

CITY OF FORT LAUDERDALE

DEVELOPMENT REVIEW COMMITTEE

CASE COMMENT REPORT

CASE NO. UDP-RS24005

CITY OF FORT LAUDERDALE

CASE INFORMATION

CASE:	UDP-RS24005
MEETING DATE:	April 09, 2024
REQUEST:	Site Plan Level II Review: RAC Signage Request for Additional Wall Sign
APPLICANT:	Hector and Nancy Di Carlo
AGENT:	N/A
PROJECT NAME:	Di Carlo Building Signage
PROPERTY ADDRESS:	1321 S. Andrews Avenue
ZONING DISTRICT:	South Regional Activity Center-South Andrews east District (SRAC- SAe)
LAND USE:	South Regional Activity Center
COMMISSION DISTRICT:	4 - Warren Sturman
NEIGHBORHOOD ASSOCIATION:	Poinciana Park Civic Association
CASE PLANNER:	Tyler Laforme

RESUBMITTAL INFORMATION

- Applicant must provide written responses to all DRC comments contained herein.
- Written responses must specify revisions made to the plans and indicate the sheet.
- Resubmitted plan sets must be accompanied by responses to be accepted.
- Any additional documentation must be provided at time of resubmittal.
- Resubmittals must be conducted through the City's online citizen's portal LauderBuild.
- Questions can be directed to the Case Planner assigned to the case.

Case Number: UDP-RS24005

CASE COMMENTS:

Please provide a response to the following:

1. Exterior signs must be capable of withstanding wind speeds of 170 MPH [FBC 2017-1620.2]
2. Structural framing and connections to existing buildings must comply with the 2023 Florida Building Code 8th edition.

GENERAL COMMENTS

The following comments are for informational purposes. Please consider the following prior to submittal for Final DRC:

1. The Florida Building Code shall apply to the construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, maintenance, removal and demolition of every building or structure or any appurtenances connected or attached to such buildings or structures.
2. All projects must consider safeguards during the construction process. FBC Chapter 33 delineates various safeguards that may apply during the construction phase. All structures associated with the protection of pedestrians will require a separate permit. A licensed professional must sign and seal the plans and specifications.
3. The City of Fort Lauderdale is a participating municipality in the National Flood Insurance Program (NFIP). The requirements specific to the City of Fort Lauderdale can be found in

Chapter 14 - FLOODPLAIN MANAGEMENT of the Code of Ordinances and accessed at:

- a. https://library.municode.com/fl/fort_lauderdale/codes/code_of_ordinances?nodeId=COOR_CH14FLMA

Please consider the following prior to submittal for Building Permit:

1. On December 31st, 2023 the 8th Edition of the Florida Building Code was adopted. All work described in Section 101.2, of the Broward County Administrative portion of the Florida Building Code, will govern the administration and enforcement of the proposed work. Each building and or structure will require a separate permit. The following websites will assist in the design considerations:
 - b. <https://www.fortlauderdale.gov/government/departments-a-h/development-services/building-services>
 - c. https://floridabuilding.org/bc/bc_default.aspx
 - d. <http://www.broward.org/codeappeals/pages/default.aspx>

General Guidelines Checklist is available upon request.

Case Number: UDP-RS24005

CASE COMMENTS:

Please provide a response to the following:

1. Pursuant to State Statute 166.033(1) the application must be deemed approved, approved with conditions, or denied within 120 days of completeness determination, on or before July 11, 2024, unless a mutually agreed upon time extension is established between the City and the applicant. Failure to meet the applicable timeframe or request an extension may result in the application being denied by the City and the applicant may be required to refile a new application and fees to proceed unless the applicant submits a waiver of these timeframes as provided in the completeness email from the City. A waiver has been submitted.
2. The applicant is strongly encouraged to contact neighbors adjacent to, as well as condominium and neighborhood associations located within three hundred feet (300') of the development site, to advise of this proposal (a listing of officially-recognized associations is provided on the City's website: <https://www.fortlauderdale.gov/departments/city-manager-s-office/office-of-neighbor-support/neighborhood-associations> and a map of neighborhood associations may be found at: <http://gis.fortlauderdale.gov>). Please provide acknowledgement and/or documentation of any public outreach.
3. The proposed development application is subject to a 15-day review period by the City Commission. The applicant will be required to submit a separate application if the project is placed on the City Commission agenda and the applicant is responsible for all public notice requirements. Note: The City Clerk's office requires 48 hours' notice prior to a Commission meeting if a computer presentation is planned i.e. Power Point, to be provided on CD or flash drive and a copy submitted to the City Clerk, contact the project planner for more information (954-828-5265).
4. The Site Plan Level II Downtown sign review process allows applicants to request signage that may not be permitted by right via existing code. While it is intended to provide more flexibility, signs should generally align with the vision for Downtown. The Downtown Master Plan establishes a vision for a dense, active urban core focused on a strong human-scale relationship to the public realm, and promotes design principles that foster a more walkable downtown with street level activity and comfortable pedestrian paths, plazas and open space.

Proposed signage should align with the overall intent of the Downtown Master Plan and should not create clutter, impede the pedestrian environment, or create visual obstructions in the public realm. For the reasons stated herein, monument signs are typically discouraged. However, other solutions may be more appropriate and may be approved on a case by case basis. For example, perpendicular blade signs, consistent in height and width, may provide great opportunities with clear visibility of the business location at the pedestrian level, while not impeding the pedestrian experience itself.

Oversized signs, numerous small signs, signs containing a clutter of letters or messages, all compete for the public's attention. Other common problems include quality of fabrication (materials such as plastic or vinyl are not high quality materials), poor selection of typefaces and colors, illumination options, and placement, style, and sizing that bear no relation to the adjacent building's architecture.

Sign types and materials have to be carefully selected to maintain durability and enhance the public realm throughout the Downtown. Respond to this comment by providing a written narrative outlining the design approach used for the proposed signs consistent with the Downtown Master Plan overall vision, as stated in the comment above. Update narrative according to the following comments.

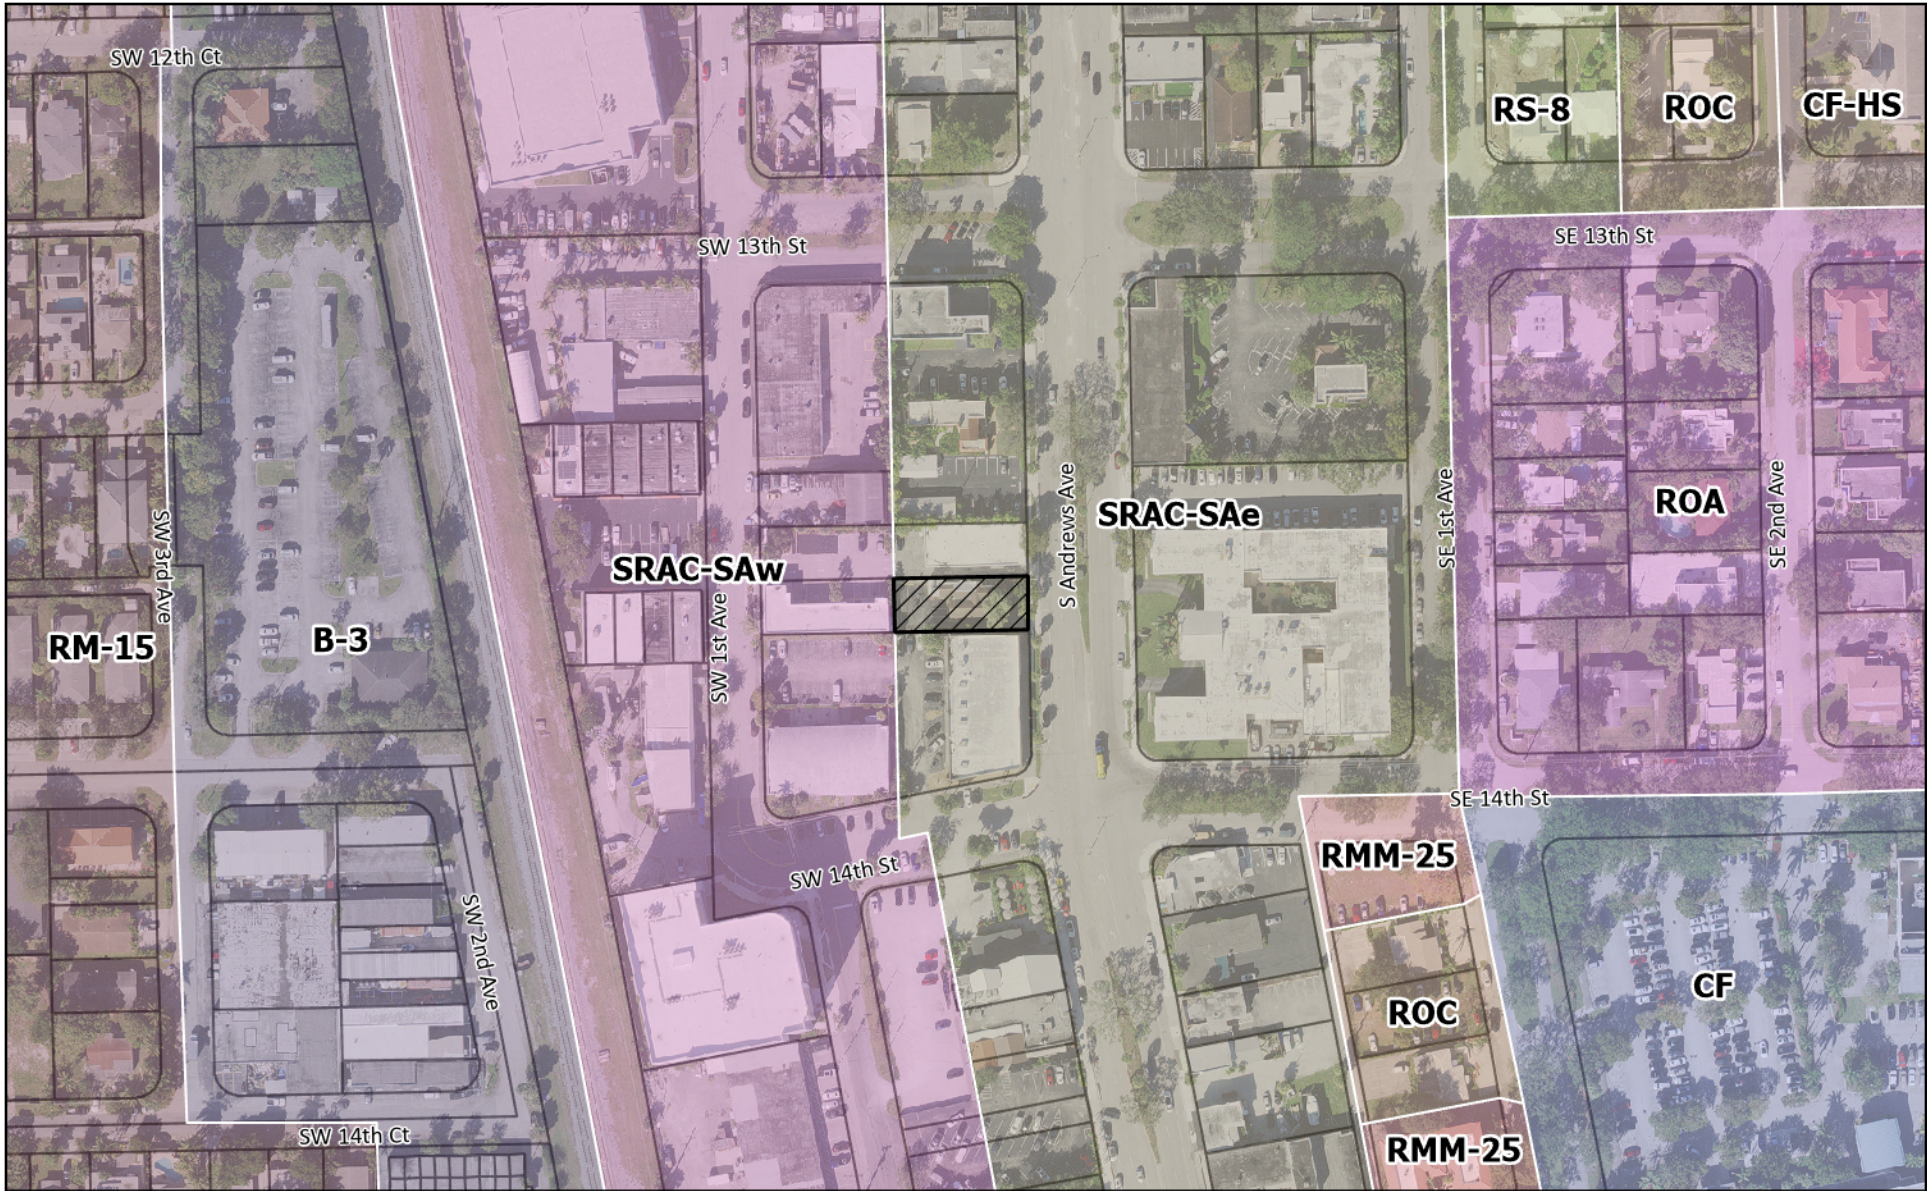

5. Based on existing conditions there is a freestanding sign that doesn't meet ULDR sign regulations, Section 47-22.3.D. According to staff research the sign location has been moved on the property closer to the street which does not meet ULDR requirements and therefore, the sign is noncompliant.
6. The applicant is requesting to add signage to the freestanding sign which would not be permitted. Applicant may request a sign design that is considered a ground sign and request the same location as part of this application so long as the sign size meets the requirements of ULDR, Section 47-22.3.D. Images below are examples of ground signs for visualization.
