Subject: RE: 17th Street Coalition mtg and Port Follow-Up to Gate Closure

Hi Diana, at this time adding a checkpoint lane may not be a viable option given the geometry in the area, but there may be some things to consider at the Eller/19th Ave. intersection to increase capacity, especially for the turning movements. The traffic circulation and flow will be analyzed as part of the Master/Vision Plan update. Thank you

Thank you. Has the Port considered building additional gates at Eller Drive to handle the demand? Is it part of your masterplan?

Hi Diana, how are you? Hope all is well. I had a follow-up with our Port Security Manager based on the question on why one security lane was closed on Eller Drive between the hours of 10:30 am and 1:00 p.m. Please see his response below. Please share with Commissioner Rodgers. Thank you

Natacha/ Glenn,

The only thing I can offer is whomever was driving around, saw our cone line along the curb at the 1800 building that ends at the driveway. That row of traffic control devices has been in place for more than a month and serves two purposes. One, it keeps the taxis and shuttles from running up the shoulder and forcing their way into the lanes. Two the driveway is closed off on the weekend to prevent the TNC drivers that are staged in that lot from forcing their way into port traffic. The lane that is east of the driveway was open.

I can assure you that all five lanes were open inbound.

RJ

Ok thanks. Not sure why but City mentioned at the meeting this morning that they observed the traffic yesterday and there was one closed-lane between 10:30 am and 1 pm along Eller Drive. I will update Commissioner Rodgers.

All lanes applies to all three checkpoints, the 3rd lane is an extra lane we add southbound at the Eisenhower checkpoint on certain busy cruise days.

Glenn/ Natacha,

We had all lanes open at every Gate with the third lane set up off SE 17th. Traffic coming south never backed up north of 20th/ Eisenhower Intersection. Eller was heavy(backed up over the overpass) from about 1030 until 1315 or so.

Let me know if you need anything further.
