**Purpose:**

To implement a revitalization plan and to cause to be prepared a community redevelopment plan for the Central Beach Redevelopment Area subject to the approval of the City Commission and to recommend actions to be taken by the City Commission to implement the community redevelopment plan.

**Note**

Two or more City Commissioners and/or Advisory Board members may be present at this meeting. If any person decides to appeal any decision made with respect to any matter considered at this public meeting or hearing, he/she will need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based. If you desire auxiliary services to assist in viewing or hearing the meetings, or reading meeting agendas and minutes, please contact the City Clerk's Office at 954-828-5002 and arrangements will be made to provide these services for you. Thank you.

**Central Beach Area Redevelopment Plan Goals:**

- Eliminate the conditions of blight that are currently found in the area.
- Provide for a mix of land uses that will foster family activity and recreation in the Central Beach area, and provide opportunities for the expansion of tourist-related facilities and activities.
- Stimulate the redevelopment of the core area as a catalyst for the revitalization of the entire Central Beach area.
- Maintain public access to the beach and Intracoastal Waterway.
- Provide for resiliency of the public infrastructure in response to impacts of climate change and sea-level rise.

**Central beach Redevelopment Plan Objectives:**

- Enhance the resort image of Fort Lauderdale Beach as a place for tourists and conference groups.
- Make Fort Lauderdale Beach an integral part of the City for use by local residents.
- Improve the transportation and mobility options within and through the Central Beach area to include bicycles, pedestrians, transit, micro-transit, water-taxi, automobiles and other alternatives.
- Create and enhance a positive visual and physical environment of the Central Beach.
- Provide for an active pedestrian environment throughout the Central Beach area, particularly between the Intracoastal Waterway and the Beach.
- Improve inadequate public infrastructure for resiliency in response to the anticipated impacts of climate change and sea-level rise.
