

Memorandum

Memorandum No: 24-051

Date: March 21, 2024

To: Honorable Mayor, Vice Mayor, and Commissioners

From: Greg Chavarria, City Manager 
Greg Chavarria (Mar 22, 2024 13:05 EDT)

Re: Intersection Improvement Project – Las Olas Boulevard and SE 3 Avenue

The purpose of this memorandum is to inform you of an upcoming intersection improvement project at Las Olas Boulevard and SE 3rd Avenue, anticipated to commence on April 1, 2024.

The project is managed by Broward County and includes:

1. Installation of new mast arms in lieu of span wire
2. Milling and resurfacing
3. Signage and pavement markings
4. Upgrades of the existing pedestrian curb ramps

Currently, Broward County does not anticipate any full closures. Work is planned to take place during daytime hours between 9am and 4pm. County and City staff will coordinate closely and suspend work activities during any special events that may adversely affect mobility in the area.

Substantial completion of the project is anticipated within 6 months of the commencement date, followed by the inspection, and testing of the signalization system. The County's Office of Public Communications is performing public outreach and the City's Strategic Communications team will supplement outreach efforts.

The project is expected to be completed by February 2025. For any questions, please reach out to Ben Rogers, Director of Transportation and Mobility at 954-828-3781 or brogers@fortlauderdale.gov

CMO Managers

Public Information Flyer

Las Olas Boulevard and SE 3rd Avenue

Announcing:

Broward County is pleased to announce that construction will begin soon for the Las Olas Boulevard and SE 3rd Avenue Intersection Improvements Project in the City of Fort Lauderdale.

Project Management:

Broward County is managing the contracting and construction of this project.

Contractor:

Horsepower Electric, Inc.

Project Overview:

Las Olas Boulevard and SE 3rd Avenue Intersection Improvements Project includes:

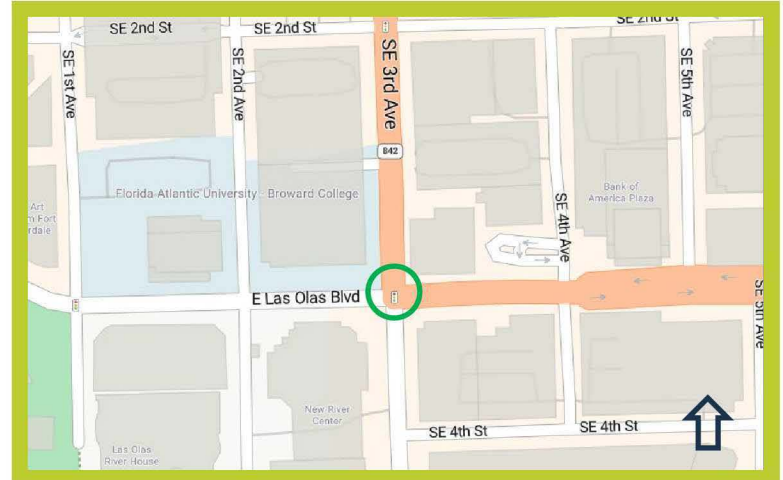

- Upgrades of the existing span wire supported traffic signal system to a mast arm supported traffic signal system.
- Milling and resurfacing of the intersection asphalt pavement.
- Signing and pavement markings.
- Upgrades of the existing pedestrian curb ramps to meet current standards.

Estimated Project Schedule:

Start construction work: April 1, 2024

End construction work: February 2025

During construction, contractor personnel and inspection staff will work closely with residents and businesses in the construction area to minimize impacts caused by the project.

Points of Contact:
