CITY OF FORT LAUDERDALE

May 8, 2018

Honorable Mayor and Commissioners:

This letter transmits the Comprehensive Annual Financial Report (CAFR) for the City of Fort Lauderdale, Florida (City) for the fiscal year ended September 30, 2017. This submission meets the requirements of the City Charter Section 10.02, Section 2-147(b)(14) of the Code of Ordinances of the City of Fort Lauderdale, Section 166.241, Florida Statutes, and Rules of the Florida Auditor General Section 10.550. The financial statements included in this report conform to Generally Accepted Accounting Principles in the United States (GAAP), as prescribed by the Governmental Accounting Standards Board (GASB).

The City is responsible for the accuracy of the data and the completeness and fairness of the presentation including all disclosures. Management has established internal controls to ensure that the City fulfills its fiduciary responsibility as custodian of public monies. The purpose of internal controls is to provide reasonable, but not absolute, assurance that City assets are safeguarded against loss through unauthorized use or disposition. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management.

The financial statements have been audited by Crowe Horwath LLP, Certified Public Accountants. The independent auditor has issued an unmodified opinion that the basic financial statements included in this report fairly present the financial position of the City and changes thereof and comply with all reporting standards noted above.

Management's Discussion and Analysis (MD&A) provides a narrative introduction, overview and analysis of the basic financial statements. It complements this Letter of Transmittal and should be read in conjunction with it.

Other financial information, including the budget and other schedules, is also provided to supplement required financial data. The Statistical Section includes schedules that provide historic, social, economic, and financial trend data that offers an overview of the City's fiscal position.

Profile of the Government

The City was founded in 1911. It operates under the commission/manager form of government where the Mayor, elected at large, and four Commissioners, elected by geographic single-member district, determine the policies that guide the operation of the City. The City Commission hires a City Manager, who implements City policies and administers those policies on a full-time basis. The City Commission also appoints a City Attorney who is responsible for legal affairs, a City Clerk who is the official custodian of all public records and a City Auditor responsible for review of business practices, procedures, internal controls, and procurement practices.

Fort Lauderdale is a full-service city that provides police protection, fire-rescue services, parks and recreation programs, delivers potable drinking water to a customer base both within and outside the City limits along with wastewater collection and treatment, sanitation services, development regulation, parking, and street maintenance. The City is known for its beaches and waterways including Fort Lauderdale beach, the New River, the Middle River, and numerous canals. The City also owns and operates a sports complex, a general aviation airport, a downtown heliport, an aquatic complex and an auditorium.

This financial report includes all funds and component units of the City. The Sunrise Key Safe Neighborhood Improvement District (Sunrise Key) is included as a component unit along with the Fort Lauderdale Community Redevelopment Agency (CRA). These organizations have been included as component units, since the City is financially accountable for and has ultimate decision-making authority. The transactions and balances of the CRA are blended with those of the City (primary government), while the Sunrise Key financial information is discretely presented in the government-wide financial statements.

The City of Fort Lauderdale Downtown Development Authority (DDA), the Housing Authority of the City of Fort Lauderdale (HACFL), and the Lauderdale Isles Water Control District (LIWCD) are related organizations, but separate and distinct. They are not included in this financial report since they do not meet the established criteria for reporting herein. Along with the Performing Arts Center Authority and the DDA, the City is a participant in a joint venture in the Arts and Science District Parking Garage with each party maintaining an ongoing financial interest.

The City of Fort Lauderdale is required to adopt an annual budget in accordance with the City Charter and state statutes. The City Manager is charged with preparing a proposed budget for submission in July of each year for the fiscal year that begins the following October 1. Appropriations by department within funds and tax levies are adopted in September. The budget also authorizes the number of full-time equivalent positions available to City departments to deliver services. The budget may be amended by resolution if altering the total budget of a particular fund, by City Commission motion if changing a department total within a fund, or administratively if the change is within the same department and fund. Various thresholds of review and approval have been established for purchases and hiring throughout the fiscal year.

The City has two defined-benefit pension plans: 1) the General Employees Retirement System and 2) the Police and Fire Retirement System. A board of trustees administers each plan. The boards are composed of members elected by active employees and appointees of the Mayor. The Boards have responsibility for investment of the pension assets and determination of benefits as employees retire or seek other benefits under the plans. At September 30, 2017, the plans had total assets of \$1.547 billion. The General Employees Retirement System was closed to new participants beginning October 1, 2007 and replaced with a new defined contribution plan.

The City of Fort Lauderdale Other Post-Employment Benefits (OPEB) Trust fund was created in fiscal year 2014. The goal of the OPEB Trust is to capture long-term investment returns and make progress towards reducing the net OPEB liability under GASB 75. The City Commissioners serve as the Board of Trustees of the OPEB Trust and delegates the administration of the Trust to the City's Finance Director as the Trust Administrator. At September 30, 2017, the Trust had total assets of \$15.8 million.

Economic Condition

The City of Fort Lauderdale's taxable assessed value for tax year 2017 increased by 8.66% from 2016. New construction, which represents improvements to real property that were not on the tax roll in the prior year, added \$341.0 million to the tax roll. This is the fifth year in a row that the assessed valuations have shown steady growth. The following table shows new construction and total taxable assessed value for the last five calendar years.

Taxable Values – 5 Year Comparison

Calendar Tax Year	Net New Construction	Final Gross Taxable Value	Increase/Decrease from Prior Year	Operating Millage Rate
2017-Certified	\$340,929,480	\$ 33,831,910,534	8.66%	4.1193
2016-Final	455,847,640	31,134,808,098	9.22%	4.1193
2015-Final	329,982,320	28,506,933,365	9.65%	4.1193
2014-Final	105,754,281	25,997,751,627	5.89%	4.1193
2013-Final	57,905,666	24,551,642,014	3.98%	4.1193

Economic indicators point to a healthy economy. According to the Bureau of Labor Statistics, Broward County's civilian labor force was 1,042,982 as of September 2017, amounting to a slight increase from the prior year of 1,015,650. The unemployment rate declined to 3.3% as compared to 4.8% in the prior year. More than 16 million visitors selected the Greater Fort Lauderdale area as their destination of choice and spent approximately \$14.2 billion on tourism in 2016. In addition, tax revenue from area hotels increased 7.6% to \$65 million.

Long-term Financial Planning

Financial planning stimulates discussion about the long-term impact of decisions made today and how the City can position itself strategically to deliver a stable level of essential services to our neighbors into the future. The City's ability to generate sufficient revenue to provide core municipal services, make appropriate investment in economic and community development, and build "rainy day" reserves requires deliberate examination. During FY 2017, the City completed a ten year financial sustainability analysis for the General Fund and other proprietary funds within the City. This financial forecast model populated data from every facet of the organization to create an informed, interactive, financial forecast model to prepare long-term financial plans and ensure structural balance in our budget. Fort Lauderdale continues to be proactive in our actions to ensure long-term financial sustainability, as well as, investment in our capital infrastructure to protect and preserve Fort Lauderdale's outstanding quality of life.

FY 2017 is the tenth consecutive year that the City Commission maintained an operating millage rate of 4.1193. In 2007, the combined millage rate was 5.0826. The City Commission reduced the operating millage rate in FY 2008 and as a result, our neighbors were better positioned to weather the difficult economic times by paying significantly less in property taxes.

The chart below represents the adopted operating and debt service millage rates for the last ten years.

Millage Rate History

Over 62.1% of the General Fund budget for operating expenditures is dedicated to public safety through police, fire rescue, and code enforcement. Another 11.7% is allocated to cultural and recreational quality of life programs.

Financial Policies

The City Commission adopted financial integrity principles to set forth the basic framework for the overall fiscal management of the City. It contained four high-level principles to govern the City's financial management:

- **Sound Budgeting Practices** - The City of Fort Lauderdale shall be committed to maintaining a structurally balanced budget to support high quality service to our neighbors, while maintaining a relatively low millage rate and reserves consistent with the needs of the City.
- **Prudent Fiscal Management** - The City of Fort Lauderdale shall be committed to best practices in revenue collection, expenditure disbursements, asset maintenance, and record keeping for ensuring the optimal performance and integrity of public funds and resources.
- **Cost Effective Operations** - The City of Fort Lauderdale shall be accountable to stakeholders through transparent and fiscally responsible decisions in order to deliver high quality services in the most efficient and effective manner possible.
- **Long-term Financial Planning** - The City of Fort Lauderdale shall be dedicated to investing in the future and enhancing the quality of life through public-private partnerships, cooperative decision-making, community engagement and smart strategic investments, while using debt in a responsible manner and striving for the highest level of government bond ratings available.

The City continues to exceed its policy to maintain the unrestricted fund balance for the General Fund equivalent to two (2) months of operating expenditures and required transfers. During FY 2017 the General Fund unrestricted balance increased from \$76.7 million to \$78.2 million. At 26.6%, this amount exceeds the minimum unrestricted requirement for the General Fund by \$29.2 million. The chart below presents a eight-year history of General Fund balances.

The City maintains an investment policy that strives to protect capital above all else while seeking investment earnings and providing for daily cash needs. The City’s portfolio at September 30, 2017 was \$539.8 million, excluding investments of the permanent and fiduciary funds. The City’s master and payroll accounts are swept nightly to maximize interest earnings.

The City of Fort Lauderdale has a combination of insurance policies and self-insured programs to mitigate the City’s risk as a municipality. The City is self-insured for automobile, general liability, police professional liability, workers’ compensation and employment practices claims and certain medical benefits. Insurance policies have been purchased to cover damage to City property, including windstorm and terrorism coverage, losses due to fraud or criminal actions of City officials, major employment practices liability, workers’ compensation, medical claims, and cyber liability insurance. Independent actuaries assist in assessing the City’s liabilities and establishing appropriate claim reserves.

Major Initiatives of FY 2017

The FY 2017 Adopted Budget served as a financial plan that advanced the organizational mission of providing optimum government services to our neighbors while investing in social capital to enhance the overall health of the City of Fort Lauderdale.

The Commission Annual Action Plan for FY 2017 included significant focus on our Beach and Northwest-Progresso-Flagler Heights Community Redevelopment areas. In addition, the following were key priorities for Fiscal Year 2017:

- Water and Sewer System Improvements
- Central Regional Wastewater System Projects
- Las Olas Blvd Corridor Improvements
- Stormwater System Improvements
- Facilities Maintenance and Improvements
- SE/SW 6th Street Corridor Improvements
- 911 Call Center and Dispatch Transition
- Executive Airport Improvements
- Riverland Park Land Purchase
- Street Resurfacing
- Neighborhood and Business Community Investment Projects
- Downtown Walkability Projects
- City-wide Playground Replacements
- Marine Facilities
- Bridge Replacement and Restoration

Enhancements to City operations in the FY 2017 adopted budget included additional staffing, increases in service levels, and staff development. There was a focused investment in the areas of procurement, human resources, and facilities preventative maintenance. Specific funding was provided for improvements to the City's Executive Airport, replacement of emergency generators, tidal valves, a backhoe loader, a parking study, 6 code compliance positions, additional building inspectors and plans reviewers, technological improvements to for the City's Building Division, investments in citywide technology improvements, increased special events program activity and marketing, additional parks and recreation positions, 18 additional firefighter/paramedic positions to reduce response times, and 9 positions to enhance Police services including 4 new Police motor officers.

Major Initiatives of FY 2018

The FY 2018 Adopted Budget is a financial plan developed to ensure that the City provides the outstanding services and community investment our neighbors deserve in the most effective and efficient manner possible.

The Commission Annual Action Plan for FY 2018 prioritizes our Beach and Northwest-Progresso-Flagler Heights community redevelopment areas, Stormwater Management, Beach Mobility Master Plan, Soccer and Lacrosse Athletic Fields, Homelessness, 17th Street Mobility Plan, 911 Communications, Central City Regional Activity Center Rezoning, Police Station of the 21st Century, and South Andrews Area Redevelopment.

FY 2018 enhancements to the City include strategic new positions; infrastructure investment; and enhanced programming aligned with the priorities enumerated in the City's Vision, Strategic Plan, Neighbor survey, and Commission annual Action Plan. Specific funding was provided for a nighttime economy team, a centralized roadway maintenance and repair crew, and facility maintenance needs. There was also focused investment in the areas of the Public Safety Pension Fund, the General Employee's Retirement System, beach nourishment, wage increases, employee health insurance costs, police overtime, grant funding, the renovation of Parker Playhouse, and funding for the Community Redevelopment Agency (CRA).

The Community Investment Plan (CIP) is born out of our commitment to adapt to the future. The City will continue to address a wide variety of infrastructure-related projects and funding issues to protect our valued quality of life. The CIP acts as a roadmap, demonstrating how we plan to reach our potential, support our aging infrastructure, and plan our investment strategies to adequately strengthen our community.

The Community Investment Plan addresses the identified priorities through specific projects funded in FY 2018 such as:

Priority Water and Sewer System Improvements	\$11,000,000

Accreditations and Certifications

The City of Fort Lauderdale has earned the prestigious All-America City Award for its exemplary community-based problem solving and civic engagement efforts!

The City of Fort Lauderdale Parks and Recreation Department has earned national accreditation from the Commission for Accreditation of Park and Recreation Agencies (CAPRA). The City of Fort Lauderdale Parks and Recreation Department is only one of a few agencies in the country to receive national accreditation, which confirms an agency's commitment to quality and efficiency.

In May 1996, The Commission for Florida Law Enforcement Accreditation, Inc. (CFA) selected the Fort Lauderdale Police Department as one of ten pilot agencies in the State of Florida to undergo the accreditation process. The Fort Lauderdale Police Department had been consecutively reaccredited by the CFA in 2001, 2004, 2007 and 2010 without conditions, which earned the department Excelsior Recognition.

Public Works Water and Wastewater Treatment Division provides our neighbors with safe and efficient water treatment, water production, and wastewater treatment and disposal. Additionally, the City's laboratory, which is accredited (ISO 17025) and certified (National Environmental Laboratory Accreditation Certification), provides sampling and testing services to the City 365 days a year.

Fort Lauderdale has achieved the Gold certification from the Florida Green Building Coalition. Certification standards exist for homes, commercial buildings, high-rise projects and land development, as well as for local governments. Projects earn points for meeting each standard and can earn additional points for innovation. Based on the number of points earned, a level of certification is awarded.

Fire Rescue earned a "Class 1" International Organization of Standardization (ISO) rating and Commission on Fire Accreditation International National Accreditation.

The City of Fort Lauderdale has received national recognition as a Playful City USA community from the non-profit organization KaBOOM! Today's children spend less time playing outside than any previous generation, but the City of Fort Lauderdale has earned the national title due to its efforts to increase play opportunities for local children.

Recognition and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2016. This was the 40th consecutive year that the City has received this award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current report continues to meet the program's requirements and we are submitting it to the GFOA to determine its eligibility for another award. Additionally, the City has received the GFOA Distinguished Budget Presentation Award each fiscal year since 1985 and for the fourth year the City received the Award for Outstanding Achievement in Popular Annual Financial Reporting (PAFR).

This report could not have been prepared without the dedicated service of all employees in the Finance Department and the support of the other City departments. Sincere appreciation is expressed to all for their efforts.

INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor,
City Commission and City Manager
City of Fort Lauderdale, Florida
Fort Lauderdale, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Fort Lauderdale, Florida (the "City"), as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the City of Fort Lauderdale Police and Fire Retirement System (the "System"), which represents 44 percent, 45 percent, and 28 percent, respectively, of the assets, net position, and revenues of the aggregate remaining fund information of the City. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the System, is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 21 to the financial statements, the City implemented the following:

In June 2015 the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. This Statement replaces the requirements of Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans* as they relate to other postemployment benefit plans other than pension plans that are administered through trusts or similar arrangements meeting certain criteria. The Statement builds upon the existing framework for financial reports of other postemployment benefit plans, which includes a statement of fiduciary net position (the amount held in a trust for paying retirement benefits) and a statement of changes in fiduciary net position. Statement 74 enhances note disclosures and RSI for postemployment benefit plans. Statement 74 also requires the presentation of new information about annual money-weighted rates of return in the notes to the financial statements and in 10-year RSI schedules. Our opinion is not modified with respect to this matter.

In June 2015, the GASB issued Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". This Statement replaces the requirements of Statements No. 45, *Accounting and financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*. This Statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources and expenses as well as identifies the methods and assumptions that should be used to project benefit payments, discount projected benefit payments to their actuarial present value and attribute that present value to periods of employee service. Note disclosures and required supplementary information requirements about pensions are also addressed. Our opinion is not modified with respect to this matter.

In August 2015, the GASB issued Statement No. 77, "Tax Abatement Disclosures". The objective of this Statement is to require disclosure of tax abatement information about (1) a reporting government's own tax abatement agreements and (2) those that are entered into by the government and that reduce the reporting government's tax revenues. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis, the budgetary comparison schedule, schedules of changes in the net pension liability and related ratios, schedule of changes in the net OPEB liability and related ratios, schedules of contributions, and the schedule of investment returns on pages 5 to 17, 92 to 94, 95 to 102 and 103, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial

statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining financial statements; the schedule of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and Chapter 10.550, *Rules of the Auditor General*; the introductory and statistical sections and the other financial information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining financial statements and the schedule of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and Chapter 10.550, *Rules of the Auditor General*, are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements and the schedule of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and Chapter 10.550, *Rules of the Auditor General*, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections and the other financial information have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Report on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report May 8, 2018 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
September 30, 2017

The Management's Discussion and Analysis section is intended to provide readers of this report with a general overview of the financial activities of the City of Fort Lauderdale (City) during fiscal year (FY) 2017. We encourage readers to consider the information presented here in conjunction with the transmittal letter at the beginning of this report, as well as the financial statements and notes to financial statements, which follow.

Financial Highlights

- The City's total assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at September 30, 2017 by \$944.5 million (net position). Of this amount, \$229.0 million was from governmental activities and \$715.5 million was from business-type activities. The City's unrestricted net position was negatively impacted by the implementation of GASB Statement No. 75 (GASB 75), Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, which required the City to record its unfunded liability for Other Post-Employment Benefits (OPEB). More information can be found in Notes 15 and 20.
- The City's revenues for governmental activities, excluding transfers, totaled \$405.0 million, an 8.5% or \$31.6 million increase from FY2016. Charges for services increased by \$12.6 million and property taxes increased by \$10.4 million. Expenses for governmental activities increased by \$22.5 million or 7.0% to \$342.7 million. Economic environment, general government, and public safety increased by \$8.1 million, \$6.4 million, and \$5.0 million, respectively.
- Revenues related to business-type activities increased by \$35.7 million to \$223.2 million and expenses, excluding transfers, decreased by \$2.6 million to \$185.2 million.
- The General Fund's fund balance increased by \$1.5 million to \$78.2 million primarily due to an increase of \$10.4 million in property tax revenues. The unassigned fund balance increased from \$72.6 million in FY2016 to \$74.5 million in FY2017. More detailed information on the General Fund activities can be found on page 13.
- The City's long-term debt decreased by \$29.1 million net of retirements, unamortized premiums and discounts to \$686.2 million; this primarily resulted from the reduction of current debt through annual debt payments.

Overview of Financial Statements

The basic financial statements are comprised of government-wide statements that offer a broad overview of financial activity, and more specific fund statements that present more detailed information.

Government-wide Statements (pages 20 through 23) include the statement of net position and statement of activities. They provide a broad overview of the City as a whole similar to private sector financial statements. The *statement of net position* shows the total assets and deferred outflows and liabilities and deferred inflows for the City with the difference being net position. The *statement of activities* provides a breakdown of revenues and expenses by function. Functions generally supported by taxes and intergovernmental revenues such as police, fire-rescue, parks and recreation, and public works are considered governmental activities. Those functions that are primarily funded through user fees and charges are identified as business-type activities. In Fort Lauderdale, these activities include water and sewer, sanitation, the parking system, the Fort Lauderdale Executive Airport (FXE), and stormwater.

CITY OF FORT LAUDERDALE, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
September 30, 2017

The government-wide statements include two component units. The financial information of the City's Community Redevelopment Agency (CRA) is blended within the primary government. The Sunrise Key Safe Neighborhood District (SK) is discretely presented on the *statement of activities* and *statement of net position*. Refer to the Summary of Significant Accounting Policies for additional information on individual component units. Fiduciary funds, which include pension and agency funds are not included as part of the primary government because those resources are not available for use on City activities. Details of the fiduciary funds are provided in the fund statements.

Fund Financial Statements are found on pages 24 through 35. The City uses fund accounting to track the sources and uses of resources for specific purposes. The City categorizes funds into three basic fund types: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds (beginning on page 24) are used to account for essentially the same functions reported as governmental activities in the government-wide statements. However, unlike the previous statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This comparison highlights the long-term impact of the City's near term financial decisions. Both the *governmental fund balance sheet* and the *governmental fund statement of revenues, expenditures, and changes in fund balances* offer a reconciliation to assist with this comparison.

The City maintains 21 individual governmental funds. Of this number, only the General Fund is considered a major fund and thus is reflected separately in the fund financial statements. All the other governmental funds are combined for presentation purposes as nonmajor funds.

Proprietary Funds (beginning on page 28) are comprised of two different categories. Enterprise funds include business-type activities such as water and sewer, sanitation, the parking system, the executive airport, and stormwater. Internal service funds include vehicle rental, central services (information technology, telecommunications, and printing services), and insurance services. The latter functions provide support to internal City departments rather than services to the public. Enterprise funds are also reported as either major or nonmajor funds depending upon the significance of their financial activity.

Fiduciary Funds (beginning on page 34), which are not included in the government-wide statements, are presented in this section and include the City's Police and Fire Retirement System, the General Employees Retirement System and the Other Post-Employment Benefits Fund as well as the financial activity of the Arts and Science District Garage.

Notes to Financial Statements (beginning on page 37) are integral to a complete understanding of both the government-wide and fund financial statements. They provide additional explanation of the amounts shown in the various statements.

Other Information

This report also includes required supplementary information related to employee pension liability, other post-employment benefits, and the budgetary comparison schedules for major governmental funds. The combining statements and other financial information, in connection with nonmajor governmental and enterprise funds, internal service funds, fiduciary funds and nonmajor component units are presented following the required supplementary information.

Additional statistical information is presented to give report users a better historical perspective and assist in assessing current financial status and trends of the governmental unit. Economic data is presented to allow a broader understanding of the economic and social environment in which the City government operates.

FY2016 as restated due to a change in accounting principle. See Note 20.

The City's investment in capital assets (land, buildings, improvements, infrastructure and equipment) net of the related debt outstanding used to acquire those assets of \$801.5 million represents 84.9% of its net position. These capital assets are used to provide services to City of Fort Lauderdale neighbors and are not available for future spending. The resources needed to repay the debt incurred to acquire these assets will come from future revenues.

CITY OF FORT LAUDERDALE, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) September 30, 2017

An additional portion of net position (22.0%) represents resources subject to external restrictions (\$208.1 million). The unrestricted balance increased by \$35.1 million compared to the end of FY2016 and the reasons for the overall increase are discussed in the sections for governmental activities and business-type activities.

At the end of the current fiscal year, the City is able to report positive balances in the investment in capital assets and restricted categories of net position, both for the government as a whole, as well as for the governmental activities. The business-type activities reports positive balances in all reported categories of net position. The same situation held true for the prior fiscal year.

In FY2017, the total net position increased by \$100.4 million. The implementation of GASB 75 resulted in the restatement of the beginning net position. This implementation reduced the city-wide net position by \$20.5 million; \$14.1 million is for governmental activities and \$6.4 million for business-type activities. Please see note 15 and 20 for more information. The following table summarizes changes in net position for governmental and business-type activities for the past two fiscal years.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
September 30, 2017

The governmental activities net position showed an increase of \$58.9 million. Total revenues from governmental activities increased by \$31.6 million compared to FY2016. Although the property tax levy millage rate remained constant for the tenth consecutive year, there was a \$10.4 million increase in property tax revenues resulting from an 8.9% increase in property values. In FY2017, charges for services increased by \$12.6 million, primarily due to an increase in the fire assessment fees of \$5.2 million, park impact fees reported an increase of \$3.7 million in additional revenues. Other taxes, comprised of public service taxes, franchise fees and insurance premium taxes, increased by \$1.0 million. Also, operating grants and contributions increased by \$4.8 million.

Expenses for governmental activities increased by 7.0% or \$22.5 million, with economic environment, general government, and public safety increased by \$8.1 million, \$6.4 million, and \$5.0 million, respectively, while transportation reported a decrease of \$1.1 million.

As the following chart of revenues from governmental activities (by source) shows, property and other taxes provided 47.9% of the revenues used to fund governmental functions. Charges for services, such as parks and recreation programs and fire suppression special assessment comprised 37.0% of total revenues.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
September 30, 2017

Expenses for governmental activities (by function) are provided in the following chart. Public safety, comprised of police, fire-rescue, and code enforcement services, had the highest allocation, accounting for 56.9% of all resources. General government and culture and recreation expenses accounted for 16.7% and 11.3%, respectively.

The following table and chart show the components of program and general revenues as percentage of total for governmental activities:

Financial Analysis of the Government's Funds

The fund financial statements for *governmental funds* provide information on the near-term outflows, inflows, and balances of spendable resources. Such information is useful in assessing the City of Fort Lauderdale's financing requirements. In particular, the unassigned fund balance is a useful indicator of the City's net resources available for spending at the end of the fiscal year.

The General Fund balance at September 30, 2017 was \$78.2 million, an increase of 2.0% or \$1.5 million from the prior year balance of \$76.7 million. Approximately 95.2% of FY2017 fund balance (\$74.5 million) represents the unassigned fund balance, which is available for spending at the government's discretion.

General Fund revenues for FY2017 totaled \$333.6 million, a \$19.4 million or 6.2% increase from FY2016. Miscellaneous revenues increased by \$7.4 million, which is mainly attributed to an increase in fire-rescue assessment fees. Tax revenues increased by \$11.3 million in FY2017, of which property taxes levied for operations increased \$10.3 million and other taxes increased by \$1.0 million.

Total General Fund expenditures increased by \$16.9 million from \$258.7 million in FY2016 to \$275.5 million in FY2017. This is mainly attributed to an increase in personnel cost of \$11.3 million, which includes contractual wage and benefits increases and 68.4 additional budgeted positions. Services and materials costs increased by \$5.8 million.

The governmental funds ended the year with \$303.1 million in fund balance, which is a 7.9% increase from FY2016. The combined fund balances of the nonmajor governmental funds increased by \$20.8 million or 10.2% to \$224.8 million. The Building Fund increased by \$5.6 million mostly due to a relative steady activity in licenses and permits. General capital projects fund balance increased by \$10.8 million due to transfers to fund capital improvement projects, while the Community Redevelopment Agency capital projects funds decreased by \$3.9 million, due to transfers for redevelopment and maintenance projects. The Perpetual Care fund of the Cemetery System increased by \$2.4 million; mostly attributable to investment gains.

CITY OF FORT LAUDERDALE, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
September 30, 2017

The City's *proprietary funds* are presented in more detail in the proprietary fund statements but represent the same activities reflected in the business-type activities. Proprietary funds include both the enterprise and internal service funds. The total enterprise funds net position increased by \$34.5 million to \$705.6 million in FY2017. Total enterprise funds operating income increased by \$9.5 million from \$7.1 million in FY2016, to \$16.7 million in FY2017, a 135.5% increase. The Water and Sewer Fund net position increased by \$9.8 million to \$532.4 million. Water and Sewer fund operating income was \$20.4 million in FY2016, an increase of \$4.8 million compared to FY2016.

The Stormwater fund had a net operating income of \$4.0 million, an increase of \$2.5 million from FY2016 mostly due to a rate increase in the Stormwater fee. The Parking fund had a net operating income of \$21,722, an increase of \$1.4 million from FY2016. Sanitation and Airport funds had a net operating loss of \$6.1 million and \$1.6 million. The Stormwater fund reported an increase of \$2.6 million in charges for services mostly due to an increase on base monthly rates. The Sanitation fund operating loss is primarily due to the reallocation of private collectors fees to the General Fund, of which General Fund transferred \$5.6 million back to the fund.

At September 30, 2017, the Insurance fund had a net position balance of \$2.5 million, a decrease of \$2.3 million from FY2016. The Insurance fund had net operating loss of \$1.4 million mostly due to increase medical claims. In FY2017, the Central Services fund's net position balance of \$10.1 million increased by 11.7% from \$9.1 million in FY2016. This increase of \$1.1 million is mainly attributed to an increase of \$633,801 in charges for services and a decrease of \$625,672 in personnel services. The Vehicle Rental net position increased by \$2.3 million to \$27.4 million in FY2017.

General Fund Budgetary Highlights

The City's Revenue Estimating Committee helps to ensure that the General Fund revenues are estimated each year using a comprehensive process involving multiple stakeholders, to yield the most reasonable and accurate revenue estimates. It includes an in depth review of past, current, and projected financial conditions. The forecast is an integral part of the annual budget process and allows for informed decision-making, with the goal of maintaining financial integrity while delivering essential quality community services to the City's neighbors. Actual General Fund revenues for FY2017 were higher than the final FY2017 budget by approximately \$282,664. The FY2017 positive variances or underestimations were accounted for in licenses and permits, charges for services, fines and forfeitures, and miscellaneous revenues in the amount of \$504,974. An overestimation of taxes and intergovernmental revenues resulted in a \$222,310 negative variance.

Total expenditures of \$277.9 million (including encumbrances of \$2.4 million) were \$3.7 million lower than the final FY2017 budget. This decrease is mainly attributed to services and materials costs that were \$3.1 million lower than budgeted. Salary and employee benefits savings amounted to \$2.0 million, resulting from vacancies in multiple departments. Unspent capital outlay budget was approximately \$281,107.

City of Fort Lauderdale FY2017 General Fund Budgetary Comparison (in millions of \$)

Capital Assets

The City's investment in capital assets, net of accumulated depreciation, for governmental and business-type activities is shown in the following table. Capital asset balances for governmental activities increased by \$9.0 million in FY2017.

Capital asset balances of the business-type activities increased by \$19.6 million, which is mainly attributed to a land swap acquisition in the Parking fund for the development of a public parking lot. Additional information about the City's capital assets can be found in Note 7 to these financial statements.

Debt Administration

At the end of the current fiscal year, the City of Fort Lauderdale had a total bonded debt outstanding of \$614.3 million. Of this amount, \$31.3 million is backed by the full faith and credit of the government and \$259.7 million is pension related debt for which the City has pledged non-ad valorem revenues. The remainder of the City's long term obligations comprises of bonds, notes and loans secured by the water and sewer net operating revenues, tax increment note issue by the Community Redevelopment Agency (CRA) and capital lease obligations.

The City's total debt decreased by \$29.1 million, or 4.0%, during the current fiscal year. In FY2017, the City entered into two capital leases to finance energy savings performance projects and to fund public safety radio equipment in the aggregate amount of \$8.4 million. Principal retirements for governmental activities and business-type activities totaled \$23.3 million and \$14.2 million, respectively. Additional information about the City's long-term debt can be found in Note 10 of these financial statements.

Economic Factors and Next Year's Budget and Rates

The State of Florida, by its Constitution, does not have a state personal income tax and therefore operates primarily using sales, gasoline and corporate income taxes. Local governments (cities, counties and school boards) rely on property and a limited array of permitted other taxes (sales, gasoline, and utilities) and fees (franchise, business tax receipts) for their governmental activities. For the business-type and certain governmental activities (construction services and recreational programs), the user pays a related fee or charge associated with the service.

The adopted operating budget for expenditures for FY2018 is \$770.3 million which is 2.8% higher than the FY2017 adopted budget, which does not include transfers. The General Fund expenditure budget for FY2018 is \$318.4 million which is 14.8% higher than FY2017 adopted budget. The FY2018 General Fund Adopted Budget is structurally balanced, does not include the use of fund balance, and maximizes all resources necessary to build, enhance, and sustain the future of our great City. In FY2018, the operating millage rate of 4.1193 remains unchanged for the tenth consecutive year and equates to a 9.25% increase in revenues as a result of an increase in property values.

CITY OF FORT LAUDERDALE, FLORIDA

MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited)
September 30, 2017

The adopted FY2018 General Fund budget addresses key priorities established by the City Commission to meet the challenges of current economic conditions including no increase in the millage rate, increased demands being placed on City staff and the high quality services desired by our neighbors, maintaining adequate reserve funds, and no reductions in vital City services demonstrating the City's highest priorities to ensure that we live, work, and play in the best city possible, while remaining within our fiscal boundaries. *"We Build Community."*

CITY OF FORT LAUDERDALE, FLORIDA

BASIC FINANCIAL STATEMENTS

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
For The Year Ended September 30, 2017**

Net change in fund balances of governmental funds **\$ 22,298,190**

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital purchases as expenditures. However, in the statement of activities, the cost of those assets are depreciated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital purchases exceed depreciation in the current year.

Capital Outlay	\$ 21,430,607	
Depreciation Expense	<u>(12,677,567)</u>	8,753,040

Some revenues reported in the statement of activities are not considered current financial resources and, therefore, are not reported as revenues in governmental funds. **4,470,042**

The change in the deferred refunding amounts has no effect on the current financial resource and, therefore, is not reported in the governmental funds. **(8,656)**

The issuance of long-term debt (e.g., bonds, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereasthese amounts (except for issuance costs) are capitalized and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.

Principal Repayments:		
Bonds Payable	\$ 19,250,000	
Notes Payable	3,586,100	
Debt Issuance:		
Capital Lease Debt	<u>(704,151)</u>	22,131,949

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Accrued Interest Payable	\$ 127,462	
Amortized of Bond Discounts and Premiums	396,848	
Change in pension expense	(4,236,531)	
Other Post-Employment Benefits	916,275	
Compensated Absences and Longevity Pay	<u>2,639,702</u>	(156,244)

The internal service fund is used by management to charge the costs of City insurance, communications, printing and central services and for the operation of a maintenance facility for City vehicles. The net revenue (expense) of certain activities of the internal service funds is reported with governmental activities. **1,439,208**

Change in net position of governmental activities **\$ 58,927,529**

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Fort Lauderdale, Florida (City) have been prepared in accordance with generally accepted accounting principles (GAAP) in the United States of America applicable to governmental units. The following is a summary of the more significant accounting policies of the City:

(A) The Financial Reporting Entity

The City was incorporated in the State of Florida in 1911 and covers an area of approximately 36 square miles. The City is governed by an elected five-member commission composed of a Mayor and four District Commissioners and provides services to its approximately 177,000 residents in many areas, including public safety, public places, infrastructure, business development and neighborhood enhancement. As required by GAAP, these financial statements present the City of Fort Lauderdale (the primary government) and its component units. The component units discussed in note 1(B) below are included in the City's reporting entity because of the significance of their operational and financial relationships with the City.

(B) Individual Component Unit Disclosure

The criteria for including component units consist of the identification of legally separate organizations for which the elected officials of the City are financially accountable. This criteria also includes identification of organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Blended component units, although legally separate entities, are in substance, part of the government's operations and so data from these units are combined with data of the primary government. Discretely presented component units are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the government.

A five-member board appointed by the City Commission (currently composed of the City Commission, itself) governs the Fort Lauderdale Community Redevelopment Agency (CRA). Although it is legally separate from the City, the CRA is reported as part of the primary government because its sole purpose is to finance and redevelop the City's designated redevelopment areas. The operations of the CRA are reported within the special revenue fund type and the capital expenditures are accounted for in a capital projects fund type using the blended method. Separate financial information can be obtained from the CRA.

A seven-member board appointed by the City Commission governs the Sunrise Key Safe Neighborhood Improvement District (SK). While legally separate from the City, it is reported as part of the reporting entity under the discretely presented method because the City's elected officials are financially accountable for SK. The City Commission has the power to approve, disapprove or modify the budget and millage rates or assessments submitted by the board. Separate financial information can be obtained from SK.

NOTES TO THE FINANCIAL STATEMENTS

(C) Related Organizations

The City's officials are also responsible for appointing the members of the boards of other organizations, but the City's accountability for these organizations does not significantly extend beyond making the appointments. The City Commission appoints the governing board of the City of Fort Lauderdale Downtown Development Authority (DDA), one member of the governing board of the Lauderdale Isles Water Control District (LIWCD), and the Mayor appoints the governing board of the Housing Authority of the City of Fort Lauderdale (HACFL). The City is not financially accountable for the DDA, LIWCD, or HACFL.

(D) Joint Ventures

The City is a participant with the Performing Arts Center Authority (PACA) and the DDA in a joint venture to own and operate the 950 space Arts and Science District Parking Garage. The City has an ongoing financial interest in this joint venture, which is discussed in Note 8.

(E) Government-wide and Fund Financial Statements

The government-wide financial statements, including the statement of net position and the statement of activities, report information on all of the non-fiduciary activities of the City. As part of the consolidation process, inter-fund activities are eliminated to avoid distorted financial results. Governmental activities, which are primarily supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely extensively on fees and charges for support. Likewise, the City's primary government is reported separately from its legally separate component units for which the City is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Other than for depreciation, indirect expenses are not allocated to specific functions. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and enterprise funds are reported as separate columns in the fund financial statements.

(F) Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary, except agency, fund financial statements. Agency funds have no measurement focus but follow the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

CITY OF FORT LAUDERDALE, FLORIDA

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become susceptible to accrual; that is measurable and available to finance the City's operations. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Expenditures are recognized in the accounting period in which the related fund liabilities are incurred, if measurable, except for interest on long-term debt and the long-term portion of accumulated compensated absences and longevity pay, which are recognized when due.

Property taxes are recorded as revenues in the fiscal year levied, provided they are collected in the current period or within 60 days thereafter. Those remaining uncollected are recorded as deferred revenues in the governmental fund financial statements. The utility and franchise taxes from major sources are recorded as revenues when earned. Licenses and permits, fines and forfeitures, charges for services, and other revenues (except investment earnings) are recorded as revenues when received in cash because they are generally not measurable until actually received. Investment income is recorded as revenue when earned. Special assessments are recorded as revenues only to the extent that individual installments are considered available.

In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures incurred. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if susceptible to accrual.

The City reports the following major governmental fund:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in a separate fund.

The City reports the following major proprietary fund:

The Water and Sewer Fund accounts for the provision of water and sewer services to the residents of the City and surrounding areas.

The Parking System Fund accounts for the operations of various parking facilities throughout the City.

Additionally, the City reports the following fund types:

Internal service funds account for the financing of goods and services provided to departments within the City in the following three areas: 1) costs of insuring the City in the areas of general liability, auto liability, workers' compensation, police professional liability, employee relations and medical benefits; 2) information technology systems, communications, and print center operations; and 3) operation of a maintenance facility for City vehicles.

CITY OF FORT LAUDERDALE, FLORIDA

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

Pension and OPEB trust funds account for the activities of the OPEB Trust, General Employees' Retirement System and the Police and Firefighters' Retirement System, which accumulate resources for pension and benefit payments to qualifying City employees.

The Arts and Science District Garage Agency Fund accounts for the assets and liabilities held by the City for the Arts and Science District parking garage.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the City's enterprise funds and the General Fund as well as cost reimbursement transactions between the enterprise funds and various other functions of City government. Elimination of these charges would distort the direct costs and program revenues reported for those sectors.

The proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer, nonmajor enterprise funds, and all the internal service funds are charges to customers for sales and services. The Insurance Fund bills the other funds to cover insurance premiums and claims. Operating expenses for the enterprise and internal service funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

The preparation of the basic financial statements in conformity with GAAP requires management to make use of estimates that affect reported amounts in the basic financial statements. Actual results could differ from those estimates.

(G) Derivatives and Hedging Activities

Derivatives have a fair value, require little or no initial net investment, and may be net settled. The City follows GASB Statement No. 53 (GASB 53), "Accounting and Financial Reporting for Derivative Instruments". Under GASB 53, derivatives are either categorized as hedging derivative instruments or investment derivatives. Hedging derivative instruments are associated with specific hedging transactions wherein the intent is to significantly reduce risks. Changes in fair value of hedges are reported as either deferred inflows of resources or deferred outflows of resources in the statement of net position. For accounting purposes, in order to qualify as a hedge, the relationship between the derivative and the underlying item must result in a hedge that is "effective" in mitigating risk. If the hedge transaction is considered "ineffective" the valuation of the instrument is considered investment income or loss in the flows of resources statements. GASB 53 outlines five methods for evaluating hedge effectiveness if the hedged item is an existing or expected commodity transaction:

- Consistent Critical Terms
- Synthetic Instrument
- Dollar Offset
- Regression Analysis
- Other Quantitative Methods

CITY OF FORT LAUDERDALE, FLORIDA

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

For purposes of performing hedge effectiveness testing, the City can use any or all of the evaluation methods and is not limited to using the same method from period to period. Therefore, if the result of any one prescribed evaluation method indicates the hedge is ineffective, the City may apply another method to verify effectiveness. In addition, the calculations for effectiveness may be based on either a life to date period or be limited to the immediately preceding annual accounting period.

The City has adopted GASB 53 to account for petroleum future contracts to hedge variability in future cash flows resulting from volatility in gasoline and diesel fuel prices. Fair value is determined based on quoted prices in active markets for the derivative instrument. Because the fuel hedge is an effective hedge as defined by GASB 53, the unrealized gain (loss) on the fuel hedge is reported as deferred inflow/outflow of resources on the statement of net position. The hedging instruments affected are monthly future contracts with a notional amount of 42,000 gallons each with an index of Reformulated Gasoline Blendstock for Oxygen Blending (RBOB Gas) and New York Harbor Ultra Low Sulfur Diesel (NYHRBRULSD) as listed on the NYMEX. As of September 30, 2017, the City had twenty-one (21) future contracts. The contracts were purchased at various times throughout the past two-years. On average, it costs the City \$64 to acquire a fuel hedge contract. The aggregate fuel hedge contracts cover a rolling 18-month forward period. The fuel hedge contracts are recorded as an asset at fair value with the accumulated change in fair value reported as a deferred inflow. The deferred inflow and the instrument itself, as of September 30, 2017 are valued at \$105,798.

Basis risk. The City is exposed to basis risk on its fuel hedge contracts because the future fuel purchases are based on a pricing point different from the pricing point at which the future contracts are expected to settle (New York Harbor Ultra Low Sulfur Diesel and Gasoline).

There is no termination or interest rate risk.

(H) Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

(1) Cash and Cash Equivalents

The City considers cash on hand, cash with fiscal agents, demand deposits, certificates of deposit and bank repurchase agreements as cash and cash equivalents. Each fund's equity in the City's investment pool has been treated as a cash equivalent since cash may be deposited or withdrawn from the pool at any time without prior notice or penalty.

(2) Investments

Investments are stated at fair value. Income from investments held by the individual funds is recorded in the respective fund as it is earned. All other investments owned by the City are accounted for in the City's investment pool. Income earned from this pool is allocated to the respective funds based upon average monthly equity balances.

(3) Receivables and Payables

Activity between funds that are representative of lending or borrowing arrangements outstanding at the end of the fiscal year of a short-term nature and any other outstanding balances between funds are reported as due to and due from other funds. The long-term portion of any borrowings between funds is reported as advances to and from other funds.

CITY OF FORT LAUDERDALE, FLORIDA

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

Long-term advances of the governmental funds are recorded by the advancing fund as a receivable and nonspendable fund balance. Any residual outstanding balances between the governmental activities and business-type activities at year-end are reported in the government-wide financial statements as internal balances.

All accounts and notes receivable are reported net of any allowances for uncollectibles.

(4) Inventories

Inventories in the governmental funds are composed of land held for redevelopment or resale and are stated at cost. Inventories of materials and supplies in the enterprise funds are based on year-end physical counts priced at weighted average cost. Inventories are recognized as expenditures or expenses when consumed.

(5) Prepaid Items

Prepaid items represent payments made to vendors for services that will benefit the period beyond September 30, 2017. These services are recorded as expenditures/expenses when consumed.

(6) Restricted Assets

Certain proceeds of long-term bonds issued by the capital project, enterprise and internal service funds, as well as resources set aside for their repayment, are classified as restricted assets on the statement of net position and their use is limited by applicable bond covenants.

(7) Capital Assets

Capital assets, including land, buildings, improvements other than buildings, infrastructure (that is, roads, bridges, street lighting and other similar items) and equipment, are reported in the applicable governmental and business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an initial cost of \$5,000 or more and an estimated useful life of more than one year. Such assets are stated at cost or estimated historical cost. Contributions or donations of capital assets received from federal, state or local sources are recorded as contributions when received and are stated at acquisition value. Additions, improvements and expenditures that significantly extend the useful life of an asset are capitalized. Interest is capitalized in the enterprise funds on projects during the construction period based upon average accumulated project expenses.

Depreciation of capital assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	40-50 years
Improvements	20-50 years
Infrastructure	15-50 years
Machinery, Equipment and Vehicles	3-15 years

The City follows the requirements of GASB Statement No. 42, "Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries" regarding potential impairment of capital assets.

CITY OF FORT LAUDERDALE, FLORIDA

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

(8) Capitalization of Interest

Interest is capitalized by the City in proprietary fund types when it is determined to be material. The City capitalizes interest in accordance with GASB Statement No. 62. (GASB 62), "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements". This Guidance requires that the interest cost capitalized during construction be reduced by interest income earned on investments of the bond proceeds from the date of the borrowing until the assets constructed from the bond proceeds are ready for their intended use. Total interest incurred during fiscal year 2017 was \$14,349,305: there was no capitalized interest in FY2017.

(9) Compensated Absences and Longevity

City employees are granted sick, vacation, and longevity pay in varying amounts based on length of service, date of hire, and employee group. Compensatory time is granted to employees in lieu of overtime pay at the employees' request. Sick leave payments to terminated employees are based on length of service and usage on a last in, first out basis. Unused vacation pay and compensatory time are paid upon an employee's termination. Longevity pay is paid to eligible employees annually based on length of service. Accumulated compensated absences and longevity are recorded as expenses in the government-wide and proprietary fund financial statements when earned. Expenditures for accumulated compensated absences and longevity have been recorded in the governmental funds only for amounts payable to employees who have terminated as of the end of the fiscal year.

(10) Estimated Claims Payable

The City is self-insured for general liability, automobile liability, police professional liability, workers' compensation, employee relations and certain death benefits and medical plans. The operating funds are charged premiums by the Insurance internal service fund. The accrued liability for estimated claims represents an estimate of the eventual loss on claims arising prior to year-end, including claims incurred and not yet reported.

(11) Landfill Post-Closure Costs

Landfill post-closure care costs represent an estimate of the City's remaining costs to monitor the City's former landfill site. These costs are accounted for in the Sanitation Fund, a nonmajor enterprise fund.

(12) Other Long-term Obligations

Long-term debt and other long-term obligations are reported as liabilities in the applicable governmental and business-type activities and proprietary fund financial statements. Bond premiums and discounts are recorded as direct additions to or deductions from the related debt and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable premiums and discounts.

In the governmental fund financial statements, bond premiums and discounts are recognized during the current period. The face amount of debt issued and any premiums received are reported as other financing sources while discounts are reported as other financing uses.

CITY OF FORT LAUDERDALE, FLORIDA

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

(13) Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The City reports deferred loss on refunding, accumulated decrease in fair value of derivative instruments, change in pension assumptions and loss on pension and OPEB investments. The deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. Changes in pension plan and OPEB assumptions are deferred and amortized over the average of the expected remaining service lives of employees that are provided with benefits through OPEB and the pension plan. Difference between projected and actual earnings on pension and OPEB investments are deferred and amortized over five years.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This represents an acquisition of net position that applies to a future period(s) and will not be recognized as in inflow of resources (revenue) until that period. The City has two items that qualify for reporting in this category: (1) The accumulated increase in fair value of hedging derivative instruments is reported in the government-wide and internal service funds statement of net position. (2) Certain amounts related to pensions and OPEB must be deferred. Differences between expected and actual experience and change in pension and OPEB assumptions are deferred and amortized over the average of the expected remaining service lives of all employees that are provided with benefits through the OPEB and pension plan.

(14) Fund Balance and Net Position

In the governmental funds, fund balances are reported as nonspendable if they are not in spendable form or are legally or contractually required to be maintained intact. In addition, fund balances are reported as restricted, committed or assigned to specific purposes based upon the extent to which the City is bound to honor constraints placed on those funds. Unassigned fund balance is the residual fund balance classification of the General Fund.

Encumbrance accounting, under which purchase orders and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbered amounts for specific purposes are reported within the applicable restricted, committed or assigned fund balance classifications.

Net position of the government-wide and proprietary funds is categorized as net investment in capital assets; restricted or unrestricted. Net investment in capital assets consists of capital assets reduced by the outstanding debt issued to acquire, construct or improve those assets, less any unspent debt proceeds. Restricted net position has regulatory or third party limitations on its use.

(15) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the General Employees' Retirement System (GERS) and the Police and Firefighters' Retirement System (PFRS) and additions to/deductions from GERS and PFRS fiduciary net position have been determined on the same basis as they are reported by GERS and PFRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

(16) Other Post-Employment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Other Post-Employment Benefits Trust and additions to/deductions from OPEB fiduciary net position have been determined on the same basis as they are reported by OPEB plan. Investments are reported at fair value, except for money market investments.

2. RESTRICTED ASSETS

Restricted assets at September 30, 2017 are as follows:

	Water and Sewer	Parking System	Nonmajor Enterprise Funds		
			Sanitation	Airport	Total
Accrued Interest Payable	\$ 1,211,046	\$ -	\$ -	\$ -	\$ 1,211,046

3. DEPOSITS AND INVESTMENTS

The City maintains a pooled cash and investment fund for the City's operating and capital funds. In addition, cash and investments are separately held for the City's special revenue, debt service, capital projects, permanent, and enterprise funds.

In accordance with Section 218.415, Florida Statutes, the City's Investment Policy applies to all cash and investments held or controlled by the City and shall be identified as "general operating funds" of the City with the exception of the City's pension and cemetery funds. The policy was adopted on September 4, 2001 and subsequently amended on October 1, 2013.

Permitted investments, asset allocation limits, issuer limits, credit rating requirements and maturity limits are detailed in the policy in order to protect the City's cash and investments. The current policy allows for the purchase of the following investments: U.S. government securities, U.S. government agency securities, federal instrumentalities, interest-bearing time deposits or saving accounts, repurchase agreements, commercial paper, corporate notes, bankers' acceptances, state or local government taxable or tax-exempt debt, City of Fort Lauderdale debt obligations, registered investment companies (money market mutual funds), and intergovernmental investment pools. As of September 30, 2017, the total cash and investments for the City of Fort Lauderdale's primary government, was \$569,278,562.

DEPOSITS WITH FINANCIAL INSTITUTIONS

Custodial Credit Risk – Deposits

Custodial credit risk for deposits is the risk in the event of the failure of a depository financial institution, a government may not be able to recover deposits. Monies placed on deposit with financial institutions in the form of demand deposits, time deposits or certificate of deposits are defined as public deposits. The City's investment policy requires that the City's public deposits be held in a State Qualified Public Depository as defined in Section 280.02, Florida Statutes. At September 30, 2017, \$100,728,683 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institutions' trust department, but not in the City's name.

INVESTMENTS

The City's investment holdings are organized into seven portfolios. Three portfolios are governed by the City's Investment Policy (the City's Portfolios): Surplus Funds Pooled Investments, Community Redevelopment Agency Portfolio, and General Obligation Capital Project Portfolio. The remaining four portfolios, the Cemetery Perpetual Care Fund, the OPEB Trust Fund, the Police and Firefighters' Retirement System Fund, and the General Employees' Retirement System Fund are controlled by their respective policies. Fair Value Measurement

In February 2015, GASB issued Statement No. 72, addressing the accounting and financial reporting issues related to fair value measurements. GASB No. 72 defines fair value as the price that would be received to sell an asset. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are based on other significant observable inputs such as indices for fixed income bonds and quoted prices similar assets in markets that are not active; Level 3 inputs are significant unobservable inputs.

Investment Portfolios (Excluding Fiduciary Funds)

Since investing is not a core part of the City's mission, the City determines that the disclosures related to its investment portfolios only need to be disaggregated by major type. Therefore, the City chooses a narrative format for the fair value disclosure of its investment portfolios.

The City's investment portfolios have the recurring following fair value measurements as of September 30, 2017:

- U.S. Treasury Securities, Mutual Funds and Cash Equivalents of \$182.6 million are valued using quoted market prices (Level 1 inputs)
- Corporate Bonds, Municipal Bonds, and External Investment Pools of \$282.6 million are valued using a matrix pricing model (Level 2 inputs).

Derivatives

The City has established a fuel hedging program for its diesel fuel and gasoline consumption in order to create more certain fuel cost for the future that decreases fuel budget risk. This program uses exchange-traded diesel fuel and gasoline futures contracts. GASB 72 prescribes several methods by which governments may arrive at a fair value for assets that they hold. To value the City's holdings of diesel and gasoline futures contracts, the market approach is used since the market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets, liabilities, or a group of assets and liabilities. Since the City holds exchange-traded instruments, the valuation prices for the City's futures contracts are established on a daily basis by the New York Mercantile Exchange. The markets for these futures contracts are liquid and pricing is transparent. The published daily settlement prices from the New York Mercantile Exchange are used for the valuation of the City's futures contracts. As of September 30, 2017, this level 1 investment had a positive fair value of \$105,798.

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

The following is a description of the fair value techniques for the Plan's investments. Level 1 and 2 prices are obtained from various pricing sources by the Plan's custodian bank: Short-term investments, which consist of money market funds, are reported at amortized cost.

Equity securities traded on national or international exchanges are valued at the last reported sales price or current exchange rates (Level 1). This includes common stock and American depository receipts, and mutual fund equities.

Debt securities are valued using pricing inputs that reflect the assumptions market participants would use to price an asset or liability and are developed based on market data obtained from sources independent of the reporting entity (Level 2). This includes U.S. Treasury bonds and notes, inflation-indexed bonds, U.S. federal agencies, mortgage backed and collateralized securities, municipal bonds, mutual bond funds and corporate obligations, including asset backed, foreign bonds and notes.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient, including their related unfunded commitments and redemption restrictions.

Investments Measured at the NAV

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Commingled equity fund ⁽¹⁾	\$ 206,128,887	\$ -	Daily	1
Real estate funds ⁽²⁾	119,178,626	10,041,000	Quarterly	10-90
Hedge fund of funds ⁽³⁾	37,857,277	3,576,906	Quarterly	95

Total Investments Measured at NAV	\$ 374,203,212	\$ 17,717,291		

1. Commingled equity funds - consists of three equity index collective trusts considered commingled in nature which are designed to match the return of their respective benchmark index. Each are valued at the net asset value held at the end of the period based upon the fair value of the underlying investments. These funds are typically open for withdrawal twice monthly with limited notice.
2. Real estate funds - consists of three open end real estate partnerships. Two of the funds primarily invest in stable institutional quality office, retail, industrial, hotel and multifamily residential properties that are substantially leased and have minimal deferred maintenance. The other fund is a commingled insurance company separate account designed for use as a funding vehicle for tax-qualified pension plans and certain nonprofit organizations, Its investments are comprised primarily of real estate investments either directly owned or through partnership interest, and mortgages and other loans on income producing real estate.
3. Hedge fund of funds - the plan invests in two hedge fund of funds partnership vehicles. The objectives of these funds are to seek above-average rates of return and long-term capital growth through an investment in a master fund of funds with a diversified portfolio of private investment entities and separately managed accounts.
4. Private equity fund - the plan invests in three private equity partnership vehicles. The private equity funds are not eligible for redemption. Distributions are received as underlying investments within the funds are liquidated, which on average will occur over a period of 5 to 10 years.

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

The valuation method for investments measured at the net asset value (NAV) per share (or its equivalent) is presented on the following table.

Investments Measured at the NAV	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Commingled equity fund ⁽¹⁾	\$ 100,783,694	\$ -	Daily	2 days
Collective interest fund ⁽²⁾	52,764,323	-	Daily	Daily

Total Investments Measured at NAV	\$ 214,415,981	\$ 22,714,200		

1. Commingled trust - this type includes investments in multiple trusts funds that invest in common stocks and their equivalents. The fair values of the investments in this type have been determined using the NAV per share of the investments.
2. Collective interest trust. This type includes collective investment funds that invest in short-term, high quality securities denominated in U.S. dollars. The fair values of the investments in this type have been determined using the NAV per share of the investments.
3. Real estate funds - this type includes four real estate funds that invest primarily in U.S. real estate and two timberland funds. The fair values of the investments in this type have been determined using third party appraisals. Distributions from the real estate will be received when income is generated. Distributions from the timberland funds will be received as income is generated and as the underlying investments of the funds are liquidated. It is expected that the underlying assets of the funds will be liquidated over the next 7 to 10 years.

Interest Rate Risk

Interest rate risk is the possibility that interest rates will rise and reduce the fair value of an investment. The City manages its portfolios' exposures to declines in fair value due to rising interest rates by limiting individual investments to maturities of ten (10) years or less from the date of purchase. Also, the overall "weighted average maturity" shall be less than three (3) years. The other portfolios use either the "duration" method or the "weighted average maturity" as measurements of interest rate risk. The following table illustrates the interest rate risk for debt investments:

Credit Risk

GASB Statement No. 40 (GASB 40), "Deposit and Investment Risk Disclosures", requires that governments provide information about the credit risk associated with their investments by disclosing the credit quality ratings of investments in debt securities as described by nationally recognized statistical rating organizations. Unless there is information to the contrary, obligations of the U.S. government or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk and do not require disclosure of credit quality.

Portfolio No. 1 Surplus Funds Pooled Investments

The City's investment policy provides for the following investments, which are limited to credit quality ratings from nationally recognized rating agencies as follows:

Portfolio No. 5 OPEB Trust Fund

This portfolio's investment requires that investments in fixed income type securities to be rated A or better by a nationally recognized rating service. All of these investments met this requirement at September 30, 2017.

Portfolio No. 6 Police and Firefighters' Retirement System Fund

The Plan's investment policy requires that investments in fixed income type securities to be rated in the fifth major rating category by all recognized rating services. The overall portfolio quality of the active bond portfolios shall be maintained at A or higher. At September 30, 2017, all of the Plan's investments met this requirement.

Portfolio No. 7 General Employees' Retirement System Fund

This portfolio's investment policy requires investments in corporate bonds or notes to be rated A or better by a nationally recognized rating service. All of these investments met this requirement at September 30, 2017.

Custodial Credit Risk – Investments

The City's investment policy requires that all securities, with the exception of certificates of deposit, be held with a third party custodian. Security transactions between a broker/dealer and the custodian involving the purchase or sale of securities by transfer of money or securities are made on a "delivery vs. payment" basis to ensure that the custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction. As of September 30, 2017, the City's investment portfolio was held with a third party custodian.

Concentration of Credit Risk

GASB 40, requires disclosure of investments in any one issuer that represent five percent or more of total investments, excluding investments issued or explicitly guaranteed by the U.S. government, investments in mutual funds, external investment pools, and other pooled investments. Per this disclosure requirement, none of City's investments were with any one single issuer that represents 5% or more of all of the City's portfolios.

In addition, the City's investment policy establishes limits on portfolio composition, both by investment type and by issuer. The City's investments did not exceed these limits during the year ended September 30, 2017.

Foreign Currency Risk

GASB 40 requires governments to disclose deposits or investments exposed to foreign currency risk. None of the portfolios have exposure to foreign currency risk. All investments are in US dollars.

4. PROPERTY TAXES

The City's property tax is levied, becomes a lien on real and personal property located in the City and is recorded as a receivable on November 1 of each year based upon the assessed value listed as of the prior January 1. The Broward County Property Appraiser establishes assessed values. The assessed value at January 1, 2016, upon which the fiscal year 2017 levy was based, was approximately \$31.0 billion.

The City is permitted by state law to levy taxes up to 10 mills of assessed valuation for General Fund operations exclusive of voted debt levies. Taxes levied for the General Fund for the fiscal year 2017 were 4.1193 mills for operations and 0.1610 for debt service.

All taxes are due from property holders on March 31, become delinquent on April 1 and become subject to the issuance of tax sale certificates on June 1. Current tax collections for the year ended September 30, 2017 were approximately 99.5% of the total tax levy.

8. INVESTMENT IN JOINT VENTURE

The City has agreements with the Performing Arts Center Authority (PACA) and the Downtown Development Authority (DDA) for the operation of a 950 space-parking garage in the Arts and Science District of the City. The City, as operating agent, has full and exclusive responsibility for operation and maintenance of the garage, which is being accounted for as a joint venture in the Parking System Fund using the equity method of accounting.

The City collects all revenues and pays all operating expenses for the garage and determines the allocation to each of the participants monthly. The increase in net position for the year of \$1,195,527 was derived exclusively from operations. The equity interests of the City, the PACA and the DDA totaled \$623,703, \$787,062, and \$436,340 respectively at September 30, 2017. Separate financial statements for the joint venture are available from the City's Finance Department.

9. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters. The Insurance Fund is used to account for and finance both uninsured and insured risks of loss. Coverage is provided for workers' compensation, property, employment practices, public officials' liability, active shooter, crime, cyber liability, general liability, automobile liability, watercraft liability, airport liability, police professional liability, and certain medical benefits.

The City has obtained insurance coverage for the following areas:

- Workers' compensation claims in excess of \$1.0 million for employees with statutory limits per occurrence.
- Property insurance for City structures with a standard peril deductible of \$50,000 per loss, a named windstorm deductible of \$5.0 million per loss on both the utility and non-utility property programs, and a flood deductible of either \$50,000 or \$5,000 per location, depending on the location.
- Employment practices liability with a \$150,000 per claim deductible, public officials' liability with a \$100,000 per claim deductible, and a \$4.0 million combined coverage limit for both policies.
- Active shooter policy with a deductible of \$10,000 and limit of \$5.0 million per loss.
- Crime policy with a deductible of \$25,000 and limit of \$1.0 million per loss.
- Cyber liability policy with a deductible of \$50,000 and limit of \$2.0 million per claim.
- Automobile liability policy with no deductible and limit of \$1.0 million per loss.
- Watercraft liability policy with a \$2,500 deductible and limit of \$1.0 million per loss.
- Airport liability policy with no deductible and limit of \$20.0 million per loss.
- Commercial, specific, stop-loss insurance is also purchased for medical benefits claims in excess of \$275,000 per claim.

Settlements have rarely exceeded the retention on these policies for each of the past three fiscal years.

All operating funds of the City participate in the program and make payments to the fund based on estimates of the amounts needed to pay prior and current claims and to provide fund equity for catastrophic losses. The estimated insurance claims payable at September 30, 2017 of \$36,454,589 (discounted at 3.8%) is based on the requirements of GASB Statement No. 10, "Accounting and Financial Reporting for Risk Financing and Related Insurance Issues" as amended by GASB Statement No. 30, "Risk Financing Omnibus", which requires that claims liabilities be based upon the estimated ultimate costs of settling the claims. The liability also includes incurred but not reported claims developed through actuarial analyses of loss history and non-incremental claims adjustment expenses. Changes in the balance of estimated insurance claims payable for the fiscal years ended September 30, 2016 and 2017 follow:

All of the outstanding bonds of the Water and Sewer Fund are secured by the water and sewer net operating revenues.

In order to take advantage of low interest rates, the City is participating in the State of Florida revolving loan program to finance sewer system capital improvements and had three (3) loans, loan agreements three, four and five were still outstanding as of September 30, 2017. The loan program operates on a reimbursement basis. When proceeds are issued, the loan accrues interest based upon the rate approved by the State at the date of closing. The liability due to the State is the original loan amount plus accrued interest until the date repayments commence, which is approximately three years from date of issue.

On May 5, 2005, the City entered into its third loan agreement for \$7,256,416, which carries an interest rate of 2.19% and provides for semi-annual principal and interest payments beginning in November 2006. The loan principal was increased to \$19,116,208 on August 23, 2005. The loan principal was decreased to \$17,384,060 on April 30, 2010. As of September 30, 2017, the City's liability for this loan totaled \$8,503,819.

11. CAPITAL LEASE

In June 2015 the City entered into a five-year lease agreement with Motorola Solutions for public safety radio equipment for \$2,308,690. The lease carries an interest rate of 2.39% with annual payments of principal and interest. The lease qualifies as capital leases for accounting purposes and, therefore has been recorded at the present value of the future lease payments as of the inception date in the Central Services fund. The capital assets and depreciation thereon acquired under the lease is also accounted for in the Central Services fund. As of September 30, 2017 the City's liability for this lease totaled \$1,417,793.

On January 5, 2017, the City entered into a tax-exempt lease purchase agreement in the amount of \$2,055,750 with Banc of America Public Capital Corp. to finance the City's energy savings performance project. The proceeds of the financing were placed into an escrow deposit account with the escrow agent. The lease agreement carries an interest rate of 1.978% and has a 12 year term with annual debt service payments and expires on January 5, 2029. As of September 30, 2017 the City's liability for this lease totaled \$2,055,750.

In August 2017, the City entered into a seven-year lease agreement with Motorola Solutions for public safety radio equipment for \$6,383,587. The lease carries an interest rate of 2.470% with annual payments of principal and interest. The lease qualifies as capital leases for accounting purposes and, therefore has been recorded at the present value of the future lease payments as of the inception date in the Central Services Fund. The capital assets and depreciation thereon acquired under the lease is also accounted for in the Central Services Fund. As of September 30, 2017, the City's liability for this lease totaled \$6,383,587.

12. LANDFILL POST-CLOSURE COSTS

The Wingate landfill and incinerator was an active disposal site from 1954 to 1978. In 1990, the site was designated by the United States Environmental Protection Agency (USEPA) as a superfund site requiring the City to take remedial action. Based on the results of a 1994 Remedial Investigation and Feasibility Study, the USEPA agreed to various remedies including a single layer cap in 1996 in a final Record of Decision at an estimated remediation cost of \$20,500,000, which was recognized as a liability in the Sanitation Fund. In 1998, the City entered into an agreement with the Potentially Responsible Parties (PRPs), known as the Wingate Superfund Group, to oversee compliance with a 1998 Consent Decree between the City, the USEPA and the PRP's. As a result of the agreement, the City reduced its estimated remediation liability to \$10,000,000.

The consent decree provided for payment of expenses associated with the remediation, promoted cost effective response actions, allocated management and financial responsibilities and resolved claims for cost recovery between the parties. The consent decree was validated on December 28, 1999, allowing site remediation to commence. The agreement with the Wingate Superfund Group created a trust fund for collection and disbursement of funds for the remediation and limited the City's share of remediation costs to \$8,325,000, excluding ancillary costs. The Second Five-Year Review Report was issued by the USEPA in July 2011. Monitoring data suggest that cleanup levels are being achieved and O&M procedures are currently maintaining the effectiveness of the remedy. The remedy currently protects human health and the environment in the short term because the landfill cap construction is complete and the required institutional controls (groundwater and land use restrictions) are in place. Based upon a favorable USEPA report reducing the amount of required monitoring the liability was reduced by \$2,368,781. As of September 30, 2017, the liability is \$828,334 to provide for estimated post closure care costs.

13. FUND BALANCES

In accordance with the requirements of GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions", the City classifies governmental fund balances as follows:

- (A) Nonspendable – includes fund balance amounts that cannot be spent because they are either not in spendable form or legal or contractually required to be maintained intact.
- (B) Restricted – includes fund balance amounts that are constrained to be spent only for specific purposes which are externally imposed by creditors, grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.
- (C) Committed – includes unrestricted fund balance amounts that can only be used for specific purposes pursuant to internal constraints imposed by the City's Code of Ordinances which can only be established, modified or rescinded through the passage of ordinances by the City Commission, the City's highest level of decision making authority.
- (D) Assigned – includes unrestricted fund balance amounts that are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. Either the City Commission or the City Manager has the authority to assign amounts to a specific purpose. On September 17, 2013, City Commission by Resolution 13-179 authorized the City Manager to assign resources and ending fund balance.
- (E) Unassigned – includes the residual fund balance of the General Fund not included in the above nonspendable, restricted, committed or assigned categories. It may also include negative fund balances of other governmental funds resulting from expenditures for specific purposes, which exceeded restricted, committed or assigned amounts available for those purposes.

It is the City's policy to use restricted fund balances before unrestricted funds when both are available for a specific purpose unless contractual requirements, such as for a specific grant that requires dollar for dollar spending, prohibit doing so. In addition, the order of use for unrestricted fund balances available for a specific purpose is committed, assigned, and then unassigned amounts.

The Commission adopted a Fund Balance Policy by Resolution No.13-179 which is a financial standard to maintain the unrestricted fund balance for the General Fund at a level that is equivalent to two (2) months of operating expenditures and required transfers. Should the projected or actual unrestricted fund balance fall below this minimum, a plan will be submitted for consideration to achieve the minimum level within a three-year period. This plan will include a combination of cost reductions, revenue enhancements, and/or service reductions and should be submitted within 30 days of recognition of the fund shortfall.

A) Defined Benefit Plans - Plan Descriptions and Funding Policies

1. General Employees' Retirement System

The General Employees' Retirement System is a single-employer defined benefit plan administered by an eight-member board of trustees, which covers City employees, except police and firefighters. Through collective bargaining with the general, supervisory and professional City employees, a new single-employer defined contribution pension plan was established for Teamster Union employees hired on or after October 1, 2007, Supervisory Union employees hired on or after November 7, 2007, and all other Non-Union employees hired on or after February 20, 2008. The General Employees Retirement System was then closed to new entrants. Under Ordinance No. C-11-34, adopted on December 6, 2011, a Bonus Incentive Program was offered to members eligible for either early or normal retirement as of December 1, 2011. Eligible members were granted 30 additional months of service for both benefit and eligibility purposes if, during the election period from December 7, 2011 through February 1, 2012, they elect to retire between December 14, 2011 and March 16, 2012. There were 134 members who elected to retire under the Bonus Incentive Program. The impact of the Bonus Incentive Program reflects the replacement of 20% of the members who retired under the program with promotions of the highest-paid remaining active members. The salaries of expected promoted members were increased by 5%. The City's payroll for employees covered by the plan after the plan change applicable to the September 30, 2013 actuarial valuation was approximately \$57,217,000. The total City payroll at that time was approximately \$158,475,000. As of the valuation date, employee membership data related to the pension plan was as follows:

Retirees and beneficiaries currently receiving benefits	1,386
Inactive, Non retired members	104
Active members	771
Total	<u>2,261</u>

Under the vesting provisions of the plan, employees are entitled to 100% of normal retirement benefits after 5 years of service. Members who terminate prior to vesting are entitled to a refund of employee contributions plus interest at 3% per year. Employees are eligible to retire after 30 years of service, regardless of age, or at age 55 with 5 years of service. Members who continue in employment past normal retirement may either accrue larger pensions or freeze their accrued benefit and enter the Deferred Retirement Option Plan (DROP). Each participant in the DROP has an account credited with benefits not received plus interest. Participation in the DROP must end no later than 36 months after normal retirement. Certain employees hired on or after October 1, 1983 electing reduced benefits are entitled to 100% of normal retirement benefits after 10 years of service beginning at age 65. These benefit provisions and all other requirements are established by City ordinance.

Employees contribute from 4% to 6% of their earnings to the plan. The City is required to contribute the remaining amounts necessary to fund the plan, based on an amount determined by the plan's actuaries as of September 30 each year. For the current year, the City's contribution rate as a percentage of annual covered payroll was 30.85% or \$14,650,881.

Net Pension Liability

The City's net pension liability was measured as of September 30, 2017. The total pension liability used to calculate the net pension liability was determined as of that date. The components of the net pension liability of the City at September 30, 2017 were as follows:

CITY OF FORT LAUDERDALE, FLORIDA

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

Total Pension Liability	\$ 659,261,317
Plan Fiduciary Net Position	<u>(654,193,477)</u>
City's Net Pension Liability	<u>\$ 5,067,840</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	99.23%

Actuarial Assumptions: The total pension liability in the September 30, 2016 actuarial valuation updated to September 30, 2017 was determined using the following actuarial assumptions, applied to all periods in the measurements:

Inflation	3.00%
Salary Increases	4.00% to 9.50% depending on age, including inflation
Investment Rate of Return	7.50%

Mortality RP-2000 Combined Healthy Participant Mortality Table for males and females with mortality improvements projected to all future years after 2000 using Scale BB.

The actuarial assumptions used in the September 30, 2017 valuation were based on the results of an actuarial experience study dated November 1, 2012 for the period from October 1, 2001 to September 30, 2011.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class.

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the targets asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Domestic Equity	40.0%	5.5%
International Equity	15.0%	3.7%
Emerging Equity	12.0%	7.9%
Private Equity	5.0%	10.6%
Real Estate & Timber	10.0%	6.8%
Fixed Income	15.0%	2.2%
Cash	3.0%	-1.0%
Total	<u>100.00%</u>	

Discount Rate: A single discount rate of 7.50% was used to measure the total pension liability. This single discount rate was based on the expected rate of return on Pension Plan investments of 7.50%. The projection of cash flows used to determine this single discount rate assumed that Plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the total actuarially determined contribution rates and the member rate. Based on these assumptions, the Pension Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Pension Plan investments (7.50%) was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate assumption remained unchanged.

Inactive Plan Members or Beneficiaries Currently Receiving Benefits	1,050
Inactive Plan Members Entitled to but Not Yet Receiving Benefits	20
Active Plan Members	<u>779</u>
Total	<u>1,849</u>

Under the vesting provisions of the plan, employees are entitled to 100% of normal retirement benefits after 10 years of service. Members who terminate prior to vesting are entitled to a refund of employee contributions plus interest at 3% per year. Employees are eligible to retire after 20 years of service, regardless of age, or at age 55 with 10 years of service. Members who continue in employment after completion of 20 years of service may either accrue larger pensions or freeze their accrued benefit and enter the Deferred Retirement Option Plan (DROP). Each participant in the DROP has an account credited with benefits not received plus interest. Participation in the DROP must end no later than 60, 72, 84 or 96 months after normal retirement depending on years of service. These benefit provisions and all other requirements are established by City ordinance.

Employees hired on or before April 18, 2010 contribute 8.25% of their earnings to the plan. Employees hired after April 18, 2010 contribute 8.5% of their earnings to the plan. In addition, contributions in the amount of \$5,932,068 were received from the State of Florida from fire and casualty insurance premium taxes. These on-behalf payments were also recognized as tax revenues and public safety expenditures in the General Fund. The City is required to contribute the remaining amounts necessary to fund the plan, based on an amount determined by the plan's actuaries as of October 1 each year.

BASIC FINANCIAL STATEMENTS

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

For the current year, the City and State of Florida contribution rates as percentages of annual covered payroll were 24.38% (\$17,325,393) and 8.35% (\$5,932,067), respectively.

For measurement date 9/30/2017, the inflation assumption rate has been updated from 2.30% to 2.75% to match the long-term inflation assumption utilized by the Plan's investment consultant.

Net Pension Liability

The City's net pension liability was measured as of September 30, 2017. The total pension liability used to calculate the net pension liability was determined as of that date. The components of the net pension liability of the City at September 30, 2017 were as follows:

Total Pension Liability	\$ 928,971,000
Plan Fiduciary Net Position	<u>(892,770,476)</u>
City's Net Pension Liability	<u>\$ 36,200,524</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	96.10%

Actuarial Assumptions: The total pension liability was determined by an actuarial valuation as of October 1, 2016 updated to September 30, 2017 using the following actuarial assumptions applied to all measurement periods:

Inflation	2.75%
Salary Increases	0.50% - 3.00% Expected increase in annual salary in addition to 2.75% inflationary component.
Discount Rate	7.40%
Investment Rate of Return	7.40%

Mortality rates were based on the RP-2000 Generational Annuitant White Collar Scale BB. Disability mortality rates RP-2000 Disabled, no projection scale. The most recent actuarial experience study used to review the other significant assumptions was dated July 10, 2015.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. For fiscal year 2017, the inflation rate assumption of the investment advisor was 2.30%. These ranges are combined to produce the long term expected rate by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of September 30, 2017 are summarized in the following table:

Asset Class	Target Allocation	Long Term Expected Real Rate of Return
Domestic Equity	30.00%	6.90%

Discount Rate: The discount rate used to measure the total pension liability was 7.40%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current rate and that sponsor contribution will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The discount rate assumption changed from 7.50% to 7.40%

B) Defined Contribution Plans

1. General Employees Defined Contribution Plan

The General Employees Defined Contribution Plan is a single-employer defined contribution plan administered by ICMA Retirement Corporation (ICMA-RC), which covers all City employees hired on or after October 1, 2007, except police and fire. The City's current year payroll for employees covered by the plan was approximately \$40,243,731. The total City payroll for the year was approximately \$194,804,022.

The City contribution requirement of 9% on earnings of participants was paid on a biweekly basis and amounted to \$3,302,928 for the current year. Employee contributions are neither required nor permitted under the plan. Employees become fully vested in the plan upon entry. These benefit provisions and all other requirements are established by City ordinance.

2. General Employees Special Class Plan

The General Employees Special Class Plan is a single-employer defined contribution plan administered by ICMA-RC. It is available to City employees (except police and firefighters) as an alternative to participation in the General Employees' Retirement System. The City's current year payroll for employees covered by the plan was approximately \$58,075. The total City payroll for the year was approximately \$194,804,022.

The City contribution requirement of 30.85% on earnings of participants was paid on a biweekly basis and amounted to \$15,325 for the current year. Employee contributions are neither required nor permitted under the plan. Employees become fully vested in the plan upon entry. These benefit provisions and all other requirements are established by City ordinance. This plan is no longer available to new entrants.

3. Non-classified Employees Retirement Plan

The Non-classified Employees Retirement Plan is a single-employer defined contribution plan administered by ICMA-RC, which covers certain non-classified City employees who have elected not to participate in the City's General Employees' Retirement System. The City's current year payroll for employees covered by the plan was approximately \$2,357,496. The total City payroll for the year was approximately \$194,804,022.

The City contribution requirement of 19.55% on earnings of participants was paid on a biweekly basis and amounted to \$433,909 for the current year. Employee contributions are neither required nor permitted under the plan. Employees become fully vested in the plan upon entry. These benefit provisions and all other requirements are established by City ordinance. Effective October 1, 2012 the plan was closed to new entrants.

15. OTHER POST-EMPLOYMENT BENEFITS

Plan Description

The City provides a single employer defined benefit post-employment health insurance benefit to its general employees, sworn police officers and certified firefighters. Employees are paid from \$100 to \$400 per month upon normal retirement for the purchase of health insurance. Non-Union Management and Confidential employees hired on or after October 1, 2012 shall not be eligible for any contribution from the City. Employees hired under the Fraternal Order of Police and the Federation of Public Employees on or after April 1, 2014, are no longer eligible for this contribution. Teamsters' employees hired on or after December 17, 2014 and employees hired under the International Association of Firefighters hired on or after June 16, 2015, are not eligible.

Benefits provided: The benefit continues until age 65 and is funded on a pay-as-you-go basis. In addition, pursuant to Section 112.0801, Florida Statutes, general employees and certified firefighters who retire from the City may continue their participation in a City sponsored health and/or dental insurance plan at the same premiums applicable to active employee. Since retiree claims are expected to result in higher costs to the plans, on average, than those for active employees on an actuarial basis, there is an implicit subsidy included in the premiums for the retirees.

Contributions: Benefit provisions and City contribution requirements are established and may be amended by the City Commission. As of September 30, 2017, there were 627 retired employees receiving a monthly benefit with an additional 1,627 employees eligible for participation in the future. Payments totaled \$2,487,539 for the year, of which retiree implicit subsidies amounted to \$36,017.

The Other Post-Employment Benefits (OPEB) Trust is administered by the City of Fort Lauderdale Commission as the Board of Trustees with a Trust Administrator responsible for the day-to-day administration. The Trust was established on September 16, 2014 and covers former City employees who are eligible for certain post-employment benefits. As of September 30, 2017, \$15,828,581 was invested in the OPEB Trust fund. The OPEB Trust does not issue a separate financial report.

Inactive plan members entitled but not yet receiving benefit payments	<u>562</u>
Total	<u><u>2,816</u></u>

Net OPEB Liability

The City's net OPEB liability was measured as of September 30, 2017. The total OPEB liability used to calculate the net OPEB liability was determined as of that date. The components of the net OPEB liability of the City at September 30, 2017 were as follows:

City's Net OPEB Liability	<u><u>\$ 30,461,344</u></u>
Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability	34.19%

Actuarial Assumptions: The total OPEB liability was determined by an actuarial valuation as of September 30, 2017 using the following actuarial assumptions applied to all measurement periods:

Inflation	3.0% per annum
Salary Increases	3.0%
Discount Rate	7.00% (6.0% and 8.0% are illustrated for sensitivity)
Investment Rate of Return	5.09%
Mortality	RP 2014 Mortality, with MP2014 projection.
Healthcare Trend Rate	8.0% decreasing to 5.0%

Investments

Investment policy: This investment policy applies to the investment activities of the Other Post-Employment Benefits Trust ("OPEB Trust") for employees of the City of Fort Lauderdale. The City Commission serves as the OPEB Board of Directors ("Board") and has delegated the responsibility for conducting investment transactions with the Trust Administrator ("TA"). The purpose of this policy is to provide the TA with guidance for the administration of the Trust.

The long-term expected rate of return on the plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The long-term investment objective of the OPEB Trust is to provide for participant benefit needs. The goal of the OPEB Trust is to use a passive management strategy to invest in low-cost funds. The TA shall review and monitor the actuarial assumptions to provide for participant benefits' needs and make changes as necessary upon receipt of the actuarial report.

The annual money-weighted rate of return that expresses investment performance, net of investment expense, adjusted for changes in the amount actually invested was 5.09%.

The target allocation for each major asset class is summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Rate of Return

Private Equity	0.0%	6.0%
Real Estate	4.0%	5.5%

Total	100.00%	

Discount Rate: The discount rate used to measure the total OPEB liability was 7.0%. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

16. DEFERRED COMPENSATION PLAN

The City offers a deferred compensation plan to its employees in addition to the pension plans. Participation is optional. The City has adopted the provisions of IRS Code Section 457(g) and GASB Statement No. 32, "Accounting and Financial Reporting for IRS Code Section 457 Deferred Compensation Plans". Under these provisions, all assets and income of the plan are held in trust for the exclusive benefit of participants. Accordingly, the assets and liabilities of the plan are not reported within the City's financial statements.

17. OPERATING LEASES

On September 1, 1962, the City entered into a lease agreement as lessor with Bahia Mar Yachting Center, Inc. (Bahia Mar) for the purpose of constructing and operating a restaurant, lounge, yacht club, motel/hotel, convention hall, marine facilities and other similar businesses. The cost of the property at the inception of the lease was \$552,000. On June 30, 1994, this lease was assumed by RAHN Bahia Mar, LTD. and, as amended, will terminate on August 31, 2062, at which time, all additions to the property originally leased to Bahia Mar will revert to the City. The lease agreement provides for a minimum guaranteed annual rental of \$300,000 per year. In addition, the City receives contingent rentals (\$1,556,182 in 2017) based upon escalating percentages of gross receipts for the duration of the agreement. Minimum future rentals on this lease as of September 30, 2017 follow:

Fiscal Year Ending in:	Bahia Mar Lease
2018	\$ 300,000
2019	300,000
2020	300,000

19. TAX ABATEMENTS

The Fort Lauderdale Community Redevelopment Agency (CRA) comprises of three distinct CRAs areas: Central Beach, Northwest-Progresso-Flagler Heights and Central City. The CRAs were established in 1989, 1995, and 2012, respectively, and are charged with eliminating and/or reversing blighting conditions within its three project areas.

The CRA has established incentive programs designed to promote development and redevelopment within the City to eliminate slum and blight, remove deterioration, update existing buildings, and encourage new investment/development with an emphasis on enhancing the overall CRA, improving the quality of existing buildings, and attracting new construction. The CRA's economic development agreements are authorized under the State of Florida Statutes, Chapter 13.

Eligible Area: All properties within the CRA that are owned by an organization that fully contributes to the tax increment income are eligible.

Eligible Properties: All commercial, multifamily, or mixed-use buildings in the CRA with uses permitted by applicable land use codes or approved conditional uses that have had substantial capital improvements or new construction.

Eligible Project Costs: The benefits of this program are based on capital improvements on existing properties or the development cost of new buildings that result in a substantial increase of Ad Valorem Tax (Property Tax).

Basis/Limits of Benefits: Property Tax Reimbursement (PTR) are disbursed upon verification that property taxes for the year has been paid. A PTR award will run for a maximum of five (5) years and the limits are as follows:

- Year 1 – 95% of real property Ad Valorem taxes returned to the CRA as tax increment revenue
- Year 2 – 90% of real property Ad Valorem taxes returned to the CRA as tax increment revenue
- Year 3 – 85% of real property Ad Valorem taxes returned to the CRA as tax increment revenue
- Year 4 – 80% of real property Ad Valorem taxes returned to the CRA as tax increment revenue
- Year 5 – 75% of real property Ad Valorem taxes returned to the CRA as tax increment revenue

On December 16, 2016, the CRA entered into a Property Tax Reimbursement Agreement with 315 Flagler LP (Developer) to develop an eighteen (18) story Tier 1 Flag Hotel. The total increment payments to the Developer shall not exceed \$1,711,020. Reimbursements under this incentive program will only commence following completion of the project and once all the conditions of the agreement have been met. No reimbursement payments were processed for this agreement in FY2017.

21. NEW ACCOUNTING PRONOUNCEMENTS

Implemented

In June 2015, the GASB issued Statement No. 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans". This Statement establishes new accounting and financial reporting requirements for governments whose employees are provided with OPEB, as well as for certain nonemployer governments that have a legal obligation to provide financial support for OPEB provided to the employees of other entities. This Statement replaces Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans. It also includes requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement 43, and Statement No. 50, Pension Disclosures. The requirements of this Statement are effective for the City's financial year ending September 30, 2017. The impact of this statement can be found on Note 15.

In June 2013, the GASB issued Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by state and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, establishes new accounting and financial reporting requirements for OPEB plans. The requirements of this Statement are effective for the City's financial year ending September 30, 2018, however the City implemented this statement in FY2017. The impact of this statement can be found on Note 15 and Note 20.

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

In August 2015, the GASB issued Statement No. 77, "Tax Abatement Disclosures". Financial statements prepared by state and local governments in conformity with generally accepted accounting principles provide citizens and taxpayers, legislative and oversight bodies, municipal bond analysts, and others with information they need to evaluate the financial health of governments, make decisions, and assess accountability. This information is intended, among other things, to assist these users of financial statements in assessing (1) whether a government's current-year revenues were sufficient to pay for current-year services (known as interperiod equity), (2) whether a government complied with finance-related legal and contractual obligations, (3) where a government's financial resources come from and how it uses them, and (4) a government's financial position and economic condition and how they have changed over time. The requirements of this Statement are effective for the City's financial year ending September 30, 2017. The impact of this statement can be found on Note 19.

In January 2016, the GASB issued Statement No. 80, "Blending Requirements for Certain Component Units, an amendment of GASB Statement No. 14". The objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This Statement amends the blending requirements established in paragraph 53 of Statement No. 14, The Financial Reporting Entity, as amended. The additional criterion requires blending of a component unit incorporated as a not-for-profit corporation in which the primary government is the sole corporate member. The additional criterion does not apply to component units included in the financial reporting entity pursuant to the provisions of Statement No. 39, Determining Whether Certain Organizations Are Component Units. The provisions of this statement are effective for the City's financial year ending September 30, 2017. There was no impact to the City.

In March 2016, the GASB issued Statement No. 82, "Pension Issues - An Amendment of GASB Statements No. 67, No. 68, and No. 73". The objective of this Statement is to address certain issues that have been raised with respect to this Statements. Specifically, the issue regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard Practice for financial reporting purposes, and (3) the classification of payments made by the employers to satisfy employee (plan member) contribution requirements. The provisions of this statement are effective for the City's financial year ending September 30, 2017. PFRS early implemented in FY2016, GERS implemented in FY2017.

Not Yet Implemented

In November 2016, the GASB issued Statement No. 83, "Certain Asset Retirement Obligation". This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. It requires the measurement of an ARO to be based on the best estimate of the current value of outlays expected to be incurred, and requires the current value of a government's AROs to be adjusted for the effects of general inflation or deflation at least annually. The provisions of this Statement are effective for financial statements for the City's financial year ending September 30, 2019.

In January 2017, the GASB issued Statement No. 84, "Fiduciary Activities". The objective of this GASB is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The focus of the criteria is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. The provisions of this Statement are effective for financial statements for the City's financial year ending September 30, 2020.

NOTES TO THE FINANCIAL STATEMENTS

September 30, 2017

In March 2017, the GASB issued Statement No. 85, "Omnibus 2017". The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). The provisions of this Statement are effective for financial statements for the City's financial year ending September 30, 2018.

In May 2017, the GASB issued Statement No. 86, "Certain Debt Extinguishment Issues". The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The provisions of this Statement are effective for financial statements for the City's financial year ending September 30, 2018.

In June 2017, the GASB issued Statement No. 87, "Leases". The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions of this Statement are effective for financial statements for the City's financial year ending September 30, 2021.

In April 2018, the GASB issued Statement No. 88, "Certain Disclosures Relates to Debt, Including Direct Borrowings and Direct Placements". The objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. The provisions of this Statement are effective for financial statements for the City's financial year ending September 30, 2019.

Management has not determined what impact these GASB statements might have on its financial statements.

22. SUBSEQUENT EVENTS

On November 21, 2017, the City entered into an agreement with Regions Capital Advantage, Inc. in the form of a non-revolving line of credit not to exceed the amount of \$13,000,000 for the purpose of funding a portion of the Las Olas Parking Garage Project. The interest rate on the Non-Revolving Credit Note is subject to change based the One-Month LIBOR for the applicable Interest Period.

On February 20, 2018, the City issued \$196,035,000 in Water and Sewer Revenue Bonds, Series 2018. The proceeds from the sale are being used to finance certain improvements and upgrades to the City's Water and Sewer System. The issue provides for semi-annual principal and interest payments with interest rates ranging from 3.5% to 4.0% and a final maturity on September 1, 2048.

Valuation Date: 9/30/2015

Actuarially determined contribution rates are calculated as of September 30, which is two year(s) prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method: Entry Age Normal

Amortization Method: Level Dollar, Closed

Remaining Amortization Period: 27 Years

Asset Valuation Method: 5-year smoothed market

Inflation: 3.00%

Salary Increases: 4.00% to 9.50% depending on age, including inflation

Investment Rate of Return: 7.50%

Retirement Age: Experience-based table of rates that are specific to the type of eligibility condition.

Mortality: RP-2000 Combined Healthy Participant Mortality Table for males and females with mortality improvements projected to all future years after 2000 using Scale AA.

Other Information: See Summary of Valuation Results from the September 30, 2015 Actuarial Valuation Report. Effective in the September 30, 2015 Actuarial Valuation Report dated May 4, 2016.

Changes of assumptions: For measurement date 09/30/2017, as required by Chapter 2015-157, Laws of Florida, the assumed rates of mortality have been changed from those in the July 1, 2015 FRS valuation report to those used in the July 1, 2016 FRS valuation report. Additionally, the investment rate of return was lowered from 7.50% to 7.40%, net of investment related expenses. Finally, the inflation rate assumption has been updated from 2.30% to 2.75% to match the long-term inflation rate assumption of the valuation report.

For measurement date 9/30/2015, amounts reported as changes of benefit terms were resulted from:

- 1) For Firefighters hired on or after October 1, 2014:
 - a) The Average Monthly Earnings period will be increased from 2 to 5 years.
 - b) The benefit accrual rate will be decreased from 3.38% to 3.0% for each year of Credited Service.
 - c) The maximum accrual rate will be decreased from 81.0% to 75.0% of Average Monthly Earnings.
 - d) For each month a Firefighter delays entry into DROP following completion of 25 years of Credited Service, the 96 month maximum DROP participation period shall be correspondingly reduced by one month.
 - e) The Normal Form of Benefit will be changed from 60% joint and contingent survivor to 10-Year Certain and Life.
- 2) Eliminating the interest component on refunds of Member Contributions for all Firefighters who separate employment with the City on or after October 1, 2014.
- 3) Amending the definition of Salary to provide that pensionable earnings for Firefighters will be increased from 144 hours to 159 hours for each 21-day period.
- 4) Implementing a special formula to determine the amount of Chapter 175 premium tax revenues that the City will be able to utilize to offset its funding requirements, effective for the plan year beginning on October 1, 2014.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION:

Budgetary Data

The City Commission follows these procedures in establishing the budgetary data reflected in the financial statements:

- (1) Prior to August 1, the City Manager submits to the City Commission a proposed operating budget for the fiscal year commencing on October 1. The operating budget includes proposed expenditures and the means of financing them.
- (2) Public hearings are conducted.
- (3) Prior to October 1, the budget is legally enacted.
- (4) The level of control (level at which expenditures may not exceed budget) is the department. The City Manager is authorized to transfer budgeted amounts within departments of any fund. The City Commission must approve any revisions that alter the total expenditures of any department.
- (5) Annual budgets are adopted for all governmental and proprietary funds except for the capital project funds. The original and final budgets, as presented, include re-appropriated encumbrances of the prior year. The budgets have been adopted on a basis consistent with GAAP with the following exceptions: Budgetary expenditures include GAAP expenditures adjusted for encumbrances at September 30, 2017 and principal on the long-term debt of proprietary funds. Unencumbered balances of appropriations lapse at year-end.

The reported budgetary data represents the final approved budget after amendments adopted by the City Commission with one exception. Budgets for grants and shared revenues from other governmental units which do not lapse at year-end are only reported to the extent of revenues recognized and expenditures incurred for the current year. Individual amendments were not material in relation to the original adopted budget.

Nonmajor Governmental Funds

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources (other than debt service or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action.

Law Enforcement Confiscated Property Fund – to account for the proceeds from court awarded forfeitures of currency and personal property that are restricted to expenditure for law enforcement purposes.

Community Redevelopment Agency Fund – to account for the operation of the agency overseeing the financing and redevelopment of the designated redevelopment areas.

State Housing Initiative Partnership Fund – to account for revenues from the State Housing Initiative Partnership restricted to expenditure for low income housing.

Intergovernmental Revenue Fund – to account for revenues from Federal, State and local governments restricted to expenditure for specific current operating purposes or the acquisition of capital assets.

Beach Business Improvement District Fund – to account for the services and improvements to a portion of the beach area funded through assessments imposed on the businesses within that area.

Building Fund – to account for revenues derived from building permit fees restricted to expenditures associated with the enforcement of the Florida Building Code.

School Crossing Guards Fund – to account for revenues derived from parking citation surcharges restricted to expenditures related to the school crossing guard program.

Nuisance Abatement Fund – to account for fines collected due to public nuisance violations.

Special Assessment Fund – to account for revenues derived from special assessments fees restricted to expenditures related to the WAVE Modern Streetcar project.

Debt Service Funds

Debt Service funds are used to account for resources that are restricted, committed or assigned to payment of principal, interest and other expenditures on general long-term debt, other than bonds payable from the operations of the enterprise funds.

General Obligation Bonds Fund – to accumulate monies for payment of the Series 1997, 1998, 2002, 2005 and 2011 General Obligation Bonds with remaining principal and interest due in varying amounts until maturity in 2041.

Special Obligation Bonds Fund – to accumulate monies for payment of the Special Obligation Bonds with remaining principal and interest due in varying amounts until maturity in 2032.

CITY OF FORT LAUDERDALE, FLORIDA

COMBINING FINANCIAL STATEMENTS

Special Obligation Loans Fund – to accumulate monies for payment of the Special Obligation Loans with remaining principal and interest due in varying amounts until maturity in 2026.

Tax Increment Revenue Note – to accumulate monies for payment of the Tax Increment Revenue Note with remaining principal and interest due in varying amounts until maturity in 2025.

Capital Projects Funds

Capital projects funds are used to account for financial resources segregated for the acquisition or construction of major capital facilities other than those financed by enterprise operations.

General Capital Projects Fund – to account for the acquisition or construction of, or improvements to, major capital facilities.

General Obligation Construction Fund 2005 and 2011A – to account for the construction of, or improvements to fire rescue facilities financed through the issuance of long-term debt.

Special Obligation Construction 2008B – to account for the acquisition or construction of, or improvements to, major capital facilities financed through the issuance of long-term debt.

Special Obligation Construction 2011A – to account for the acquisition or construction of, or improvements to, major capital facilities financed through the issuance of long-term debt.

Community Redevelopment Agency Projects Fund – to account for the construction of, or improvements to infrastructure within the designated redevelopment areas of the Community Redevelopment Agency.

Gas Tax Fund – to account for the construction of, or improvements to, streets and highways financed by county-shared gas tax revenues.

Parks Impact Fee Projects – to account for the construction of, or improvements to, parks facilities financed by impact fees.

Permanent Fund

Permanent funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

Perpetual Care Fund – to account for a portion of the lot sale proceeds of the City's cemeteries to be used for maintenance of the cemetery grounds and lots.

Nonmajor Enterprise Funds and Internal Service Funds

Enterprise Funds

Each of the enterprise funds accounts for all activities necessary to provide the respective services of the fund, including but not limited to, administration, operations, maintenance, financing and related debt service.

Sanitation Fund – to account for the provision of solid waste disposal services to City residents, including collection and disposal of solid waste, curbside recycling, street sweeping, lot clearing and canal cleaning.

Airport Fund - to account for the operation of the Fort Lauderdale Executive Airport.

Stormwater Fund - to account for the development and operation of the City's stormwater management program.

Internal Service Funds

Internal service funds are used to account for the financing of goods or services provided by one department or fund to the other departments or funds of the City on a cost reimbursement basis.

City Insurance Fund - to account for the costs of insuring the City in the areas of general liability, auto liability, workers' compensation, police professional liability, employment practices and medical benefits. The City is primarily self-insured in these areas. Other funds are billed to cover actual costs of premiums and claims and to maintain an adequate balance in fund equity.

Central Services Fund - to account for the costs of providing communications and printing services to other departments. The other departments are billed at actual cost.

Vehicle Rental Fund - to account for the costs of operating a maintenance facility for City vehicles. Departments are billed to cover operating costs and to provide for future replacement of the vehicles. Funding for the initial purchase of vehicles is provided by the user departments.

Fiduciary Funds

Trust Funds

The trust funds are used to account for assets held by the government in a trustee capacity. They are accounted for in essentially the same manner as enterprise funds since capital maintenance is critical.

Pension Trust Funds

General Employees' Fund - is used to account for the accumulation of resources to be used for retirement benefit payments to City employees, except police and fire. Resources are contributed by employees at rates fixed by law and by the City at amounts determined by annual actuarial valuations.

Police and Firefighters' Fund - is used to account for the accumulation of resources to be used for retirement benefit payments to police and fire employees. Resources are contributed by employees at rates fixed by law and by the City at amounts determined by annual actuarial valuations.

Other Post-Employment Benefits Trust Fund - is used to account for the future liability of costs for medical/prescription/dental coverage, extended life insurance coverage and benefits under the Employee Assistance Program available to retirees and their dependents.

Agency Fund

Agency funds are used to account for assets held by the government as an agent for individuals, private organizations and other governmental units. They are custodial in nature and do not involve the measurement of results of operations.

Arts and Science District Garage Fund - to account for the operations of the Arts and Science District Garage.

Direct and Overlapping Debt

(1) For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using gross taxable property values. Applicable percentages were estimated by dividing the City's gross taxable property values (\$31,095,357,422) by the County's gross taxable property values (\$162,869,429,209).

* Debt outstanding as of June 30, 2017.

Legal Debt Margin: The amount of debt the City of Fort Lauderdale can issue is not limited by either the City of Fort Lauderdale charter or code, nor the Florida State Statues.

Sources: Assessed value data used to estimate applicable percentages was provided by the Broward County Property Appraiser. Debt outstanding data was provided by each governmental unit.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL
CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor,
City Commission and City Manager
City of Fort Lauderdale, Florida
Fort Lauderdale, Florida

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Fort Lauderdale, Florida (the “City”) as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the City’s basic financial statements, and have issued our report thereon dated May 8, 2018. Our report includes a reference to other auditors who audited the financial statements of the City of Fort Lauderdale Police and Fire Retirement System (the “System”), as described in our report on the City’s financial statements. This report does not include the results of the other auditors’ testing of internal control over financial reporting or compliance and other matters that are reported on separately by those other auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City’s internal control. Accordingly, we do not express an opinion on the effectiveness of the City’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2017-001 that we consider to be a material weakness.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City's Response to Findings

The City's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND STATE FINANCIAL ASSISTANCE PROJECT AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

To the Honorable Mayor,
City Commission and City Manager
City of Fort Lauderdale, Florida
Fort Lauderdale, Florida

Report on Compliance for Each Major Federal Program and State Project

We have audited the City of Fort Lauderdale, Florida's (the "City") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the requirements described in the *Department of Financial Services' State Projects Compliance Supplement*, that could have a direct and material effect on each of the City's major federal programs and state financial assistance projects for the year ended September 30, 2017. The City's major federal programs and state financial assistance projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs and state financial assistance projects.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs and state financial assistance projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and Chapter 10.550, *Rules of the Auditor General*. Those standards, the Uniform Guidance, and Chapter 10.550, *Rules of the Auditor General*, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program and state financial assistance project occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program and state financial assistance project. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program and State Financial Assistance Project

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs and state financial assistance projects for the year ended September 30, 2017.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program and state financial assistance project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and state financial assistance project and to test and report on internal control over compliance in accordance with the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program or state financial assistance project on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program or state financial assistance project will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state financial assistance project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*. Accordingly, this report is not suitable for any other purpose.

CITY OF FORT LAUDERDALE, FLORIDA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
AND STATE FINANCIAL ASSISTANCE
For the Year Ended September 30, 2017

1. General

The accompanying Schedule of Expenditures of Federal Awards and State Financial Assistance (the Schedule) presents the activity of all federal awards programs and state financial assistance projects of the City of Fort Lauderdale, Florida (the City), for the year ended September 30, 2017. Federal awards programs and state financial assistance projects received directly, as well as passed through other government agencies, are included on the Schedule.

The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

2. Basis of Accounting

The accompanying Schedule is presented using the modified accrual basis of accounting for expenditures accounted for in the governmental funds and the accrual basis of accounting for expenditures in the proprietary funds. Under the modified accrual basis, revenue is recognized if it is both measurable and available for use during the fiscal year and expenditures are recognized in the period liabilities are incurred, if measurable. Under the accrual basis, expenditures are recognized in the period liabilities are incurred.

The expenditures are recognized following the costs principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

3. Program Clusters

The Uniform Guidance defines a cluster of programs as a grouping of closely related programs that share common compliance requirements. Based on this definition, similar programs are presented accordingly.

4. Contingency

The grant revenue amounts received are subject to audit and adjustment. If any expenditures or expenses are disallowed by the grantor agencies as a result of such an audit, any claim for reimbursement to the grantor agencies would become a liability of the City. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal and state laws and regulations.

5. Non-Cash and Federal Insurance

In fiscal year 2017, the City received non-cash assistance from the U.S Department of Transportation for Hazardous Materials Equipment in the amount of \$15,161.

6. De Minimis Cost

The City did not elect to use the 10% de minimis cost rate in fiscal year 2017.

SECTION II – FINANCIAL STATEMENT FINDINGS

Material Weakness

2017-001 Schedule of Federal Expenditures and State Financial Assistance (SEFA)

Criteria or specific requirement: Controls should be in place and operating effectively to ensure accurate and complete data on the SEFA.

Condition: The incorrect Catalog of State Financial Assistance (CSFA) number was reported on the SEFA for the Chronic Homelessness Housing Collaborative grant program.

Context: We reviewed the state grant agreements associated with the state major programs and noted that the SEFA included the incorrect Catalog of State Financial Assistance (CSFA) number for the grant program identified above.

Effect: Established controls were not followed and resulted in an incorrect CSFA number reported on the SEFA.

Cause: The current review process to identify all grant programs and the related CSFA numbers failed to detect that the incorrect grant identification number from the grant agreement was used on the SEFA.

Recommendation: Grant award information should be reviewed and updated on a regular and timely basis to ensure that the SEFA contains accurate information.

Views of responsible officials and planned corrective actions: The CSFA number was incorrect on the original grant agreement, thus the CSFA number used on the SEFA was wrong. Subsequent to issuing the SEFA, the granting agency did advise the City that the CSFA number was inaccurate and that information was not remitted to the proper City officials to make sure that the changes were put into the City's systems. To make certain that future reporting incorporates all changes and corrections, the City will be updating its centralized grants administration policy to direct that the City Manager should be the centralized point of contact for all grant awards. The Budget/CIP and Grants Division will also be providing training on this topic to grants managers to ensure that all staff is aware of the policy update. This change to a central point of contact will ensure that future notifications related to grant awards will be handled timely and reported to the appropriate City officials.

**INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH
SECTION 218.415, FLORIDA STATUTES**

To the Honorable Mayor,
City Commission and City Manager
City of Fort Lauderdale, Florida
Fort Lauderdale, Florida

We have examined the City of Fort Lauderdale, Florida (the "City") compliance with Section 218.415, *Florida Statutes*, concerning the investment of public funds during the year ended September 30, 2017. Management of the City is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance with the specified requirements based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the City complied, in all material respects with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the City complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the requirements contained in Section 218.415, *Florida Statutes* for the year ended September 30, 2017.

The purpose of this report is solely to comply with Chapter 10.550, *Rules of the Florida Auditor General*. Accordingly, this report is not suitable for any other purpose.

Report on the Financial Statements

We have audited the financial statements of the City of Fort Lauderdale, Florida (the “City”), as of and for the year ended September 30, 2017, and have issued our report thereon dated May 8, 2018. Our report includes a reference to other auditors who audited the financial statements of the City of Fort Lauderdale Police and Fire Retirement System (the “Systems”), as described in our report on the City’s financial statements. This report does not include our consideration of the other auditor’s management letter that is reported on separately by those other auditors.

Auditor’s Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*; and Chapter 10.550, *Rules of the Auditor General*.

Other Reports and Schedule

We have issued our Independent Auditor’s Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*; Independent Auditor’s Report on Compliance for Each Major Federal Program and State Financial Assistance Project and Report on Internal Control over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant’s Report on Compliance with Section 218.415, *Florida Statutes*. Disclosures in those reports and schedule, which are dated April 30, 2018 should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. There were no findings and recommendations made in the preceding annual financial audit.

Official Title and Legal Authority

Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. Such information is disclosed in Note 1 to the financial statements.

Financial Condition

Section 10.554(1)(i)5.a., *Rules of the Auditor General*, requires that we report the results of our determination as to whether or not the City has met one or more of the conditions described in Section 218.503(1), *Florida Statutes*, and identification of the specific condition(s) met. In connection with our audit, we determined that the City did not meet any of the conditions described in Section 218.503(1), *Florida Statutes*.

Pursuant to Sections 10.554(1)(i)5.c. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures. It is management's responsibility to monitor the City's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Annual Financial Report

Section 10.554(1)(i)5.b., *Rules of the Auditor General*, requires that we report the results of our determination as to whether the annual financial report for the City for the year ended September 30, 2017, filed with the Florida Department of Financial Services pursuant to Section 218.32(1)(a), *Florida Statutes*, is in agreement with the annual financial audit report for the year ended September 30, 2017. In connection with our audit, we determined that these two reports were in agreement.

Special District Component Units

Section 10.554(1)(i)5.d., *Rules of the Auditor General*, requires that we determine whether or not a special district that is a component unit of a county, municipality, or special district, provided the financial information necessary for proper reporting of the component unit, within the audited financial statements of the county, municipality, or special district in accordance with Section 218.39(3)(b), *Florida Statutes*. In connection with our audit, we determined that all special district component units provided the necessary information for proper reporting in accordance with Section 218.39(3)(b), *Florida Statutes*.

Other Matters Section

Section 10.554(1)(i)2., *Rules of the Auditor General*, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we did not have any such recommendations.

Section 10.554(1)(i)3., *Rules of the Auditor General*, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Report

This letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the City Commissioners, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.
