROJECT#: FY 20170496

Project Mgr: Enrique Department: Parks and Recreation Address: 1150 G. Harold Martin Drive

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33301

Description: The renovations for the Jimmy Evert Tennis Center clubhouse include: remodel interior lobby, remodel interior lounge,

purchase and install 4 new LED informational display screens (marquees) with software and electrical, remodel men's and women's locker rooms, replace tile walkway outside, installation of new LED lights inside and out,

addition of court benches, replacement of entry way sign, and replacement of irrigation controls.

Justification: The Jimmy Evert Tennis Center was built over 17 years ago. The City has over 80,000 neighbors and visitors coming

to the center each year. In addition, the center hosts top national level tennis tournaments. There is a bidding process for these tournaments and the amenities for this facility is a factor of consideration. These renovations are

extremely necessary to update this aging facility.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: CityFacilities

District: State: FL 33301 Zip:

This project is to replace the City's current document imaging and management system, which is over ten years old **Description:** 

with a more efficient system.

Justification: The City's current document imaging and management system was originally installed in 2002. Since that time, the

City has moved the workflow processes that existed within this product to other systems. We are only utilizing the system as a document repository. Advances have been made in the market whereby newer systems are available that easily integrate with other systems that the City has invested in such as NeoGov, and ONESolution. Newer systems also have integration with our Office automation software from Microsoft, Microsoft Office, which simplifies end user training. Creation of new workflows and forms are much simpler with the newer generation of systems such that we proposed migrating from the existing system to one that incorporates these features.

# **RIVER OAKS PRESERVE PARK - PARKING LOT**

# PROJECT#: FY20180609

Project Mgr: Elkin Diaz Department: Public Works Address: 1212 SW 9th Avenue

x6539 **Fund:** 331 CIP - General Fund **City:** Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33315

**Description:** This project is for the design, permitting and construction of a parking lot under I-95 expressway overpass in the River Oaks neighborhood, which is adjacent to New River. The scope of the work also includes new recreational

space, kayak launching area, new walkways to the park, fishing boardwalk, new plantings, lighting, and irrigation

utilities to better serve the adjacent City's River Oaks Stormwater Preserve Park.

Justification: The City of Fort Lauderdale and Florida Department of Transportation (FDOT) executed a Joint Participation

Agreement in 2012, which allows the City to lease an area under the FDOT I-95 expressway over New River to be used as parking lot to serve the adjacent River Oaks Preserve Park. The parking lot would be free to the public, and it would also offer an area for kayak launching and recreational fishing. This project would help fulfill the City's shared

vision of creating a safe, healthy, active community with inviting parks for our neighbors to use and enjoy.

Source Of the Justification: Parks & Rec Long Range Strategic Plan (7/1/08, Project Type: Parks

## **Cost Estimate Justification:**

The construction cost estimate is based on permitted conceptual plans dated December 29, 2015 prepared by engineering consultant Craven Thompson & Associates, which included cost for sitework (grading, pavement, concrete, site amenities, landscaping, and irrigation) and associated mobilization costs. Unit prices were derived from City's annual engineering contracts and rough quantities with a 10-20% margin of error.

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

District:  $\square$  I  $\square$  III  $\square$  IV State: FL Zip: 33312

**Description:** This project is for the installation of new high energy efficient lighting on the multi-purpose ball fields.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts,

incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase

playing opportunities throughout the City to meet the demands of a growing population.

# RIVERLAND PARK POOL RESURFACING

# PROJECT#: FY20180644

Project Mgr: Phil Department: Parks and Recreation Address: 950 SW 27 Avenue

Thornburg Fund: 331 CIP - General Fund City: Fort Lauderdale

Description: This project supports the resurfacing of the Riverland Park Pool. The pool will be resurfaced utilizing a color approved

Portland cement based quartz aggregate, such as Diamond Brite or approved equivalent.

Justification: Riverland Park Pool was built in 2005 and the pool has never been resurfaced. The average life-span of a plaster pool

finish is 5-10 years. Operational requirements per The Florida Statutes and Florida Administrative Code, require that pools shall be refinished when the pool surfaces cannot be maintained in a safe and sanitary condition. Violations must be corrected to avoid closure, administrative fines or other legal actions. If the surface of the pools has worn away and/or is delaminating, with large areas exposed down to the concrete pool shell, this effects the watertight plaster surface and will result in increased labor, maintenance, water usage and chemical costs. Severe algae

growth will result in immediate closure of the pool.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

x3798 Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33311

**Description:** 

This project will be administered by the Broward Metropolitan Planning Organization utilizing a Tiger Grant. The City will provide the local match for this grant in the total amount of \$850,000. This project includes the addition of traffic calming, bike facilities and enhancements to the pedestrian accommodations along Riverland Road based on neighborhood concerns, and the implementation of the Fast Forward 2035 Fort Lauderdale Vision and Connecting the Blocks Program. The work will tie in with the efforts being conducted by Broward County to connect the SR 84 Greenway to the City through Riverland Woods Park as well as bike lanes that will be installed on SW/NW 31st Avenue from Riverland Road to the Palm Beach County Line.

Justification:

The project will implement a highly ranked project within the Connecting the Blocks Program to realize the neighbor's vision of having a connected community by 2035. The neighbors surrounding Riverland Road have been asking for safety improvements along this road for vehicles, pedestrians, and bicyclists. This roadway serves as a major cut-through roadway from US441/SR7 to Davie Boulevard, and has continually had issues with speeding and safety for all. Traffic calming will be included in this project. The existing sidewalk is narrow and is only on one side. The roadway does not contain any bike facilities. This has caused competing interests between pedestrian and bicycles that creates conflicts on the sidewalk. The project will increase safety conditions for walking and biking along this corridor. There were 107 crashes along this project area over the past five years, with 52% of the crashes being in the last 2 years alone.

Source Of the Justification: Connecting the Blocks Plan

**Project Funding Summary:**

# **SE 13TH STREET BRIDGE**

# PROJECT#: FY20180622

Project Mgr: Raymond Department: Public Works Address: SE 13th Street

Nazaire Fund: 331 CIP - General Fund City: Fort Lauderdale

x8954 **District**: □ I □ II □ III ☑ IV **State**: FL **Zip**: 33316

Description: The bridge is a 180.5 ft. long, nine (9) span, reinforced concrete double T-beam bridge constructed in 1952. The

bridge has a roadway width of 21 ft. and carries two lanes of traffic in a residential neighborhood. There is a 2.5 ft.

sidewalk on the south side of the bridge. This bridge serves as the only entry point for residences east of the bridge.

Justification: The bridge has been identified as scour critical by Florida Department of Transportation (FDOT) and classified as

Functionally Obsolete, but not Structurally Deficient. The bridge is 62 years old. The T-beams have numerous repairs, many of which are showing signs of cracks, spalls and delaminations. The cost effective decision is to replace the entire bridge, which the BMP has scheduled in WP YR 11-15. FDOT Bridge Inspection Pontis reports

give a sufficiency rating of 43, indicating a high priority for repair.

Source Of the Justification: 2014 Bridge Master Plan Project Type: Bridge

# **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING

# SE 17TH STREET MOBILITY PLAN IMPROVEMENTS

# PROJECT#: FY 20170543

Project Mgr:ElizabethDepartment:Transportation & MobilityAddress:SE 17th StreetVanZandtFund:331 CIP - General FundCity:Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33311

Description:

The SE 17th Street Mobility Plan resulted in many proposed improvements aimed at reducing traffic congestion and improving biking and walking conditions along the corridor (between US 1 and the Intracoastal Bridge). A collection of improvements are recommended to provide alternative access to SE 17th Street through use of parallel facilities, improved access and connectivity, and defined bike and pedestrian amenities. This project will implement short- and mid-term listed opportunities based on the highest priorities in the plan.

Justification:

The success of SE 17th Street as a viable and efficient corridor for all users has significant economic potential given the access it provides to major economic engines including the airport, the port, the convention center, and even as a gateway to the barrier island. There are significant commercial land uses along the corridor as well. The surrounding neighborhoods are also in need of appropriate policies and improvements that help to maintain the character and context of their neighborhoods. Traffic calming and safe mobility is a critical need for this area due to the close proximity to this major corridor that encourages cut through traffic. SE 17th Street is a high crash corridor. Over the last five years there have been 2,691 vehicle crashes, 74 pedestrian crashes, and 51 bicycle crashes, resulting in 648 injuries and 5 fatalities. The investments in this corridor are often leveraged from federal and state funded projects because it is a state roadway.

Source Of the Justification: Connecting the Blocks Plan

# SE 5TH AVENUE AND LAS OLAS BOULEVARD PEDESTRIAN

**PROJECT#: 12336** 

Project Mgr: Catherine Department: Transportation & Mobility Address: Citywide

Prince x3796 Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I ☑ II ☑ III ☑ IV
 State:
 FL

 Zip:
 33311

**Description:** Project funding will be used to design and construct pedestrian improvements between SE 5th Avenue (west) and

SE 5th Avenue (east) along Las Olas Boulevard. SE 5th Avenue is not a single intersection here - there are two "T" intersections. The project will make modifications to both "T" intersections and between the two intersections. It is anticipated that pedestrian crossings will be created and a potential raising of the intersections. Any needed ADA

improvements and other pedestrian features will also be included.

Justification: This intersection has a significant number of pedestrian's crossing and improvements will facilitate safer crossings.

Also, the City of Fort Lauderdale's Downtown Walkability Analysis, conducted by Jeff Speck, identified Las Olas Boulevard as a primary network of walkability to improve mobility and safety of pedestrians and bicyclists. This location was also highlighted in the Downtown Civic Association's presentation to Commission as a priority need for

pedestrian crossing.

Source Of the Justification: Jeff Speck Walkability Plan (5/28/2013) Project Type: Roadway Improvements

# **SE/SW 6 STREET CORRIDOR IMPROVEMENTS**

**PROJECT#: 12088** 

Project Mgr: Elizabeth Department: Transportation & Mobility Address: SE/SW 6 Street/Andrews Avenue to Federal Hi

Van Zandt Fund: 331 CIP - General Fund City: Fort Lauderdale

x3796 **District**: ☐ I ☐ III ☐ III ☑ IV **State**: FL **Zip**: 33301

**Description:** 

This project includes a complete redesign of the right-of-way to incorporate the one way condition in front of the Broward County Judicial Complex. The work will also include the two way condition for the sections east and west of the complex. This project will create a transit, pedestrian and bicycle friendly environment for commuters, jurors, residents, and visitors to the area. The limits of this project are from SE/SW 6th Street from Andrews Avenue to Federal Highway.

The project scope for improvements will include, but are not limited to: lighting, landscaping, wayfinding signage, enhanced crosswalks, wider sidewalks, and iconic features.

Justification:

The project includes a portion of the Wave Streetcar route. The design and construction will be closely coordinated. This street was identified in the Downtown Master Plan and the 6th Street Coalitions improvement plan conducted by representatives of the 110 Tower (across the street from the Courthouse), the City, County, and the Downtown Development Authority.

There are two Wave Streetcar stations in close proximity to the corridor that will serve the 6th Street businesses and judicial users. It is imperative that we make these walks safe and comfortable.

Source Of the Justification: Connecting the Blocks Plan

# **SEAWALL REPAIR & CAP - 2731 FEDERAL HIGHWAY**

PROJECT#: 12333

Project Mgr: Brandy Department: Public Works Address: 2731 Federal Highway

Leighton Fund: 331 CIP - General Fund City: Fort Lauderdale

**Description:** This project will consist of the design, permitting, and construction of the City-owned seawall along the South Fork of the Middle River behind the Budget Inn North Property located at 2731 Federal Highway, as identified in the Seawall

Master Plan (P12212). This includes full replacement and structural modifications associated with sea level.

**Justification:** The seawall is in severe condition, showing signs of lateral deflection, exposed reinforcement, and deterioration. Due to the proximity of the adjacent building structure and the current state of the wall, this seawall is recommended for

replacement within the next 2 years. In addition, the sea level is expected to rise 6 to 10 inches above 1992 mean sea levels by 2030 and 14 to 26 inches above 1992 mean sea levels by 2060. To meet community needs for an improved level of service due to expected sea level rise and increased storm events, the City must address the height of this seawall. This seawall is identified as a top priority in the SMP for improvement in WP YR 0-5 as

priority 7.

# SEAWALLS REPLACEMENT - HIMMARSHEE CANAL (NORTH)

**PROJECT#: 12329** 

Project Mgr: Brandy Department: Public Works Address: 1009 SE 2nd Street

Leighton Fund: 331 CIP - General Fund City: Fort Lauderdale

Description:

This project consists of design, permitting, and construction of seawalls along Himmarshee Canal at 1009 SE 2nd Street, as identified in the Seawall Master Plan (P12212). This includes full replacement of the existing seawall, as well as new seawall construction for natural bank areas on the north and south side. The new top of wall height will account for projected sea level rise for the expected life of the seawall. The construction of new seawall along the natural bank on the north side was previously proposed under Project No. 12067, which was placed on hold for the development of the Seawall Master Plan.

Justification:

According to the Seawall Master Plan, the existing seawall is currently over topping. The seawall also shows significant signs of displacement, deterioration, and loss of fill which may be threatening the stability of soil embankment. Furthermore, the wall and natural bank is currently over topping, and this condition will worsen with the impacts of climate change. Expected sea level rise is 6 to 10 inches above 1992 mean sea levels by 2030 and 14 to 26 inches above 1992 mean sea levels by 2060. To meet community needs for an improved level of service due to sea level rise and increased storm events, the City must address the current height of this seawall and bank which is already insufficient.

Source Of the Justification: Sustainability Action Plan Project Type: Seawalls

Address: SE 23 Ave & Las Olas Blvd. Public Works Project Mgr: Raymond Department:

> 331 CIP - General Fund Fort Lauderdale City: Nazaire Fund:

x8954 District: State: FL Zip:

Description: The existing seawall is constructed of rubble rock, capped with a 6" thick by 18" wide reinforced concrete cap.

During high tides, the seawall is submerged. Sea water overtops the seawall causing the neighborhood to be flooded. To alleviate this, the City proposes to increase the seawall elevation above the 5.5' NGVD (National

Geodetic Vertical Datum) elevation per the City of Fort Lauderdale Code section 47-19.3.

The new seawall will prevent flooding during high tides protecting homes, streets, landscaping, and infrastructures. Justification:

Project Mgr: Enrique Department: Parks and Recreation Address: SW 34th Avenue/Davie Blvd.

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

Description: This project will provide installation of artificial turf athletic fields and also includes installing energy efficient lighting.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the C

The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts, incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase playing opportunities throughout the City to meet the demands of a growing population.

# SNYDER PARK IMPROVEMENTS

# PROJECT#: FY20080071

Project Mgr: Enrique Department: Parks and Recreation Address: 3299 SW 4 Avenue

Sanchez Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33315

**Description:** This project renovations will include:

- (1) The park's restroom plumbing and the Americans with Disabilities Act (ADA) improvements;
- (2) The pavilion electrical improvements and replacements;
- (3) The Nursery electrical, structural, and plumbing improvements; and
- (4) The Administration Building renovations and asphalt road renovations.

With the growing popularity of the Bark Park, the introduction of disc golf, the upcoming addition of a bike trail, and the aerial adventure course are bringing many new visitors to the Snyder Park. However, many of the aging facilities at the Snyder Park do not meet the current ADA standards, and the infrastructure may not be able to handle the increased usage. Much of the plumbing, electrical, and site infrastructure is reaching the end of its expected useful life, and will need replacement in the upcoming years. These renovations and improvements will assist in making the Snyder Park a regional destination facility for the City.

**Justification:** The Snyder Park is a 92 acres facility, built in the 1970's and 1980's. This is an aging facility that is in need of renovations and repairs. These renovations will attract additional neighbors and more programming.

# SOUTHEAST EMERGENCY MEDICAL SUB-STATION

PROJECT#: 12328

Fire-Rescue Address: South Federal Highway Project Mgr: Alan Dodd Department:

> 331 CIP - General Fund Fort Lauderdale City: Fund:

District: State: FL 33311 Zip:

To construct an Emergency Medical Sub-Station located on/about Federal Highway south of Broward Boulevard to **Description:** 

address the need for additional Emergency Medical Services to the downtown district and the areas along south

Federal Highway.

Justification: The Fire Department has identified that the service areas south of Broward Boulevard along the Federal Highway corridor and being underserved from a "Response Time" perspective. In that the "Response Time for the First Arriving

> Unit" is one of the most critical measurement that impacts the outcome of a patient during a medical response, it is critical that the City address the identified and known deficiencies to decrease response times that will improve

patient outcomes.

At the June 7th Joint City Commission workshop with the Fire Bond Committee, the City Commission authorized the inclusion of a \$3M capital outlay for the acquisition of land (\$1M) and the construction (\$2M) for a Southeast

Emergency Medical Sub-Station in the FY2018 budget to address these issues.

Source Of the Justification: Not identified in an approved plan **Project Type:** CityFacilities

# SUSTAINABLE DEVELOPMENT LOBBY RENOVATIONS

# PROJECT#: FY20180652

Project Mgr:Alfred Battle,<br/>Jr.Department:Sustainable DevelopmentAddress:700 NW 19th AveFund:140 Building Permit FundCity:Fort Lauderdale

 District:
 ☑ I
 ☑ II
 ☑ IV
 State:
 FL

 Zip:
 33311

Description:

The purpose of this project is to provide renovations for the Department of Sustainable Development's lobby. Staff will work with a consultant to develop and bring a scope, plan, and schematic design to fruition. The renovations can be categorized into three categories: 1) those that will increase capacity for neighbors and community builders, as well as meeting space, 2) those that will accommodate technology initiatives currently underway, i.e. electronic plan review, and 3) aesthetic improvements; with regard to the area that will be renovated, that will include the main lobby, i.e. neighbor service representative's area, conference room, business assistance center, vending machine area, and restrooms. Renovations are also intended to occur in the UD&P neighbor service area.

Justification:

Making these needed renovations will aid the organization in being a leading government organization, managing our resources wisely and sustainably. Specifically, this initiative will provide for a safer, more efficient, and well-maintained facility and integrate sustainability into daily operations. Those who visit the lobby at DSD can see that it is in need of renovations. All the while, traffic continues to climb with a current average of 250 neighbors per day. Note that, for many neighbors, this is their first or only direct interaction with the City and City staff.

As a point of reference, the average national construction cost per square foot is around \$117. The planning level estimate that was developed in collaboration with the Public Works Department for this project is \$86.71 per square foot.

Source Of the Justification: Press Forward Fort Lauderdale 2018, A Five-Year Project Type: CityFacilities

Strategic Plan

### **Project Funding Summary:**

 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33311

#### **Description:**

This project is intended to provide for design and construction of security improvements at the Greg Brewton Sustainable Development Center (DSD) located at 700 NW 19th Avenue, Fort Lauderdale, FL 33311. The first phase of this project will include procuring consulting services for the design of security technology improvements for the DSD property and building. The second phase will be for construction of the proposed improvements. These improvements are to include the following:

- 1) CCTV Surveillance Cameras
- 2) Video Management System (VMS) Solution
- 3) Video Storage Solution
- 4) Electronic Access Control Card Readers
- 5) Panic Buttons
- 6) Public Address (PA)/Paging System
- 7) Gate Security Technology

Note the budget estimate is a planning level estimate and the final budget will be revisited once preliminary designs are developed in order to ensure sufficient funding is in place for construction.

Justification:

This project will support the City's ongoing efforts to comply with the Payment Card Industry Data Security Standard. This project will also aid with addressing some of the recommendations provided in the security audit conducted of the facility by the City of Fort Lauderdale's Police Department.

# **WAR MEMORIAL RENOVATIONS - PHASE II**

**PROJECT#: 11214** 

Address: 800 NE 8 Street Parks and Recreation Orlando Project Mgr: Department: 331 CIP - General Fund City: Fort Lauderdale Castellano Fund:

> District: State: FL 33304 Zip:

Description: This project will include "Phase II" of the War Memorial Auditorium Renovations.

The project specifications include:

- 1) Stage electric, rigging replacement re-wiring and re-rigging of stage and refurbishment of existing fly system; includes installation of a pull station at the stage fire curtain, new pull lines and the refurbishment of the on-stage smoke evacuation vent, replacement of the entire rigging system, wire guides and all fittings, including turn buckles at arbors, all rope locks and rings for rigging.
- 2) Resurface and re-pavement of back parking lot and the entrance road. This is necessary in order to eliminate existing pot holes, dusk and parking on the grassy areas, flooding backstage and parking in the mud.
- 3) Completion of existing telescopic seating system replacement

Justification:

Based on the past inspections that were done by an outside consultant in 2007, there are numerous deficiencies, life/safety issues and code violations. The age of the facility warrants these renovations and upgrades. Additional revenue could be received for rental of facility once all renovations are completed.

# WEST LAKE DRIVE BRIDGE RESTORATION

PROJECT#: 12299

Project Mgr:RaymondDepartment:Public WorksAddress:West Lake DriveNazaireFund:331 CIP - General FundCity:Fort Lauderdale

x8954 **District**: □ I □ II ☑ III □ IV **State**: FL **Zip**: 33316

Description: This 28.9 ft. long, single span, pre-stressed concrete slab bridge was constructed in 1964. The bridge has a roadway

width of 27.9 ft. and carries two lanes of traffic on an urban collector roadway in a residential neighborhood. There are

4.5 ft. wide sidewalks on each side of the bridge.

Justification: This project is a high priority and needs to be ranked for FY2018. Florida Department of Transportation (FDOT)

issued a bridge deficiency letter indicating significant structural deficiencies needing immediate attention. The bridge is over 50 years old and exceeded the expected 50 year design life associated with design codes from the 1950's. It is not cost effective to strengthen the beams, and recommended the bridge be replaced. If the bridge is not replaced in a timely manner, it could result in the bridge weight capacity being derated or worse, bridge closure. This bridge is

the only way into the Harbor Beach residential community.

Source Of the Justification: 2014 Bridge Master Plan Project Type: Bridge

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project will provide resurfacing of three (3) basketball courts, four (4) tennis courts and six (6) racquetball courts.

Justification: The 10-year Parks and Recreation System Master Plan (PRSMP) identified needs and priorities for the City's parks and facilities. The PRSMP recommended enhancements to improve the City's athletic fields and courts,

incorporating strategies such as artificial turf and advanced lighting technologies to increase the capacity of new and existing fields and allow for greater use. The PRSMP also recommended reinvestments to improve access to recreate bringing facilities up to current standards and use patterns. This project supports improvements to address deferred maintenance and the upgrade and enhancement of existing athletic fields and courts. Additionally, this project supports reinvestments in athletic facilities to improve conditions of existing facility assets and increase

playing opportunities throughout the City to meet the demands of a growing population.

Source Of the Justification: 10 - Year Parks and Recreation System Master Plan Project Type: Parks

(PRSMP

Description: This project includes citywide resurfacing of streets based on assessed conditions. The streets identified for

resurfacing will be scheduled based on the Pavement Management System study results.

Justification: If roads are not resurfaced within a life expectancy period, the roads may deterioate to the point that only

replacement can be done. The delay is more costly, and takes more time to complete. In FY 2013, the asphalt inspection was completed. This report identified an existing pavement condition index (PCI). The additional funding

requested will address the roads which are in fair or better condition.

Source Of the Justification: Sustainability Action Plan Project Type: Annual

**Description:** 

Unique and world renowned in the aquatics field, the Fort Lauderdale Aquatic Complex is a City-owned and operated 5-acre venue comprised of municipal swimming pools and the International Swimming Hall of Fame (ISHOF) museum. Renovation of the existing facility for public use includes the following improvements: remove existing 50 Meter Competition Pool and provide new expanded fully FINA compliant pool with movable bulkheads; remove existing Dive Pool and provide new expanded FINA compliant pool and dive tower; spectator seating for Diving and Competition pool; remove existing Spa for divers and provide new covered spa; repair existing 50 Meter training pool with new surfacing and gutters; repair and/or expand Instructional pool; new pool deck; remove existing grandstand building and provide new grandstand with spectator

restrooms, concessions, ticket office, and metal bleachers.

Justification:

The current facility is over 46 years old (1965-2012) and in addition to its regular community program offerings, has witnessed 10 world records as host to countless local, state, national and international events in swimming, diving, water polo and synchronized swimming. Swimming is a sport that has made Fort Lauderdale famous, having built the first Olympic-sized swimming pool in the state of Florida in 1928.

# BAHIA MAR YACHTING CENTER DREDGING PHASE II

**PROJECT#: 11670** 

Project Mgr: Jonathan Department: Parks and Recreation Address: 801 Seabreeze Blvd.

Luscomb Fund: 346 CRA - Beach City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33316

# **Description:**

This project is for dredging an area west of the Bahia Mar Yachting Center up to the eastern boundary of the Intracoastal Waterway (ICW). This area includes the City owned submerged land area at Bahia Mar. The Florida Inland Navigation District (FIND) has dredged the Intracoastal Waterway from the 17th Street Causeway to approximately 5000 feet north of the Las Olas Blvd. Bridge to 15' – 17' at Mean Low Water.

This project is for the specific purpose of dredging to maintain a consistent depth of 15 feet between the ICW channel and the Bahia Mar Yachting Center. The project area consists of dredging inside the marina's submerged owned land boundary and the eastern right-of-way area outside the boundary and between the ICW. Bahia Mar has secured all of the necessary permits from the regulatory agencies.

Justification: This project will enable the facility to accommodate the increased volume of significantly larger vessels.

There were two grants in place for funding assistance from the Florida Inland Navigation District (FIND) for design and permitting: Phase I and Phase I-A. The Phase I Grant was lost because the time to use the grant expired. The City withdrew from Phase I-A for fear that time would also expire to use the grant. The City applied for and was awarded 2015/2016 Grant assistance replacing I-A in March 2015.

The City intends to partner in the construction phase of the project with Bahia Mar by facilitating Bahia Mar's access to FIND grants and to contribute \$500,000 to the grant's required match while Bahia has committed to fund the remainder of the match and all project costs not covered by the grant.

Source Of the Justification: Not identified in an approved plan Project Type: Marine

#### Impact On Operating Budget:

	1		
MPACT	AVAILABLE \$	UNFUNDED	TOTAL FUNDING
			\$0
TOTAL			\$0

Comments: No impact to the operating budget.

#### Cost Estimate Justification:

Cost estimates are derived from an estimated cost per cubic yard and quantities of material to be removed from submerged land lease areas and areas outside leased areas. Quantities and cubic yard pricing were derived with the assistance of the City's project consultants. FIND typically will contribute 50% of the project inside the marina's State Submerged Land Lease and 75% for areas outside of the leased bottomlands between the marina and the Intracoastal Waterway channel.

# SR A1A (WESTSIDE) CORRIDOR IMPROVEMENT

PROJECT#: 11681

Project Mgr: Thomas Department: Public Works Address: State Road A1A/Fort Lauderdale Beach

Green Fund: 346 CRA - Beach City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33316

Description:

This project's scope includes replacing the concrete sidewalk, consolidating trees, and light poles within 2'-6" from the curbline to create an unobstructed walkway to address pedestrian safety issues. The new lighting will be designed to be turtle compliant. The lighting outside the Community Redevelopment Agency (CRA) limits will be eligible for Florida Department of Transportation (FDOT) grant funding. The project limits are along the west side of SR A1A from the Fort Lauderdale Beach Park to Sunrise Blvd.

The proposed Americans with Disabilities Act (ADA) improvements to the Sebastian Street parking lot have been incorporated into this project. The improvements include removal of the existing turn around, converting Sebastian Street back to a two-way road, and constructing new beach restrooms.

Justification:

The Central Beach Masterplan envisions a series of public improvements to the beach area from Sunrise Boulevard to the 17th Street Causeway. This project will be built to realize the full vision of the plan. These projects will be constructed partially with funds from the Beach Community Redevelopment Agency.

This project was approved by the City Commission on November 6, 2012 as a result of the Feasibility Study findings. The project is currently included in the currently advertised Request for Qualifications (RFQ) for consultant design services for streetscape projects.

**Source Of the Justification:** Central Beach Master Plan (12/15/2009, CAR 09-1772,

**Objectives:** Integrate transportation land use and planning to create a walkable

and bikeable community

# PARK IMPACT FEES FUND (350)

FY 2018 - FY 2022 Adopted Community Investment Plan - 195

# LAS OLAS TUNNEL TOP PARK

**PROJECT#: 12058** 

Project Mgr: Elizabeth Department: Transportation & Mobility Address: Federal Hwy and Las Olas Blvd.

Van Zandt Fund: 331 CIP - General Fund City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33311

**Description:** The City proposes to build a pedestrian plaza on the top of the Kinney Tunnel on the north side of the River. The

plaza will extend north from the intersection of Las Olas Boulevard and SE 6th Avenue (US 1) approximately 75'. This is to address major pedestrian safety issues that exist due to sight distance issues created by the tunnel side walls. In addition, it will provide much needed green/open space for the surrounding area and serve to seamlessly

connect the east and west sides of the tunnel along Las Olas Boulevard.

**Justification:** To be funded by Park Impact Fees, City Manager Memo 14-034, dated 3/7/14.

This was originally called out for in the Broward Boulevard Gateway Plan and then Jeff Speck's Downtown Walkability report. It was a Commission Annual Action Priority in FY 14.

The most recent FDOT Statewide Pedestrian Crash Cluster Analysis indicates that the location of the proposed plaza and the surrounding area have significant pedestrian safety issues (FDOT State Safety Office 2014).

Source Of the Justification: Jeff Speck Walkability Plan (5/28/2013) Project Type: Parks

Comments: Staff will work with Parks and Recreation to quantify the operations and maintenance based on the final design of the plaza. This impact is not expected until FY 2021 after the project is complete. It is expected in the range of \$25K.

#### **Cost Estimate Justification:**

FDOT prepared an independent cost estimate in November 2016 of \$2,306,734.06 (design, engineering, MOT, construction, project management). \$10K is anticipated to cover additional SHPO cost, in the event additional consultant support is required. New security cameras will be included within the project scope, in coordination with the Police Department.

# MILLS POND PARK BASKETBALL COURTS

# PROJECT#: FY 20170493

Project Mgr: Enrique Department: Parks and Recreation Address: 2201 NW 9 Avenue

Sanchez Fund: 350 Park Impact Fee City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project is for the installation of two (2) new basketball courts at the Mills Pond Park next to the park office. The

project specifications include: two (2) adjoined courts, 100' x 100', 8" concrete slab, four (4) Wausau standard goals with tempered clear glass backboards, painted with U.S. open blue with regulation lines. Courts will be fully covered

by a high metal frame structure which will be lighted to allow for extended hours of play.

Justification: There are currently no basketball courts located at the Mills Pond Park. The addition of these courts will allow our

neighbors and visitors access to basketball day or at night in a well lighted safe environment.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Parks

# HOUSEHOLD HAZARDOUS WASTE AND RECYCLING FACILITY

# PROJECT#: FY 20160425

Project Mgr: Melissa Department: Public Works Address: 6300 NW 21 Avenue

Doyle Fund: 409 Sanitation City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

Description:

This project consists of converting closed Fire Station 88 which is currently vacant, and resides on Fort Lauderdale Executive Airport's property to a drop-off convenience center. This center will exist to accept household hazardous waste, electronics, recyclables, and other items from the City of Fort Lauderdale residents. This project consists of renovations and improvements to the existing facility as required by governing authorities to safely handle these types of materials. The purchase of equipment would also be needed for operations.

Source of Justification: The City of Fort Lauderdale National Pollutant Discharge Elimination System (NPDES) Permit.

Justification:

The City of Fort Lauderdale currently disposes of household hazardous wastes and electronics through a series of events held three times per year within the City. This is also hosted eight times in other neighboring cities. These events are held on a Saturday with limited operating hours (five hours duration), and currently is the only opportunity our residents have to safely dispose of these items. The City's (NPDES) permit requires that the City manage waste that pose a threat to our water supply, including chemicals and oils that may otherwise be poured into storm drains, water bodies, and the sewer system. In FY 2014, 1,428 residents brought their materials to the organized household hazardous waste collection events. This was done to divert 125,674.33 pounds of materials from being incorrectly placed in the waste stream or potentially contaminating our water supply. This facility would operate at least two weekends per month to more easily accommodate the neighbors.

Source Of the Justification: Not identified in an approved plan Project Type: Water Sewer

## PROJECT#: FY20180635

Project Mgr: Todd Department: Public Works Address: 1901 NW 6th Street

Hiteshew Fund: 331 CIP - General Fund City: Fort Lauderdale

**Description:** This project involves remediating the site by placing an engineering control consisting of a Geo textile fabric and one

foot of clean fill within the open area. The perimeter fence will also be removed and replaced as needed. Cracks in the pavement will be sealed in addition to curbing being installed to contain the engineering controls. This project also contains several options which may or not be included depending on costs including the removal of a ramp and creating parking spaces, regrading the berm, and installing a parking area east of the entrance road to the toe of the

berm.

Justification: This is a site of ongoing contamination that needs to be resolved in order to obtain site closure from the regulatory

agencies.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Environmental

# **ELECTRICAL UPGRADES**

## **PROJECT#: 11917**

Project Mgr: Stan Department: Public Works Address: 1765 SE 18 Street

**Zip:** 33316

Description: This funding will provide for a consultant, whose scope of work will include final design activities. This work also

includes plans and specifications, permitting, bidding, and subsequent field quality assurance/quality control of installed electrical upgrades to ensure adequacy during construction at the George T. Lohmeyer Wastewater Treatment Plant. This project will provide replacement of MCC-2, MCC-2A, MCC-10A, LP-13A, TP-2, and a wall mounted transformer in the Cryogenic building. Additionally, it is estimated that construction cost will be

approximately \$3,000,000.

Justification: The City's Utilities Operations staff members have identified the need to replace electrical conduits, wires, local

disconnects, and red terminal boxes (an associated support) from Reactor 1 to the generator building and Cryogenic

building.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

 Zip:
 33316

Description: The George T. Lohmeyer Regional Wastewater Plant sludge holding tank has 12 valves that are used to remove the

excess water in the sludge to be sent to dewatering. This project will replace the existing valves.

Justification: Per the Central Region Wastewater System 2016 Renewal and Replacement Requirement Analysis, these valves

have exceeded their service life and need to be replaced.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

Description: The eight (8) belt press sludge pumps located at George T. Lohmeyer (GTL) move approximately 1% sludge slurry

from the two sludge holding tanks to the belt filter presses for the dewatering operation.

Justification: The pumps were installed new in 2007 with a useful life of five (5) years according to the 2013 Central Region

Wastewater System Renewal and Replacement Requirement Analysis. These pumps have been maintained with rotor replacements beyond their useful life. At the replacement date, the electrical control panels and hardware

would need to be included.

## GTL FREIGHT ELEVATOR REPLACEMENT

## PROJECT#: FY 20170513

Public Works Address: 1765 SE 18th Street Project Mgr: Irina Tokar Department: Fort Lauderdale

451 Central Region/Wastewater City: Fund: x6891 

State: FL

> 33316-3007 Zip:

Description: The freight elevator at George T. Lohmeyer (GTL) requires an immediate replacement. It exceeded its life expectancy

according to the study completed by our consultant, CDM Smith, in June of 2016. It currently requires on average \$125,000 in annual repairs and it is constantly breaking resulting in considerable downtime. In summary, it is not just impacting daily operations of the plant but it is also a life and safety issue for the staff. In addition, the elevator is

outdated and the elevator capacity needs to be increased from 6,000 to 10,000 tons.

Justification: The freight elevator has exceeded its service life. Staff members have been injured and performance is being

hindered by not having the ability to move equipment to and from the top floors.

**Project Type:** Utilities Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093,

# GTL PLANT REHABILITATION OF PCCP PIPE

## PROJECT#: 11773

Project Mgr: Daniel Department: Public Works Address: 1765 SE 18th Street

Lizarazo Fund: 451 Central Region/Wastewater City: Fort Lauderdale

x6982 **District**: □ I □ II □ III ☑ IV **State**: FL **Zip**: 33316

Description: Design & Construction of the rehabilitation or replacement of Prestressed Concrete Cylinder Pipes (PCCP) process

pipe within the George T. Lohmeyer (GTL) Wastewater Treatment Plant (WWTP). Work will include planning, design, and construction as follows: 1) identification of pipes to be replaced, 2) analysis and determination of rehabilitation-vs-replacement, 3) develop short & long term action plan for replacement schedule and 4) identification of bypass piping requirements. Project includes getting an opinion of probable construction cost and rehabilitation

schedule.

Justification: Operations & Maintenance (O&M) staff have indicated that existing PCCP process pipes within GTL WWTP have

deteriorated (are leaking) and must be replaced. O&M staff have requested assistance from Engineering staff to

coordinate project management for the planning, design and construction of such PCCP process pipes.

 □ IV
 State:
 FL

 Zip:
 33316

Description: This project is for pre-treatment channel stop gates at the George T. Lohmeyer WasteWater Treatment Plant.

Justification: The gates have a useful life of 20 years according to the 2013 Central Region Wastewater System Renewal and

Replacement Requirement Analysis. These gates were installed in 1984. These gates control and isolate raw

wastewater flows within the pre-treatment building, and are essential in containing flows and preventing overflows.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

# **REGIONAL RENEWAL & REPLACEMENT**

**PROJECT#: 00401** 

Project Mgr: Miguel Arroyo Department: Public Works Address: Citywide

X 7806 Fund: 451 Central Region/Wastewater City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

Description: The City is the owner and operator of the Broward County Central Wastewater System. The regional system

consists of wastewater transmission lines, re-pump stations and the wastewater treatment facility. This project accounts for the costs associated with these facilities. Annually the Region prepares a Central Region Wastewater System Renewal and Replacement Analysis that is a 20-year financial plan for the systems renewal and replacements. This project identifies those funding requirements. Annually we evaluate the regional components and validate their condition against the expected life span previously analyzed. The information on the component (s) is (are) then updated based on when it should be replaced including its anticipated cost. This information is entered

into a 20-year rotating replacement database to ensure sufficient funds are collected.

Justification: Provides for current and future needs, as noted in the Wastewater Master Plan and annual Central Region Renewal

and Replacement report.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

# **UTILITIES ASSET MANAGEMENT SYSTEM**

PROJECT#: 12190

Project Mgr: Elkin Diaz Department: Public Works Address: City-wide

x6539 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

**Description:** This project is for the purchase and implementation of a utilities geographic information system (GIS) centric asset management system for Stormwater, Distribution and Collection and Treatment assets throughout the City. The

software system will include long-range planning, life-cycle costing, proactive operations and maintenance, and

capital replacement plans based on cost-benefit analysis.

Justification: The software will help keep track of the City's stormwater, sanitary sewer, and water distribution assets. It will serve

as a integral part of monitoring these systems and identify deficiencies, and perform the necessary upgrades and repairs. The utilities asset management system will support the water and sewer master plan, the consent order with

Florida Department of Environmental Protection (FDEP) and the stormwater master plan.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

 ☐ IV
 State:
 FL

 Zip:
 33305

Description: This project is for a small water main replacement at 2535 North Federal Highway. This project will replace existing

small water mains which are undersized and deteriorated, with new 6" water mains.

Justification: The Water Master Plan identifies the replacement as necessary. This will also improve quality of service by

improving pressure and water quality.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

# **441 NW 7 AVENUE SEWER EXTENSION**

# PROJECT#: P12203

Project Mgr: Diana Carrillo Department: Public Works Address: 441 NW 7th Avenue

x6134 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project includes the design and construction of a new gravity sewer main extension from NW 7 Terrace to NW 7

Ave which will be approximately 280 linear feet.

Justification: This block of the City currently runs on septic systems since there is no sewer infrastructure in the immediate

vicinity. The property owner at 441 NW 7 Ave has indicated that they have various issues with their septic system and would like to convert to discharging via a sanitary sewer lateral into City-owned sewer infrastructure. The City Manager has expressed his interest in this project and has directed Public Works Engineering to begin this work of

extended the nearest sewer main.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

Description: This project is for abandoning 20 wells at the Fort Lauderdale Executive Airport (FXE) Property due to regulatory and

compliance requirements by the regulatory agencies

Justification: Due to regulatory monitoring and compliance requirements by the South Florida Water Management District and

Broward County Department of Environmental Protection, the City of Fort Lauderdale has to properly abandon 20 wells at the FXE property and its vicinity. Abandoning a well must be done via a construction project with a

construction permit in accordance with the entire regulatory requirement.

# ADVANCED METERING INFRASTRUCTURE IMPLEMENTATION

# PROJECT#: FY 20150219

Project Mgr: Rick Johnson Department: Public Works Address: Citywide

x7809 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☑ II
 ☑ IV
 State:
 FL

 Zip:
 33301

**Description:** This project is for the implementation of Advanced Meter Infrastructure (AMI) throughout the water distribution system. The system will provide smart meters with two-way communication between the meter and utility, and

between the meter and our neighbors (smart grid). The project includes the purchase and installation of 62,425 water meters with AMI radio modules, a Citywide AMI network infrastructure, billing integration with the Cayenta software

system, and project management.

Justification: Automated meter reading technology has been proven to identify lost revenues by capturing low-flow usage lost in large meters, stopped meters, and illegal consumption. Additionally, the leak detection technology available in the system will pinpoint water loss. The system will provide asset management via GPS, eliminating meter tampering

and theft

Operational efficiencies will result from reduced administrative paperwork, fewer costly field investigations, the availability of remote turn offs for non-payment, eliminating field visits for rechecks and move-in/move-outs, and reduced risk due to personnel injuries and lost time accidents. Approved as a secondary backflow preventer eliminating the need for costly notifications and inspections. Provides maximum day and peak hour flows for

modeling and design of water mains.

Promotes sustainability: encourages water conservation, limits vehicles on the road, reduces paper, tracks and

predicts changes in water usage trends and demands.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Utilities

# **ANALYSIS OF CHEMICAL ADDITION SYSTEMS-PEELE DIXIE**

# PROJECT#: FY 20150228

Project Mgr: Miguel Arroyo Department: Public Works Address: 4030 South State Road 7

x7806 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33311

Description: This project is to fund an engineering consultant to analyze the current chemical addition systems (fluoride,

corrosion inhibitor, anti-scalant, and sulfuric acid) at the plant. The analysis will result in recommendations for the

removal and replacement of tanks and equipment.

Justification: The analysis is expected to yield a new configuration where the bulk tanks are capable of receiving a full load. It will

also evaluate if the day tanks are of adequate size to provide at least 24 hours of operations (12 million gallon per day (MGD) of finished water) before needing to be refilled. Dual tanks will improve reliability and allow for

maintenance of one tank without interrupting the plant's operations.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

### **Project Funding Summary:**

# **B-10 PUMP STATION REHAB**

**PROJECT#: 11879** 

Project Mgr: Stan Department: Public Works Address: 2152 Imperial Point Drive

Edwards Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

**Description:** Pump Station B-10 is a large sewerage pump station that collects wastewater in the Imperial Point area, at the northeast section of the City. It serves a large basin area that includes the Imperial Point Hospital. The station was

built many decades ago, and is in dire need of major repairs. This project is for the complete rehabilitation of the station and includes removal and replacement of all the mechanical, electrical, and ventilation equipment. The work includes replacement of all station pumps, pipes, valves, suction and discharge piping, re-routing of discharge force main, new sump pumps, ladders, grates, hatches, heating, ventilation, air conditioning (HVAC), electrical and control

system, repairs to the wet well, and structural repairs to the station.

Justification: Station B-10 is part of a group of pump stations identified under the (now completed) WaterWorks 2011 program for

rehabilitation or replacement. This group was identified as Phase III Pump Station Rehab, which also provides for

upgrading and maintaining the City's wastewater infrastructure.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

# **BAYSHORE DR. INTRACOASTAL CROSSING FORCE MAIN**

**PROJECT#: 12351** 

Project Mgr: Daniel Department: Public Works Address: 820 Intracoastal Drive

Lizarazo Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

Description: This project is to replace approximately 4,420 linear feet of the existing 18" ductile iron pipe (DIP) for the force main

that has suffered multiple failures over the last ten years. The force main is currently in service. It is necessary to

note that this project includes a 650 foot long subaqueous crossing of the Intracoastal Waterway.

Justification: The original construction date was 1982. The force main has had at least three significant failures over the last ten

years. This force main transports sewage from the east of Sunrise Boulevard area to the beach where it goes to the

wastewater plant. This is a significant transmission main that must remain viable.

Source Of the Justification: Not identified in an approved plan Project Type: Utilities

# BERMUDA RIVIERA B-2 SEWER BASIN REHAB

# **PROJECT#: 11864**

Project Mgr: Katherine Department: Public Works Address: 3601 NE 32 Avenue

Griffith x6126 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33308

**Description:** This project is for the relining of sanitary sewer collection mains and laterals in Basin B-2. The project includes point repairs, minor road restoration and landscaping, and the rehabilitation of mainline sewers. It will employ the use of

trenchless technologies to repair sewer system components such as the lining of gravity sewers, manholes, and sewer laterals. The work also includes pre and post television survey, flow monitoring, traffic control, and site

restoration. This is part of the Wastewater Conveyance System Long Term Remediation Program.

**Justification:** This project is a 2007 Master Plan recommendation. Rehabilitation of sanitary sewer collection mains and laterals is required to reduce inflow and infiltration, which can adversely impact the system capacity to transmit and treat

wastewater. This sanitary sewer basin was identified as having excessive inflow and infiltration flows which contribute

additional sewage to George T. Lohmeyer Wastewater Treatment Plant.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

# BERMUDA RIVIERA SMALL WATERMAIN IMPROVEMENTS

# PROJECT#: FY 20150186

Public Works Address: 63 Fort Royale Isle Diana Carrillo Project Mgr: Department:

454 Water and Sewer Master Plan City: Fort Lauderdale x6134 Fund:

> District: ☑I □ II State: FL 33308 Zip:

Description: This project is for small water main improvements in the Bermuda Riviera neighborhood. This project will replace

existing water mains, which are undersized and deteriorated, with approximately 16,400 linear feet of 6" water

mains.

Justification: The Water Master Plan identifies the replacement as necessary. This will also improve quality of service by

improving pressure and water quality.

**Project Type: Utilities** Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093,

## **Project Funding Summary:**

			\$0
TOTAL			\$0

Comments: This project restores current deteriorated asset. No additional operating budget impact is anticipated.

#### Cost Estimate Justification:

Cost estimated based on 16,400 feet of 6" water main at \$250 per lineal foot with a 10% contingency fee, 7% Construction Management Fees, 3% City Design Management and 7% Consultant's fees according to similar recent Task Orders. Considering 50% constructed in 2019 and the remaining 50% constructed in 2020.

 Zip:
 33301

**Description:** This project is for the Broward County Interlocal Agreement. The proposed project includes the installation of a 48"

culvert beneath Sunrise Boulevard on the west side of the S33 structure. This culvert would provide a direct connection between a recharge lake to the north and the C12 canal. This will connect the C12 & C13 canals with a

north/south interconnect.

Justification: It will assist and augment recharge to the Peele-Dixie Wellfield, improve water quality for the C-12 canal, and have

additional environemental benefits.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Environmental

M-4)

# **CENTRAL NEW RIVER WATERMAIN RIVER CROSSINGS**

**PROJECT#: 10814** 

Project Mgr: Steve Hillberg Department: Public Works Address: New River at SE 1 Avenue & SW 7 Avenue

x5076 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

**Description:** The City's existing water transmission system includes a 16-inch pipe that crosses the New River at SE 1st Avenue and an existing 12-inch pipe that crosses the New River at SW 7 Avenue. Both of these river crossings are

sub-aqueous pipelines. The 16-inch pipe has suffered repeated failures and these pipe crossings are important to the downtown water supply. Replacement pipelines are currently under design. The staff recommends running a transmission system hydraulic model to determine the impact of changes to the existing and proposed river

crossings.

Justification: The hydraulic model developed for the 2016 Water Master Plan will run with several scenarios, to determine the

pressure impacts. The adequacy of the transmission system network shall be determined based upon a minimum

required transmission system pressure of 45 psi during peak hour demand.

Source Of the Justification: Water Master Plan (01/15/2008, CAR08-0093, M-4) Project Type: Utilities

Comments: No Budgetary Impact

### **Cost Estimate Justification:**

The cost estimate was created in 2018 using a report from 2011 provided by the water engineering consultant that listed costs to rehabilitate the 16-inch water main. The cost for the rehabilitation method was escalated to 2018 dollars. The cost for the 12-inch water main replacement was estimated using the schedule of values for project 12196.

# **COMPREHENSIVE EVAL & IMPR AT PEELE DIXIE**

# PROJECT#: FY 20150227

Project Mgr: Miguel Arroyo Department: Public Works Address: 4030 South State Road 7

x7806 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33309

Description: This project is to fund a specialized engineering consultant to implement a comprehensive evaluation of the Peele

Dixie Water Treatment Plant (WTP) and water supply. This study/evaluation will yield a set of recommendations to determine if any portion of the old lime softening plant can be returned to service or if other operational changes should be implemented. The consultant will be responsible for any required testing and analysis. The selected consultant will prepare a report with their recommendations to remineralize and stabilize the water. They will determine if the old lime softening plant can produce a minimum of 3 million gallons per day (MGD) of finished water. This volume of water would be blended with the finished water from the current nano filtration membrane plant within

the Peele Dixie WTP fence line.

**Justification:** This study/evaluation will yield a set of recommendations to provide for a more stable/blended finished water filtration. The consultant also may return to service a portion of the historical lime softening plant or provide other

recommendations. The use of a portion of the Lime Softening Plant, or use of the Floridan wells will conserve our

Biscayne Water Supply, thereby remineralizing the water and improving the water quality.

Source Of the Justification: Water Master Plan (01/15/2008, CAR08-0093, M-4) Project Type: Utilities

Comments: This project restores a current deteriorated asset. No additional operating budget impact is anticipated.

### **Cost Estimate Justification:**

This request is based on a prior assistant director of utilities estimate/experience. The work under this project is to analyze/design/build improvements at Peele Dixie to allow the continuous operation of the four skids so as to consistently produce 12 MGD. Elements to be included are the plant's pre-treatment, such as: sand strainer, iron mitigation, raw water air intrusion mitigation, etc.

Comments: This project restores current deteriorated asset. No additional operating budget impact is anticipated.

#### **Cost Estimate Justification:**

The original construction cost estimate created in 2015 was based on the RSMeans unit prices at \$200 per linear foot. This construction cost was escalated in 2018 dollars using a combination of the Turner Non-Residential Construction Cost index and a construction escalation factor from Florida Department of Transportation (FDOT). Consultant costs were estimated at 16% of the 2018 construction cost (8% each for design and construction management). City administrative costs were estimated at 10%.

# DAVIE BLVD. 18" WATER MAIN ABANDONMENT 195 TO SW 9

# **PROJECT#: 12184**

Project Mgr:DanielDepartment:Public WorksAddress:300 Davie Blvd.LizarazoFund:454 Water and Sewer Master PlanCity:Fort Lauderdale

x6982 **District**: □ I □ II □ III ☑ IV **State**: FL **Zip**: 33315

Description: A new 24" water main was installed to replace the old 18" cast iron water main under the Waterworks Program in

2005-2007, but the old main was never properly abandoned. This work will include identifying and relocating all the service lines currently tied to the 18" main and moving them to the 24" main. This work includes abandonment of

approximately 7,788 linear feet of pipe to be abandoned from SW 18th Avenue to Andrews Avenue.

Justification: The old 18" cast iron water main has the potential to fail due to its age and condition. The pipe is oblong in shape,

not circular. This condition makes repairs extremely difficult, and they typically have to be performed by contract. Due to the sensitive location on a major east-west commuting route, this work should be completed before the pipe

fails.

# **DEMOLITION & ABANDONMENT OF PUMP STATIONS**

PROJECT#: 11889

Project Mgr: Stan Department: Public Works Address: 600 W Sunrise Boulevard

Edwards Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

x5071 **District**:  $\square$  I  $\square$  III  $\square$  III  $\square$  IV **State**: FL **Zip**: 33311

Description: This project will fund consultant services for the demolition and abandonment of pump stations A-44, A-97, and C-31.

The consultant will prepare a preliminary evaluation and inspection of existing conditions, and will prepare a design for the demolition. Funding for this project will also provide for permitting, and the preparation of construction contract documents. The consultant's design plan includes the demolition of station mechanical and electrical equipment and the demolition of the concrete structures. The project will also abandon/remove utility connections such as water,

electric, and forcemain, site restoration work, and connection of the properties.

Justification: Pump Station A-97 is no longer required and is not in service. The property it served (Sunnyreach Acres Townhomes

in Riverside Park neighborhood) is now connected directly to the City's sanitary system. Therefore, this station can be demolished. A sanitary sewer is now available on streets adjacent to pump stations A-44 (Progresso neighborhood) and C-31 (Riverland Annex neighborhood). The properties served by these stations will be connected

directly to the City's sewer. These two stations will no longer be required.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4

# FIVEASH CHEMICAL SYSTEM IMPROVEMENTS

**PROJECT#: 11594** 

Project Mgr: Steve Hillberg Department: Public Works Address: 4321 NW 9 Avenue

x5076 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

Description:

This project replaces portions of two chemical systems at the Fiveash Water Treatment Plant. The current lime solution delivery system consists of one open air trough dedicated to each of the four water treatment units. The project will replace the delivery system with a central mixing and storage tank where computer controlled metering pumps will deliver more precise doses of lime solution of a more consistent quality to the treatment units. Each pump will be able to deliver precise quantities of lime solution to any combination of treatment units. The new storage and delivery system for slaked lime will be constructed in the location presently occupied by the fluoride storage tanks and transfer pumps. The fluoride tanks and pumps will be replaced by a new fluoride storage and transfer system constructed nearby.

Justification:

Both the lime system and fluoride storage and delivery system are near the end of their functional lives. The lime system is troublesome and frequently fails to deliver the proper amount or concentration of lime solution to the treatment units. Further, flow in the lime delivery troughs cannot be accurately controlled. As a result, the treatment process does not receive precise amounts of lime necessary for optimum water treatment. With the current system, each lime shaker (mixing machine for lime and water) is dedicated to an individual treatment unit with no capability of feeding other treatment units. Failure or maintenance of one component of the delivery system removes an entire treatment unit from service. Replacing this system will improve treatment results, as well as operational flexibility.

Source Of the Justification: Water Master Plan (01/15/2008, CAR08-0093, M-4) Project Type: Utilities

# FIVEASH DISINFECTION/ RELIABILITY UPGRADES

**PROJECT#: 11589** 

Project Mgr: Steve Hillberg Department: Public Works Address: 4321 NW 9 Avenue

x5076 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

**Description:** 

This project is for the construction of two separately designed projects under one construction contract. Combining the projects is necessary because both projects need to be completed at the same time. Having one construction contract will avoid disputes between two contractors working at the same time, and competing for staging areas and storage space on the crowded water treatment plant site. Under this approach, both projects can be constructed in three years.

The first project, Reliability Upgrades, installs various repairs and replacements throughout the plant. Major items include replacement of the control system for the entire plant, replacement of the obsolete emergency generators, modifications to the high service pumps, and increasing the weather resistance of the plant buildings. The second project, Disinfection System Replacement, replaces the existing gaseous chlorine system with a new facility.

Justification:

The Reliability Upgrades project is necessary because the plant requires upgrades of outdated equipment and software, as well as, repairs and upgrades to the buildings at the plant. The computerized plant control system is outdated and cannot be maintained effectively. An entirely new control system will be installed to control, monitor, and track the various processes at the plant. The plant's Emergency Generators have exceeded their life expectancy, and will be replaced with a new generator facility. The Disinfection System Replacement project is necessary in order to allow discontinuation of the use and storage of large quantities of gaseous chlorine that is potentially dangerous.

# **HARBOR BEACH SEWER BASIN D34 REHAB**

## PROJECT#: FY 20150213

Project Mgr: Luis Oliveira Department: Public Works Address: 2601 SE 17 Street

x5877 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33316

Description: The project includes point repairs, minor road restoration and landscaping, and the rehabilitation of mainline sewers

in Basin D-34. It will employ the use of trenchless technologies to repair sewer system components such as lining of gravity sewers, manholes, and sewer laterals. Work also includes pre and post TV survey, flow monitoring, traffic

control, and site restoration. This is part of the Wastewater Conveyance System Long Term Remediation Program.

Justification: This project is based on a 2007 Master Plan recommendation. This sanitary sewer basin was identified as having

excessive inflow and infiltration flows which contributes additional sewage to George T. Lohmeyer Waste Water

Treatment Plant.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

# **IMPERIAL POINT LARGE WATER MAIN - PHASE II**

## PROJECT#: 11720

Project Mgr: Jean Department: Public Works Address: NE 56 St./N. Andrews Ave. & NE 15 Ave.

Examond Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

Description:

Construction work includes installation of 4,660 linear feet (L.F.) of 16-inch DIP water mains and connections to existing water mains in the area. It also includes the installation of 1,100 L.F. of 24-inch directional drill that includes a 24-inch HDEP SDR-13.5 IPS black casing and a 16-inch HDEP SDR-11 DIPS blue strip water main. Additionally, project includes trench, asphalt restoration, striping and signs per Broward County Minimum standards.

Justification:

During 2006-2007 under the Waterworks program the City constructed Phase I of project P10571 which included: installation of 10,818 LF of 16" and 10" water mains and connections to existing water mains in the Imperial Point area of the City. Phase I included trench, asphalt restoration and signs per Broward County Minimum standards. The Phase II portion of the water 16-inch DIP water main must be completed under this new Project in order to finalize the interconnection.

Source Of the Justification: Water Master Plan (01/15/2008, CAR08-0093, M-4) Project Type: Utilities

Comments: This project restores a current deteriorated asset. No additional operating budget impact is anticipated.

### **Cost Estimate Justification:**

The original cost estimate created in 2015 was based on RSMeans unit prices at \$200 per linear foot. For 2018, consultant fees were estimated at 16% of the estimated construction cost (8% each for design and construction management) and city fees were estimated at 10% of the estimated construction cost(5% each for project administration during design and construction). These costs based on the 2015 estimate were escalated in 2018 dollars using the Florida Department of Transportation (FDOT).

# **NE 57 STREET SMALL WATERMAIN IMPROVEMENTS**

## PROJECT#: P12156

Project Mgr: Stan Department: Public Works Address: NE 57 Street & NE 27 Avenue

Edwards Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

**Zip**: 3330

Description: Replacement of approximately 950 linear feet of 6' water main on N.E. 57 Street, from N.E. 27 Avenue, east to the

cul-de-sac. The new water main shall be installed on the north side of the street between 2751 and 2761.

Justification: The 6" water main has severely deteriorated internally. The condition is such that continuous hydrant flushing must

be performed in order to provide aesthetically please, clean, safe drinking water. Flushing will account for an annual

loss of 26MG of potable water at this location until the water main is replaced.

Description:

This project is for the replacement of the City's Central Laboratory (lab) which is becoming obsolete with a new modern state of the art laboratory. The new lab will be located on the second floor of the process building at the Peele Dixie Water Treatment Plant. This building is Category IV hurricane rated and would provide a safe location to conduct water quality testing during, and immediately during, the aftermath of a hurricane. The work will also include the addition of 13 parking spaces, men's and ladies' restrooms, and negative pressure air condition system, with isolation between the various laboratory sections. The electrical supply system will also need to be updated, if needed, to support the furnaces used for the lab operations. The new lab will be State of the Art and will meet all of the NELAC Institute's National Environmental Laboratory Accreditation Management System (ISO) certification requirements.

Justification:

The existing environmental laboratory is approximately 30 years old and has exceeded its service life. The lab is located on the third floor of the Administrative Building at 949 Northwest 38 Street. The building was built in 1960's and is not hurricane rated. The current lab is small for all of the testing's functions (water and wastewater). The original lab has evolved over the years, with more tests added, and Quality Control/Assurance became paramount when the lab achieved its national NELAC Institute's National Environmental Laboratory Accreditation Management System (ISO) certification in April 2014. The lab equipment is outdated (furnaces and testing apparatus). The building roof has frequent leaks. The corrosive nature of chemicals used in testing, has caused plumbing fixtures and pipes breaks often causing leaks that damage offices in the floors below. The countertops in the original laboratory are made of asbestos material, and the countertops have been subjected to che

## NW SECOND AVENUE TANK RESTORATION

PROJECT#: 11887

Project Mgr: Steve Hillberg Department: Public Works Address: 625 NW Second Avenue

x5076 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project makes structural repairs and safety upgrades to the water tower, repaints its interior and exterior, adds

a new decorative painting scheme over the entire structure and installs an Internet controlled and viewed interactive

color changing LED lighting system.

Justification: The tank has several rusted and deteriorated areas. Its interior and exterior coatings are overdue for replacement and

the aircraft obstruction lights have become unreliable. City management requested addition of decorative painting

and lighting to the tank repair and repainting project.

Source Of the Justification: 2035 Vision Plan: Fast Forward Fort Lauderdale Project Type: Utilities

### **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING
Water and S	Sewer Master P	lan   CONSTRUCTIO	ON

**Comments:** City Manager committed approximately \$700K for water tower decorative painting and lighting systems but wants to see what the bids come in at before deciding on the tower art and lights funding source. This app has been modified to fund from Water Sewer.

#### Impact On Operating Budget:

MPACT	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING
Incr./(Dec.) Operating Co	osts							
CHAR 30		\$10,000	\$10,000	\$10,000	\$10,000	\$10,000		\$50,000
TOTAL	_	\$10,000	\$10,000	\$10,000	\$10,000	\$10,000		\$50,000

Comments: The project will add an annual maintenance cost of approximately \$3,000 per year for the lighting system and an additional \$7,000 per year of electric power consumption.

### **Cost Estimate Justification:**

The cost estimate was created from the average of the 2012 bids for repairing the tank under project P11405A (\$1.2 million), escalated 2% per year until FY17 and and then escalated 2.7% in accordance with the Florida Department of Transportation (FDOT) construction cost escalation table. A 10% contingency was added to the resulting estimated cost. Consultant costs were taken from approved contracts. A structural engineering inspector contract was recently required by the building department a

## OAKLAND PARK BEACH AREA WATERMAIN

## PROJECT#: 11571

Project Mgr: Steve Hillberg Department: Public Works Address: NE 30 Place from NE 26 Terrace to A1A

x5076 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☐ IV
 State:
 FL

 Zip:
 33306

Description: This project will complete the scope of service that was unfinished in Phase 1 (Project #10572) due to

contamination, easement and permitting issues, and complete the replacement of the old water main on Oakland

Park Blvd. that serves the beach area.

Justification: The existing iron pipe, which was installed in 1957, is past its estimated lifespan. At 16 inches in diameter, it does

not provide adequate redundancy for existing beach crossings, and cannot provide adequate service for estimated

future demands. The new pipe will be 30 inches in diameter.

Source Of the Justification: Water Master Plan (01/15/2008, CAR08-0093, M-4) Project Type: Utilities

### **Project Funding Summary:**

Description: This project is for the renewal and/or replacement of miscellaneous equipment, structures, pipes, and other features

critical to the continued safe, reliable, efficient, and compliant operation of Peele-Dixie Water Treatment Plant.

Justification: The Peele-Dixie Water Treatment Plant treats and transmits approximately 12 million gallons per day (mgd) of the

water used by the City and other customers. Continued safe, reliable, efficient, and compliant operation of the plant requires renewal or replacement of a wide variety of plant infrastructure and equipment on a timely and as-needed

basis.

Source Of the Justification: Water Master Plan (01/15/2008, CAR08-0093, M-4) Project Type: Utilities

### **Project Funding Summary:**

IMPACT	AVAILABLE \$	UNFUNDED	TOTAL FUNDING
			\$0
TOTAL			\$0

**Comments:** No Budgetary Impact. This project also includes the design and construction of pilot plant to better evaluate what type of membrane should be used at the plant.

### **Cost Estimate Justification:**

The standard membrane elements are between \$500 to \$600 per element. The skids have 77 vessels with 7 elements each . (77 x 7= 539). 539 X \$600 =\$323,400.00 per skid. We have 4 skids. Estimate for the elements = \$1,293,600 plus \$150,000 per installation. Total estimate \$1,443,600. The \$500,000 for consultant fees includes the design and fabrication of a pilot plant.

# PUBLIC WORKS ADMINISTRATION BUILDING AIR CONDITION

## PROJECT#: 12259

Project Mgr: Irina Tokar Department: Public Works Address: 949 NW 38th Street

x6891 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33301

Description: Heating, ventilation, and air-conditioning system (HVAC) at the Public Works Administration Building is at the end of

its life-cycle and requires many repairs resulting in yearly cost of approximately \$70,000. The existing system is not reliable, not energy efficient, provides poor temperature and humidity control and is very costly to maintain. Staff recommends HVAC system replacement, including two existing chillers, to save money in operational and

maintenance cost as well as to provide much needed reliability for this essential facility.

Justification: It is critical that the air conditioning equipment be operational 24/7 in the Public Works Administration Building as

the following critical functions are housed in this facility: the 24 Hour Call Center, Treatment Laboratory, Water Distribution, Utilities Management, sensitive/critical Utilities Information Technology servers and other computer and

telephone equipment.

## PUMP STATION A-13 REDIRECTION E OF FEDERAL

PROJECT#: 12133

Project Mgr: Diana Carrillo Department: Public Works Address: 200 SE 2nd Court

x6134 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33301

Description: Design and construct a system to remove or divert all A-7 sewer flow from East of Federal Highway to an alternate or

new pump station to relieve the capacity issues associated with both current and future development in the A-7

basin.

Justification: The A-7 sewer basin is currently at or exceeding maximum capacity as per Florida Department of Environmental

Protection guidelines. Triplex pump stations should not exceed 10 hours of run time collectively on the discharge pumps and should not undergo periods of surcharging. Station run times have consistently been above 10 hours for

over the last five years.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

# **RIO VISTA SEWER BASIN REHAB PUMP STATION D-43**

## **PROJECT#: 11566**

Project Mgr: Katherine Department: Public Works Address: 1200 Cordova Road

Griffith x6126 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

District:  $\square$  I  $\square$  III  $\square$  III  $\square$  IV State: FL Zip: 33316

Description: This project includes the rehabilitation of mainline sewers in the Rio Vista neighborhood that are associated with

pump station D-43. Work includes pre and post TV survey, flow monitoring, traffic control, and site restoration. This

is part of the Wastewater Conveyance System Long Term Remediation Program.

Justification: Rehabilitation of sanitary sewer collection mains and laterals is required to reduce inflow and infiltration, which can

adversely impact system capacity to transmit and treat wastewater. This sanitary sewer basin was identified as having excessive inflow and infiltration flows which contributes additional sewage to George T. Lohmeyer Wastewater

Treatment Plant.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

 Zip:
 33305

**Description:** Sanitary sewer collection system rehabilitation, located at Basin B-6 (Coral Ridge area). The project includes point repairs, minor road restoration and landscaping, and the rehabilitation of mainline sewers. It will employ the use of

trenchless technologies to repair sewer system components such as lining of gravity sewers, manholes, and sewer laterals. Work also includes pre and post television survey, flow monitoring, traffic control, and site restoration. This

is part of the Wastewater Conveyance System Long Term Remediation Program.

Justification: Rehabilitation of sanitary sewer collection mains and laterals is required to reduce inflow and infiltration, which can

adversely impact system capacity to transmit and treat wastewater. This is a 2007 Master Plan recommendation. This sanitary sewer basin was identified as having excessive inflow and infiltration flows which contributes additional

sewage to the treatment plant.

Source Of the Justification: Water Master Plan (01/15/2008, CAR08-0093, M-4) Project Type: Utilities

### **Project Funding Summary:**

# SOUTH MIDDLE RIVER FORCE MAIN RIVER CROSSING

**PROJECT#: 12352** 

Project Mgr: Diana Carrillo Department: Public Works Address: 1881 Middle River Drive

x6134 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33305

Description: This project is to restore/replace approximately 1,900 linear feet of the existing 12" CIP force main that is currently

out of service due to a pipe failure. It is important to note that this is a subaqueous river crossing. The force main will

be replaced up to the lift station A-14.

Justification: The original construction date is 1967. The force main was taken out of service due to a failure of the pipe. This is

the only force main river crossing in the north part of the City that could allow the flow to be diverted to the east. This diversion would happen in the event of a force main failure to the west. The restoration of the force main river crossing

would restore the system redundancy. The design should consider increasing the size from 12" to 16."

Source Of the Justification: Not identified in an approved plan Project Type: Utilities

# **TARPON RIVER A-11 SEWER BASIN REHAB**

## PROJECT#: FY 20150211

Project Mgr: Daniel Department: Public Works Address: 112 SW 7 Street

Lizarazo Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

Description: The project includes point repairs, minor road restoration and landscaping, and the rehabilitation of mainline sewers.

It will employ the use of trenchless technologies to repair sewer system components such as lining of gravity sewers, manholes, and sewer laterals for Basin A-11. Work also includes pre and post TV survey, flow monitoring, traffic control, and site restoration. This is part of the Wastewater Conveyance System Long Term Remediation

Program.

Justification: This project is based on a 2007 Master Plan recommendation. This sanitary sewer basin was identified as having

excessive inflow and infiltration flows which contributes additional sewage to George T. Lohmeyer Waste Water

Treatment Plant.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

 Zip:
 33309

**Description:** This project is to construct a prefabricated steel building such as a "Butler" building to store equipment and

materials for use in utilities projects. The pipe yard/depot at the Public Works compound is at its maximum

capacity. There are no available covered storage spaces to keep components out of the weather.

Justification: Pipe components such as valves and repair clamps have rubberized parts that need to be stored in locations out of the elements to prevent decomposition and premature failure. The electrical components and panels have the same

requirements. The materials used for sidewalk repairs and construction materials should also be stored in a dry space. As City crews undertake additional responsibilities, storage spaces becomes critical for the components'

quality.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

# **VICTORIA PARK A - NORTH SMALL WATERMAIN**

PROJECT#: 10850

Public Works Address: NE 15 Avenue and NE 6 Street Diana Carrillo Project Mgr: Department:

> 454 Water and Sewer Master Plan City: Fort Lauderdale x6134 Fund:

> > District: State: FL 33301 Zip:

Description: This project is for a small water main replacement in the Victoria Park - North neighborhood. Replace approximately

> 23,740 linear feet (LF) of existing undersized and deteriorated small water mains with new 6" and 8" PVC (poly-vinyl chloride) water mains, and improve fire hydrant coverage on NE 16th Avenue and NE 19th Avenue. In 2014, 2,760

linear feet of water main were installed.

The Water Master Plan identifies this replacement as necessary. This will also improve quality of service by Justification:

improving pressure and reducing water quality complaints of red water staining.

## **VICTORIA PARK A-17 BASIN PUMP STATION REHAB**

## PROJECT#: FY 20150212

Project Mgr: Daniel Department: Public Works Address: 1011 NE 5 Street

Lizarazo Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

Description: This project includes point repairs, minor road restoration and landscaping, and the rehabilitation of mainline sewers.

It will employ the use of trenchless technologies to repair sewer system components such as lining of gravity sewers, manholes, and sewer laterals. Work also includes pre and post TV survey, flow monitoring, traffic control, and site restoration in Victoria Park, Basin A-17. This is part of the Wastewater Conveyance System Long Term

Remediation Program.

Justification: This project is based on a 2007 Master Plan recommendation. This sanitary sewer basin was identified as having

excessive inflow and infiltration flows which contributes additional sewage to George T. Lohmeyer Waste Water

Treatment Plant.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

# PARKING SERVICES & PARKING REVENUE BOND FUNDS (461, 462)

FY 2018 - FY 2022 Adopted Community Investment Plan - 315

## **AQUATICS COMPLEX RENOVATIONS**

## **PROJECT#: 12315**

Project Mgr: Thomas Department: Community Redevelopment Agency Address: 501 Seabreeze Blvd

Green Fund: 346 CRA - Beach City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33316

Description:

Unique and world renowned in the aquatics field, the Fort Lauderdale Aquatic Complex is a City-owned and operated 5-acre venue comprised of municipal swimming pools and the International Swimming Hall of Fame (ISHOF) museum. Renovation of the existing facility for public use includes the following improvements: remove existing 50 Meter Competition Pool and provide new expanded fully FINA compliant pool with movable bulkheads; remove existing Dive Pool and provide new expanded FINA compliant pool and dive tower; spectator seating for Diving and Competition pool; remove existing Spa for divers and provide new covered spa; repair existing 50 Meter training pool with new surfacing and gutters; repair and/or expand Instructional pool; new pool deck; remove existing grandstand building and provide new grandstand with spectator

restrooms, concessions, ticket office, and metal bleachers.

Justification:

The current facility is over 46 years old (1965-2012) and in addition to its regular community program offerings, has witnessed 10 world records as host to countless local, state, national and international events in swimming, diving, water polo and synchronized swimming. Swimming is a sport that has made Fort Lauderdale famous, having built the first Olympic-sized swimming pool in the state of Florida in 1928.

Source Of the Justification: Central Beach Master Plan (12/15/2009, CAR 09-1772, Project Type: Parks

I-A (conference))

## BEACH TRAFFIC MANAGEMENT PLAN EXECUTION

## PROJECT#: FY20180651

Project Mgr: Elizabeth Department: Transportation & Mobility Address: Citywide

Van Zandt Fund: 331 CIP - General Fund City: Fort Lauderdale

District: ☑ I ☑ II ☑ IV State: FL

Zip:

**Description:** 

This project is needed to implement the Beach Traffic Management Plan, a 2015 Commission Annual Action Priority Plan item. The Beach Traffic Management Plan will provide for a comprehensive evaluation of traffic and mobility conditions on the barrier island, allowing for the identification of issues and solutions. The final strategy aims to change the way people travel to, from, and within the coastal areas of the city in order to support and sustain a thriving tourist and local resource. The scope of the plan under development includes the evaluation of park and ride incentives, truck delivery routing and scheduling, loading/unloading policies and enforcement, shared parking partnerships, smart parking technologies, traffic management technologies for special event and high volume times, new parking facilities, expanded waterway travel options, taxi and Uber/Lyft pickup/drop off locations, maintenance of traffic policies, wayfinding signage, enhanced pedestrian and bicycle facilities.

Justification:

This project addresses a top concern of neighbors as demonstrated by results of the annual neighbor surveys. Traffic not only causes delay, but leads to car crashes, severe injuries, and fatalities. Traffic created from people trying to access and leave the beach destination has the potential to negatively impact the tourism industry. This project will also contribute to achieving the goal of a fully connected, pedestrian friendly community.

Overall benefits to the community include enhancing quality of life, facilitating multimodal transportation implementation and utilization, and promoting economic development opportunities.

Source Of the Justification: Connecting the Blocks Plan

**Project Funding Summary:**

			\$0
TOTAL			\$0

Comments: It is essential to schedule implementation funding to implement this Commission Annual Action Priority Plan item.

#### **Cost Estimate Justification:**

The funding will implement a set of initial infrastructure projects to be identified and prioritized through the Beach Traffic Management Plan. The projects will improve transportation options and include roadway and transit and pedestrian improvements. Parking solutions are a linchpin to successful long-term beach traffic management. Funding will be applied to site selection and scope of parking structure improvements identified in the plan. Estimates are based on past project implementation.

## **NORTH GALT SHOPS**

**PROJECT#: 12354** 

Project Mgr: Frank Castro, Department: Transportation & Mobility Address: North Beach Village Shoppes

x3792 **Fund**: 461 Parking Fund **City**: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33311

**Description:** The North Beach Restaurants and Shoppes area is defined by NE 32 Avenue to the west, N Ocean Blvd to the east, NE 34 Street to the north, and E Oakland Park Blvd to the south. With a mix of commercial and high-density

residential uses, there is a need for a more walkable environment for our neighbors and visitors. The goal of this project is to economic development, improve walkability, ADA compliance, parking, traffic calming measures, and

simplify traffic circulation through the use of streetscape improvements.

**Justification:** The project implements treatments that help balance the needs of a unique mixture of restaurant and bar uses with high rise residential in a non-downtown setting. The initiatives are consistent with the City's Fast Forward Fort

Lauderdale 2015 Vision, Connecting the Blocks Program, and Vision Zero Initiative. There is a large pedestrian population traversing east/west to get to the Beach across A1A and safe facilities are lacking. There is also a need

to provide additional parking to support the local business in the area.

Description: The consulting firm DeRose Design Consultants, Inc. was hired by the City in 2013 to perform a structural,

mechanical, and electrical inspection of City properties. As a result of this study, repairs at various properties under the Parking fund were identified. The funds requested for this project will be used for the structural, mechanical, and

electrical improvements at the City Park Garage and the Parking Administration Building.

Justification: The 40 year building safety inspection performed by DeRose Design Consultants, Inc. addressed multiple structural,

mechanical, and electrical findings. Depending on the condition of the finding, the repairs were identified as immediate, 5 years or 20 years. This request will address the issues as prioritize by the consultant. The remainder

of the budget \$585,143 will be used to renovate Transportation and Mobility's 1st floor.

Source Of the Justification: Facilities Condition Assessment Project Type: Parking

## AIRPORT FUND (468)

FY 2018 - FY 2022 Adopted Community Investment Plan - 323

## **ACUTE ANGLE TAXIWAY KILO**

PROJECT#: 12360

Project Mgr: Fernando Department: Transportation & Mobility Address: 6000 NW 21 Avenue

Blanco x6536 Fund: 468 Airport City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

**Description:** This project is for the design and construction of an acute angle on Taxiway Kilo at the west end of Runway 9/27 in

order to improve the airfield operations. This project is partially funded by a grant from the Federal Aviation Administration (FAA) for approximately 90% reimbursement of the eligible project costs for design and construction. The project is also partially funded by a grant from the Florida Department of Transportation (FDOT) for

approximately 5% reimbursement of the eligible project costs for design and construction. The Airport match is 5%.

Justification: The design and construction of acute angle taxiways is called for in the Airport's Master Plan and the Airport Layout

Plan (ALP). This project is required to improve the airfield operations by having the aircrafts exit the runway more

efficiently and faster, thereby allowing more aircrafts to land before circling the Airport.

Source Of the Justification: Airport Strategic Business Plan & Master Plan Update Project Type: Airport

## **ACUTE ANGLE TAXIWAYS NOVEMBER & DELTA**

**PROJECT#: 12263** 

Address: 6000 NW 21 Avenue Transportation & Mobility Project Mgr: Fernando Department:

Blanco x6536 468 Airport City: Fort Lauderdale Fund:

> District: ☑ III ☑ IV State: FL 33309 Zip:

Description: This project is for the design and construction of acute angle Taxiways November and Delta at the east end of

Runway 9/27 to improve the airfield operations. This project is partially funded by a grant from the Federal Aviation Administration (FAA) for approximately 90% reimbursement of the eligible project costs for design and construction. The project is also partially funded by a grant from the Florida Department of Transportation (FDOT) for

approximately 5% reimbursement of the eligible project costs for design and construction. The Airport match is 5%.

Justification: The construction of acute angle taxiways are called for in the Airport's Master Plan and Airport Layout Plan (ALP).

This project is required to improve the airfield operations by having the aircrafts exit the runway more efficiently and

faster, thereby allowing more aircrafts to land before circling the Airport.

## AIRPORT DRAINAGE IMPROVEMENTS PHASE-I

**PROJECT#: 12355** 

Address: 1700 NW 62 St # 9,1900 Executive Airport Way Transportation & Mobility Project Mgr: Fernando Department:

> Fort Lauderdale 468 Airport City: Blanco Fund:

> > District: **☑**I □ II State: FL Zip:

Description: This project is to construct drainage improvements adjacent to airport parcels 9, 32, and 33 and will serve as Phase-I

of a multiphase master drainage program. The improvement includes earthwork, piping, swale, and basing

installation.

Justification: Undeveloped airport parcels 9, 32, and 33 serve as the storm water run-off area generated by non-airport parcel R-7

through a historical agreement. Parcels 9 (1700 NW 62nd Street), 32, and 33 (1900 Executive Airport Way) have now been leased requiring the tenant to develop a drainage design to not only meet their proposed development but

also accommodate the run-off from parcel R-7.

Description: This project is for the expansion of the Fort Lauderdale Executive Airport Aviation Equipment and Service (AES)

facility. This expansion will include additional ramp space, the construction of two additional bays, and the

construction of a covered walk-way between the AES and the airport's Administration Building.

Justification: The existing facility was constructed in 2011. Since that time, the airport has purchased additional maintenance

equipment that is currently stored on the apron ramp or offsite. The two additional bays will allow the equipment to

be stored inside the facility. The covered walkway will provide a passage for employees during inclement weather.

## **FXE AIRFIELD SIGNAGE REPLACEMENT**

**PROJECT#: 12358** 

Project Mgr: Fernando Department: Transportation & Mobility Address: 6000 NW 21st Avenue

Blanco x6536 Fund: 468 Airport City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

Description: This project is for the design and construction for the replacement of the airports existing quartz lit airfield guidance

signs with new light emitting diode (LED) guidance signs. The new LED signs will be more efficient, longer lasting, and help reduce maintenance costs. The project is partially funded by a grant from the Florida Department of

Transportation for 80% reimbursement of eligible project costs.

Justification: The majority of the airfield guidance signs have been in operation since 2002. Since that time there has been a

significant improvement in the use of LED signs, as well as a cost reduction in comparison to the quartz signs. The new LED signs are brighter and easier to maintain than the quartz signs. They also use less energy thereby

providing a cost savings to the airport.

## TAXIWAY ECHO PAVEMENT REHABILITATION

## PROJECT#: FY20180596

Project Mgr: Fernando Department: Transportation & Mobility Address: 6000 NW 21st Avenue

Blanco x6536 Fund: 468 Airport City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

Description: This project is for the milling and resurfacing of the airport pavement on taxiway Echo. The project will also include

re-construction of the taxiway intersections along Echo to conform to current Federal Aviation Administration design

standards.

Justification: The taxiways Pavement Condition Index (PCI) number was 51 out of 100 for the western section of the taxiway

Echo. The rating indicated that the taxiway 's pavement was in poor condition and in need of milling and re-surfacing to extend its useful pavement life. The eastern section was rated 64 out of 100 and is below the FDOT's minimum service level for taxiways. The taxiway pavement will be milled and a new layer of asphalt applied. The taxiway intersections will also be re-constructed and new LED taxiway edge lights and guidance signs will be installed as

part of the project.

Source Of the Justification: Airport Strategic Business Plan & Master Plan Update Project Type: Airport

## TAXIWAY FOXTROT LIGHTING IMPROVEMENTS

PROJECT#: 12357

Project Mgr: Fernando Department: Transportation & Mobility Address: 6000 NW 21st Avenue

Blanco x6536 Fund: 468 Airport City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

Description: This project is for the design and construction of replacing the existing quartz taxiway lights along the western

portion of taxiway Foxtrot with new light emitting diode (LED) fixtures.

Justification: The majority of the taxiway edge lights along this section of taxiway Foxtrot have been in operation since 2002.

Since that time there has been a significant improvement in the use of LED taxiway edge lighting fixtures. The LED

fixtures are comparable in cost to the quartz fixtures and are easier to maintain and use less energy.

## **TAXIWAY FOXTROT RELOCATION**

**PROJECT#: 12243** 

Project Mgr: Fernando Department: Transportation & Mobility Address: 6000 NW 21 Avenue

Blanco x6536 Fund: 468 Airport City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

Description: This project is for the design and construction of the eastern portion of Taxiway Foxtrot to comply with current

Federal Aviation Administration (FAA) design criteria. New LED lights and signs will also be installed as part of the project. The project is partially funded by grants from the FAA and the Florida Department of Transportation (FDOT)

for 95% reimbursement of eligible project costs. The airport match is 5%.

Justification: The relocation is required to move taxiway Foxtrot from its current 305' distance from Runway 9/27 to the required

400' distance. The project is included in the airport's current Airport Layout Plan.

# **CITYWIDE CANAL DREDGING PLAN - CYCLE 1**

PROJECT#: 12361

Project Mgr: Brandy Department: Public Works Address: City-wide

Leighton Fund: 470 Stormwater City: Fort Lauderdale

Zip:

Description: This project includes the survey, design, permitting, and canal dredging for City-owned canals. Surveys will be

performed by the City to assess all City-owned canals, obtain permits, and dredge if warranted based on the City's

minimum canal dredging criteria.

Justification: The City conducted a thorough analysis of City-owned canals, which determined that 23% need dredging. This is

based on the navigable standard recommended by the Marine Advisory Board, which is 4-5' below the Mean Low Water elevation. The canals that need dredging are significantly silted in, and in some cases are prohibiting boat

navigation and could affect marine life.

Source Of the Justification: Press Forward Fort Lauderdale 2018, A Five-Year Project Type: Canals

Strategic Plan

### **Project Funding Summary:**

### Comments:

#### Impact On Operating Budget:

mpast on o	poraniig Baagon		
IMPACT	AVAILABLE \$	UNFUNDED	TOTAL FUNDING
			\$0
TOTAL			\$0

Comments: No impact on operating budget at this time.

### **Cost Estimate Justification:**

This estimate includes canal dredging for both drainage and navigable waterways. Drainage canals are anticipated to be funded by Stormwater fund (fund 470), while navigable waterways are anticipated to be funded by the canal dredging special assessments (fund 351) if adopted through appropriate legal processes. This estimate includes fees for 7 years to cover the first dredging cycle; some exclusions apply. For specific details, see the Basis of Estimate. Future cycle fees are not included.

# DORSEY RIVERBEND AREA STORMWATER IMPROVEMENTS

PROJECT#: 11845

Project Mgr: Rares Petrica Department: Public Works Address: Dorsey Riverbend Area

x6720 Fund: 470 Stormwater City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project consists of providing improved stormwater infrastructure for the Dorsey Riverbend Neighborhood area.

This area is bound by NW 6 Street to the north, NW 7 Avenue to east, I-95 to the west, and Broward Boulevard to the south. This project will include a survey, conceptual and final design, and hydraulic modeling. Construction is

currently unfunded.

Justification: The Dorsey Riverbend neighborhood has experienced repetitive losses and several complaints have been reported.

The area has undersized infrastructure, low ground elevations and minimal pervious green area, and is tidally influenced. This project will improve the infrastructure in the area, address water quality, and provide flood protection

for the neighborhood. This increases pedestrian and vehicle safety.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

### **Project Funding Summary:**

Custodio Fund: 470 Stormwater City: Fort Lauderdale

**Σίβ.** 00012

Description: This project is for the installation of tidal valves and other stormwater infrastructure to alleviate tidal flooding near

Downtown Fort Lauderdale.

Justification: This project will address tidal flooding issues at the site by installing tidal valves. In addition, this project increases

resiliency on sea level rise, pedestrian and vehicles safety.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

### **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING

# DRAINAGE CANAL DREDGING

**PROJECT#: 12264** 

Project Mgr: Rares Petrica Department: Public Works Address: City-wide

x6720 Fund: 470 Stormwater City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

**Description:** This project includes the dredging of various canals throughout the City to provide proper flow of stormwater from

drainage canals and channels. The work also includes the navigation of vessels and conveyance of stormwater in navigable canals. The scope of the project includes dredging the bottom canal channel to a maximum of five feet below mean low water elevation. This will be accomplished to comply with the City's canal dredging criteria, and

ensuring all stormwater outfalls are clear.

**Justification:** This project is for the dredging of canals that have been evaluated by the Engineering Division in the Public Works Department. These canals are not open for stormwater discharge, and are not in compliance with the City's canal

dredging criteria. The dredging of these canals will reduce flooding, and prevent navigable vessels from getting stuck at the bottom of the canals while navigating during low tides. The work will also improve the canal's water

conveyance capacity.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

### **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING		
Stormwater   FORCE CHARGES / ENGINEERING											
470	6501		\$17,638	\$249,734	\$101,414				\$368,786		
Stormwater	r   ENGINEER	ING FEES									
470	6534		\$16,114	\$124,867	\$101,414				\$242,395		
Stormwater	r   CONSTRUC	CTION									
470	6599	\$281,101		\$194,413	\$315,694				\$791,208		
Total Fund	470:	\$281,101	\$33,752	\$569,014	\$518,522				\$1,402,389		
GRAND	TOTAL:	\$281,101	\$33,752	\$569,014	\$518,522				\$1,402,389		

**Comments:** Project may require mechanical and/or hydraulic dredging work by contractor as well as coordination with the stormwater master plan consultant to include canal surface data as appropriate in the stormwater hydraulic model.

#### **Impact On Operating Budget:**

IMPACT	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING
Incr./(Dec.) Operating	g Costs							
CHAR 30				\$7,200	\$7,200	\$7,200		\$21,600
TOTAL				\$7,200	\$7,200	\$7,200		\$21,600

**Comments:** Project operating cost applies after dredging construction, and it may include performing maintenance of dredged surfaces on the canals adjacent to stormwater outfalls or drainage canals

#### **Cost Estimate Justification:**

Costs take into account cost a 2% per year inflation factor and a staff hourly rate of \$146/hr. Cost was developed based on current dredging costs.

### DRAINAGE CANAL SURVEYING AND ASSESSMENT

**PROJECT#: 12191** 

Project Mgr: Rares Petrica Department: Public Works Address: City-wide

x6720 Fund: 470 Stormwater City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

Description: The project scope includes the survey of various canals and drainage culverts that were not surveyed during FY 2015

for the Public Works Department. The scope of the project includes defining the canal survey boundary limit,

ownership, easements, and the legal maintenance responsibilities.

Justification: This project falls under the City's Infrastructural Cylinder of Excellence of the Commission Annual Action Plan. The

survey of the canals will provide data for the modeling of the Stormwater Master Plan and define maintenance

responsibilities.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

### **Project Funding Summary:**

SOURCE	USAGE	AVAILABLE \$	FY2018	FY2019	FY2020	FY2021	FY2022	UNFUNDED	TOTAL FUNDING		
Stormwater   FORCE CHARGES / ENGINEERING											
470	6501	\$62,854	\$14,016	\$14,016	\$14,016				\$104,902		
Stormwater	r   ENGINEERII	NG FEES									
470	6534	\$4,162							\$4,162		
Total Fund	470:	\$67,016	\$14,016	\$14,016	\$14,016				\$109,064		
GRAND	TOTAL:	\$67,016	\$14,016	\$14,016	\$14,016				\$109,064		

**Comments:** Project requires topographic and hydrographic surveying work by City crews or consultants as well as coordination with the stormwater master plan consultant to input survey data as appropriate in the hydraulic model.

#### Impact On Operating Budget:

MPACT	AVAILABLE \$	UNFUNDED	TOTAL FUNDING
			\$0
TOTAL			\$0

Comments: Project requires data monitoring and control by one City Engineering Technician for approximately 8 hours per month (96 hrs/yr) at a yearly amount of \$14,016

#### **Cost Estimate Justification:**

Costs take into account cost a 2% per year inflation factor and a staff hourly rate of \$146/hr. Cost was developed based on current dredging survey costs. Canal volume based on surveys of canal by city staff. There are no maintenance costs associated with this project.

### **DURRS AREA STORMWATER IMPROVEMENTS**

**PROJECT#: 11844** 

Project Mgr: Rares Petrica Department: Public Works Address: NW 8 Street & NW 15 Terrace

x6720 Fund: 470 Stormwater City: Fort Lauderdale

 District:
 □ I
 □ II
 ☑ III
 □ IV
 State:
 FL

 Zip:
 33311

Description: This project consists of providing improved stormwater infrastructure for the Durrs Neighborhood area. This area is

bound by NW 6 Street to the south, NW 5 Avenue to east, I-95 to the west, and Sunrise Boulevard to the north. This project will include a survey, conceptual and final design, hydraulic modeling, and permitting. Construction is

currently unfunded.

Justification: The Durrs Area Neighborhood has experienced repetitive losses and several complaints have been reported. The

area has undersized infrastructure, low ground elevations and minimal pervious green area, and is tidally influenced. This project will improve the infrastructure in the area, address water quality, and provide flood protection for the

neighborhood. This increases pedestrian and vehicle safety.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

### **Project Funding Summary:**

# **EDGEWOOD AREA STORMWATER IMPROVEMENTS**

**PROJECT#: 11842** 

Project Mgr: Rares Petrica Department: Public Works Address: 900 SW 32 Court

x6720 **Fund:** 470 Stormwater **City:** Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33315

Description: This project consists of providing new stormwater infrastructure for the Edgewood Neighborhood area. This is bound

by State Road 84 to the north, Florida East Coast railroad to east, I-95 to the west, and I-595 to the south. This

project will include a survey, conceptual and final design, hydraulic modeling, permitting, and construction.

Justification: The Edgewood Neighborhood was identified as a priority flooding area in the Stormwater Master Plan prepared by

CDM Smith in August 2009. Numerous repetitive losses and complaints have been reported. The area lacks infrastructure, has low ground elevations, and is tidally influenced. This project will improve the infrastructure in the area, address water quality, and provide flood protection for the neighborhood. This will increase life safety due to

decreased home flooding, and increase pedestrian and vehicle safety.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

### **Project Funding Summary:**

Project Mgr: Rares Petrica Department: Public Works Address: Sunrise Blvd/FEC RR/NW 11 Ave/Broward Blvd

x6720 Fund: 470 Stormwater City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33304

**Description:** This project consists of providing improved stormwater infrastructure in the Progresso Neighborhood Area. This area

is bound by Sunrise Blvd to the north, Florida East Coast Rail Road to the east, NW 11 Ave to the west, and

Broward Blvd to the south.

Justification: The Progresso Neighborhood Area was identified as a priority flooding area in the Stormwater Master Plan prepared

by CDM Smith in 2009. Numerous repetitive losses and several complaints have been reported. The area has undersized infrastructure, low ground elevations, and minimal pervious green area. This project will improve the infrastructure in the area, address water quality, and provide flood protection for the neighborhood. This increases

pedestrian and vehicle safety.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

### **Project Funding Summary:**

# RIVER OAKS STORMWATER NEIGHBORHOOD AND PRESERVE

**PROJECT#: 11868** 

Project Mgr: Rares Petrica Department: Public Works Address: SW 12 Ave & SW 21 Street

x6720 Fund: 470 Stormwater City: Fort Lauderdale

 District:
 □ I
 □ III
 □ IV
 State:
 FL

 Zip:
 33301

Description:

This project consists of designing a new Stormwater system, Stormwater preserve park, wetland area, and related park amenities for the River Oaks neighborhood. This project will include conceptual and final design, and permitting. Construction phase is currently unfunded. The River Oaks neighborhood in Fort Lauderdale is one of the oldest communities in the City. Most of the development was built without the required permitting through the Florida Department of Environmental Protection (FDEP) or South Florida Water Management District (SFWMD). As a result, requirements for detention/retention, water quality, and limited discharge were not implemented in development of the area. This area has been studied, and it was determined that the only way to significantly reduce flooding is to use land to temporarily store the Stormwater. This will decrease flooding and increase residents' safety.

Justification:

A task order will be created to request the following: topographical information, a hydraulic analysis, a conceptual design, and a cost estimate to construct a storm water management system in the River Oaks Neighborhood. The project will provide water quality treatment and flood protection to the River Oaks neighborhood. The project addresses a statewide interest, and produces measurable results pursuant to Chapter 216.052(1), F.S. The project provides hydrological restoration and enhancement of a wetland area that historically discharged into the South Fork of the New River, which is an Impaired Water- WBID 32777A.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

# SOUTHEAST ISLES TIDAL AND STORMWATER IMPROVEMENTS

### **PROJECT#: 12074**

Project Mgr: Rares Petrica Department: Public Works Address: 2109 East Las Olas Boulevard

x6720 Fund: 470 Stormwater City: Fort Lauderdale

 District:
 □ I
 ☑ II
 □ III
 □ IV
 State:
 FL

 Zip:
 33301

**Description:** The purpose for this Southeast Isles project is to retrofit approximately 230 stormwater outfall locations with tidal back flow valves as necessary to alleviate tidal flooding in the neighborhoods located in the southeastern portion of

Fort Lauderdale. The neighborhoods include Las Olas Isles, Seven Isles, Venice Isles, Nurmi Isles, Idlewyld, Sunrise Key, Navarro Isles, Riviera Isles, Rio Vista, Lauderdale Harbors, Harbordale, and Harbor Beach. Additional

infrastructure improvements will also be provided to address stormwater flooding.

Justification: The Southeast Isles neighborhood contains primarily residential homes that are adjacent to canals that are tidally

influenced. Due to low ground elevations, tidal water flows back through the outfall pipes and floods roadways, primarily during high tide. With increased sea levels, the prevention of tidal back flows is vital to protect the Isles

neighborhoods.

Source Of the Justification: Stormwater Master Plan Project Type: Stormwater

# **UTILITIES ASSET MANAGEMENT SYSTEM**

PROJECT#: 12190

Project Mgr: Elkin Diaz Department: Public Works Address: City-wide

x6539 Fund: 454 Water and Sewer Master Plan City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33301

**Description:** This project is for the purchase and implementation of a utilities geographic information system (GIS) centric asset management system for Stormwater, Distribution and Collection and Treatment assets throughout the City. The

software system will include long-range planning, life-cycle costing, proactive operations and maintenance, and

capital replacement plans based on cost-benefit analysis.

Justification: The software will help keep track of the City's stormwater, sanitary sewer, and water distribution assets. It will serve

as a integral part of monitoring these systems and identify deficiencies, and perform the necessary upgrades and repairs. The utilities asset management system will support the water and sewer master plan, the consent order with

Florida Department of Environmental Protection (FDEP) and the stormwater master plan.

Source Of the Justification: Wastewater Master Plan (01/15/2008, CAR08-0093, Project Type: Utilities

M-4)

### **Project Funding Summary:**

		•

# CENTRAL SERVICES OPERATIONS FUND (581)

FY 2018 - FY 2022 Adopted Community Investment Plan - 381

### DATA CENTER CONSOLIDATION

### PROJECT#: FY20180648

Project Mgr: Andrew Department: Information Systems Address: Various City Facilities

Parker Fund: 581 Central Services Operations City: Fort Lauderdale

 District:
 ☑ I
 ☑ III
 ☑ IV
 State:
 FL

 Zip:
 33311

Description: The City has four (4) data centers (DC) located at Police HQ, City Hall, Public Work Admin and EOC. Each DC

houses applications and IT equipment critical to the daily operations of the City, such as; Payroll, FAMIS/BPREP, Kronos, Buyspeed, T2/Flex, Cayenta, GIS, servers, storage, security & comm equipment. All four (4) DC's consist of aging and/or inadequate facilities (high-voltage electrical lines/transfer switches/backup generators/ uninterruptible power supply (UPS)/battery backup/fire protection/a/c and water detection systems). The status of each DC presents major risks for the ongoing operations. To reduce the cost of (4) upgrades, Information Technology Services (ITS) will be consolidating from four (4) to two (2) DC (EOC & Police HQ), to achieve the following; reduce floor space and maintenance and operational costs, implementation of a efficient (green) cooling/energy system, implementation

of a more robust disaster recovery and business continuity platform for IT services.

Justification: ITS is requesting CIP funding to upgrade the Police HQ DC facilities to a compliant level and provide the space

needed to consolidate the required IT DC infrastructure (network, servers, storage, security and communications equipment), from the City Hall and Public Works DC's. The upgrade will complete the installation of an existing partially installed pod design. The funds will be used to purchase and install the remaining components of the pod design, consisting of a high-density self-contained rack system with high efficiently UPS, batteries, power and cooling distribution systems with software to manage the integrated system. A new fire protection system will also

be installed.

 State:
 FL

 Zip:
 33301

Description: This project is to replace the City's current document imaging and management system, which is over ten years old

with a more efficient system.

Justification: The City's current document imaging and management system was originally installed in 2002. Since that time, the

City has moved the workflow processes that existed within this product to other systems. We are only utilizing the system as a document repository. Advances have been made in the market whereby newer systems are available that easily integrate with other systems that the City has invested in such as NeoGov, and ONESolution. Newer systems also have integration with our Office automation software from Microsoft, Microsoft Office, which simplifies end user training. Creation of new workflows and forms are much simpler with the newer generation of systems such that we proposed migrating from the existing system to one that incorporates these features.

## ENVIRONMENTAL AND SUSTAINABILITY MANAGEMENT SYSTEM

### **PROJECT#: 12103**

Project Mgr: Sandy Department: Public Works Address: 1302 SW 2 Court

Leonard Fund: 583 Vehicle Rental Operations City: Fort Lauderdale

Description: This project will provide for the Fleet facility site upgrades that will address public safety, environmental,

sustainability, and storm water issues. This may include a new paved parking lot for decommissioned vehicles, stormwater valves, covers, informational signage, lighting upgrades, surveying, and various testing initiatives. This project will improve climate resistance through placement of a tide valve, and improve the stormwater system. The addition of a gate valve will mitigate environmental damages caused by illicit discharge of petroleum products from the Fleet site, and into the adjacent Argyle Canal. The paving of the site will reduce illicit discharge to the soil below.

Justification: This project meets several objectives of the ISO 14001 Fleet Fence line certification requirements for continual

improvement on the environmental aspects related to reducing pollution impacts by creating impervious surface and

by improving the storm water drainage on site.

## **ACUTE ANGLE TAXIWAY KILO**

PROJECT#: 12360

Project Mgr: Fernando Department: Transportation & Mobility Address: 6000 NW 21 Avenue

Blanco x6536 Fund: 468 Airport City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

**Description:** This project is for the design and construction of an acute angle on Taxiway Kilo at the west end of Runway 9/27 in

order to improve the airfield operations. This project is partially funded by a grant from the Federal Aviation Administration (FAA) for approximately 90% reimbursement of the eligible project costs for design and construction. The project is also partially funded by a grant from the Florida Department of Transportation (FDOT) for

approximately 5% reimbursement of the eligible project costs for design and construction. The Airport match is 5%.

Justification: The design and construction of acute angle taxiways is called for in the Airport's Master Plan and the Airport Layout

Plan (ALP). This project is required to improve the airfield operations by having the aircrafts exit the runway more

efficiently and faster, thereby allowing more aircrafts to land before circling the Airport.

**Description:** This project is for the design and construction for the replacement of the airports existing quartz lit airfield guidance

signs with new light emitting diode (LED) guidance signs. The new LED signs will be more efficient, longer lasting, and help reduce maintenance costs. The project is partially funded by a grant from the Florida Department of

Transportation for 80% reimbursement of eligible project costs.

Justification: The majority of the airfield guidance signs have been in operation since 2002. Since that time there has been a

significant improvement in the use of LED signs, as well as a cost reduction in comparison to the quartz signs. The new LED signs are brighter and easier to maintain than the quartz signs. They also use less energy thereby

providing a cost savings to the airport.

## **RUNWAY 27 AND 13-31 BYPASS TAXIWAYS**

### PROJECT#: FY 20160358

Project Mgr: Fernando Department: Transportation & Mobility Address: 6000 NW 21st Avenue

Blanco x6536 Fund: 468 Airport City: Fort Lauderdale

 District:
 ☑ I
 ☐ III
 ☐ IV
 State:
 FL

 Zip:
 33309

**Description:** This project is for design and construction of by-pass taxiways at the approach ends of Runways 27 and 13-31 as

called for in the 2010 Airport Layout Plan (ALP). The project is partially funded by a grant from the Florida Department of Transportation (FDOT) for approximately 80% reimbursement of eligible project costs for design and

construction. Airport match is 20%.

Justification: The construction of the by-pass taxiways will improve airfield capacity by allowing multiple aircraft to either taxi or

depart the runway prior to reaching the thresholds. This project has been listed in the airport's approved 2010 ALP.

## **TAXIWAY FOXTROT RELOCATION**

**PROJECT#: 12243** 

Address: 6000 NW 21 Avenue **Transportation & Mobility** Project Mgr: Fernando Department:

City: Blanco x6536 468 Airport Fort Lauderdale Fund:

> District: ☑I □ II State: FL 33309 Zip:

Description: This project is for the design and construction of the eastern portion of Taxiway Foxtrot to comply with current

Federal Aviation Administration (FAA) design criteria. New LED lights and signs will also be installed as part of the project. The project is partially funded by grants from the FAA and the Florida Department of Transportation (FDOT)

for 95% reimbursement of eligible project costs. The airport match is 5%.

Justification: The relocation is required to move taxiway Foxtrot from its current 305' distance from Runway 9/27 to the required

400' distance. The project is included in the airport's current Airport Layout Plan.

Source Of the Justification: Project Type: Airport Airport Strategic Business Plan & Master Plan Update

(07/15/08, CAR 08-0969, Item M-42)

## **ADAPTATION ACTION AREAS**

FY 2018 - FY 2022 Adopted Community Investment Plan - 403

## **Adaptation Action Areas**

#### **Overview**

The 2011 Florida Legislature made significant changes to the state's growth management laws, including creating Adaptation Action Areas (AAA). In accordance with Section 163.3164(1) and Section

163.3177(6)(g)(10), Florida Statutes, an AAA is an optional designation within the coastal management element of a local government's comprehensive plan which identifies one or more areas that experience coastal flooding due to extreme high tides and storm surge, and that are vulnerable to the related impacts of rising sea levels for the purpose of prioritizing funding for infrastructure needs and adaptation planning. The City adopted Ordinance No. C-14-27 amending the Comprehensive Plan to incorporate a new goal, objective, and thirteen policies associated with AAAs.

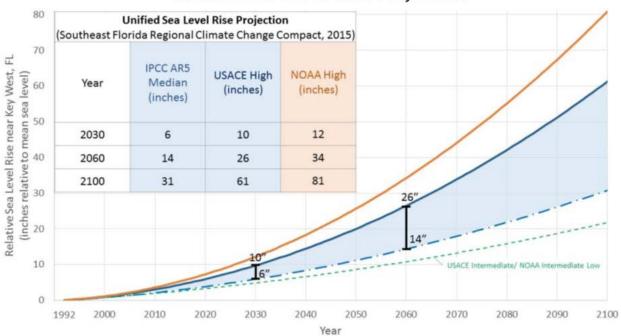

Minimum AAA qualifying criteria may include, but are not limited to the following:

- Areas experiencing coastal flooding; and
- · Areas experiencing or projected to be experiencing tidal flooding; or
- Areas with hydrological connections to coastal waters; or
- Areas below, at, or near mean higher high water; or
- Storm surge evacuation zones; or
- Areas with other related impacts of sea level rise.

In 2013, the City of Fort Lauderdale, in collaboration with the South Florida Regional Planning Council and Broward County, served as a pilot community to test the development and advancement of adaptation policy options, including its integration into the City's Comprehensive Plan as a text amendment. The intent of the amendment was to increase the City's resiliency to the impacts of climate change and rising sea levels by providing the foundation and framework for the development and implementation of adaptation strategies and measures in order to reduce risk to these challenges. The City Commission approved amending the Comprehensive Plan's Coastal Management Element and Administration Element to incorporate Adaptation Action Areas in October 2014. In January 2015, the Florida Department of Economic Opportunity recognized and accepted the adopted comprehensive plan amendment.

The designation of an area as an AAA represents the City's commitment to invest public dollars to reduce the vulnerability of those areas to coastal flooding. Designated locations are being prioritized for infrastructure improvements intended to reduce impacts to assets currently experiencing coastal flooding as well as reduce the areas future risk and vulnerability to the effects of sea level rise. These infrastructure improvements can range widely from the installation of tidal valves to incorporating sea level rise projections into the design of new construction capital projects. Additional information regarding the sea level rise projection that the City Commission has adopted for use is provided here.

Information Source: Southeast Florida Regional Climate Change Compact Counties

Southeast Florida Unified Sea Level Rise Projection. These projections are referenced to mean sea level at the Key West tide gauge. The projection includes three global curves adapted for regional application: the median of the IPCC AR5 RCP8.5 scenario as the lowest boundary (blue dashed curve), the USACE High curve as the upper boundary for the short term for use until 2060 (solid blue line), and the NOAA High curve as the uppermost boundary for medium and long term use (orange solid curve). The incorporated table lists the projection values at years 2030, 2060 and 2100. The USACE Intermediate or NOAA Intermediate Low curve is displayed on the figure for reference (green dashed curve). This scenario would require significant reductions in greenhouse gas emissions in order to be plausible and does not reflect current emissions trends.

The Southeast Florida Regional Climate Change Compact's (Compact) Unified Sea Level Rise (SLR) Projection is included in both the City's Press Play Fort Lauderdale: Strategic Plan 2018 and Fast Forward Fort Lauderdale: Vision Plan 2035 documents, outlined in the City of Fort Lauderdale Comprehensive Plan's Coastal Management Element's new Policy 3.1.6, and provides a technical foundation for recommendations in the Compact's Regional Climate Change Action Plan. The projection was the result of a collaborative working group consensus of local scientists specializing in SLR. The Compact's SLR work group reconvened in 2015 to update the SLR projection after reviewing the scientific literature published since 2011 when the original projections was developed. This resulted in a new updated SLR projection guidance document finalized in October 2015. The City Commission recognized the updated SLR projection by Resolution 15-279 on December 15, 2015.

#### **Alignment to Approved Plans**

The AAA initiative aligns with and advances our Fast Forward Fort Lauderdale: Vision Plan 2035 WE ARE READY, Press Play Fort Lauderdale: Strategic Plan 2018, and Sustainability Action Plan, as well as regional plans such as the Southeast Florida Regional Climate Action Plan. Specific strategic connections include the following:

Press Play Fort Lauderdale: Strategic Plan 2018
 Infrastructure Cylinder of Excellence

Goal 2: Be a sustainable and resilient community.

- Objective 2: Reduce flooding and adapt to sea level rise.
  - Strategic Initiative 5: Identify potential AAAs and develop AAA policies.
- Objective 3: Improve climate change resiliency by incorporating local, regional and megaregional plans.
  - Strategic Initiative 1: Implement the Sustainability Action Plan (SAP); align it with the Southeast Florida Regional Climate Action Plan (SFRCAP) and the Seven Counties-50 Years Southeast Florida Prosperity Plan, and monitor progress.
- Sustainability Action Plan

Leadership Chapter

Goal 4: Prepare for Climate Change Impacts

- Action 4.1.1: Include adaptation strategies into the City's plans.
- Action 4.1.2: Enhance communication about climate change adaptation in coordination with other agencies and municipalities.
- Action 4.1.3: Partner with local, regional and state agencies or educational institutions to increase preparedness.

In addition, this initiative is responsive to our residents as reflected in the 2016 Neighbor Survey that indicated our residents are well informed about climate change issues and the impacts to our community, with 72% indicating they have observed coastal water level increases and 69% indicating they have observed increased flooding. Satisfaction with the prevention of tidal-related flooding was low, with only a 31% satisfaction rating.

Building upon the City's leadership in the area of sustainability, the use of AAAs is another tool being integrated into operations to combat coastal flooding and reduce risk to rising sea levels. The designation of AAAs is an example of neighbors' ideas incorporated into our Vision Plan and transformed into action through our Strategic Plan in order to build community today and meet the challenges of tomorrow.

#### **City of Fort Lauderdale Adaptation Action Areas and Projects**

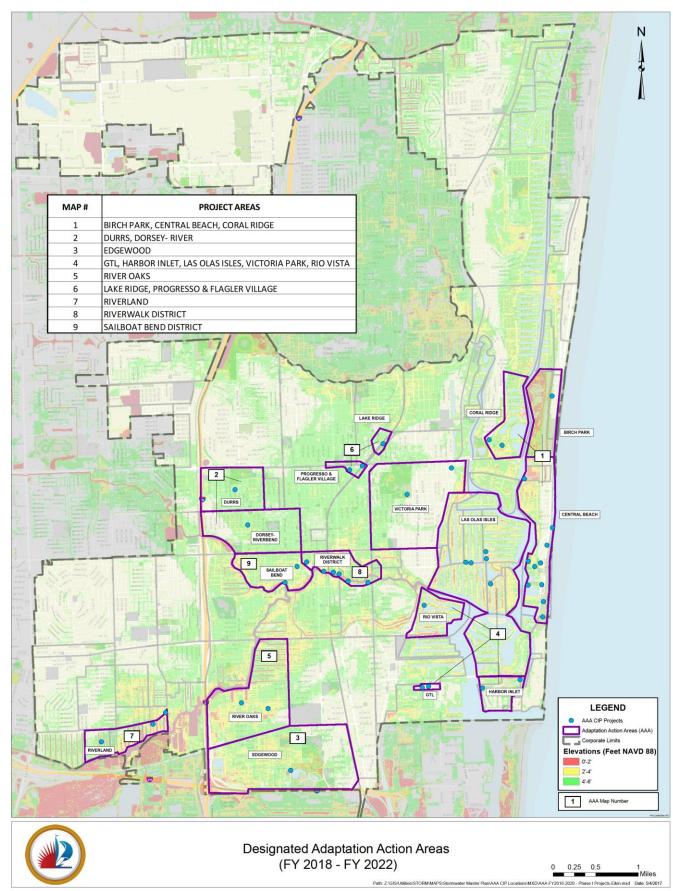

The pages that follow provide maps outlining the City of Fort Lauderdale's Adaptation Action Areas and projects programmed for funding within those AAAs. Areas were chosen if they meet the AAA minimum qualifications in state legislation as well as the criteria outlined in the City Comprehensive Plan. The "Designated Adaptation Action Areas and Projects" maps will be reviewed and updated annually by staff for inclusion in the five-year Community Investment Plan (CIP) for funding consideration.

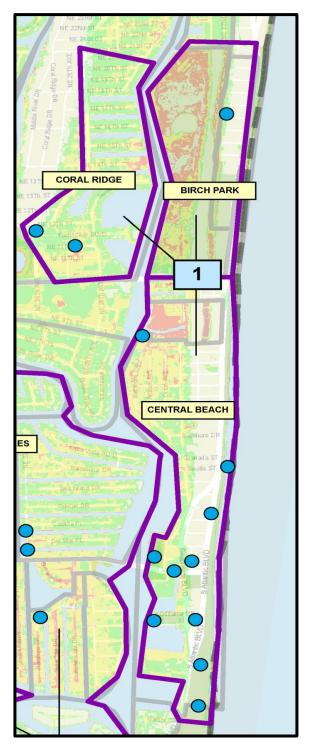

A summary table of the 'Designated Adaptation Action Areas and Projects' and updates since 2016 is presented below. FY 2017 CIP included 40 projects identified in the 16 AAAs, including six (6) projects that had been completed. Since then, five (5) additional projects have been completed. For FY 2018, we are designating one new AAA in which included two new projects. Therefore, the total number of projects has increased from 40 to 42, and the total number of projects completed has increased from six (6) to 11 (see table below and AAA maps 1-9).

Ta	able 1: Summary of Design	nated Adapta	tion Action Areas and Status of Projects in Those Areas
	DESIGNATED AAAs	# projects in AAA	COMMENTS / UPDATES (Note: FY2017 Updates are shown in bold letters)

## CONNECTING THE BLOCKS

FY 2018 - FY 2022 Adopted Community Investment Plan - 419

"Our goal is to become a fully connected city of tomorrow—a city that is anchored by mobility and walkability; a city that is pedestrian friendly; a city that depends less on vehicles and relies more on alternative modes of transportation."

—City of Fort Lauderdale, 2013 "Game Plan"

## **Background**

The Connecting the Blocks Program was established in 2014 as the implementation program to accomplish the Fast Forward Fort Lauderdale 2035 Vision of being a Connected Community. The Program was established in compliance with the Complete Streets Policy adopted by the City Commission in October 2013 and provides a detailed listing of improvements needed to the roadways within the city to create connected, complete streets.

Specifically, the Connecting the Blocks Program identifies pedestrian, bicycle and transit infrastructure improvements needed to meet the Complete Streets Policy. The Connecting the Blocks Program is anchored by the Complete Streets Policy, which was ranked by the National Complete Streets Coalition as third out of 80 policies that were adopted nationwide in 2013. The Connecting the Blocks Program received the 2015 Overall Excellence Smart Growth Partnership Award. The Complete Streets standards address the following

transportation system elements:

- Speeds
- Lane Widths
- Sidewalks
- Shading
- Pedestrian lighting
- Pedestrian crossings
- Bicycle lanes and multi-use paths
- Sharrows vehicle/bicycle shared Lanes
- On-street parking
- Medians

Each of the more than 400 recommended pedestrian, bicycle and transit improvements in the Connecting the Blocks Plan was based on the current conditions and the context of the roadway. The comprehensive list which includes planning level cost estimates was then prioritized based on the criteria used by partner transportation agencies that fund projects. Those criteria were weighted based on input from the City Commission, and place a higher ranking for projects that improve safety, contain sustainable elements, fill existing network gaps, and support transit.

## **Alignment to Approved Plans and Neighbor Priorities**

Connecting the Blocks aligns with and advances our Fast Forward Fort Lauderdale: Vision Plan 2035 WE ARE CONNECTED vision direction, Press Play Fort Lauderdale: Strategic Plan 2018, as well as national programs such as the US Department of Transportation Mayors' Challenge. The Program also aligns with regional plans such as the Broward Long Range Transportation Plan and the Southeast Florida Regional Climate Action Plan. Specific strategic connections include the following:

Press Play Fort Lauderdale Strategic Plan 2018 Infrastructure Cylinder of Excellence

Goal 1: Be a pedestrian friendly, multi-modal City.

- Objective 1: Improve transportation options and reduce congestion by working with agency partners.
- Objective 2: Integrate transportation land use and planning to create a walkable and bikeable community.
- Objective 3: Improve pedestrian, bicyclist, and vehicular safety.

### Public Places Cylinder of Excellence

Goal 3: Be a community that finds opportunities and leverages partnerships to create unique, inviting, and connected gathering places that highlight our beaches, waterways, urban areas, and parks.

- Objective 2: Enhance the City's identity and appearance through well-maintained green space, parks, major corridors, gateways, and medians.
  - o Initiative 4: Create a unified way-finding program indicative of our coastal community and unique neighborhoods.

### 2015 NEIGHBOR SURVEY: OVERALL PRIORITIES

- 1. Overall flow of traffic
- 2. Maintenance of streets, sidewalks, and infrastructure
- 3. Preparing for the future of the City of Fort Lauderdale

### 2015 NEIGHBOR SURVEY: COMMUNITY INVESTMENT PLAN PRIORITIES

- 1. Stormwater and drainage improvements
- 2. More walkable and bikeable streets

#### 2015 NEIGHBOR SURVEY: DEPARTMENT/SPECIFIC AREA PRIORITIES

Management of traffic flow and congestion

- Safety of biking
- Adequacy of street lighting
- Cost of public parking

In addition, this program is a response to the 2013-2015 City of Fort Lauderdale Neighbor Surveys which revealed concerns about overall flow of traffic, availability of sidewalk and bicycle infrastructure as well as safety of traveling by bicycle. In the 2015 City of Fort Lauderdale Neighbor Survey, "Safety of Biking" ranked as a priority for the third year in a row, while "Safety of Walking" "Availability of trails" also continued to rank in the Top 10 concerns. The 2015 survey indicated that investing in more walkable and bikeable streets is a priority.

Transportation and Mobility

## **Implementation**

The City has begun implementing the program through a variety of sources including agency partners like the Florida Department of Transportation (FDOT), Broward Metropolitan Planning Organization (Broward MPO), and Broward County for roadways under their jurisdictions. These partnerships along with the projects identified in this Community Investment Program (CIP) have allowed for significant headways towards a Connected Community where the pedestrian is first as identified in Fast Forward Fort Lauderdale. For example, \$86 million in funding from the Florida Department of Transportation work program will fund the design and construction of improvements to the bicycle and pedestrian network over the next five years through 2022.

Staff has been successful over the last few years in advocating the inclusion of additional Connecting the Blocks projects in the design of partner projects that were not originally scoped including:

- New pedestrian crossing on Broward Boulevard and NE/SE 1<sup>st</sup>
   Avenue.
- New pedestrian crossing on Sunrise Boulevard at NE 17<sup>th</sup> Court, NE 10<sup>th</sup> Avenue, Flagler Drive, and Gateway Intersection as well at Searstown allowing pedestrians to travel along the south side of Sunrise Boulevard.
- Bike lanes were installed on Powerline Road through eliminating underused vehicle lanes during a resurfacing project.
- A Parallel bike route to the north and south of Sunrise Boulevard between Searstown and Gateway was installed during a resurfacing project.
- The above parallel bike route will be expanded to connect from US1 and NE 13<sup>th</sup> Street to Broward Boulevard and US1.
- New pedestrian crossing on A1A at NE 37<sup>th</sup> Street approximately at CVS.
- Bike lane facilities in the design of SE 3<sup>rd</sup> Avenue between SE 17<sup>th</sup> Street and SE 6<sup>th</sup> Street and NE 4<sup>th</sup> Avenue between Sunrise Boulevard and NE 26<sup>th</sup> Street in Wilton Manors.
- Bike lanes to be installed consistently on SW 4<sup>th</sup> Avenue from Perimeter Road just south of the SW 7<sup>th</sup> Avenue Bridge.
- The addition of crosswalks including pedestrian signals on SW 4<sup>th</sup> Avenue at SW 7<sup>th</sup> Street and SW 6<sup>th</sup> Street.
- Leading Pedestrian Interval signal timing on SE 17<sup>th</sup> Street at Eisenhower Boulevard and Cordova Road to allow pedestrians to begin crossing before vehicles receive the green light.
- Bike lanes to be installed on SW 31<sup>st</sup> Avenue between Riverland Road and Commercial Boulevard.
- In-ground LED lighting were included in resurfacing project by FDOT on SRA1A to improve pedestrian safety.
- Improved bike and pedestrian accommodations along Riverland Road/SW 27<sup>th</sup> Avenue between SR 7 and Broward Boulevard.

The Connecting the Blocks Program of needs is also implemented through contributions made by the development community as part of multimodal improvements that offset the traffic impacts from the projects. Each year new sidewalks, bike lanes and supportive infrastructure such as bike racks and shade are added that help enhance the multimodal accommodations by developers.

Projects are also implemented on local streets through the City's Community Investment Plan (CIP). Each year individual projects are identified to propose for project-specific CIP requests for funding. Examples of projects implemented to date include:

Downtown Walkability projects including NE 1st Street pedestrian safety and traffic calming improvements between US 1 (Federal Highway) and NE 3rd Avenue using the 5 E's of Vision Zero — Engineering, Education, Encouragement, Enforcement, and Evaluation. Improvements include a high emphasis pedestrian crossing, new on-street parking, lane shifts with reduced lane widths, pedestrian refuge areas, and playful bike parking and a bike pump station. Currently being scheduled for construction are the N/NE 1st Street pedestrian crossing refuge areas at N. Andrews and NE 3rd Avenues. Past projects include the construction of the enhanced crosswalk at SE 3rd Avenue and SE 1st Street, the installation of bike lanes on NW 4th Street, and the completion of the three painted intersections on Las Olas Boulevard at SE 1st, 2nd, and 3rd Avenues and over 20 artistic box wraps were installed as part of placemaking, art, wayfinding, and beautification efforts. The following are some photos highlighting designed and completed Downtown Walkability Projects:

- SE 6th Street between US1 and Victoria Park Road Bicycle facilities have been added to SE 6<sup>th</sup> Street through restriping including a bike lane from Victoria Park Road to SE 7<sup>th</sup> Avenue and sharrows between SE 7<sup>th</sup> Avenue and US 1.
- In partnership with the Community Foundation of Broward, the City installed ADA access ramps and high-visibility painted crosswalks on two intersections along Breakers Avenue. The third intersection will be completed following the completion of the adjacent construction.

• The City received a \$1.5 million grant from the Broward Redevelopment Program to implement a

complete streets design on NE 13<sup>th</sup> Street to enhance the business district by providing onstreet parking, bike lanes, and pedestrian amenities. The City provided a cash match of \$456,000 from the City Stormwater Funds and \$60,000 in Business Community Investment Plan (BCIP) funds that were awarded to the Central City Alliance that will be included in the project. Design was completed in May 2016 with construction beginning in Fall of 2016 and construction to be complete in Fall 2017.

Since the adoption of Connecting the Blocks in 2013, nearly 10 miles of bike lanes have been installed, with an additional 15 miles of bike paths planned to be completed in 2017. There have been a total of 33 new crosswalks added and 9,880 linear feet of new sidewalks and pedestrian paths with an additional 13,000 linear feet planned for FY17. Additionally there have been 109 new bus shelters installed within the City by Broward County Transit since the adoption of Connecting the Blocks as well as 37 new bus benches that have been added to enhance existing transit amenities. The bus benches were installed with priority given to the highest ridership locations.

Vision Zero Fort Lauderdale is the City's action plan to achieve zero fatalities and severe injuries on City streets through implementing solutions in engineering, education, encouragement, enforcement and evaluation ("5 E's"). The City Commission voted unanimously to adopt Vision Zero Fort Lauderdale, becoming the first City in Florida and in the Southeastern United States to become a Vision Zero City. The City was selected by the Vision Zero Network as one of 10 cities nationwide to join the new Vision Zero Focus Cities program due to its commitment to the Vision Zero initiative. The Engineering "E" of Vision Zero is another way the Connecting the Blocks Program will be implemented through partnerships of all transportation partners. A 5-year strategic action plan has been developed entitles Zeroing In: 2022, which will be used as a measurable strategic guideline toward achieving the long-term goal of zero fatalities on our streets. Vision Zero Fort Lauderdale and Connecting the Blocks will be leveraged together to create the most impact on creating the paradigm shift necessary to achieve the vision of being a Connected Community by 2035.

The pages that follow provide a listing of specific projects identified in the City's Connecting the Blocks Program along with the associated roadways, pedestrian and bicycle project needs maps. There are more than 400 projects identified in this 20-year plan, totaling approximately \$642,600Million in unfunded costs. The City will continue to seek every opportunity to implement these projects through City and partner agency resources as we build a connected and safe community, block by block. The City continues to receive recognition of its efforts including by the Safe Streets Summit for Walking, Biking and Transit efforts as well as from Walk Friendly Communities with a Bronze level designation.

# **GLOSSARY & ACRONYMS**

FY 2018 - FY 2022 Adopted Community Investment Plan - 443

## **GLOSSARY OF TERMS**

Α

Adaptation Action Area (AAA) - An Adaptation Action Area (AAA) is a designation in the coastal management element of a local government's comprehensive plan which identifies one or more areas that experience coastal flooding due to extreme high tides and storm surge, and that are vulnerable to the related impacts of rising sea levels for the purpose of prioritizing funding for infrastructure needs and adaptation planning, as provided for in Section 163.3164(1) and Section 163.3177(6)(g) (10), Florida Statutes.

Americans with Disabilities Act of 1990 (ADA) - A federal law providing for a wide range of protection to individuals with disabilities ranging from prohibitions against discrimination in employment, to specific requirements for modifications of public facilities and transportation systems.

**Appropriation**—A legal authorization granted by the City Commission to expend funds/incur obligations for specific purposes.

В

**Block Grant**—Federal grant allocated according to predetermined formulas and for use within a pre-approved broad functional area such as the Community Development Block Grant (CDBG). CDBG funding can be used as a funding source for qualified projects.

C

**Cash Flow** - A projection of the cash receipts and disbursements anticipated during a given time period.

**Capital Budget** - A plan of proposed capital expenditures and the means of financing them. The capital budget is enacted as part of the complete annual budget, which includes both operating and capital outlays. The capital budget is based on a Community Investment Plan (CIP).

**Community Investment Plan (CIP)** - Annually prepared summary plan and list of capital improvement projects proposed during the next five fiscal years, such as street or park improvements, building construction, and various kinds of major facility maintenance.

**Capital Project** - A capital project, in this plan, is a physical improvement having a useful life of not less than 10 years and costing \$50,000 or more.

**Connecting the Blocks** - The plan includes a detailed list of needed pedestrian, bicycle and transit infrastructure improvements required to meet the intent of the Complete Streets Policy adopted by the City Commission.

D

**Debt Financing** - Issuance of bonds and other debt instruments to finance municipal improvements and services.

**Debt Service -**The payment of principal and interest on long-term indebtedness.

Ε

**Expenditure** -The actual payment for goods and services.

F

**Fiscal Year -** The 12-month period to which the annual budget applies. The City's fiscal year begins on October 1 and ends September 30.

**FL<sup>2</sup>STAT** - Community-focused approach to strategic planning, performance management and process improvement for all City departments.

**Fully Funded (Project Status)** - Potential sources of funds are identified for the entire Capital Improvement Project cost.

### **GLOSSARY OF TERMS**

F

**Fund** - A fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, that are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

**FXE** - Acronym is used as the FAA Airport identifier for the Fort Lauderdale Executive Airport.

G

**General Fund** - One of five governmental fund types and typically serves as the chief operating fund of a government, used to account for all financial resources except those required to be accounted for in another fund.

**Grants** - Contributions of cash or other assets from another agency to be used or expended for a specified purpose, activity, or facility.

ı

**Infrastructure** - The physical assets of a government (e.g., streets, water, sewer, public buildings and parks).

Μ

**Millage Rate** - One mill equals \$100 of tax for each \$1,000 of property value. The millage rate is the total number of mills of tax assessed against the value.

Ρ

**Pay-As-You-Go** -The concept of paying for capital projects when the initial cost is incurred, rather than over time through the use of debt financing.

**Potential Project** - A Community Investment Project that is identified for future consideration. Grant funding opportunities will be sought for these potential projects.

Performance Indicators—Special qualitative and quantitative measures of work performed as an objective of a department.

R

**Revenue** - Additions to assets which do not increase any liability or represent the recovery of an expenditure; do not represent the cancellation of certain liabilities or decreases in assets; and do not represent contributions of fund capital in enterprise and internal service Funds.

**Revenue Estimate** - A formal estimate of how much revenue will be earned from a specific revenue source for some future period; typically, a fiscal year.

S

**Strategic Planning** - A document outlining long-term goals, critical issues and action plans which will increase the organization's effectiveness in attaining its mission, priorities, goals and objectives

T

**Taxes** - Compulsory charges levied by a government for the purpose of financing services performed for the common benefit of the people.

U

**Unfunded (Project Status)** - No potential sources of funds are identified for the community investment project.
