Long Utility Easement

LOCATION: 3020 S. Federal Highway

ZONING: Heavy Commercial/Light Industrial Business Density (B-3)

LAND USE: Commercial

CASE PLANNER: Nicholas Kalargyros

CASE COMMENTS:

Please provide a written response to each of the following comments:

1. Provide a signed and sealed boundary and topographic survey showing all above ground improvements, utilities, rights of way dimensions and all easements. This survey shall be based on a Standard Title Commitment issued by a title insurer licensed to do business in Florida or an Opinion of Title issued by an attorney admitted to the Florida Bar. The title commitment or Opinion of Title must have an effective date no more than thirty days prior to the date of submittal of the survey and must be certified to the City of Fort Lauderdale. If any encumbrances are found in the property, provide a copy of the recorded documents accordingly (i.e. easements, agreements, etc).
2. Please contact City's Public Works Department, Roberto Betancourt at rbetancourt@fortlauderdale.gov (954-828-6982) or Igor Vassiliev at IVassiliev@fortlauderdale.gov (954-828-5862), for stormwater infrastructure, and water and sewer utilities, to verify and determine whether there are any public utilities present within the easement to be considered for vacation. If so, a surveyed location of the utilities shall be provided to staff for review, the full cost of relocation of the utilities shall be borne by the Applicant, and the utility relocation plan shall be reviewed and approved by the City's Public Works Department prior to implementation.
3. Provide letters from all franchise utility providers, including Public Works as appropriate (i.e. if easement being vacated is public), demonstrating their interests in maintaining or no objection to the vacation of this Easement; the letters should specifically state whether or not the franchise utility providers have existing facilities within the Easement vacation area that will need to be relocated or abandoned.
4. The survey shows existing wooden poles, overhead wires, and a guy anchor located within the 16' Utility Easement to be vacated; relocated facilities shall require inspection and approval by the applicable franchise utility owner prior to issuance of City Engineer's certificate.
5. Submit a stamped copy of the surveyor's sketch and legal description to the City's Surveyor for his review and approval of the Easement to be considered for vacation. The approved surveyor's sketch shall then be routed to the Land Development Manager or designee for signoff, prior to submittal to the case planner for final authorization to present this item to the City Commission.

Please be advised that the vacating ordinance shall not be in full force and effect until an Engineer's Certificate is executed by the City Engineer or designee. This Engineer's Certificate shall be executed by the proper authorities and recorded in the public records of Broward County. A copy of the recorded certificate is to be provided to the City upon recordation. The City Engineer's certificate shall also state that all existing facilities located within the vacated easement have been relocated or abandoned to the satisfaction of the respective utility owners.

Please be advised additional comments may be forthcoming at the meeting.
