CASE COMMENTS:

1. There are active utilities within this area. If vacated, it would need to be retained as a utility easement or, all utilities relocated prior to a vacation being granted.

CASE COMMENTS:

Please provide a response to the following:

- 1. Stormwater objects to the request for a vacation of Right of Way on Almond Ave.
 - a. Currently Stormwater Operations concern with vacating the Right of way at this location is not based on existing assets but rather on future needs. The Stormwater Operations section under the charge of the Public Works department bears the responsibility to ensure stormwater drainage throughout our communities.
 - b. Currently, there are no Stormwater Assets designed or installed at this location which is geographically defined by the City of Fort Lauderdale as the Central Beach Alliance and is one of the City Adaption Action areas. Therefore, the statement from Stormwater Operations to not support the vacating of the roadway at this location in supporting of assessing the drainage area ahead of future development to confirm if additional drainage needs are either appropriate or necessary for this roadway including but not limited to establishing connectivity with City Stormwater Assets on E. Las Olas Blvd in an effort to provide additional capacity or conveyance in an area that is vulnerable to climate change.

CASE COMMENTS:
